His True Colors 5/26/39

• State Senator McNaboe, already a notorious Hearst stooge, showed his true fascist colors at a disgraceful un-American meeting here two nights ago.

As the chief rabble-rouser, he made a speech, which was nothing, if it did not spew all the poisonous filth of Hitlerism. So much so that voices from the audience responded, "throw the Jews out of Christian America."

The meeting gave a clear example of how the fascist termites masquerade under names near to the American people such as "pro-American" and "patriotic." Its sponsors were the American Patriots, Inc., the American Federation Against Communism, the Christian Front and the American Nationalist Party. Allen Zoll, of Hitler's German-American Bund, was chairman.

The whole gang of them are out to undermine American democracy under cover of a red-baiting smokescreen. That includes McNaboe who is no stranger to the fascists or any of their Hitlerite policies. His whole role in the State legislature has been to push (with GOP backing) all sorts of stormtrooper legislation, curbing civil and democratic liberties—all in the name of saving the state from "communism." McNaboe was at home with allies and friends.

But the voice of the people was heard in such a meeting of the Council Against Intolerance in America as took place in Brooklyn the same night. Here 2,500 Protestant, Catholic, Jewish and Negro people pledged their unity against the fascism that the McNaboe-Bund tie-up represents, and for American democracy.
