Room 220 is the office of Senaor Robert Rice Revnolds of North Carolina—the chairman of the trategically vital Senate Military Affairs Committee.

And from this office Reynolds lirects the disruptive, red-baiting, nti-labor, anti-United Nations ropaganda of The Vindicator association, Inc. and its monthly rublication, "The American Vinicator."

Reynolds is the editor of the 'indicator and the president of he Vindicator Association.

On two occasions within the last hree weeks, one of them as reently as last Wednesday I obained copies of the Vindicator in teynolds' office.

I walked into the office, decorted with a stuffed moose head nd other trophies of Reynold's unting trophies, and asked a ecretary for a copy of the Vinicator.

The girl in the outer office told le to go into an inner room here another secretary picked off ie issues I asked for from a large undle on top of a book case.

It is important to note that oth these occasions were after ie announcement by Reynolds st month that he was disband-

ing the Vindicators Association. Even more significant is the fact that the July issue of the Vindicator, which came out in the middle of this month, appeared well after Revnolds' announcement.

Another relevant item is that the organizational and editorial offices of the Vindicator and the Vindicator Association are still maintained in the basement of Reynolds' white brick house in back of the Supreme Court build-

Gilt lettering on the windows still proclaims the names of these fascist propaganda outfits and the slogan: "America for Americans."

There is no dcubt about it. Reynold is still carrying on his fascist propaganda activities.

These activities are enough to qualify him for investigation by the Grand Jury which has just indicted 28 pro-Nazi conspiracyand more than enough to disqualify him as chairman of the Senate Military Affairs Commit-

At the age of 57, Reynolds married (it was the fifth time for him) the 20-year-old daughter of Evalyn Walsh MacLean-whose home in Georgetown is the favorite hangout of Finnish Minister Hjalmar Procope and many prominent defeatists.

As a result of this marriage. Reynolds is now well-heeled, and it would be worth knowing how much of his newly aguired income pours into disruptive and defeatist propaganda.

When the Nazi legions were marching through Europe, prior to declaration of war against the United Axis, Reynolds never made a secret of his admiration for the Hitler regime.

Reynolds was tied up with several of the Fifth Column groups named in the Grand Jury indictment here on Thursday.

"NO COUNTRY BUT THEIR OWN"

HOUSTON, Tex. - This country got rich minding its own business. It is going broke trying to mind other peoples' business. Poets, dreamers, and internationalists presently controling one federal government are asking us to engage in a crusade to impose our ways and our ideals upon a billion Asians, 500 million Europeans, 150 million South Americans, and 140 million Africans-none of whom likes us or trusts us.

The loyal American majority is fixing to elect a congress this year and a Preisdent in 1944. who will remember that their first duty is to protect the life and welfare of our own republic. That job promises to be a tough one. We need toughminded real Americans, loyal to no country but our own, to handle the job.—J. B. H.

This is a typical piece of Fifth Column propaganda from the July issue of the Vindicator, the general idea being that the United States ought to "mind its own business"-in other words get out of the war against the Axis.

quently mailed out postage free under government frank by the Viereck propaganda mill in the office of Rep. Hamilton Fish.

Another organization which the Grand Jury charged was used in

furthering the Fifth Column conspiracy to undermine the morale of the United States army was the Coalition of Patriotic Societies headed by John Trevor.

Reynolds was closely associated with Trevor. On a number of occasions he inserted statements by Trevor in the Congressional Record, and he once sponsored Trevor as an isolationist witness before the Senate Foreign Relations Committee.

There is no reason to believe that Reynolds underwent any sudden transformation in his views and associations following Pearl Harbor. On the contrary, the tone and character of recent issues of the Vindicator definitely rules out any such suggestion.

Reynolds has cleaned out some of the more blatant anti-Semitism and pro-Nazism which used to dominate earlier issues of his publication, but substantially the Vindicator remains the same.

FIFTH COLUMN SHEET

The July issue contains Reynolds' new five-point program. It starts with a phony "win the war" plank which exposes itself by calling Lend-Lease a "world-wide WPA" and referring to the war against the Axis as a "bloody mess."

The second point calls for cutlawing the Communist Party, and quotes approvingly from Attorney General Francis Biddle's decision to deport Harry Bridges. The third point is more of the

same in different language and urges abolishing "all isms except Americanism."

Like all Fifth Column publications, Reynolds' Vindicator is continually carrying on a violent crusade against the Communist "menace."

The fourth point in Reynolds' program is "Stop all immigration now," and reflects the violent anti-alien, anti-refugee prejudice which has long been one of the stand-bys of the North Carolinian and particularly at the present moment plays a dangerous divisive role.

Reynolds winds up his program by urging support for the bill requiring the registration of all unions. This would in effect mean the incorporation of unions, and would lead to the destruction of the labor movement through legal technicalities and lawsuits.

As would be expected, Rep. Martin Dies of Texas is one of Reynolds' heroes and is featured in virtually every issue of the Vindicator.

The Vindicator reprints editorials and cartoons frequently from the big defeatist daily newspapers-particularly from the Chicago Tribune and the New York Daily News.

While Reynolds now claims to be a supporter of the war, little items in the Vindicator frequently illuminate the real Fifth Column and anti-war character of his program.

GOV'T MUST ACT

There isn't any doubt that this is real Fifth Column stuff—just the kind of stuff which the Grand

Jury cited in its indictment of the 28 subversive conspirators.

The "mind our own business" line is only a thinly-disguised way of calling for an end to the war. The transparent effort to divide the United States from the rest of the United Nations and from the peoples of the world is the theme which recurred throughout practically all the quotations of Fifth Column propaganda cited by the Grand Jury.

The Vindicator is of a piece with defeatist publications like William L. Griffin's "The New York Enquirer" and Gerald L. K. Smith's "The Cross and the Flag," which were named by the Grand Jury as part of the Fifth Column conspiracy.

Reynolds' propaganda machine ought to be put out of business. As for Reynolds, he should be removed from his post as chairman of the Senate Military Affairs Committee and his Nazi and Fifth Column should be thoroughly investigated by the Department of Justice with a view to speedy action.
