

# Radio Station Bars German Broadcast

T-H 87140  
WHIP Calls Off

Regular Program of  
'National Alliance'

CHICAGO, Aug. 6 (C.T.P.S.).  
Radio Station WHIP, at Hammond, Ind., has notified the German-American National Alliance that its German-hour program will not be accepted for broadcasts after next Saturday. The decision, it was announced, was made by the station's directors.

"The primary reason for using any foreign language on the station has been to facilitate better understanding of American institutions," said Dr. George F. Courrier, president of the Broadcasting corporation.

"It is obvious that the German-American National Alliance represents a minority group of the American populace. Although it is important to America to allow minorities to plead their cases at the bar of public opinion, and that no essential right shall be denied them, radio broadcasting cannot be regarded as an essential right.

"Radio broadcasts should be used to solve problems rather than to create them. Any broadcast that engenders social conflicts or kindles hatreds cannot be construed as serving the public interests."
