

Am. League against War and Fascism- 10/16/36

San Francisco, Cal/- Oct. 1936

A New organization known as the "American League Against Communism" has made its appearance in San Francisco, supported by Hearst's San Francisco Examiner and Call Bulliten, the city and state Chambers of Commerce, the Industrial Assoc. of San Francisco and the Subervice Co. of the state organization of the American Legion and in turn supports them.

A typical fact reported by the League is that every worthy citizen should look under his bed, "The paid underlings of Stalin, the mad Red dictator of Russia, are spending millions of dollars in an attempt to overthrow our democratic form of government."

Harry M. Connely, III, until a few months ago a salesman for Hearst's New York American, is the executive director of this Fascist group.
