'Flying Squadron' Beats Leader of 'White Front'

By United Press

MIAMI, Fla., March 21—Activities of a "flying squadron" formed to combat the "white front," an anti-Semitic organization, sent one man to a hospital with a fractured skull today.

The "flying squadron" slugged William R. Lyman, 33, admitted member of the "white front." W. R. Harlow, a bystander, also was beaten and suffered lacerations about the head. Police said Mr. Harlow was not a member of the "white front" and apparently was involved in the fight by mistake.

"White front" literature describes the organization as a "militant anti-Jewish society, defending the white race and the Stars and Stripes whose membership is open to any white gentile American." Mr. Lyman's beating followed cancellation of a scheduled public mass meeting of his organization.
