Rogue's Gallery Snapshots Of Leading Fascists in the U.S.

• A Who's Who of the Fascists in the United States reads like a Rogue's Gallery of Public Enemies.

Latest additions to the list of the Fascist Four Hundred are the following:

SEVEREIN WINTERSCHIEDT, convicted as a sex pervert and held on the charge of sexually molesting a ten-year old girl, assistant to Fritz Kuhn, Hitler agent and Nazi Bund leader.

JAMES F. O'KELLY, a Hearst stooge, chairman of the fascist so-called Paul Revere Committee, convicted of taking bribes.

EDWARD A. RUMELY, exposed as a German spy, tool of Frank Gannett, fascist-minded enemy of the New Deal.

And these are the men who offer themselves as "saviors" of the welfare of the American people. These are the type which most appeal to the idea of Hitler's order.

The moral putrescence of these criminals draws them to the fascist movement just as decaying dung heaps attract magots.

And we have only listed the scum which has come to the surface of the fascist movements here in the past few weeks.
