58 YEARS OF CHRISTIAN LOVE

I pay tribute to my Christian father and mother, Reverend and Mrs. L. Z. Smith. On Christmas Day they celebrated 58 years of Christian companionship. My father and mother are 80 and 78, respectively. They have lived at peace with each other as inseparable companions through these many years. Today, as through the years, they open the Bible, read a Chapter, and pray every night before they retire. I praise God for such loving parents who taught me in childhood the blessing of prayer, the saving power of Christ, and the fatherhood of God.

My father set before me an example of righteousness. As far back as I can remember, I never heard my father speak an unkind word to my mother. He told me from childhood that it was a husband's duty as well as his privilege to be kind, loving and tender to the one he had chosen to be his companion for life.

There are no divorces in our family. I am proud and thankful to say that I come from a long line of Christian Americans.

There are millions of people in America who have been raised just as I was raised. We now find ourselves faced with the necessity of defending our Christian America against the inroads of alien-minded rascals who are determined to destroy the Christian America which produced my Christian father and mother.

Note: Any reader who desires to send a greeting to my aged parents, may address them as Rev. and Mrs. L. Z. Smith, Delavan, Wisconsin. Nothing will make them happier than to receive a friendly greeting from some of the people who believe in the integrity of their son.

FATHER CURRAN CARRIES ON

The Reverend Edward Lodge Curran of Brooklyn, New York, is head of the Catholic Truth Society. He is a close friend of Father Charles E. Coughlin. He carries on with a crusading zeal much of the work that was done by Father Coughlin.

In a recent speech in Lawrence, Massachusetts, Reverend Curran took a strong stand in the defense of the America First principle. His remarks were quoted at length in *The Evening Tribune* of Law-

rence, Massachusetts. The headline read, "Noted Lecturer Cites Need for America First."

I would not have the reader believe that Reverend Curran was positively referring to the America First Party, but his remarks could well be quoted in full in this magazine if space permitted.

SATAN IN GOD'S HOUSE

Recently the Reds, pinks and pro-Reds actually held a meeting—a propaganda meeting—in St. Paul's Episcopal Cathedral in Detroit. It was under the auspices of the People's Congress of Applied Religion. This is a pro-Communist front organization supported by the Communist Party, praised by *The Daily Worker* and propped up by the ruthless set of revolutionary Reds in the United States.

Elizabeth C. Bruce, a good Episcopalian and a loyal America Firster, informs the writer that speeches written by the Communist Congressman Marcantonio were actually given out in the vestibule of the church. She says that the Reds and their cameramen defamed this Christian Temple, crawled over the pews, and actually saturated the place in a most undignified manner. One of the speakers brazenly said, "If Jesus Christ were on earth today he would be a Communist." God save St. Paul's Cathedral. Yes, God save America from stupidity and cupidity.

SUBSTITUTE FOR CHRISTIAN FAITH?

I have no desire to ridicule science. I do warn the reader, however, to be on the lookout for materialistic substitutes for

Christianity. The science of psychiatry is developing very rapidly in the United States. It is being used in the Army. Too frequently people are rushed off to psychiatrists when a period of meditation, Scripture reading, and prayer might easily solve their problems.

Let us take advantage of all the discoveries of science, but let them come to us through our Christian faith, rather than as a substitute for our Christian faith.

WAKE UP, AMERICA!

We are indebted to Mr. John Pfaffinger of Maumee, Ohio, for calling our attention to the following poetic challenge:

Wake up, America! Wake up
Before it be too late.
Gird on thine armor, long unused;
Defend thy "ship of state."

Keep watch, America! Keep watch
For treacherous shoals and reefs.
Too long the enemy has sought
To shatter thy beliefs.

Be strong, America! Be strong
Against the inward strife.
If thou would'st have sweet freedom here,
Defend it with thy life.

Be brave, America! Be brave
As soldiers needs must be.
The "home front" calls for all thy zeal,
Courage, and loyalty.

Keep faith, America! Keep faith
With Him, whose helping hand
Hath guided, through its infancy,
This great and glorious land.

Be still, America! Be still
And hearken to His voice.
Then soon shall people live in peace,
And all the world rejoice.

TRUTH

First Casualty of War

By United States Senator Burton K. Wheeler

Editor's Note: Following is an address delivered by the courageous statesman, United States Senator Burton K. Wheeler. It is one of the most important addresses, if not the most important address, delivered since Pearl Harbor.

TRUTH is always the first casualty of war. The opiates that have been poured down the throats of the American people for the past several years by the self-appointed diagnosticians and propaganda peddlers fortunately are now wearing off. For several long years Americans have been fed the proposition that this is a "people's war." But now an ever-growing number of us realize that about all the peoples of every nation have had to do with this war is the fighting, the suffering, and the dying it exacts. We have been told this is a "tyrant's war". But we are beginning to wonder just whom this term includes. Since the beginning of the war we have been told this was a "global war". But now we know that it did not become a global war until we entered the fight. We have been sold the idea that this was a "war of liberation". Now we ask ourselves in deep dismay the question, "A war of liberation to whom and to what?"

ATLANTIC CHARTER NEVER EXISTED

Since August 16, 1941, our government leaders, even the highest of them, have dangled the principles and purposes of the Atlantic Charter, both in toto and in tantalizing tidbits, before our eyes. It is, they said, a "war of liberation" from an old world with all its ancient ills to the brave new world already being erected on the Charter's universal principles. And now we despair of such a promise in the story, not that the Atlantic Charter is dead, but that as a document, it never lived.

The conflict of fears, which is an inevitable aftermath of a loss of faith in propaganda, has created deep confusion on the American scene. Personally, I have always trusted the American people with the truth. I have every confidence in their innate sense of decency and justice and in their decisions when based on a knowledge of the facts. I have considered it my most solemn duty as a senator to give the American people all the facts in my possession, together with the truth about them, as I see it.

Therefore, tonight I make not even the pretense of an apology for the position I have held both before and during the war. Furthermore, as I see my duty tonight, again in the limited time accorded me it is to give the American people such facts as are in my possession and the truth as I see it concerning these facts.

GRAVE CRISIS

Let us not mince words. America tonight faces a grave crisis in this war and an impasse in international diplomacy. Since no real agreement could be reached among the Big Three, about the future United Nations organization contemplated in the Moscow Declaration and advocated by the United States, Dumbarton Oaks is a grim hoax. No nation today trusts the other nations sufficiently to warrant a single gesture towards risking its security on the success of an international organization. This distrust runs so deep among the Allies themselves that they have not dared to create a United Nations political council such as was promised in the Moscow Declaration of over a year ago. After five years of fighting Hitler on the European continent, and after three years of American participation in the struggle, the precious "unity" of Great Britain, Russia, and the United States cannot produce a common statement of purpose towards Europe. They cannot even agree on a common policy towards Asia. At this very moment, while Americans are doing seventy percent of the fighting on the western front, fifty percent of the fighting in Italy, and almost one hundred percent of the active fighting in the far Pacific, our much-vaunted Allies are now engaged primarily in consolidating and extending their influence into ever-widening spheres in a bloody game of power politics which, if continued, cannot help but blow up in a Third World War. And while this war goes on, the continent of Europe, whose social, economic, and political foundations have already been torn up by the roots, is being further battered into a veritable chamber of horrors.

EUROPE A SEETHING FURNACE

Actually, Europe has become a seething furnace of fratricide, civil war, murder, disease and starvation. And while this senseless and, up to this present moment, this purposeless process goes on, the President is urged to call for a National Service Act, our Secretary of State, Mr. Stettinius, seeks to inspire fear in the hearts of the American people by drawing verbal pictures of the robot horrors of the next war, and our Under Secretary of State, Mr. Grew, further panics the public mind by threatening that the next aggressor will wreak his wrath on the United States as the first victim of the Third World War. America is being subjected to a psychology of fear, of insecurity, of a lack of faith in the effectiveness of the normal processes and principles of international law, a part of which process is revealed in

the current Administration drive to saddle upon the American people, before this war is over, a war psychology and a war economy in the form of peacetime military conscription. Why peacetime military conscription if the President has faith in Dumbarton Oaks? And at a time when there is not a stable government left in Europe or in Asia, when unity between ourselves and our Allies is threatened to its foundation, when millions of men and women are suffering the tortures of the damned, there has not yet appeared a single curative or creative idea around which to rebuild either Europe or the world. What is the answer? I am convinced that the majority of the American people believe with me that it is imperative that a United Nations political council be immediately set up to see that the present series of disgraceful unilateral peace settlements now taking place in Europe stops. Only in this way can the inevitable conflict arising out of the creation of two spheres of influence in Europe be averted. Here is the finest opportunity in the world for those who have been preaching international co-operation in behalf of the Big Three to prove by their acts their willingness to settle these new problems around a conference table rather than at the point of a bayonet. If Russia continues to insist that the fate of Finland, of Poland, of Latvia, Esthonia, Lithuania, Rumania, Bulgaria, and Jugoslavia, and even Norway, is to be left entirely to her discretion, and if Britain insists that the only answer to Russia's acts lies in her mimicking Russia's methods in her relations with the nations of western Europe all the way from Scandinavia to Greece, there is no point whatsoever in talking about a "World Security League" of political councils and World Courts for the settlement of International disputes in the future. It will be too late.

WHAT ABOUT BIG THREE

Secondly, the Big Three must formulate some creative idea around which Europe can be rebuilt. Europe has always been the powder keg of world conflicts. It has already taken us in two wars and even now threatens a third one. In 1923 I spent five months visiting almost every country in Europe, including Russia. I have been there many times since then. And from that day to this I have been convinced that the only salvation for Europe, and the only basic cure for her ancient ills lies in the creation of a United States of Europe. This idea is not original with me, of course. It has been advocated by outstanding European statesmen, including Briand of France, Schussnig of Germany, Winston Churchill, Anthony Eden, Clement Atlee, and Sir Archibald Sinclair. Let us consider the basic idea underlying our own United States of America. Suppose each of our 48 States maintained its own exclusive sovereignty, with tariff barriers and business restrictions, suppose our sectional customs, social problems and ideals, suppose our regional economic and industrial interests, suppose our 48 State Militias yielded allegiance to no higher authority than their state or local government, we know full well our history would have been burdened with the shame and grief of more than one civil war. If ever the people of Europe had a cause or were ever in the condition to reorient and reorganize their interests and their loyalties around a more creative and secure ideal than they have ever known before, it is in this hour of their anguish. Furthermore, the acceptance of this remedy for their suffering will provide the core of reality to which the faltering unity among the Big Three can attach itself in all the vigor of a newfound vision. I am convinced that only in this way can we avert a far

worse catastrophe than this war in the years ahead. Europe is now in such a state of demoralization that the middle class has been virtually eliminated, and a leveling down process has brought the masses of its peoples to their very knees. Without some higher ideal to discipline and guide them, Great Britain, Russia, and the United States, with the very best of intentions, will be sucked into such a moral, social, political and economic vacuum that they will end up in a struggle to seize control over whatever is left of Europe until they find themselves at each other's throats.

WHERE WILL RUSSIA STOP

Russia believes she must seize and maintain control of these Eastern European nations into which she has marched in order to protect and secure her western border. But, I ask, where does this process stop? And I would answer, not until it reaches open conflict with other spheres of influence. Say what we like about Britain's intervention in Greece, unless I am terribly mistaken, this is the first of many clashes of interest that will inevitably follow, when both Russia and Britain apply this principle. If, on the other hand, Russia will join with Great Britain and the United States in a sincere experiment in international collaboration in that part of the work that constitutes their own back yard, I would be willing to support an international organization that would guarantee on the basis of the principles of the Atlantic Charter the security and integrity, not only of the United States of Europe, but of Russia as well. But I shall oppose any world organization designed to put the United States in the position of holding the draw strings of an international grab bag while Britain and Russia connive or fight for the spoils. No one yet has found a way to save his birthright by selling it for a mess of pottage.

NO WORLD POLICE

I would conclude by urging, with all the seriousness at my command, that the American people demand the abandonment by their government and their Allies of the brutal and costly slogan of "unconditional surrender." Until this is effected, we shall go on blowing Europe and our own boys to bits without rhyme or reason, still ignorant of why we fight. And I am convinced that with the establishment of a United States of Europe in which disarmament and economic collaboration are combined, any threat to the security of either Russia or Britain would be eliminated, and the task of restoring Germany as a respected member of the society of nations will have been largely begun. I would be, and I am sure the majority of Americans also would be, unwilling to sanction a peace of vengeance. I am unwilling, and I am certain again that the vast majority of Americans are also unwilling, that America's sons police the world. We must make a peace that will not require it, a peace we shall be willing to support with all our heart and soul, not only now but ten or twenty years from now.

Certainly, if we are not fighting this war to transfer the control of Europe from Hitler to Stalin, or to Stalin and Churchill, if we are not fighting this war in the far Pacific merely to return to their old masters the people we liberate, we ought now, once and for all, so to record our intentions.

If power politics in Europe cannot be stopped now, if a free federation of Europe cannot be worked out now, then it does not matter where the American armies stop, our boys will have died in vain—the war will have been lost. No slogans, no full worded phrases can change this result.

EDITORIAL COMMENT

By GERALD L. K. SMITH

'CLOSE' STILL 'NEAR' Upton Close, the fearless and patriotic commentator, was recently removed from the NBC network. He can still be heard over the Mutual Broadcasting System at 5:30 P.M. Central Wartime each Sunday afternoon. As an objective reporter, he is one of the very best. He is as non-partisan as truth itself. God give us more honest reporters like Upton Close.

COHEN, HOPKINS, CORCORAN, INC. The original radical New Deal brain trust is doing pretty well by itself. The three bright boys of the original New Deal were Benjamin Cohen, Harry Hopkins, and Thomas Corcoran. In the beginning they were supposed to be the next thing to Communists. They wrote and designed some of the most radical legislation we have. Where do they stand today?
Benjamin Cohen—Big job with Byrnes and Baruch.
Harry Hopkins—The President's alter ego (other mind), who now high-hats his old time radical friends and mixes only with top-notchers from the House of Morgan.

Thomas Corcoran—Resigned his bureaucratic job and is now using the inside information he developed while in the Government to practice law in Washington. It is estimated that he has made over \$1,000,000 in the last two years fixing things with the Government for manufacturers he at one time persecuted.

LUCKY TOM Tom Dewey and the Republican Party are lucky. If Dewey had won the election he would have been blamed for everything that has gone wrong since November 7. I list a few:

1. Shortage of ammunition.
2. Shortage of gasoline in Europe.
3. Reverses on the Western Front.
4. Food rationing crisis.
5. Manpower shortage.
6. Disagreements between Churchill, Stalin and the U. S.
7. Criticism of Americans in Britain.
8. The Greek crisis.
9. The Italian crisis.
10. The Polish debacle.
11. The prolongation of the war six months to one year beyond earlier estimates.

OPA DOUBLE-CROSS Twice the OPA has rewarded the hoarder. In the beginning of food rationing those who had hoarded food were only charged half as many stamps for food on hand as those who had played the game like good sports.

Early last year the OPA assured the housewives that their extra food stamps would be good any time. They went back on their word and cancelled the stamps that had not been used. Those who had used their extra stamps to satisfy gluttony or to hoard extra supplies got the best of the deal again.

From now on it will be difficult for the OPA to convince anyone that it can be trusted.

ATLANTIC CHARTER —SUITABLE FOR FRAMING — FOR SALE, CHEAP! Roosevelt said that there was no document prepared when the Atlantic Charter was publicized. We now discover that it was just a few scraps of paper.

BUT I have a copy of the so-called Atlantic Charter with facsimile signatures of Franklin D. Roosevelt and Winston Churchill attached to it. I am told that a million copies were printed by the OWI.

Don't be surprised any day if you look into a second-hand bookstore and see a sign reading: "Atlantic Charters — For Sale, Cheap!"

PLAIN TALK FROM GEN. MARCH Many people forget that Gen. Peyton C. March was the 'General Marshall' of the last war. He celebrated his 80th birthday in Washington, D. C., on December 27. In a pointed statement, he demanded that we have the truth concerning events on the war front. He said we were not getting a complete report on casualties. He blamed our 'unconditional surrender' policy for hampering our military operations.

He expressed doubt that Russia would help us defeat Japan. He prophesied a long, long war.

He said: "We cannot blame the weather for our troubles because the weather is the same on both sides of the line."

REYNOLDS, NYE, FISH & CO. Defeat can produce victory. DeValera, now the head of the Irish Free State, was at one time sentenced to life imprisonment. I would say that this was a bit tougher than being defeated for re-election to the United States Senate or Congress.

United States Senator Bob Reynolds will remain in Washington, D. C., and practice law. He assures me that he is more of a Nationalist than ever and has by no means retired from public life.

United States Senator Gerald P. Nye leaves the Senate after 20 years of fruitful service. If he will carry on as a fighting Nationalist, he will come back some day stronger than ever.

I prophesy the re-election of Hamilton Fish to the Congress in 1946. In fact, if all the information we now have concerning the fakery of the Atlantic

Charter and the mis-management of affairs in Washington had come out in advance of the election, Fish would have been re-elected this time.

THE BRITISH THAT AMERICAN NATIONALISM STILL LIVES. Sixty days ago Nationalism was on its toughest spot. Today Nationalism is stronger than it has been since before Pearl Harbor. The evil practices of the power politicians in Europe, who dicker and trade in the blood of our martyred dead, have convinced millions of Americans that we cannot afford to tie our destiny to the evil ambitions of Imperialistic Europe.

The *London Times*, England's leading newspaper, admits that Nationalism is a real factor in the United States. In its issue of January 3, *The Times* questions the power of the American Internationalists to deliver the United States into a workable International Organization.

The British are now pressing Roosevelt for a show-down. There is a growing fear in England that Roosevelt has over-promised himself concerning our willingness to unite with the British Empire in a program of international aggression.

SENATE IN THE DARK—WHY? The *New York Herald Tribune* comes to my desk. In a recent issue on page 1, it carries the headline, "Senate to Ask Light on U. S. Policy Abroad . . . With White House Silent as Power Politics Stir, Many Questions Arise."

This implies that the Senate is in the dark concerning our foreign policy.

Why should the elected representatives of the people ever be in the dark? Information concerning our foreign policy should be a routine matter. What is being hidden from our people? I'd like to know.

THE SPIRIT OF AL CAPONE STILL LIVES IN CHICAGO. A Nationalist lawyer, whose name I will not give here, was

walking down the street in Chicago some few days ago. He was pounced upon by five men to the point where he required hospitalization.

A certain set of racketeers, hysterical Jews, and the so-called "Action Committee," in Chicago have put out the word that from now on it will not be safe to preach Nationalism in public meetings in Chicago. Well, I propose to preach Nationalism in Chicago, and I know thousands of people in Chicago who will attend my meetings.

BITTER FRUIT A cartoon by Gale, the artist, shows three men hung up by their necks to the limb of a tree. He names the tree "That Vaunted Foreign Policy." He names the three men hanging by their necks, Poland, The Balkans, and the Baltic States.

The cartoon is entitled "Bitter Fruit."

Of course, we know who hung them up by their necks. It was Stalin and Churchill, who claim they did it with Roosevelt's consent. Can this be true?

WARNING TO PROTESTANTS! As one who has grown up in the Church, I am more or less familiar with the various doctrines, dogmas, and theology of the various branches of Christian fellowship. Non-Catholics are frequently referred to as "Protestants." I have no desire to advise anyone concerning their religious faith in the sectarian sense. Catholics have a right to their deep and sincere beliefs. Protestants have a right to their deep and profound convictions.

I here warn Protestants! Communists and International propagandists are using the term "Protest-

ant" to deceive sincere non-Catholics. Many non-Catholics are very set and determined in their disagreement with the Catholic religion. That is their privilege. **BUT** beware of fake movements called "Protestant". Communism is anti-Christian. In certain lands where Communism is attempting to get a hold, the Christians are predominantly Catholic. Therefore, the Reds advertise themselves as anti-Catholics in order to inspire the co-operation of vigorous Protestants. They do not tell our Protestant friends that if they come to power, they will outlaw the Protestant religion, just as they outlaw the Catholic religion.

Typical of the pro-Communist fakery, which sails under the banner of Protestantism, is a magazine published each month called *The Protestant*. It follows the pro-Stalin line and has been branded by the Congressional Committee on un-American Activities as a Communist propaganda transmission belt.

MONTGOMERY WARD'S POPULARITY The Army is now running Montgomery Ward & Company. High executives of Sears Roebuck are in power in Washington. Some think that the jealousy between Sears Roebuck and Montgomery Ward has to do with the troubles that have befallen Sewell Avery and the Ward Company.

Reports indicate, however, that business at Montgomery Ward's is increasing rather than decreasing. This indicates that public sentiment is with Avery.

At this writing the Army is taking the profits out of the Company. This looks rather tough. It looks un-American to me. Can it be that if a company disobeys bureaucratic ruling and displeases one of Mr. Hillman's unions that the Government can come in, take over private property, and confiscate profits, without the decision of a high court? If 1,000 businessmen had had the courage to resist bureaucratic tyranny, as has Sewell Avery, it would be a different story.

HAPPY NEW YORK New York City is the center of 95% of our trouble. It furnishes most of the financial crooks, bigshot gamblers, organized killers, and warmongers. New York City was shouting for war long before Pearl Harbor. Nearly all of America's organized evil, including evil politics, centers in New York City. Even Al Capone, when he ruled Chicago, really took his orders from the old original gang in New York.

New York seems to enjoy the war. According to *The New York Herald Tribune*, in a page one article, the Empire City had a glorious time on New Year's Eve. Night clubs sold out at \$25 a plate. It took 2566 police to keep order over the night life. At midnight one million people gathered in the Square, after consuming more liquor, wine, gin and champagne, than any New Year's Eve in the history of New York City.

THE LUCE WOMAN— MILITARY EXPERT? Clare Luce, the former Broadway glamor girl, has just returned from Europe where she has been visiting the battle-front as a member of the Military Affairs Committee of the Lower House of Congress. She filled her ears with cotton and fired a gun near, but not too near, the front. Now she is a military expert.

Upon returning Mrs. Luce did admit that many of the American soldiers were America Firsters.

NEW SPANISH REVOLUTION STARTS IN NEW YORK. *The Nation Magazine*, published in New York City, poses as a journal for intellectual liberals. It is now engaged chiefly in a campaign to promote us into a war with Spain.

Recently this half-breed Communist journal organized a rally in Madison Square Garden for the purpose of promoting their warmongering attacks on Spain, Portugal, Argentina, Switzerland, etc. They brought together one of the most motley crews of pinks, Reds, Communists and propagandists ever to be gathered under one roof. These propagandists seem to think that our bleeding and dying sons don't have enough to do. We are fighting the Pacific war almost single-handed, and at this writing we are furnishing about three out of four of the casualties on the Western Front. One of our wars is 3,000 miles away, and another is 12,000 miles away. We are supplying 64 theaters of war, not counting the tax load we are bearing. We have spent in money on this war more than all the other of the warring nations combined.

Regardless of what we think of Franco's Spain, haven't we enough trouble for the present?

HITLER'S SUCCESSOR: LEON HENDERSON Some weeks ago it was announced that when Germany was defeated the American commissar in charge of Germany would be the former OPA czar, Leon Henderson. Henderson, who is now in Europe if he has not returned within the last few days, is evidently picked to be Hitler's successor. Some of us who remember the crazy rules which he wrote up for Americans to obey under the OPA are mighty glad to hear that Henderson is being sent to Europe. Evidently one reason the Germans are fighting so hard is because they would rather be ruled by Adolph than by Leon.

Note: A late dispatch reveals that the United States Army is opposed to Leon Henderson as administrator of affairs in postwar Germany.

GENTILES MUST NOT CO-OPERATE There is an organization in Illinois known as the *Gentile Co-operative League*. I don't know much about it. I never met its officers. I have seen its official publication on one or two occasions. It seems that the purpose of the League is to urge all Gentiles to co-operate. This has raised a great ruckus in Chicago. The organizers of the League have been branded as bigots, traitors, Nazis, and Fifth Columnists. It seems that the Gentiles are not supposed to co-operate. *The Chicago Daily Sun*, *The Sentinel*, and certain Jewish organizations have brought such pressure on state officials that the charter of this organization has been revoked theoretically.

I have no objection to the Jews co-operating. In fact, I thought it was an American privilege to co-operate with anybody one wanted to co-operate with. But apparently the Gentiles are not supposed to co-operate.

SECRET DEAL IN PUBLIC MATTERS Ray Daniell is one of the eminent news reporters of the world. He is in charge of the London bureau of *The New York Times*, with 200 reporters and staff workers under him. At this late hour Mr. Daniell reveals that there has been some secret diplomacy going on. In a feature article, he says:

It is quite clear now that in Teheran, Mr. Churchill and Mr. Stalin divided Europe into spheres of British and Russian influence . . .

But nobody told the Poles that Britain was on Russia's side in the frontier dispute and that the United States would hold its peace.

Nobody told them even after Mr. Churchill and Premier Stalin had reached an understanding at Teheran.

Mr. Roosevelt's part in the deal at Teheran is not quite clear.

It appears that he was not present at the time when Premier Stalin and Mr. Churchill reached their understanding on the division of the Balkans and the partition of Poland.

But Mr. Churchill has said that at no time . . . has Mr. Roosevelt indicated that he would not go along.

The Constitution provides that all treaties proposed by the President shall be confirmed by the United States Senate. If Mr. Roosevelt has O. K.'d secret deals between Stalin and Churchill, where does the Senate come in, and where does the Constitution come in?

I heard of a public official who was impeached one time for violating his oath to uphold the Constitution.

Concerning this so-called secret deal, Representative O'Toole of New York said:

It was a sell-out of the rights of the small nations, a colossal blunder which will lead to a third World War.

CHANDLER COULD BE GOOD United States Senator (Happy) Chandler of Kentucky knows enough to be a real statesman. He is right at heart. He has the manners and the understanding of a real American and the possibilities of a great Senator. He is, of course, quite a politician and hesitates at times to take a courageous stand in harmony with his deeper convictions.

Mr. Chandler displayed some of his potential statesmanship recently when he joined others in opposing the confirmation of State Department appointees, known to be under the thumb of the House of Morgan.

You know what is right, Senator. Screw your courage up to the sticking point and you can make a name for yourself, as well as a place in history.

A HORSEY SENATOR Gasoline is scarce, so United States Senator-elect Wayne Morse, who was elected by the PAC to replace United States Senator Holman, drives a truck containing two saddle horses all the way from Oregon to Washington, D. C. A patriotic gesture, indeed! Where did the Senator get the gas? Of course, if one has been elected by the PAC, one enjoys certain privileges which others of us may not enjoy.

THOSE WHO DIE DESERVE TO KNOW WHY It is bad enough to die on the battlefield, but it is worse to die without knowing why. We owe it to our soldiers, sailors and marines to give them a clean clear-cut honest definition of victory. When they move into the jaws of death, they need to know deep in their hearts why they are facing death.

In an editorial in *The New York Sunday News* entitled "What Cause Are We Fighting For?" the editor has some very pointed remarks to make concerning this war cause idea. He says:

The time is overripe, we think, for a specific statement from our leaders in this war of just what our war aims are. It is more than three years since Pearl Harbor, and we have taken over 600,000* casualties; yet the American people are still largely in the dark as regards what their boys are fighting for. * * *

Our boys on the far-flung fronts don't know any more about our war aims than do we on the home front.

Correspondents, Congressmen, etc., are forever asking these men what they hope to accomplish in the war. The only answer we've yet heard of them getting from the average doughfoot is that he wants to get the war over with as soon as possible and come on home.

What, then, are we expected to get out of this huge expenditure of our men's lives and limbs, of our raw and manufactured products, and of a couple of hundred billion dollars or so up to now?

*Casualties as of January 15 had passed 750,000.

DR. GALLUP DOCTORS When the America First Party held its Convention on August 30, it adopted as the 38th plank in its platform one which dealt with public opinion polls.

A few days prior to the publication of this issue of *The Cross and the Flag* Dr. Gallup, of Gallup Poll fame, admitted that he had doctored some reports. This is sensational. I know Congressmen who won't vote against the trend of the Gallup Polls for fear they will be defeated for re-election. No pollster should have that much power.

HOT GREECE! Greece is a symbol of events to come. It is a foreshadow of the whole European situation. While the Germans occupied Greece, an underground organization was formed. Some of the members of this underground organization were perhaps sincere, patriotic Greeks. Reliable informers tell me, however, that the underground organizations in Europe have been directed largely by the Communists. In fact, it has been very much like certain labor unions in the United States, where many of the members are sincere Americans but are controlled by Communists and Stalin stooges.

The trick of the Stalin Communists is to use underground armies to seize control of the government, just the moment Hitler's forces are driven out. That was the scheme in Greece, Belgium, France, Poland, Italy, etc. The more decent elements in Greece, in co-operation with Britain, objected to being ruled by an armed mob. This brought on what we now know as the Grecian civil war.

The American people are not going to be very enthusiastic about fighting, dying and financing a war which turns liberated countries over to atheistic Communism.

DOUBLE-TALK Nobody knows what Mr. Roosevelt stands for by what he says. Over three years ago he called on us to live and die for the Atlantic Charter, only for us to discover at this late hour that there really never was an Atlantic Charter—it was just a few scraps of paper.

Concerning his use of the American language to hide what he means, *The Detroit Free Press* in an editorial on January 4 said, and I quote in part:

The greatest master of the age in the art of indirection, he apparently studies deliberately not to be understood.

As Agnes Repplier said of Gladstone, he possesses "the faculty of concealing his thoughts in words, of separating conviction from argument." * * * *

And still we have not the slightest idea what he means—nor does anybody else. All anybody can do is guess.

CHURCHILL AND THE JEWS Many of the Jewish leaders in America are growing very bitter in their comment relative to Winston Churchill. I don't know why. I do remember that a few months ago, such journals as *The Sentinel*, *American Hebrew*, and the *Jewish Examiner* of Brooklyn wanted me thrown in jail for even daring to criticize Winston Churchill. Now it seems that Britain is responsible for what goes on in Palestine. The Arabs and the Jews in and around Palestine do not get along. Certain Jewish organizations want to move another one million Jews into Palestine. The Arabs oppose this. Churchill's Britain

has decided with the Arabs, and some time this spring the gate is supposed to swing shut and no more Jews are to be admitted.

I have no opinion as to what is right or wrong in this matter. I am not going to praise or condemn the British. The point I am making is this: The Jewish journals, who would brand me as a traitor for criticizing Churchill, seem to feel at liberty to condemn a wartime ally whenever they please, if it involves their welfare.

We are informed that a Jewish Fascist organization has developed in Palestine, which is carrying on a reign of terror. The members of this organization are all armed and insist on settling all disputes with guns and other weapons. One of these terrorists recently shot and killed the British Minister Moyne.

FLYING TRAPEZE HENRY Henry Wallace is a hard man to shake. In politics he is like a woman disappointed in love. Mr. Roosevelt has been kicking him in the teeth for nearly a year. By the time this magazine reaches the readers, he will perhaps have been given some sort of job in the cabinet or elsewhere.

Henry is the pet of the CIO and the Hillman crew. Since the election, so much has come out on Hillman and his former contacts with Stalin, Lenin, and the criminal elements in New York, that even Mr. Roosevelt has grown a bit ashamed of Sidney.

This does not help Henry Wallace. However, I prophesy that Henry and his crew of star gazers, left wingers, Communists, and world planners, will cause the President no end of trouble. Now that Mr. Roosevelt has turned the State Department over to Wall Street and the House of Morgan, Henry has become sort of a skeleton in the New Deal closet.

ICKES AND FRANCO The so-called liberals and the Communists want us to declare war on Spain. The bogey man is now Franco. Britain wants to get along with Spain, because with Stalin gobbling up so much territory, the British need some friendly neighbors. They are opposed to supporting a Communist revolution in Spain against Franco.

Thus, Churchill announced a few days ago that he proposed to get along with Franco.

Harold Ickes, who hates Gerald Smith, Nationalism, the America First Party, Republicans, etc., was invited to attend a big warmongering rally in New York on the night of January 2. He was supposed to make a speech. In the meantime the British objected. They expressed their objections to the State Department. The State Department called on Mr. Roosevelt, and Mr. Roosevelt told Mr. Ickes to stay away from the anti-Franco meeting. Thus, Mr. Ickes, who is rather pro-Stalin himself, got a taste of what it means to be snapped at by the British lion.

Heretofore, we were supposed to believe that nothing could shut Mr. Ickes' limber mouth. Now we discover that Churchill can shut it any time he desires.

BIRTHDAY IN PRISON Tyler Kent, now in a British prison, should be brought to the United States. Regardless of any accusations that were made against him in 1940, every American citizen is entitled to his day in an American court. Kent has three more years to serve.

On March 24, he will observe his 34th birthday. Those who believe in the innocence and integrity of Tyler Kent, and desire to send him a birthday greeting, may do so by addressing their greetings as

follows: Tyler Kent, Camp Hill Prison, Newport, Isle of Wight, England.

DANGEROUS ME Nationalism is a vital cause. The International conspirators fear it more than they fear anything else.

Every week or so there appear on the magazine stands, new periodicals, with new names, dedicated to and financed by the propaganda mill of the International machine. One such is a magazine called *Reader's Scope*, which claims to be running a series of articles on dangerous Americans. The second in a series of articles is written by a pro-Communist by the name of Albert E. Kahn. Mr. Kahn devotes three pages to a series of lies about Gerald L. K. Smith in an attempt to prove that the America First Party is an evil force, and that I am one of America's dangerous citizens because of my association with such 'rascals' as Bob Reynolds, Gerald P. Nye, Clare E. Hoffman, and Father Charles E. Coughlin. My most evil trick, says the prevaricating Kahn, is the publication of *The Cross and the Flag*.

Kahn is one of those Jews who is devoting his life to the promoting of anti-Semitism. God save the race from such Jews.

DESPERATE GERMANS Last September the Germans were ready to give up. They tried to kill Hitler. Certain military officials were ready to throw the Nazis into the discard and make a deal that would stop this war.

Then Henry spoke up. Henry who? . . . Henry Morgenthau. He came out with what we now know as the Morgenthau Plan, calling for the complete annihilation and degeneration of the German race. His plan not only condemned the innocent children of Germans to a lifetime of peonage and slavery, but the unborn generations of German people.

It is easy to understand how Mr. Morgenthau, being a Jew, would have some difficulty in looking on the problem with an objective viewpoint, but I cannot understand why even Morgenthau couldn't see what he was doing. When the Morgenthau plan was published it was the same as sentencing hundreds and thousands of American boys to their death. The reason is obvious. Immediately the propagandists began to tell their people that they had nothing to lose and everything to gain. It was easy for Goebbels and his propaganda crew to prove to the Germans that a German defeat meant the permanent annihilation of the German race, regardless of age or responsibility.

Overnight, everything changed. Every human being in Germany able to walk, arose and started to fight. A nation about to surrender became a nation of desperate people.

Mr. Roosevelt tried to overcome the evil that Morgenthau had done by publicizing the fact that the Morgenthau plan had been turned down. The damage had been done.

ARGENTINA EPISODE Who is trying to get us into war with Argentina? Haven't we enough trouble already? Argentina is the most progressive nation south of the Mexican border. They are a proud people and valuable customers. We understand that there is to be a conference of all Latin American nations, with Argentina left out.

Walter Winchell is always attacking Argentina. It seems that certain Jewish refugees were not admitted into Argentina. That means that the smear drums of propaganda must be beaten.

I am opposed to the persecution of any race or creed, but I am against the idea that every time the Jews are persecuted in some part of the world that we Americans must go to war to save them. If we go to war every time the Jews are persecuted, and if that had been practiced in years past, we would have been at war every year for the past 5,000, and we would be in war every year from now on. God help the Jews, and God help us.

CIVIL LIBERTY CHALLENGED A recent issue of *The Sentinel*, published in Chicago, contains an attack on me which goes beyond anything ever to appear in print. *The Sentinel* is a Jewish periodical which claims the largest circulation of any American language Jewish paper in the United States. In a special article devoted to libelous attacks on me, this misguided, if not trouble-making, journal threatens me with everything but death itself, including prison, physical injury, and the loss of my civil liberties.

In one paragraph of this full page article, J. I. Fishbein, the editor, openly and brazenly boasts in the following words:

We intend to make it impossible for Smith or any of his ilk to meet in a public meeting place anywhere in Chicago. Let them spew their Nazi filth in sewers, in dungeons, in underground basements—not where decent people gather.

STALIN VS. CHURCHILL WATCH THE COLUMNISTS! The propagandists are in a t w i t. Now that Stalin and Churchill are disagreeing on certain things, their stooges in America are having difficulty deceiving the American people.

I have watched with interest the various columnists, most of whom are paid propagandists. These propagandists hate anyone who espouses the cause of America First, but they do not hesitate to betray their preference for England or Russia. While our boys bleed white on the Western Front, Stalin and Churchill are absorbed with the biggest poker game in human history. All of the propaganda machinery at their command has been mobilized in support of their particular ambitions in Europe.

Aside from a few newspaper columnists, who really love America more than any other country on earth, most of the columnists are divided into two cliques—the pro-Churchill and the pro-Stalin. As of today Churchill seems to have the worst of the deal. An amazing number of newspaper writers seem to be taking Stalin's side.

It didn't take long to find out where Walter Winchell stood. As between the Communists of Greece and Winston Churchill, Walter Winchell stood with the Reds, as was expected.

BRITISH NEWSPAPERS ATTACK U. S. British newspapers are not satisfied with General Eisenhower. They have been demanding that General Montgomery or some other British General be given command of our fighting forces on the Western Front. The leading newspapers of Britain are now levelling vicious attacks at America. We are being accused by these propagandists of all sorts of failures, faults, and inconsistencies. We have now reached the place where the British will begin to accuse us of owing them money, in spite of the Lend Lease program.

The unfair attacks upon us made by the British newspapers are all for the good. They serve to warn America that we must not form any permanent alliance with Britain, or be tied up in any Super State with any foreign country.

P. I. P. Beware of an outfit known as "The American Protestant Defense League." Some of its adherents may be innocent, but those who write its propaganda bulletins are bound to be the enemies of Christian Nationalism.

This outfit claims to have headquarters in New York City. It all comes under the heading of what I call 'P. I. P.'—Propaganda in Pulpits.

The Internationalists are using certain clergymen who do not take the time to inform themselves thoroughly concerning world events. On the bulletin of this so-called American Protestant Defense League I find the name of one Johannes Steel, who is not a clergyman and who is one of the most ruthless propagandists in the United States.

DISILLUSIONMENT Jay G. Hayden is a quiet mannered and decent reporter for *The Detroit News* in Washington, D. C. Although *The Detroit News* is a large and rich newspaper, it seldom takes a courageous stand on anything. It is, of course, Internationalist.

Therefore, it is sensational when Mr. Hayden admits in his January 2 article that there is much disillusionment in Washington and elsewhere concerning the behavior of Russia and Britain. I quote Mr. Hayden:

The absence of any but American troops in news of resistance to this drive, coupled with the failure of Russia to launch her long-expected attack through Poland, has instilled suddenly a premonition that American boys may be left from now on to do most of the fighting both in Europe and the Far East.

A number of developments have promoted the idea that Britain and Russia currently are more interested in nailing down the loose ends of their empires and solidifying their after-war bargaining position than in whipping Germany and Japan in the shortest possible time.

To say the least there is a rising impression that just plain, old-fashioned selfishness, far more than idealistic abstractions, such as the Atlantic Charter and the Four Freedoms, is going to rule in the after-war world.

JOSEPH KAMP, MARTYR Joseph Kamp is on Walter Winchell's purge list. This, of course, suggests that he is a good American. It has almost reached the place in America where the highest compliment a patriot can have is to be fought and lied about by Walter Winchell, the barroom reporter and notorious character assassin.

Mr. Kamp, author of the sensational book exposing Mr. Winchell, entitled *With Lotions of Love To Walter Winchell*, has now been indicted. Being the director of *The Constitutional Educational League*, Mr. Kamp refused to betray certain confidences to certain New Deal bureaucrats. For this he has been indicted. They will now attempt to imprison him. He is a martyr to the cause of Nationalism. God bless Joseph Kamp.

BROOKS AT BAT U. S. Senator C. Wayland Brooks of Illinois made a dangerous speech on January 2. He spoke over the radio. According to a dispatch out of Washington, he accused the British and the Russians of slackening their war effort, while our sons have been left with the major portion of the fighting on the Western Front. Among other things, the Senator said:

Are we to continue to make the greater sacrifices to beat back the German armies while Russia and Great Britain grab the control of these smaller nations, and then join a world organization and pledge our armed forces to maintain these arbitrarily established governments?

Are we in America at long last to say to the subjugated and smaller nations of the earth that we who fought for our own freedom—now that we have grown great, prosperous, and strong as a free nation—are going to fight off one totalitarian power while another takes them over, and then use our forces to prevent them in the future from fighting for their freedom?

THE UNSOLVED MYSTERY

Huey Long was murdered in 1935. He was planning to run for President in opposition to Franklin D. Roosevelt. He was recruiting new followers at the rate of 50,000 per week. His mail was heavier than that of all the remaining Senators combined.

For five years I tried in vain to force the authorities to investigate the mystery behind his assassination. The answer to the question "Who plotted the death of Huey Long?" has only been half answered. We know who plotted it in room 506, Desoto Hotel in New Orleans, but it has yet to be revealed who inspired these plotters. Many who were in the murder-plot room, the day his assassination was planned, are now in authority in the affairs of the New Deal bureaucracy.

CAN THIS BE?

On page 74 of *The American Hebrew*, dated December 8, we read the following words by Rabbi Stephen S. Wise:

The day of peace will demand that we (Jews) present to those who are to shape the destiny of the human race, that Jews cannot be permitted to become a great body of refugees, that they have human rights and equal rights, and that a world which permits Jews to be warred upon by any nation will find itself at war everywhere.

I agree with the Rabbi in what he says about the human rights of his people. No Christian can deny this. But does the Rabbi mean to imply that we are to be at war all over the world whenever the Jews get into trouble?

UNITED FRONT NEEDED

I encourage all Nationalists. I encourage all new organizations being formed by sincere Nationalists. I have no desire to monopolize the field. I hope the day will come when there is some sort of a Nationalist organization in every hamlet, city, county, and state. I never insist that Nationalist organizations unite organically. We should all be united, however, on the America First Principle. Let the Nationalists organize, and then organize some more. Organize yourselves as mothers, wives, veterans, workers, businessmen. The Communists have organized every known type of human being in order to destroy our American way. Let us organize the good American citizens in every walk of life for the preservation of Americanism.

BLACK RED IN CONGRESS (?)

Rev. A. Clayton Powell, Jr. of New York City, although a highly publicized colored preacher, enjoys the support and praise of all the Communist organizations. He goes along with Congressman Marcantonio, who never fails to follow the Communist Party line.

The Rev. Powell was recently elected to Congress from New York. Shortly after being elected, his wife sued him for a divorce on the grounds that he was running around with a night club singer.

Time will prove whether or not Rev. Powell is a sincere leader, a dizzy dupe, or a genuine revolutionary Red, working among the colored people.

PIE CUTTERS

Some wise observers believe that Stalin and Churchill have agreed to cut up Europe like a pie, dividing it into zones of influence. They seem to feel that Uncle Sam has been left out of this picture.

Of course, we are supposed to pay the bills and furnish plenty of blood. Stalin, in announcing his recognition of the Communist puppet Lublin Government in Poland the day before Mr. Roosevelt's address to Congress, used this method to announce that the Atlantic Charter means nothing to Russia.

I am uncertain in my own mind whether Stalin and Churchill are dividing Europe on a friendly basis, or competing for Europe on the ruthless basis of power politics. There isn't so much difference in the two plans, but it seems to be a sort of pie-cutting enterprise, with Uncle Sam left out.

THE GUTTER AGAINST SMITH

The gutter publisher of the nation is one Haldeman-Julius. Recently he advertised his publications in a Detroit newspaper. It was later revealed that his printed trash was so vile that the newspaper was forced to apologize for even advertising his books and literature.

Haldeman-Julius has now been chosen by my enemies to publish Rex Stout's attack on me. I referred to this pamphlet in the last issue of *The Cross and the Flag*. Its title is "Pattern for Revolution." The writer absolutely proves that I am a scoundrel beyond the peradventure of a doubt because I have been seen talking to such vile characters as Senator Burton K. Wheeler, Congressman Clare E. Hoffman, etc.

BLOODY IMPERIALISM

David Lawrence is editor and publisher of the *United States News*, a weekly journal which enjoys rather a good reputation. Of course, Mr. Lawrence is known as an Internationalist, and was one who joined in the campaign to get the United States into war.

He, like other Internationalists and pro-war propagandists, is now faced with some very realistic problems. Mr. Lawrence, like others, has been attempting recently to explain some rather scandalous activities on the part of power politicians in Europe. In a recent article he writes under the title "Lack of Idealism is Shown by Present Allied Leaders." I quote Mr. Lawrence.

The British people have evidently never been told how strong isolationism has been in the United States and how dangerously Mr. Roosevelt had to stretch the statutes to come to the rescue of the British with destroyers in 1940. * * *

One would think from reading recent comments from the British experts and some of their American brethren that the truths in the Atlantic Charter are of no binding importance at all and that the parents of the young men who have made the supreme sacrifice can be bluntly told that their sons were killed in order that Imperialism may live on.

For it looks as if we already are being given the same anesthetic that was administered when Lloyd George and Clemenceau carved up Wilson idealism at Paris after the last war.

STALIN AGAINST THE POPE

Stalin and the Pope are in disagreement. Protestants who do not like the Catholic religion must not be tricked into supporting Stalin's position. He is not against the Pope because of his theology. Stalin is against the Pope because Communism is atheism. Communism hates Christianity. Stalin has organized a plan to seize all of Eastern Europe to begin with, and perhaps all of Europe later. If this happens, Christianity will be outlawed. Only foolish Protestants will allow themselves to be tricked into this Communist scheme to destroy the Church.

BROWDER-STETTINIUS TIE-UP

A famed journalist recently said: "One of the mysteries of this hour is the strange co-operative tie-up between the Communist Party and the House of Morgan.

Although the middle-of-the-road liberals and the Nationalists fought the appointment of Stettinius and his crew of House of Morgan appointees to the State

Department, information out of Washington reveals that Browder is very highly pleased with Mr. Stettinius.

KILL AND ENSLAVE ALL GERMANS (?), INNOCENT AND GUILTY.

Rex Stout is an evil genius. He is the head of L. M. Birkhead's outfit known as "The Friends of Democracy." Recently he made a serious attack over the radio on the great Lutheran Church. His attack was not based on any theological difference he has with the Lutherans—he is just as strongly opposed to the Catholics. Although he claims to be a Quaker, he certainly violates the tradition of Quakerism. He has joined with Henry Morgenthau, Clifton Fadiman, and others, in his campaign to kill and enslave all Germans after the war, regardless of their innocence or guilt. How can Stout claim to be a Quaker, when the Quakers oppose war in any form?

Stout will bear watching. He has led in highly financed propaganda campaigns to destroy (and has boasted about it) such good Americans as Henry Ford, Charles A. Lindbergh, Father Charles Coughlin, Gerald P. Nye, etc.

EDWARD ENGSON, PATRIOT

Minnesota Nationalists should put their hands on a local and brilliantly edited newspaper called *The Nation's News*. It carries a regular column by Edward Engson. He writes on the subject "National Politics."

We may not agree with everything Mr. Engson says, but he is a stimulating and patriotic writer. He should be congratulated and encouraged.

DEWEY DONE

Thomas Dewey has lost his leadership in the Republican Party. It wasn't Roosevelt who defeated Fish, Nye and others—it was Thomas E. Dewey. Congressman Fish and Senator Nye could have withstood the opposition of the New Dealers, but when the head of their own Party joined with Roosevelt in a campaign to defeat them, it was more than they could handle.

Recently, Dewey met with the Congressional leaders and attempted to outline a program of procedure. The Republican Congressmen rebuked Mr. Dewey and refused to go along with him.

Little Tom is not only out as a leader of the Party, but he will be lucky if he can get re-elected as Governor of New York.

SCRAP OF PAPER

When the Kaiser crossed Belgium in the last war, he violated a treaty which the Germans had made with Belgium. When questioned concerning this violation of a treaty, the Kaiser said, in effect: "It was only a scrap of paper."

Concerning Mr. Roosevelt's Atlantic Charter, which he now admits never existed, *The Chicago Tribune*, in an editorial, said in part:

Mr. Roosevelt's confession of fraud and hypocrisy is now complete. He would attempt to convince the world that the Atlantic Charter will be validated by people who may live a million years from now. For three years he stood on the flat word of the document as a representation of the immediate purposes for which this war was being fought. He promised that the Charter pledges would be redeemed when the war was won. In the past he had frequent occasion to denounce the men of little faith who said they would wait and see before taking the Charter at face value. Now he joins them.

The truth is that Mr. Roosevelt knows that he did not write the Charter as a statement of aspirations for the guidance of future humanity. He brought it forth as a political document for political purposes. One was to persuade this country to get into the war on the premise that a better world would materialize—not eons from now, but directly.

BALL UP TREE U. S. Senator Ball of Minnesota is up a tree. When he deserted the Republicans and went over to the New Dealers just before the election, Roosevelt promised him a Super State. Now it seems that Mr. Roosevelt is in no position to promise anything. Stalin and Churchill seem to be making the plans.

Wheeler is against the Dumbarton Oaks Conference because it is too much.

In the light of Senator Ball's former statements, he will have to be against the Dumbarton Oaks plan because it isn't enough.

CHARLIE CHAPLIN —SCOUNDREL Charlie Chaplin symbolizes evil.

1. He was one of the early contributors to the Communist Party.
2. He has never become a citizen of the United States.
3. He has become a multi-millionaire on American dollars, although he refuses to take an oath to defend America.
4. He said, during his recent scandalous trial, that marriage was not for him.
5. He said that childbirth was merely a biological accident.
6. He confessed a lifetime of adultery, fornication and incest.

No wonder the public was shocked when his attorney likened this alien scoundrel to the Saviour.

WINCHELL, YOU NAUGHTY PREVARICATOR! Walter Winchell said: "Gerald L. K. Smith planned a secret meeting in Kimball Hall in Chicago and was forced to cancel it."

Truth: I planned no meeting in Kimball Hall, Chicago, at the time referred to by Winchell. Therefore, it could not have been cancelled.

Walter Winchell said, in his column recently: "Gerald L. K. Smith had planned to deliver a pro-Japanese radio address the afternoon of Pearl Harbor."

Truth: No such address was ever written or planned.

Walter Winchell said: "Gerald L. K. Smith refused to answer any questions concerning the assassination of Huey Long." (Suggesting mysterious implications).

Truth: I accused the attorney for the inquest of being part of the conspiracy to assassinate Huey Long, and for 10 years I have been trying to persuade the United States Senate to investigate the mystery behind the assassination of Mr. Long.

Walter Winchell said: "The America First Veterans Organization is being formed by one George Vose, who served six months in the Army brig."

Truth: George Vose was persecuted at one time while serving in the Army. When mustered out, with a leg so bad that he may yet lose it, Mr. Vose was given not only an honorable discharge, but his discharge papers were marked: "Conduct excellent."

In my files I have a photostatic copy of Mr. Vose's discharge papers and a nice letter from his commanding officer concerning his conduct. He comes from a good Christian family in Kalamazoo, respected and honored by all who know them.

Walter Winchell said: "Don Lohbeck, associated with the America First

Party in St. Louis, refused to serve his country in this war."

Truth: Don Lohbeck is entitled to his own Christian faith, and he chose to follow the same course as the famous actor, Lew Ayres.

Walter Winchell said: "Gerald Smith did not make the proper report to the United States Congress."

Truth: A full report of the America First Party, from the date of our National Convention, when we nominated candidates, to January 1, has been made.

Walter Winchell said, in effect: "The Congressional Committee, headed by Congressman Clinton Anderson, virtually dragged Gerald L. K. Smith to Washington for testimony."

Truth: The fact is, I was never asked to come to Washington by Mr. Anderson's Committee, until I had telephoned Mr. Anderson long distance and told him that I thought it would be a good idea for him to invite me in order that his Committee might have an opportunity to raise any questions that they might have in their mind concerning my activities. Mr. Anderson took it under advisement, followed my suggestion, and I was invited to appear October 3.

Conclusion:

In discussing the so-called bad people I have around me, Mr. Winchell seems to be blind to the fact that Gerald L. K. Smith, Jr., has become a military hero, with numerous citations, including (a) Purple Heart; (b) Silver Star; (c) Presidential citation. He volunteered for the Burma engagement, which was carried out by an outfit known as Merrill's Marauders. It has been considered one of the three toughest military engagements of this war.

PREACHER COURAGE A courageous preacher is a choice individual. He prepares his sermons and outlines his program with only one thing in mind: What is God's will for me?

Too many preachers these days are writing their sermons to suit generous contributors, popular individuals in the community, and powerful personalities in the government.

The clergy of America could save our Nation from Communism, bureaucracy, and moral decay, if they had the courage to speak out.

There comes to my desk a periodical entitled "Foundation Truth", published in Lincoln, Nebraska, by the Rev. Clyde F. Stark. Rev. Stark is a gospel preacher in Nebraska's capital. He takes a fearless stand on all the current issues involving the souls of men.

We need more preachers with the courage and gumption of Brother Stark. I may not always agree with a man on his theology, but I can always admire him for his Christian courage.

DIES NOT DEAD Mr. Sidney Hillman and his PAC spent thousands of dollars to defeat certain members of the old Dies Committee. Since November 7, they have been gloating over their so-called victories.

No sooner had the new Congress reconvened on January 3 than Congressman John Rankin of Mississippi offered a resolution to the effect that a new committee be formed to take up where the Dies Committee left off. A substantial majority supported the measure. A check on the vote reveals that the conservative Democrats from the South joined with the Republicans to make the majority handsome.

CARL H. MOTE

Carl H. Mote is the editor and publisher of *America Preferred*, a journal of opinion. He publishes this dynamic periodical for the benefit of intellectual Americans.

Mr. Mote is a prominent businessman, as well as a farmer. Formerly, he was the editor of one of the leading newspapers in Indianapolis. At the last National Convention, he was elected President of the National Farmers Guild.

He has a keen mind. He is a well-informed man. He is a brilliant writer.

On a recent night he spoke in Detroit and delivered one of the most intriguing addresses to which I have ever listened. An increasing number of Nationalist readers are turning to Carl Mote for intellectual stimulation.

ITALY Our soldiers in Italy feel neglected. They are having a tough fight. Occasionally they gain a few miles, but they are meeting with stiff and bloody resistance. They feel neglected because the Italian front has not been given the publicity it deserves.

Two wars are going on in Italy. We are not only fighting the Axis, but behind our lines is something that looks like a civil war. The Communists are determined to take over the Italian Government before the rank and file of the population have had opportunity to select their government by vote. If the Communists win in Italy, it will very likely be the end of the Church. Should Stalin's agents take over, Pope Pius and his entire staff might be compelled to seek refuge in some other country. The Communist Party in Italy is not necessarily anti-Catholic—it is anti-Christian.

INTERNATIONAL BANK

A dispatch out of Washington reveals that plans are on foot for a Super International Bank, with a loan power of eight billion dollars. It is, of course, understood that we will do most of the loaning, and the nations of the world will do most of the borrowing. The little taxpayers will then proceed to underwrite the unpaid obligations. The procedure is usually about as follows: We loan the money to foreign countries. They spend it on international traders. The money we loan to the foreign countries is seldom paid back except in the case of little Finland. In order to supply this money the government borrows it of the people. The people pay off the bonds. The foreign countries do not return the money, and the international traders wind up the winners.

SINATRA STATESMANSHIP

I must confess that I can't get anything out of the crooning of the highly paid jitterbug singer, Frank Sinatra. I like to hear Bing Crosby, and I can understand how many people enjoy Rudy Vallee, but Sinatra sounds and looks sick, insipid, and un-musical.

However, in the recent campaign, he was a great influence(?) in lining up votes for Mr. Hillman and Mr. Roosevelt. His activities suggest a new name for the bureaucracy in Washington—*Sinatra statesmanship*.

TWO POLANDS

We now have two Polish Governments. One is the original exiled government with headquarters in London. The other is the Lublin government, which is the puppet organization for Stalin. While Stalin deals with this puppet regime, the United States and Britain recognize the exiled government in London. The Polish situation reduces itself to a Christian and anti-Christian basis. The government in Lon-

don favors the Church, Christianity, private enterprise. The government in Lublin favors everything that Stalin stands for, including the partition of Poland.

In the meetings of the Big Three, it will be interesting to see what they do with Poland. We were told that one of the reasons we went to war was to save Poland from Hitler. Is it the plan to take Poland away from Hitler and give it to Stalin?

SHUTTLE-BOMBING

We deserve to know what is happening on the Eastern Front. The following dispatch out of Washington, which appeared in *The Detroit Free Press* December 27, speaks for itself:

One thing which has worried war chiefs a lot is Russia's suspension of shuttle-bombing.

This system of giving bases to United States planes which fly over Germany and Poland was worked out after a lot of diplomatic persuasion and seemed to be going very well, when suddenly it was stopped.

KIMMEL-SHORT

Admiral Kimmel and General Short are still under a shadow. They want to be tried in a court martial. They insist that if the facts could be brought out they could prove their innocence concerning the Pearl Harbor debacle.

Why have they not been tried? Who is afraid to have the truth heard concerning Kimmel, Short and Pearl Harbor?

Note: Mr. John T. Flynn, the eminent journalist, recently wrote a very sensational article in *The Chicago Tribune*, which revealed the truth concerning the Kimmel and Short episode, as well as the whole Pearl Harbor affair. We have some extra photostatic copies of this article which we will be glad to mail out at the following rates:

TOO LATE?

David Lawrence, the eminent journalist, always seems to have an answer for important questions dealing with national problems. In his 'Newsgram,' as he calls it, in a current issue of *The United States News*, Mr. Lawrence says:

It now is too late for U. S. to do anything much about the situation except to win the war, to hope that maybe Britain and Russia will fix things up so that there will not be another war in a few more years that U. S. will have to win.

U. S. influence in shaping the kind of European peace seems not to be great.

Does Mr. Lawrence mean to suggest that we are merely in a bloody mess, and that we have nothing left to do but win and come home—without much hope of accomplishing a constructive postwar policy?

INDEPENDENCE IN DAYTON

I pay tribute to a courageous journal, published in Dayton, Ohio, known as *The Dayton Independent*, edited by Mr. and Mrs. William Silvey. This fearless journal prints the truth regardless of who speaks it. It hues to the line and lets the chips fall where they may. It is one newspaper which has the character and courage to report honestly and completely the activities of the America First Party and other crusading movements dedicated to the preservation of American sovereignty. God bless *The Dayton Independent*.

CONSTITUTIONAL DEMOCRATS

Some day the real Democrats of the South will have enough courage and intelligence to get out from under the yoke of this New Deal bureaucracy, which rules Washington

with an iron hand. I am inspired to observe that in Charlotte, North Carolina, there has developed an organization known as the Constitutional Democrats. They call for the preservation of real Americanism as a substitute for New Deal Fascism. They accuse the New Dealers of holding beliefs contrary to the principles of the Democratic Party. They accuse the New Deal of destroying our liberty and of liquidating legislators who think and vote independently. They issue a call in defense of local self-government and the abolition of class legislation. They accuse the New Deal of being National Socialism in pure form. They accuse those in authority in Washington of using the power of the Federal Treasury to perpetuate themselves in office. Thank God for independence south of the Mason-Dixon line.

ALPHABET SOUP FOR THE NEW YEAR

I received the following New Year's Greeting from George F. Clark of Kalamazoo, Michigan. It is rather clever.

After consulting the orders of OPA — OWI — CFB — EPFA — FHA — FCIC — SCS — AMA — FREB — CES — WPA — FCC — OBCCC — RRB — SEC — TVA — BIR-T — SA — CAA — NIC — DPC — RRC — MRC — DSC — WDC — DLC — FNMA — RACC — CFB — UNRRA — CEA — SMA — SWPC — PIWC — NRPB — LOPM — OEM — SSS — NWLB — OCD — OCIAA — ODHWS — ODT — OLLA — OSRD — WMC — WRA — WSA — BEW — FEPC — ARA — BAE — BEO — BLS — BTA — BWRL — CCC — CRI — DAR — DCAS — DCB — DHS — DMR — DHWS — DTR — EDB — FHLBB — FLA — FPA — FPC — FSA — FTC — GAO — NACA — NDAC — OAWR — OCR — OWE — OFEA — OFEC — OFF — OGR — OSFCW — OSS — OWM — PBA — PWC — TNEC — USCS — WFA — WHD — WRC — WSS — FWA — NRA — NHA — FCA — REA — PCD — OPCW — WEPL — BCD — PRRA — BPA — NPPC — OC — FRC — PWRCB — BSCC — PRP — CRMB — CMB — CSAB — CPRB — CCS — PWA — AOA — EIBW — EHRA — CPA — PRA — EPCA — FPA — OES — PAW — NIRA — USMC — HOLC — AAA — NYA — SSB — BWC — FDIC — NAC — TNA — NLRB — NHPC — NMB — USHA — USES — FIC — CWA — RA and FDR I find that it is permissible for me to wish you A HAPPY NEW YEAR!

STUPID RABBI

In Kingston, New York, Rabbi Harold Englander objected to the telling of the Christmas Story in school. He issued a statement demanding that the Christmas Carols be prohibited and that the Christmas Story not be told. Public sentiment was so aroused by the Rabbi's protest that he was asked by his own congregation to move out of the community.

Many Jews, as well as many Christians, surely will agree that the Rabbi made a serious blunder.

666 AGAIN — DAUGHTER DRAFT

The old Austin-Wadsworth Bill to draft everybody was numbered in the Senate as S. R. 666. Mr. Roosevelt has again requested a service act which would mean the drafting of everybody, including women.

I shall oppose and fight this measure. Intelligent students of the manpower shortage maintain that we do not need any slave labor to carry on our affairs. Certain regimenters would be delighted at the chance to draft our daughters and take them to the four corners of the earth. It wouldn't be long until they would be in the front-line trenches like the Russian women.

This could easily spell the breakdown of our whole domestic life.

THE CROSS AND FLAG

Here in Detroit we have no shortage of men. We have merely a problem of adjustment. Some factories have too many men, and some do not have enough.

VOTES NOT COUNTED

Michigan offers a striking example of Old Party collusion, as it relates to their determination to prevent the formation of new parties.

Following the November election, the America First committee for Oakland County, Michigan, headed by Dr. L. L. Marion, America First candidate for Governor, petitioned the State for an official re-count of Oakland County ballots. It was necessary for the committee to deposit \$670 for this purpose. The following is just a sample of the sensational results of this official re-count.

1. Out of 134 Precincts more than 100 were incorrectly counted.
2. In Precinct No. 11, only one-fifth of the America First ballots were counted.
3. In Precinct No. 17 only one-eighth of the America First ballots were counted.
4. In Precinct No. 19 only one-tenth of the America First ballots were counted.
5. In Precinct No. 21 only one-half of the America First ballots were counted.

In numerous other Precincts, blank ballots had been substituted for America First ballots.

The committee concluded after the re-count that Oakland County was just a sample of what had gone on all over the State and, perhaps, all over the Nation.

This does not dampen the zeal of the America First people. It merely proves that those of us who crusade must devise ways and means for getting honest counts when our ballots are put into the ballot boxes.

THE LITTLE FLOWER

Mayor LaGuardia of New York City is seeking a Fourth Term. Fourth terms seem to be in style these days. I don't think New York could get or deserves a better Mayor.

As a composite personality, LaGuardia looks like New York, acts like New York, sounds like New York, and thinks like New York. He personifies New York.

If he is defeated, he might want to move some place else. That would be a calamity. One thing sure, we don't want him in the Middle West.

SAGACIOUS WHEELER

United States Senator Burton K. Wheeler is a shrewd man. He is a keen observer of foreign affairs.

Mr. Wheeler realized months ago that the American people were being deceived by the power politicians and the international connivers.

Shortly after the 79th Congress met, Mr. Wheeler offered a resolution to the effect that we approve the Atlantic Charter, which Mr. Roosevelt now admits never existed in documentary form. This puts Mr. Roosevelt and his pipe-smoking and cigar-smoking pals on rather a tough spot. If the Senate repudiates the Atlantic Charter, then what are we fighting for? If the Senate demands the enforcement of the Atlantic Charter, then that puts an end to Stalin's policy in Poland and the Baltic States. It serves notice on Britain that her Imperialistic policies have been condemned by our treaty-making Senate.

CHURCHILL IS ANTI-SEMITIC?

Certain Jewish organizations do their cause great injustice by branding everyone in disagreement with them as anti-Semites. At the rate they are going, they will have everyone in the world

blacklisted but themselves.

A full page ad in a recent issue of *The New Republic* carries quotations from the late Lord Wedgwood of England. He is quoted as condemning the British policy in Palestine, and among other things, says concerning the present administration in England:

They (the British Government) don't like Jews. And there are enough anti-Semites and crypto-Fascists still in Britain to back up the Hitler policy and spirit.

CONTRAST The following were Presidential advisors in the Democratic Party in the past:

Henry Clay — John C. Calhoun — Wade Hampton — Jefferson Davis — Newton D. Baker — John Nance Garner — James A. Farley.

The following are the advisors of the so-called Democratic Party today:

Schmuel Gilman (alias Sidney Hillman) — Boss Frank Hague — David Nyhus (alias David Niles) — Adolph Berle, Jr. — Earl Browder — Boss Ed Kelly — Harry Hopkins — Daniel J. Tobin.

LLOYD GEORGE Lloyd George, the aging politician of Britain, has always been a ruthless power politician. I never admired him, now I admire him less than ever. His conduct following the last war was anything but pleasing. Now at this late date he comes out with a statement which virtually blames America for the second World War. In his interview, he accused America of not keeping her word when she did not join the League of Nations. America did not break her word in this respect. We never promised to join the League of Nations. Our over-ambitious President, Woodrow Wilson, who paraded the cities of Europe to be lionized and cheered, promised that we would join the League of Nations. But when the people examined the League document, they turned thumbs down on it.

Mr. Lloyd George's diabolical untruth is in the same class with a statement that Mr. Churchill made back in the 30's when he said, "If America had stayed out of the war and stayed home and minded her own business, the war would have ended a year sooner, and it would have saved a million lives."

BARUCH VERSUS MORGAN Two tremendous Internationalist cliques are fighting for power in Washington. One is headed by Bernard Baruch, and the other is headed by the House of Morgan. Principle is not involved. They both stand for practically the same things. It is merely a fight for power. It will be interesting to watch Baruch and the House of Morgan fight it out. Maybe it is a sham battle for the purpose of deceiving the people. If so, it is being done on a

very realistic basis, and some men not too far from the top are really being thrown to the wolves as a sacrifice to the feud. For instance, Jimmy Byrnes is Baruch's man, body and soul. Stettinius belongs to the House of Morgan. Baruch wanted Byrnes for Secretary of State—the House of Morgan wanted Stettinius. The House of Morgan won—this time.

force that can be felt among the law-makers in Washington. There **must be a Nationalist lobby in Washington.** There **must** be emergency committees, local meetings, letterwriting campaigns. Public sentiment **must** be crystallized and mobilized behind those courageous statesmen who dare defend America and her independent destiny.

Nationalism is on the march! The opportunity of America First still lives. Our course in the generation that lies ahead must be determined not by the Imperialists of London, the politicians of Moscow, but by the spirit of a new and living American Nationalism, which will flower from the grass roots of our own independent citizenry.

*Since Mr. Roosevelt's conference, it has been revealed that the OWI (Office of War Information) actually printed up about one million copies of the Atlantic Charter in the form of a document and sent it out to schools, libraries, etc., all over the United States.

READERS! ATTENTION!

The second article by the Reverend **Arthur W. Terminiello, a sequel to the one which appeared in the January issue under the title *The Cross of War*, will appear in the March issue of *The Cross and the Flag*. We had planned to publish Reverend Terminiello's second article this month, but in the light of current events, it seems important to publish a special article by United States Senator **Burton K. Wheeler** which appears under the title **Truth—First Casualty of War.****

Zero Hour!

THREE months ago Nationalism was in the doghouse. We Nationalists were objects of ridicule. The World Planners and the Super State politicians assumed that Nationalism had been duly and properly kicked in the teeth. Mr. Roosevelt, with the help of Mr. Dewey, was already planning to appoint an American representative to a World Council, charged with the authority to police the world from now on with American manhood, financed by American dollars, drawn from the sweat, blood and tears of American tax-slaves.

The Dumbarton Oaks Conference, held secretly, was put over on the American people by Mr. Stettinius, now Secretary of State. It proved to be, as Senator Wheeler says, **a plan to underwrite Old World tyranny.**

You will recall that I, almost single-handed, attempted to expose the fakery of the Dumbarton Oaks conspiracy. I went to Washington, took a taxi-cab to the Dumbarton Oaks estate, and demanded on behalf of the common people of America that I be admitted and allowed to hear what the British and the Russians were plotting on American soil—in secret.

I was met by armed guards—American soldiers—who informed me that anyone who passed through the gate without the consent of Mr. Stettinius would be stopped, and might even be shot. An honest young Army officer, who knew his orders, even admitted that they might have to shoot if a Senator or Congressman attempted to enter the Conference without a pass from the State Department.

You didn't read much about this episode in the papers, but it indeed was an historic demonstration of the fact that the time has come in America when foreigners can meet in secret and plot and plan behind an armed guard, instructed to shoot any American citizen who dares violate their secrecy.

At the time I tried to crash the gate of this Dumbarton 'Hoax,' I was made an object of ridicule. Dewey and his braintrust along with Roosevelt and his braintrust had both endorsed the Dumbarton debacle.

Nationalism reached its all-time low in the late summer and early fall. The smear gang, the international propagandists, the European moochers, the Old World chiselers, and the Communist and Imperialistic propagandists were determined to crush and annihilate completely all semblance of Nationalism and America Firstism in the United States.

With the help of both Roosevelt and Dewey, such men as Hamilton Fish and Gerald Nye were defeated for re-election to Congress.

On the morning of November 8 the America Last gang were rubbing their hands, hissing through their teeth, and with gloating chuckles boasting how they were going to 'steam roller' our nation into a super world machine that would virtually make of Nationalism a crime.

Then came the dawn. Greece and Poland saved America. Suddenly we realized that Britain and

Russia were competing with each other for power in Europe. Civil strife in Greece revealed this fact in bold relief. The moment Churchill sent British troops against Communist hoodlums in Greece, the American Communists and fellow travellers took down their hair and proceeded to 'tattle-tale on Churchill's imperialistic ambitions.'

Overnight, we realized that there were two Polish governments—one, a British puppet, the other, a Russian puppet. Then came the 'slaughter putsch' not von Rundstedt's meat-chopping machine. It came not only as a surprise, but like a bolt out of hell, carrying with it the horror and the bloodshed that could only be produced by a super-super infernal machine.

With our boys dying by the thousands, and our casualty list approaching the one-million mark, the eyes of millions of Americans were opened to the fact that the British and Russians were playing power politics, while our boys held the battle-line. Then like a bolt out of the blue, President Roosevelt confessed in a press conference in Washington that the Atlantic Charter, as a document, had never really existed.* This was the most brazen admission to fall from the lips of any prominent politician since Willkie admitted that his 1940 campaign speeches were only 'campaign oratory,' and it was comparable to Mr. Churchill's boast when he said: "I have not been made his Majesty's Minister to liquidate the British Empire."

The secrets of the power politicians leaked out, because the British propagandists in America and the Communist pro-Russian propagandists in America began to quarrel. **They exposed each other.**

Nationalism came to life almost as suddenly as a resurrection. Overnight, it dawned on millions of people who had been blinded heretofore that we must under no circumstances trust the destiny of our Nation with the power politicians of the Old World. It was as though George Washington had risen from the grave to repeat his Farewell Address.

United States Senator Burton K. Wheeler, long the idol of Nationalists, proved to be the man of the hour. The opportunity had come for him to speak, and he spoke. No one should fail to read his speech contained in this issue of *The Cross and The Flag*.

American soil is now fertile for Nationalism, as it has never been. If we lose to the Dumbarton Oaks crew, the Senator Ball clique, the Claude Pepper gang, or to the power politicians of Europe and their treasury-looting conspirators, it will be because we Nationalists failed to act with promptness, precision and courage.

It is my deep conviction that the events of the last three months have made Nationalists out of Congressmen and Senators in ever-increasing numbers. They are now feeling the pressure of an awakened and enlightened public sentiment.

Normal reaction is not enough. It must be channeled, organized, and developed into a striking
