

INDICATIONS, MUNDANE AND PSYCHIC, THAT THE  
GREAT CRISIS IN AMERICA IS CLOSE UPON US. . .

¶ Paul Mallon in a recent column indicated that President  
Roosevelt was growing restless at the long, drawn-out  
debate on the so-called Neutrality Bill -- which has gone  
on since he convened the extraordinary session of the 76th  
Congress since September 21st.

¶ While the Senate appeared to be going with the Administra-  
tion when it comes to a final vote some time this week, it  
is thought the House may kick over the traces and give  
the Administration a beating. Already, the Senate has  
forced the Administration to give ground on important  
portions of the Bill, including the so-called "Cash & Carry"  
feature and on the relaxing of the drastic shipping provisions -- which  
would have taken off the high seas a goodly portion of the merchant  
vessels of the USA.

¶ There is an ugly rumor going around Washington, D. C., to the  
effect that the first of the year will bring on a worse depression  
period than we have experienced thus far. That is confirmed by private  
advice from Washington, and it was also openly mentioned in the  
Washington Merry-Go-Round column of recent date.

¶ Saturday, Oct. 21st, the Merry-Go-Round column told about the deplorable  
situation in the Army and Navy where they say political appointees  
are holding key jobs and are so tangled up in red tape that moderniza-  
tion has not gone forward. We took that one with our tongues in our  
cheeks, knowing full well that this was merely to pave the way for  
forthcoming shake-ups in Army and Navy personnel, putting men into  
key positions more to the liking of the White House, and the men be-  
hind the President throughout his career.

¶ The pay-off on this shake-up in the Army personnel in particular  
was tipped off to people who are wise by Winchell's broadcast  
the Sunday evening of October 22d. He said Mayor Fiorello LaGuardia  
had been offered the place as Secretary of War, but that he would  
not accept the position -- get this! -- "unless there is ~~an emergency~~  
an emergency," and after a short pause, Winchell significantly  
added, ". . . and there is likely to be an emergency!"

¶ LaGuardia, for a long time, has been a prospective candidate for the  
honor of the leading the Red Dictatorship, among others. Where could  
a man function better as such a Dictator than in the position reported  
by Walter Winchell to be in prospect for the present mayor of New  
York City?

¶ Sentiment throughout America is running about 95 percent against  
getting into the European war, and that is shown by mail reaching  
Capitol Hill, and even the Gallup poll waked up last week and re-  
ported overwhelming sentiment against getting into war.

¶ Where does that leave our war-minded President and his Jews?  
Pursuing the regular political procedure they see that they can never  
whip the American people into a war, and in the meantime the Jew-  
managed "democracies," England and France, are being given a swell  
shellacking by Germany on the naval and air fronts. Public sentiment  
in England is in a terrible state, with people grumbling at conduct  
of the war, and apparently the French high army officers are not anxious  
to do more than enjoy a holiday on the Western Front, and spend a plea-  
sant winter relaxing in the luxurious quarters of the Maginot Line  
fortifications. In fact, do these French high army officers want a  
war? We doubt it! That leaves the Jews in London and Paris in

what is colloquially known in certain circles as a "hell of a fix." ¶ Meantime, the much-publicized Turkish pact with England and France is so much eye-wash. It looks good, but like other Jewish contrivances, it won't hold together, because Moscow is on the muscle and is bound to get to and through the Dardanelles. So what? So they will give the Turks a taste of war sooner or later, carve up the country and that will block the "democracies" out of the Balkans "for the duration of the war," and when the war is over, it seems more than probable neither of these "democracies" will be functioning with the same type of leadership they have today. Meantime, England is sending 4 men to the Near East and India to every one she is sending to the Western Front in France -- and now Mahatmi Gandhi is making trouble again. Russia is looking to the Mesopotamia, Iran, Iraq, Palestine and finally down into Northern India, having 300,000 troops massed at the borders.

¶ That leaves the International Jews in Paris, London, New York City and Washington hanging on the ropes, and they know they need money, men and materials to help out the perilous situation in which they ~~now~~ now find themselves.

¶ This indicates, therefore, ~~through~~ that a financial-economic crash is planned, LaGuardia will head up the Army as Sec. of War, a military dictatorship is to be established soon, Congress will be liquidated under the stress of the "emergency," and then we shall have in the USA all the makings of the Red Revolution, conducted under the auspices of a special caste of God's self-nominated and appointed "saviors" of mankind.

¶ Then, consider the frenzy with which the persecution of patriotic leaders is pursued.

¶ A regular, consistent policy of persecution is pursued in regard to William Dudley Pelley.

¶ Everybody who reads the papers knows what is happening to other patriotic leaders.

¶ In fact, everyone who seems to be a potential leader of a potential opposition is being put on the spot, with the objective of imprisoning and thus put such men out of circulation.

¶ We deem that to be a positive indication of the plans that are afoot. Legality and constitutional procedure do not enter into the situation at all -- anything to put these men out of circulation.

### Psychic indications. . .

¶ Last spring -- in 1939 -- one of the Nation's best psychics said that Chief Pelley would have some troublesome experiences during 1939, but that in November, 1939, he would "be sitting on top of the world laughing at them." That has been confirmed by other psychics. November, 1939, is getting pretty close.

¶ The night of October 22d, 1939, a psychic saw the reason for the the recent attack on Chief Pelley. The Red Revolution is projected, presumably for November -- that has been forecasted many times before by this same psychic -- and the Administration wants to put our Chief behind the bars so he can do no leading of opposition forces.

¶ At the same time, this same psychic got the message that the Man in the Northwest should immediately begin gathering together his forces and prepare for the struggle which will be begun in November, 1939.

¶ Astrological setup indicates financial-economic troubles in November, 1939.
