Some Questions for Tydings and Dies

T.W.
8/27/34

• The discovery that Frazer Gardner, who had applied several times for a job with the Dies Committee, was actually a concealed Silver Shirt, raises some interesting questions.

For Gardner himself has blurted out the information that one of the persons who recommended him to the Dies Committee, was none other than that Garner Democrat, Senator Tydings of Maryland.

Exactly what was Tydings' relations with this under-cover agent for the Nazi-affiliated Silver Shirts? And what is Tydings' connection with the Silver Shirt organization itself, which is directly tied up with the Nazi Bund and transplants Hitler's detestable race "theories" and anti-Semitism to American soil.

And by the way, why did it take so long for the Dies Committee to discover that it had been duped by a Silver Shirt agent? Was it because Rep. Dies himself is so much in sympathy with the aims and methods of the Silver Shirts?
