And American Fascists Are Still Fighting For The Axis

By L. M. BIRKHEAD, National Director Friends of Democracy

Attorney General Biddle does not like Fascists. But the Fascists — especially the American variety — liked Attorney General Biddle. They liked him because he said:

"Free speech, as such, ought not to be restricted."

See what the Fascists have to say about Mr. Biddle's interpretation of free speech:

WILLIAM KULLGREN, publisher of "Beacon Light," Atascadero, California: "... the fine, soulful utterances of Attorney General Biddle."

LEON DE ARYAN, publisher of the "Broom," San Diego, California: "The meetings held by Robert Noble in Los Angeles (meetings which caused his arrest by the F.B.I.) have been declared fully within the law by none else than the United States Attorney Biddle..."

WILLIAM DUDLEY PELLEY, publisher of "The Galilean," Noblesville, Indiana: "Attorney General Biddle... a real lawyer and knowing his Constitution..."

Mr. Biddle probably is not so popular with the native Fascists now since he ordered the arrest of George Christians of the Crusader White Shirts and notorious William Pelley.

That is fine. Mr. Christians is a good man to have in jail, but there are others. Here is what they have been saying this last month. Is this free speech or sedition?

Publisher of Social Justice.

"He (Roosevelt) knows Britain's weaknesses and her record of unfulfilled promises... He knows the story of Dunkirk, which will always remain memorable; for it was from that town the English fled, leaving the French (as they left the Belgians) to fight alone. In his enthusiasm Mr. Roosevelt, we hope, will not place too much confidence in Britain's promises."

Feb. 16, 1942

"He (the man in the street) may entertain doubts as to Britain's ability to fulfill her promises even to Australia, following the betrayal of France, Belgium, Norway, Poland, Holland and Singapore."

"Social Justice was adamantly opposed to all Administration measures before Pearl Harbor that involved this nation in the war and doubtless gave Japan her lame excuse to attack America in the treacherous manner that she did."

"We maintain that the United States was unprepared for war... But that opinion did not prevail. We were attacked."

"Make no mistake about it, Communism is an immediate and present peril to America. It is, perhaps, more immediate and perilous than even the military might of foreign countries."

March 2, 1942

"In fact, we are becoming more and more convinced that the radicals who have seized our Federal Government care not one whit about driving Hitler from the face of the earth."

"To our mind (Bombing of Paris) was in the same pattern of strategy which impelled Britain to fire point blank on her ally's navy. But worse than that, it changed the French spirit overnight from one of non-belligerency to one of belligerency."

"Now there is no question as to where France stands. Churchill has settled it if there was a question."

"And if France is an object lesson to the world of Britain's perfidious foolishness, soon Spain, Portugal and Turkey will remember the non-delivered goods promised to Poland, Czechoslovakia and Singapore; soon, these countries will remember what happened to Paris; soon, in self-defense, they will safeguard themselves lest they become future victims of Churchill's blunders."

"How long will this war be pursued in America? Will Americans graciously bow down to all the totalitarian decrees which will restrict their sugar, their motor cars, their oil, their apparel, their way of life and their pocketbooks simply to satisfy the ambitions of those who translate victory by the complete overthrow of their enemies? Or will the American people want to listen to reason and terminate a war which now no one can completely, and which Americans can lose completely?"

"We will leave that answer to the Jews whose sons exercise so much control in the matters of communications, press, cinema and radio—and Government."

"Supposing the Axis powers, plus the hundred of millions of Asiatics choose to interfere in the internal troubles of the United States, will it be logical for us to protest, now that we have adopted the principle of interfering in the internal troubles of Germany?"

"Having abandoned that principle of 'no foreign entanglements,' as it is popularly called; having adopted the principle of world-wide foreign interference in behalf of Jews who are enmeshed in an internal struggle inside some nation, there are dark days ahead for this country, win, lose, or draw."

March 23, 1942

"The worst possible injustice that Social Justice could do to the Jews of America would be to discontinue publication of its own volition, seizing this opportunity to blame the Jews for our retirement. Were we to succumb to such a satanic temptation, the pogroms which

crimsoned the soil of Europe would rank as a poor second to what would occur on the streets of New York."

"In the first place the United States should not have gotten into the war at all... To rationalize that the United States got into the war because of an unprovoked attack at Pearl Harbor, is fiddle-faddle. Unprovoked, indeed! All Americans are not fools!"

"The typical American... is reaching a mood of civic surliness where unwittingly he gloats when the Axis Powers report success abroad—even against our own forces."

"... the emasculation of our naval and military forces that Germanic Europe may be crushed in the interests of English imperialism and revitalized Zionism, spreads the subconscious realization that this is truly a war of foreign accommodation and convenience, and America's role is neither rational nor honest."

Feb. 16, 1942

"Germany is coming to the fore all of a sudden because she typifies the best and finest flower of Xanthochroic ('fair white') culture. But the same token, Nippon is coming to the fore in the East because it typifies the best and finest flower of the Mongolic culture."

"Hitler, in cleansing the Germanic bloodstream of this inferior infusion, performs a vast service not only to the German-Xanthochroic nationals but to world-humankind in general—and is rewarded with political and military ascendancy and an overlordship of all decadent Europe. The Orient, being predominantly of Mongolic composition, is being serviced through a similar renovation at the hands of the reputedly and cosmically identified Adomic Nipponese. The best that maintains in Xanthochroic culture, therefore, assumes a leadership role in the Occident, and the best that maintains in Mongolic culture assumes a leadership in the Orient."

"The British air-raiders stormed Paris Monday night totally destroying the largest ship-building plants in France, killing 600 workmen and disabling 1,000—all because this otherwise idle factory was not engaged in constructing war planes and other equipment for the Hitler warriors. But when Henry Ford refused contracts in which foreign warships and bombers were to be constructed, the English and other war-mongers booed and hooted at this conscientious American citizen. Did the British war-lords ever offer the Paris shipbuilders any construction contracts? This is just to show the inconsistencies of the average war-monger—at home or abroad."

"With your loyal support and distribution to right-thinking Americans the Mongolian Jew Controlled Roosevelt Dictatorship will be smashed. Foreign Jewish Financiers driven from our country and the Nation restored to sanity, good government and prosperity, with a reaffirmation of our Declaration of Independence."

"The Synagogue of Satan (Organized Jewry International Finance) is now sending up 'trial balloons' to see whether it dare call off elections for Congressmen (as had been done in Synagogue of Satan ruled England), or whether a change, other than by elections, be made in the Presidency. A revolt via the ballot this fall holds distinct danger to the Synagogue of Satan, so it may try thwarting by tactics used in England."

ELIZABETH DILLING,
Publisher of the Patriotic Research
Bureau

Chicago, Illinois

"The Germans... are holding down half the world, they menace the British Empire but are less of a menace to us than ever before. Loading our government with Communist incompetents, the way it is loaded from the White House down, stripping our boys of arms and leadership and letting them be slaughtered like sheep as at Pearl Harbor, sending them all over the world poorly armed, leaving our Pacific Coast—God knows how unprotected from attack—are real dangers. Whether the Suez Canal or Libyan Desert is controlled by England or Germany, whether the Sassoons lose their Chinese opium monopoly or not, would alter our fate."

February, 1942

COURT ASHER,
Publisher of the X-Ray

Muncie, Indiana

"Christ had no use for the Jews, and said so. But Roosevelt and the New Deal seem to want to be greater than Christ."

"Pearl Harbor sank more than battle wagons; it sank the hopes of Jewry in this country—and the world—for ever, Amen and Amen."

Jan. 31, 1941

"It is time to IMPEACH Roosevelt, if he will not, in the interest of the country step aside, and permit some qualified American to direct our war effort who will look to the interest of our own men and country FIRST."

"There are a majority who believe if Roosevelt had kept his nose out of foreign affairs, we would not have been in the war today."

"We contend that Moscow and Tokyo are pals, operating under a secret alliance!"

"Unbelievable as it is, there appears to be a dastardly plot hatched in Moscow, blessed in Berlin, grinned at in Tokyo and executed in Washington to defeat the United States from within!"

Feb. 28, 1942

"... the New Deal... (is) without a doubt the greatest band of thieves ever known to man..."
