'Save Indians From Reds,' Is Slogan for Fascist Meeting

LOS ANGELES, July 18.—Defense of native American reds (Indians) against so-called foreign reds (Jews) is one of the announced purposes of a fascist convention to be held here August 6-8.

The brazen attack on democracy was carried in the "Special Vigilante Number" of the Christian Free Press, pro-fascist paper.

Pages of the paper are devoted to a speech of Henry Allen, alleged Nazi agent and arms smuggler, who goes on trial today for fraudulent registration. Allen has served terms in San Quentin and Folsom for felonies and is thus legally barred from voting.

Typical of the call to the fascist conclave was the following appeal addressed to "American Indians":

"American Indians must be defended against Jewish attempts to Bolshevize them and rob them of their land."

Chief purpose of the conference according to the call, is "the imminent danger of Sovietizing the Pacific Coast by Jewish Communists."
