

Washington---9-23-39

Dear friend Larry;

Just a note relative to interview of this date with The Doctor, who is in receipt of three of his books---I informed him I had ordered six more for him---
*****He informs me that in his opinion it is important that the matter of an interview, such as requested in mine of the 21 st., be indulged in for the best interests of all---Also that he had something prepared for Monday 9-25-39 which is really good indeed---It is really rich---He has adopted a new editorial policy---Doesn't want to completely change yours, but has some very good well intended advice to offer---The last Liberation meets with his approval (just off press)
*****It will do the two persons much good to compare notes, on strategy---I really know my way in this respect -----The Federal Grand Jury in The District is considering George Sullivan's and Dies Committee evidence at present in Re-Gardner, all of which I hope will lend in a "water-haul" for best reasons of all concerned, but believe you me, some people including an attorney here are very much perturbed over possible outcome---In fact I have been warned that I might be among the indicted---more stable sweepings, I would say---however one can never tell, in-as much-as one star witness was on the stand before the Grand Jury for two hours, and I personally know he doesn't exactly like me---crossing bridges when I get to them has saved me more than one real headache-----
*****I hope I will have the word on Monday Am, to pass along to The Doctor on when and where we can meet---The Doctor feels it to be necessary ---I personally have certain evidence which he would like to use--Elect. Power & etc---all of which will be instrumental in making/a better transaction of business ...Received yours of 21 st & 22 nd. in good order, many thanks for enclosure---Please inform that assistance is really needed---Can not explain all that is in the making but it is important to everyone's interests..
Sincerely your friend---Best wishes to all.

Dave
