## **INQUIRY IS STARTED ON GERMAN CAMPS**

Cummings Orders G-Men to Check Up on Activities

Under Federal Law

ACTS ON PLEA OF CITRON

Meanwhile Fritz Kuhn at Andover, N. J., Says He Welcomes Investigation

dover, N. J., Says He Wei-comes Investigation WASHINGTON Asig. 18 (49).-G-men began to scrittinize certain German-American camps today to discover whether aily were being operated in violation of Federal law. "It is really more of a check-up than a formal investigation," At-torney General Cummings told re-porters, "but I have iasked the Fed-eral Bureau of Investigation to make a cursory fexamination to ascertain if there are any facts war-ranting further investigation." The government's attention was brought to the camps several weeks ago by Representative Citron, Con-necticut, Democrat. He asked the State Department to ascertain whether "Nazi military training camps" were being sponsored in this country by German consulates. Because letter which Mr. Citron submitted contained other charges, State Department officials referred the matter to the criminal division of the Justice Department, headed by Assistant Attorney General Brien McMahon. Some of the letters to Mr. Citron alleged that seventeen camps had been opened throughout the coun-try in addition to a large one at Andover, N. J.. They protested that the camps might be violating Fed-eral laws by the shipment of un-registered firearms across State lines. Mr. Cummings said a week ago only a "bird-dog" stage and that his department was "sniffing around."

Kuhn Welcomes Inquiry Special to The NEW YORK TIMES. CAMP NORDLAND, ANDOVER, N. J., Aug. 18.—Fritz Kuhn said here today that the Federal Govern-ment was welcome to investigate the German-American Bund or its camps, since they had nothing to hide. "We are strictly an American organization, with no connections with Germany!" he declared. "We knows that the malicious propaganda against our organiza-tion and our camps has created bad feelings among our American citizens which we do not deserve. As a matter of fact, we are the only movement which fights com-munism successfully, and for that reason alone we are being attacked by Mr. Dickstein and his hench-men. "We are proved of being attacked

by Mr. Dickstein and his hench-men. "We are proof of being attacked by characters like that of Dickstein, who has imbedded into the Ameri-can public nothing but lies. Dick-stein is a disgrace to this country. The aim of the German-American Bund is to unite all Germans and Americans in gur country to a united front against communism. We do show the Nazi emblem along-side of the American flag, with the biggest respect for Hitler and his movement in Germany, fighting the world's madness, communism."
