

January 24, 1939

A letter from an ardent American Legionnaire in Michigan stating how a resolution was passed during a post meeting urging more funds for the Dies Committee. There was no previous discussion on the resolution and the chairman stated that it was imperative that the resolution be passed that night.

While members of the Post would all be willing to vote for funds for ~~the~~ a Committee that would investigate UnAmerican activities but have been very critical of the way Dies Committee has been conducting the investigation.
