WE ADVOCATE

Restoring and preserving free constitutional government.

A constitutional amendment preventing the President from exercising, and Congress from delegating to him, its constitutional powers and duties.

TO THE MEMBERS OF CONGRESS,
WASHINGTON, D. C.

WOMEN UNITED, INC. in meeting today March 19th call upon you to promptly defeat the BALDWIN BILL for the registration of women, or any other compulsory registration or conscription Bill affecting any class of women.

This bill which calls for the outlay of considerable money, seems to us either another BOONDOGGLING effort, or it is more sinister, and distinctly smells of Communism.

Are we to make this a better world for all the people in it, for which we are being asked to make the utmost sacrifices, or are we going to absorb all the mistakes of other countries.

To those of you who are NOT members of New York Cafe Society, and who still believe in the sanctity of the home, and the protection of women, we call on you to raise your voices in protest for all to hear.

We have just cause to be proud of our boys now in the fighting forces, and those to be inducted - we believe they are superior to any other army. Is this not because the men of this country have protected and cherished their women, who in turn have brought up the healthiest and morally cleanest of any boys in the world? Are we going to sacrifice the coming generation? Are we going to emulate countries that envy us our family life? Are we going to force women to sacrifice their homes to save the homes of other peoples?

The answer to these questions lie with you. And you will in turn by your vote receive the approbation or the scorn of the electorate.

Sincerely yours,

Beatrice Brown
Chairman

"The people of these United States are the rightful masters of both Congress and Courts, not to overthrow the Constitution, but to overthrow the men who pervert the Constitution."
—Abraham Lincoln, at Cincinnati, Ohio, September 17, 1859
