

**Would Continue
Dies Investigation.**

By H. J. Langham.

The Dies Investigation should be continued because:—

1. The Gallup poll shows 74 per cent of Americans favor it.
2. Americans are anxious to know the Coster-like individuals and organizations which are hypocritically masking their insidious and subversive activities behind high-sounding names.
3. Further investigation should throw some light on the internationalists and collective Security Boys who would have Americans fight on Communism's side against the other "isms."
4. Many Americans would like to learn why Father Oughlin, Boake Carter and others are denied the freedom of the radio air waves. This un-American radio censorship and denial of free speech should be explained by those groups or powers responsible for this condition.
5. Our democracy will crumble if we do not expose the "termites" gnawing at its foundations. The Dies Committee has them on the run and should be allowed to continue the good work.

Brooklyn.
