

Blowhard Dies Gets His Trumpet Ready

PM's Bureau 42

WASHINGTON, Dec. 15.—The Dies Committee apparently is getting ready for a new attempt to break onto the front pages. The Committee has been granted authority, under an Executive Order signed by President Roosevelt, to inspect income tax returns. The order was published in Saturday's issue of the *Federal Register*.

The new request indicates that the Dies Committee, which has been dormant in recent months, is getting ready to move again.
