Silver Shirts of America Are Mobilizing to Protect Your Life ?

--/How much are you willing to do for them ?

Suppose that the medical and bacteriological staffs of the Red army were systematically immunizing all their Red conscripts, all members of the Communist Party, and all "escential workers" against the frightful effects of one of the deadliest contagions in the world today: a plague germ worse than bubonic plague, secretly developed by Soviet Specialiss under CPU adspices perfecting and intensifying its virulence by protracted experiements on helpless "kulaks", which is said to paralyse and destroy every vestige of human and/animal life with IOO per cent fatality within four hours after exposure and infection?

What chance would opposing, non-immunized American soldiers and citizens-including in nocent women and children- have against such a weapon in the hands of atheistic Reds during that coming class struggle which, according to Varoshiloff, Soviet Commissar of War, is not far off?

Do you recall that in our American Southwest a short time ago, a malignant pestilence of hoof and mouth disease broke out?

Do you know that secret investigators of both the USA and British government could tell the American people some appalling facts about that epidemic, what caused it, and what alien purpose it wasm meant to serve if it had not been stamped out in time?

Do you know that secret control of many of our great can ming industries, particularly in the far Wost, has been planned by alien agents of America, so that "at the proper time" fatal disease seems can be introduced into America's connect foods and whole states of our population wiped out, leaving the conquest of America easier for certain Original interests who will "play with Eximaxical America easier for certain Original interests who will "play with Eximaxical Eximation with So viet regime?"

Americans in the mass are inclined to scoff at the "Reds".

They consider Communists in the United tates an excited rabble of Russian-Jegish boys with a scarlet flag in one hand an ice cream cone in the other.

But Mussolini and his Black Shirts saw nothing laughable in the depredations of the Communists in Italy.

The great German hation has seen fit to rally about an ex-sign painter, so fearful and deadly were the depredations and encroachments of the Reds in the fatherland becoming.

One branch of the police encountered in Europe, and entirely unknown here in America, is the service known as the Political Political Reside. Hest American seem to think that Political Police are those who go about enacting the ukases of government pobliticians with queer theories, seeking to perpetuate

The truth of the matter is, that so powerful, fearful and wicked are the militant activities of the Third International abroad, that the governments of Europe have to spend millions of dellars the governments of Europe have to spend millions of dollars in espionage work to search out their agents and keep

One finds them unusally active in such countries as Bathonia, Latvia, Lithuania, Poland and Finland, where a long section of Soviet bordwe is constantly under surveillance.

These hations and their governments are not "laughing" at "ommunism. They know what the GPU is doing, where it comes from for the most permicious sabotage in all countries of

They have literal evidence before their eyes in the words of Lezovsky, Secy of the Third International, who said: we carry on organized terror. When you see a bourgeois ascaping, catch him and kill him with your own hands.

Or they remember the words of Lenin: "We must have leaders who, in respect to the hourgeois, do not heatitate to use the most violent means toward those who stand in their way. It is, deceits, and treacheries to the bourgeoisie, to the lies, deceits, and treacheries to the bourgeoisie, to the capitalists and their governments --- all are justified in the sacred caused of the social revolution.

American's say, living in their Fools' Paradise of manufactured existence ignorance: "We are too far emo ved from manufactured examense ignorance: "We are too far smo wed from Russis to have that sort of thing effect the U.S." But right at this moment it has been samely estimated that there are 15,000,000 persons secretly solds to the Communist doctors have here in America One little town of 2 and annual contributions. doctrines here in America. One little town of 8,000 population in Tennessee is boasting that it has 2,000 Regroes pledged to the forthcoming revolution. Cleveland Detroit, and Chicago are seething with ignorant masses out of work and half starved, obeying the dictates of successful Red leaders, financed by millions of money. Communists are everywhere among the embattled farmers of the middle-west.

without a trace. Feed them to the snimals! cried Dzernisky, mare catized chief of the Order of Betrayal of Brothers, the Chekka or GPU, and instigator of the Red terror under which two millions of conservative Russians were slaughtered.

"We are bringing the social revolution about in merica as well as in Europe: " craed Lenin It is coming systematically stop by step, stubbornly and with gnashing of teeth in both camps. It will be long, protracted, sanguinary and cruel."

Orders to the delegates to the Third International Congress in 1930 read: "This fight, Communism, must be conducted not only by the word of mouth and by agitation, but also by action, which is to say, by a work of organization with a view to forcing the workers to participate in a direct fight against the employers, against the bourgeois state and all its institutions.

"At present, many millions of the unemployed, 30 million recorded thru out the world. are feeling the full weight of the economic crisis. The task of us communists consists of canalizing the discontented and organizing this colosal force. Give closest attention to organizing the unemployed. Involve them to the point where they cannot retreat. Compremise the retrogressive portions of the proletariat.

Suppose - that the Third International had issued secret formula and technical instructions to a handpicked personnel of the Communist Party in all countries for the manufacture of asphyxiating gases, such as were reently issued by the Spanish Communists in Red riots, and which on be carried in milk bottles, fruit jars, or any common receptacle?

What chance have soldiers, poli as and citizens against such a weapon, when the character of these gases is unknown to everyone outside of Red Russia, excepting these Communist conspirators?

Do you remember a couple of years ago that a mysterious gas cloud of drifting death fell upon northern France and Belgium and floated across the channel and up the Thames even to London itself? Do you recall how the papers, and the chemists of different countries, claimed it must have been accidental chemical emanations" coming from nearby industrial factories? Do you know that secret agents of American and English governments uncerthed information convincing them beyond doubt that peaceful industrial plants had nothing to do with it - that it was the testing out of a certain Red gas that would later be used to strike to death the civilian inhabitants of whole countrysides?

Do you know that even in free America at the present movement, stark and violent death waits upon the footsteps of men who know such facts and give them effects well to the publications.

And Senator orah, who seems to know less than a sleeping babe of what is in progress "behind the scenes", gives it out that we ought to recognize Red Russia and open our posts freely to this foreign satanic pestilen . because "the Reds couldn't get very far in capturing America even if they wanted to do so" - implying that they do not.

And yet, listen to Rykow, chief Soviet Publicist, writing in Pravada: "It is our duty to inculcate in the midds of all nations the theories of international friendship, pacificism, and disamament, encouraging resistance to military appropriations, and training, at the s me time, however, never relaxing for one moment our efforts in the upbuilding of our own military establishment."

Or listen to Lozovsky again: "The live Year Plan is not an internal plan for the Soviet Republic, but a plan for the whole world abroad, the fulfillment of hich will strike a vital blow at world imperialism:"

Or Varoshiloff, so viet Commissar of War, before the Third International in 1930: "The Five Year Plan is only part of our military preparadeness plan. Our Farm collectivization and our oreation of 'grain factories' thru, our compulsory mobilization of farm workers, is to insure supplies for our Red Army where we move on Europe, and the prevent the appearance of a discontented individualist peasantry behind our lines in the coming war which is not far off:"

Do you think this menaceis only confined to Europe?

If you are a person of means, or high social position in America, do you know that your name may be already listed for extermination when the "merican Army is successfully interpenetrated with Communists and the Red mobs get out of police control in the cities .?

You laugh at the absurdity of such a thing happening in free Am erica. In 1928 you were laughing at the absurdity of a "depression" which could last four years.

But in Berlin, on the night of Feb. 26, 1933, the police found extensive "death lists" at Communist headquarters, Karl Liebnecht Haus, wherein were named hundreds of prominent citizens of all classes who were to be murdered on signal, the same sext of lists were discovered during the Communist uprising in 1932 in Chili - in short in both countries, far removed from each other, an identical program.

Do you thank for a moment that such death lists could have been prepared in countries as far apart as Germany and Chili, or with no more natural resources among the aristocracy than in Germany and Chili, and that proud and mighty America with her 599 millionaires has been over-looked in compiling of such "death lists".?

If you are a person of any means whatsoever in your assumedly christan community, can you prove that yours is NOT on one of these lists, while you gaily wave aside the Reds as being a los of little dirty Jewish-Russian boys, waving a red flag and druling an ice-cream cone?

Do you think there are no indications of this sort of satanism happening even in the present ?

Listen!
