**Demand** *3/30/39*

SAN FRANCISCO — Thorough agreement with the policy of the Maritime Federation of the Pacific in demanding an investigation of the German-American Bund was voiced in a letter from Congressman Jerry Voorhis, of California, this week to Secretary Bruce Hannon.

Even before the Dies Committee began functioning Voorhis had introduced a bill in the House of Representatives making all private military organizations illegal unless approved by the President of the United States.

Voorhis' bill would outlaw such organizations as the German-American Bund. In view of the recent moves of Hitler in Europe and the possibility that world warfare may soon begin, Voorhis' bill is now being discussed as an essential measure to be passed by Congress.
