Let all good conservative Democrats get together and unite and march to the election polls on election day and vote for Willkie for President against President Roosevelt. We have had enough of this crackpot New Deal administration. The American people don't want a dictator in this country. I don't blame good, honest old Jim Farley for quitting, as he does not want any part of this third-term business. Jim Farley is only one good Democrat that has been given a raw deal by the New Dealers and the President. There are lots more like Farley that won't forget how to vote on election day. President Roosevelt has wrecked his party by his third-term intentions.

JOHN APPLETON.
