Charter Denied Order Seeking Promotion of "White Supremacy"

ATLANTA, Oct. 17 (A. P.).—The American Fascisti Order of Black Shirts, which sought incorporation in Georgia and listed among its purposes promotion of "white supremacy," was denied a charter in Fulton county court today. Judge G. H. Howard, denying the charter, said some members of the order apparently misunderstood the term "white supremacy," and sought a charter authorizing both legal and illegal acts.

The American Fascisti Order of Black Shirts, chartered at Orlando, Fla., and which interened to oppose the charter for the Georgia order, was enjoined from operating in Fulton county. Evidence at the hearing showed several Atlanta firms had received demands from the Black Shirts to discharge negro laborers and put white men in their places.
