Legion Rally Calls Nazi Bund Menace to U. S.

Vigorous repudiation of the Nazi Bund as a direct threat to American democracy was voiced by speakers at an Americanism Rally of the American Legion held at Bronx Winter Garden on Feb. 23th.

Declaring that American institutions and liberties were threatened by such activities as the recent Bund meeting at Madison Square Garden, Vincent F. Browne, vice-commander of the American Legion Dept. of New York, stated that the only lasting guarantee of democracy was the strengthening of the standards of Americanism.
