

# THROUGH FAKE-AMERICANISM to FASCISM

Once more, New York is to witness a circus of the Goebbels-style, under command of Fritz Kuhn and his trained storm-troopers of the "German American Bund." Madison Square Garden is to provide the arena, while the name of George Washington, America's foremost revolutionary hero, is to serve as publicity stuff.

Unable to rally any number of German American groups to its Swastika, the Hitler-inspired Bund now tries to misuse American traditions and its heroes to establish an American forum for the glory of Hitler and Fascist dictatorship.

NO REAL AMERICAN, who loves his democratic freedom, will fall for the demagoguery of the would-be "Fuehrers" of the Bund!

NO SINCERE CATHOLIC—NO PROTESTANT will provide an audience for the crackpots of a foreign idea of Race-hatred and totalitarianism. Every lover of freedom, culture and humanitarianism realizes, that every penny paid for admission helps fill the coffers of the un-American Bund and every seat filled with harmless attendants gives rise to the appearance of strength, which does not really exist. America is disgusted with the Nazi attempt to besmirch the memories of American heroes and the American flag.

German-Americans are disgusted with the "Bund" and the Hitler-spies because it is through their activities that the future of every loyal citizen of German descent becomes endangered.
