

D6-a

Oct. 18, 1939.

Dear Dave:

Yours of 17th, with report and note personally to me, received.

I get the picture. Doing all I can, and hope to have enclosure to go with this, a little anyway. I see the other things also, and that is in other hands.

About booklet with the cover, that is OUR own production for selling -- maybe I should not have sent to you, but thought you'd see at a glance JUST WHAT it was. His speeches will have NO COVERS, and none contemplated. That is so valuable we turned it into a booklet for sale, as you'll see by looking at the back ~~over~~

We are covering up copyright on each book going out -- pasting something over it, and assume any other necessary step will be taken.

As to the story printed, that is not in my hands. I see the point.

Enclosed is material from Seventh "Golden Script." I've marked verse 30, chapter 39, page 1 of my October 16th copy herewith, which will give you an idea of the application I make in your case -- which is just what you will find to be the case. The opposite instance is indicated verse 37. (later on)

"Illegal Entry of Aliens" herewith. Called to my attention by Mr. Hatfield, and understand he has forwarded the information to the Doctor. However, here is documented case found in The Detroit Jewish Chronicle, Sept. 8th, which indicates violation of the "Aliens Excluded" statute, and that it is the regular practice and has been going on for a long time without a doubt. I think you know where to place this in good hands -- not so much for the statute quotation as the one following from the Jewish newspapers. I could dig up other Jew newspaper articles, I think, but this is a clear statement.

Sincerely yours,
