

120 1/18/41

Rep. Joe Starnes of the Dies Committee has a series of three: H.R.1435 provides for exclusion and deportation of aliens who advocate, or belong to an organization (union) which advocates "the making of basic changes in the American form of government"--such as an amendment to the constitution, single-tax, etc. H.R.1436 calls for the deportation of any alien who has "voluntarily admitted in writing" that he has engaged in sabotage or espionage. This is something third-degreeing G-Men and other cops would lick their chops over. H.R.1636 provides against employment of aliens by the government unless there is no American citizen available for the job.
