

## Voorhis Brands Dies Undemocratic

WASHINGTON, Dec. 11—Representative Jerry Voorhis (D., Calif.), a member of the Dies Un-American Committee, today accused the committee of using "undemocratic" procedure in its denouncing of consumers' groups as "Communist fronts."

Voorhis charged that the attack launched through the newspapers this morning was "purely and simply" the opinions of J. B. Matthews, counsel for the witch-hunting group.

The California congressman said that the report in question "was released suddenly to the press from a one-man subcommittee before the other members of the committee knew it was in preparation."
