Who, after being by me duly sworn, on oath deposes and says: I saw a man running into the crowd a crouch. At that moment I reached for this individual and touched his c tail attempting to stop him. I saw him run right up to Oswald and I heard shot. At the time I heard the shot, there were several officers who swarm him and wrestled him to the pavement. I also tried to grab hold of his gu but there were too many men there for me to be effective. At that point a officer did disarm him and took him out. I didn't get to see the man they were wrestling to the floor because too many officers swarmed him. At this point orders were given to seal the basement. I ran approximately half way up the north ramp and stopped reporters trying to leave the basement. Duri the interview with Lieutenant Jack Revill and Lieutenant F. I. Cornwall som thing was mentioned about an automobile leaving the basement via the north ramp to the Main Street. I recall an automobile driving out, but I can't recall the time nor can I recall how many men were in this automobile. I seem to recall this automobile as being a light blue squad car.XXXXXXXXXXXX XXXXXXXXXXX
