"THE VALUE OF THE BALLOT DEPENDS UPON THE POLITICAL EDUCATION OF THE PEOPLE"

Persons well informed politically know that New Dealism is "creeping collectivism", sometimes called "planned economy",—polite language for Marxian Socialism—with the goal destruction of private property and dictatorship.

IF you have a home,
you have a farm,
you have a life insurance
policy,
you have a savings account,

IF you have a business,
you have a job with private
industry,
you believe in private
initiative and individualism—

You Must Actively Oppose New Dealism by Arousing Public Opinion to the Defense of Private Property.

HELP SPREAD THE FACTS

THESE PROVEN FACTS ARE INDICATIVE OF GREAT STRENGTH

Do you realize — That there are **over 800 national Communist, affiliated or cooperative organizations**, with thousands of state and local branches, in action in the United States today?

Do you realize — That there were **25,000,000 books and pamphlets** issued on thousands of Marxian, Communist, Socialist, atheist and other subversive subjects in the United States during the last two years?

Do you realize — That Moscow maintains sections of **over 65 Internationals** of Communist, atheist, pacifist and revolutionary action in the United States, and that it directs these movements from Moscow and that from these 65 Internationals spread hundreds of national movements with thousands of local sections in the United States?

Do you realize — That there are over **600 Communist newspapers and magazines**, printed in all languages, circulated regularly (monthly, daily and weekly) in the United States today?

Using Trojan Horse tactics, advocated by the Communist International, the well organized **minority** now in the driver's seat in Washington have succeeded in concealing their aims and confusing the minds of the American people.

You know how closely the New Deal has adopted the program of the Socialist Party of 1932 "against trustified capital". The Daily Worker, organ of the Communist party, says, "The President's program . . . is a fine beginning . . . let's go on from there".

You know that government has appointed to office men who do not believe in private property.

You know that the inalienable right of private property is being so hamstrung with regulations and taxation, combined with the dangerous credit and currency system, ("We planned it that way") that private initiative is all but destroyed.

You realize that professional politicians and political parties must capitalize on public opinion as they find it. They do not attempt to form public opinion.

You realize that this is the reason why there has been no well organized political opposition to New Dealism.

You know these things to be a fact, but the average citizen does not.

Therefore, with these self-evident truths, let's face the facts and act accordingly.

Public opinion, both locally and nationally, must be aroused for the defense of the right of private property.

LEGISLATIVE POLITICAL SOCIALISM IS DANGEROUS

The voter must be made to understand the true meaning of the so-called "experiments of government" in the light of the Socialist State.

Legislative Political Socialism — planned destruction of private property — is the real cause of our troubles today.

International Communism and Socialism must be attacked and exposed openly and courageously.

IT IS LATER THAN YOU THINK

The unfortunate thing is that a large percentage of the bewildered populace consists of intelligent, educated, well-meaning, and influential citizens, who mistake their quick grasp of glittering generalities for a deep understanding of the problems that beset us. Will Rogers never said a truer thing than when he remarked that "the trouble ain't that people are ignorant — it's that they know so durn many things that ain't so!"

Isn't it about time we do a little planning ourselves and get America out of the RED?

WHY BEAT AROUND THE BUSH?

The only way to combat Socialism, Communism and subversive activities is to encourage and support organizations that are fighting YOUR battles, either by financial contributions or by buying and distributing their books and pamphlets.

The League for Constitutional Government has never attempted to beat around the bush. In 1936 we issued the following statement:

"The League for Constitutional Government was established in 1934 to place before the American people, using every method of publicity, information relative to subversive activities in the United States which attempt to create a Socialist or a Communist world State.

"We have published and distributed during the last two years tens of thousands of pamphlets which have gone to all parts of the United States. We have recommended and sold thousands of books exposing unAmerican activities. The information made available through this organization has been used as the basis of many important speeches by leaders of American thought.

"We have been able to do this because of the splendid cooperation we have received from individuals and organizations which have purchased our own, or recommended, literature in large quantities for re-distribution amongst their friends or the members of their organizations".

Your Cooperation Is Needed To Help US Fight YOUR Battles
