Use Your Citizen's Influence

To Turn the Tide

TOWARD REAL RECOVERY

From Debt, Depression,
Unemployment and One-Man Rule

With Constitutional Government
Free Enterprise, High Production

More Jobs than Men, Opportunity for Youth

Are you so absorbed by the daily routine on the top of your desk that you do not see that the very foundations upon which it rests are endangered? The American system of private enterprise has been made possible by constitutional guarantees. If these are undermined the whole

system which has been the basis of our inventions, development and reward of industry will be destroyed.

Your telephone service costs you \$24 to \$48 a year. . . . Is it not worth ONE CENT a day, or \$3.65 a year, to help preserve America's heritage?

IS YOUR and your children's FUTURE Worth One Cent A DAY?

Under our Constitutional republic, American enterprise and invention gave us a higher standard of living, better housing, more food and greater civil, religious and personal liberty than any other people in history have enjoyed. Our Constitution set up this system of free enterprise which developed and enriched America for you and your children. Do you want it continued — or are you indifferent? Your inaction may help to destroy it.

We are in the nation's third great crisis. The first ended when the Constitution was worked out and our form of government set up. The second crisis was met by Lincoln and those who supported him. The third crisis, in

which we are living today, will determine whether our unique constitutional form of government, with its three separate and independent branches, shall survive.

Will you become a STANDARD BEARER for constitutional government?

Will you respond to the appeal of George Washington—"Let us raise a *standard* to which the just and wise may repair?"

Will you set aside 1/10 as much as your home telephone costs you—as little as 1¢ a day—to help carry on the fight to preserve the foundations of your freedom, which is our constitutional system?

This small sum—1¢, or \$3.65 in a year—will bring you AMERICA'S FUTURE and a copy of a wonderful book, JEFFERSON, THE FORGOTTEN MAN; or you may elect to have a subscription for the magazine in your own name and a subscription in the name of a friend or acquaintance.

AMERICA'S FUTURE, INC., is a non-profit, non-partisan educational foundation set up by men and women whose leadership

proved effective in helping bring about the two historic decisions against packing the Supreme Court and against reorganizing the Federal government so as to concentrate more power in the hands of one man.

AMERICA'S FUTURE will carry the message to a nation-wide army of STANDARD BEARERS FOR CONSTITUTIONAL GOVERNMENT. It aims to reach 1,000,000 men and women who make and mold public opinion, and to supply them with facts and arguments to meet every attack on the American constitutional system.

Each STANDARD BEARER is asked to pledge a minimum of 1¢ a day, or more, as he or she can afford. Some will give the equivalent of 5 cents a day, some more.

Some will undertake to enlist one, two, three or four others; occasionally an individual with many contacts and larger means will buy 5, 10, 25, 50, 100 or more Standard Bearer units of \$3.65 each—enough to supply AMERICA'S FUTURE to a larger number of individuals or to public libraries, colleges, churches, labor and farm meeting and reading rooms.
