Appeal to 'Hundred Million Aryan
Citizens' to Join Battle

~~7/10/37~~
The German-American Bund, official Nazi organization in the United States, held its fifth annual convention at a closed meeting yesterday at the Biltmore Hotel, at the end of which a statement was issued declaring that "our battle is the battle of all the hundred million Aryan (white gentile) citizens of these United States," and that this battle "can and will be won."

Re-electing its leader Fritz Kuhn for a four-year term, the bund's statement proclaimed him "the best-hated German-American."

Telegrams, according to the statement, were sent to the President of the United States and to other officials of the Federal Government, and a resolution was adopted "demanding the dissolution and prohibition of any and all parties and organizations not absolutely nationalistic, God-fearing and sworn to uphold and defend the United States as an independent and sovereign nation."
