

# Says Own Books Dispute Dr. Ross On Nazi Aims Here

Former AAA Adviser  
Quotes Tracts on  
German Tactics

By his words Dr. Colin Ross, ace Nazi commentator on the Western Hemisphere, has been telling Americans on a lecture tour that Adolf Hitler and the Nazis do not even "think about conquests in your hemisphere."

But by his published works, it was charged here today, Dr. Ross has revealed an entirely different story. It was Dr. Ross's "explanation" of German trade activities in Latin America which provoked Mayor La Guardia's blast last night in San Francisco.

The charges here were made by J. Anthony Marcus, former trade adviser to the Agricultural Adjustment Administration and president of Good Will Counsellors, Inc., of 576 Fifth Ave.

#### Recalls Lecture.

Mr. Marcus, recalling Dr. Ross's disclaimer that he had "nothing to do either with the German government or the Nazi party," asserted that the journalist lectured on American affairs at the Geo-Political Assn. in Munich, headed by Major General Karl Haushofer.

German general staff officers and diplomatic officials attend this school for their foreign affairs schooling, Mr. Marcus declared. He said he based his statements on "120,000 documents on German penetration in Latin America," compiled by the Good Will Counsellors, a trade promotion group.

Dr. Ross, according to Mr. Marcus, also has written three books, published by official Reich publishing houses, on German tactics to be used in the western world.

"American Balkans."

"Unser Amerika"—"Our America"—depicts the United States as the creation of German migrants, with 20,000,000 German-blooded residents as a nucleus for Nazi expansion, Mr. Marcus said.

"Der Balkan Amerikas"—"The American Balkans"—describes Central America as the focal point for control of the western hemisphere. "Der Pacifik—Der Ozean Der Entscheidungen"—"The Pacific—the Decisive Ocean"—indicates the strategic importance of the Pacific.

Mr. Marcus made public several extracts from these works by Dr. Ross, as translated from the German, as follows:—

"America is ours. America is ours not only because German blood flows in the veins of at least twenty or thirty million Americans . . . but because in its origins America is a creature of the German spirit. . . . The question is whether these millions of German people recognize their hour of destiny." (Pages 25 and 26 "Unser Amerika").

#### Germany's Hour.

"I believe that Germany's hour will strike in America. . . . Great historic developments usually mature underground, to rise into view suddenly, without any apparent preparation." (Page 16, "Unser Amerika").

"A new Thomas Paine is needed, one who will come from abroad and who will clearly and publicly express what lies deep in the heart of every American but which he dares not say and hardly dares to think." (Page 278, "Unser Amerika").

"The [Panama] Canal can be taken by any enemy who can bring his airplane carriers close enough. A single effective bomb on the locks can cripple canal traffic for a long time." (Page 272, "Der Balkan Amerikas").

#### Listed by Dickstein.

"We on our part are too little aware of the uniquely favorable position of Central America from the world political point of view." (Page 253, "Der Balkan Amerikas").

Newspaper files show that in July, 1937, Representative Dickstein (D., New York), in listing in the Congressional Record forty-six persons whom he described as "expert spies and agitators," included:—

"ROSS, COLIN, adventurer, journalist and lecturer; violent agitator for the 'Germanization' of the United States."
