## Direction of the Administration's Drive

All propoganda, new-deal planning and activities, and Roosevelt's appointments are clarified and understood only when the fact is recognized that, from its inception, the administration has been driving toward internationalism. This purpose has been supported by an international and racial censorship of the press and other communications that has been tragically successful. The system used here is almost identical with that which brought about communist warfare in European countries and in China. Throughout the world, the line is now definitely drawn between Moscow and patriotic nationalism. Here, the administration unmistakably is promoting the subversion and war-plotting of communist international Jewry.

As in France, England and Spain, our salvation depends on the rapid development of Nationalism. Recently, in "The Patriot" (London), Nesta H. Webster, famous historian, wrote: "Fascism---under which term for the sake of brevity we must here include Nazism ---was both in Italy and Germany the reaction to the destructive activities of Communism." If our American Republic is to be preserved, the people must be informed as to the suppressed facts and secret purposes of the new deal. Organization is developing, and it must be accelerated. Our people must be aroused to battle for the principle, "Christian America for Americans."

## Three Internationalist Appointments

There are many indications that, before the appointments of Murphy, Hopkins and Frankfurter, the White House made political trades with the Senate to assure confirmation. The controlled press has created the impression that confirmation is inevitable, that protests are useless. In unanimously confirming Murphy, the sub-committee indicated that the Senate is still unmindful of the international control. Although it now looks as if the Senate will confirm all three appointments, there is little doubt that the incident will stimulate the agitation against the policy that was responsible for their appointment.

A surge of opposition to these appointments has developed, and the Senators responsible for the confirmations may find their action charged with political dangers. It is possible that the campaign against Frankfurter will assume the proportions of the attack of Roosevelt's previous attempt to wreck the Supreme Court, in which more than a million protests reached members of the Senate.

Evidence submitted to the sub-committee of the Senate this week shows that, in Roosevelt's appointment of Frankfurter to the Supreme Court, a gross insult has been offered to Christian Americans. In their treatment of witnesses, members of the sub-committee showed that they are all for Frankfurter. Surprisingly, there was no opposition to the appointment from industry. Opposition was furnished by patriots who are paying their own way. Last Saturday, all Senators received a telegram of vigorous protest from Col. Latham R. Reed. There was a slight variation in the wires to Southern and Northern Senators; the one to the Southerners was as follows:

"Felix Frankfurter on legal committee of National Association for Advancement of Colored People, most prominent group in Southern States fighting white democratic primaries demanding black and white children attend same schools and complete negro social equality. For twenty years Frankfurter has served on national committee of the American Civil Liberties Union, which was exposed by U.S. Naval Intelligence Report, April 1st, 1935, as communist-aiding organization. It printed an attack on American Legion in pamphlet entitled 'Who's un-American? An answer to the patriots', and opposes saluting American Flag and singing patriotic songs in American schools. It has publicly sponsored mass meetings with American Association for Advancement of Atheism and Communist Party's International Labor Defense. Frankfurter was publicly denounced by Theodore Roosevelt for misleading an un-American defense of criminal I.W.W. Before confirmation, his long record of un-American activities with communists and radicals, and his attack on U.S. Department of Justice in 1920 should be thoroughly investigated. See report Joint Legislative Committee, State of New York, investigating seditious activities, 1920, House Report 2290, 71st Congress, and Dies Committee reports and American Civil Liberties Union Exhibits."

Evidently, this and other telegrams stopped the plan to confirm Frankfurter automatically. A group of New England women also wired a vigorous protest to every member of the Senate. Thursday, Col. Reed followed up his wire with a four-page printed letter to all Senators giving more of Frankfurter's long red record and protesting the confirmation.

#### Witnesses Against Frankfurter

George E. Sullivan, prominent Washington Lawyer and anti-subversive writer, opposed the confirmation on the ground that Frankfurter is alien-born, is alien-minded, with many alien affiliations, and that the appointment would wrong loyal Jewish Americans. He concluded: "I feel sure that many members of the Bar throughout the Nation would have taken like action, had it not been for two things: (a) failure of the press of the country to acquaint the Bar generally with the matters to which I have called attention, and (b) recent press propaganda seeking to convince everyone that it is useless to protest, because it will receive only 'routine' consideration, and that confirmation is inevitable".

Elizabeth Dilling, of Chicago, patriotic lecturer and author of "The Red Network" and "The Roosevelt Red Record and its Background", expressed the belief that "the fate of our Nation now rests largely in the hands of those sound legislators of the Democratic Party who will place their allegiance to American principles first and ahead of loyalty to Party label or control, and who will thus prevent their Party from being further discredited by their enforced support of communistic legislation and appointments". Mrs. Dilling read 16 pages of testimony, supported by evidence, proving Frankfurter's intimate connection with many communistic movements. From the Constitution she quoted: "Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort." Then, on the ground that Frankfurter, for nineteen years, has been giving aid and comfort to the enemies of the Government, she said: "I beseech the Senate of the United States to refuse confirmation to the Supreme Court Bench where he may exert his pernicious influence for life."

Allan Zoll, vice-president of the American Federation Against Communism, clashed with Senator Borah when he opposed the appointment of "the alien-born Jew, because I believe his record proves him unfitted for the position, irrespective of his race, and because of his race." John B. Snow, of the League for Constitutional Government, New York, placed in the record many of Frankfurter's subversive connections to prove that he is imbued with collectivist ideas of government. Margaret B. Hopper, Philadelphia, and Alice Lee Jemison (American Indian Federation) also testified against the appointment.

Much of the evidence was too sensational to be ignored by the press. This fact indicates the value of the inquiry and is probably the cause of the attempt on Wednesday to close the hearings, although favorable witnesses were waiting to testify. As it is, the record contains a wealth of ammunition for further campaigning, if it is necessary. We believe that the revealing appointment of Frankfurter by Roosevelt will be an invaluable awakener as to the secret purposes of the new deal.

#### Frankfurter in Person

Thursday, when Frankfurter appeared before the committee, the Senators gave him the benefit of every possible doubt, and were disinclined to question him regarding the most pertinent evidence presented by witnesses. As Allan Zoll testified, the appointment will increase anti-semitism in this country. Many of the people know that it carries with it the subversive influence of the Jewish control and the communistic American Civil Liberties Union.

#### Truth from Spain

The religious issue was forced into American consideration of communism by the destruction of 17,000 churches and church buildings, and the slaughter of 14,000 priests and nuns, in Loyalist (red) Spain. Here, Monday evening, the challenge to Christianity was accepted by the "Keep the Spanish Embargo Committee" at a mass meeting held in Constitution Hall, which was filled to capacity (5,000), with about 2500 turned away. Although it was held under Catholic auspices, many Protestants attended, and it was clearly shown that the talmudic hatred responsible for the crimes in Spain and Russia makes no distinction among Christian denominations.

The speakers were, Aileen O'Brien, a Red Cross worker for 18 months with General Franco's Army; Hon. Irwin Laughlin, first U.S. Ambassador to the Spanish Republic (1929-33); Martin Conboy, an authority on international law; and the Rt. Rev. Msgr. Fulton J. Sheen, of The Catholic University of America. Miss O'Brien raised a storm of applause when she declared that General Franco is fighting for the same ideals that Americans always have fought for. All of the speakers, basing their statements on personal observation or authoritative evidence, emphasized by their revelations the suppression of truth, distortion of the news and the dissemination of lying propaganda by our press and radio, due to the racial censorship. News that similar meetings will be held throughout the country is encouraging, for such revelations cannot be ignored and will tend to break the censorship. Communism cannot be promoted in the U.S. under a free press.

#### Business Hesitates

Our predictions of the last three months regarding business conditions appear to be on the way to fulfillment. Authorities believe that the present "recession" is only temporary. Their conclusions, based on economic factors, may be correct; but management should realize that politics is in control and that almost anything can happen. Business cannot improve much without a restoration of confidence, which is having no consideration from the administration.

One leading authority, after discussing the Government debt, concludes that there is a growing anxiety over the prospects that for every dollar the Government spends two of private capital go into hiding. A recent circular letter put out by a large mid-western manufacturer states, "From 2400 odd industrials that we call the customer list, there come few orders. I'm going to take down our sign and am thinking of putting up another---The Roosevelt Built Morgue. Industry's idea of Hell is Labor Trouble. . . . And because CIOISM spells COMMUNISM the first feeling in industry today is uncertainty, the second is uncertainty, the third is uncertainty, and there exists no fourth feeling."

We receive many letters insisting that public education as to Jewish communism and the new deal is essential, the only means of saving the Republic. But management has decided, apparently, to give the new deal all the rope it can handle, and to wait for political reaction to kill it off. In that event, business will pay the colossal cost of the new-deal career and funeral, over a long period of years. It is obvious that industry could save billions by investing just a few millions in an educational campaign; but business, with management, suffers from that hesitation which, according to the adage, always precedes loss.

### Replying to Many Inquiries

Because the recent McKesson & Robbins scandal had the earmarks of many Jewish swindles, we have received a number of inquiries as to whether Philip Coster, alias F. Donald Musica, ex-convict, was a Jew. We are indebted to "Deutscher Weckruf and the Free American" for the information "That the Musicas are Jews was not revealed until Philip was buried after committing suicide. The remains of this arch crook were consigned to the grave in consecrated Jewish burial ground, the services conducted by a rabbi."

### War Referendum

Nothing else so clearly shows up the press control than the handling of news concerning war. Thursday, the papers noticed the introduction by Representative Louis Ludlow of a resolution calling for a constitutional amendment for a referendum before war could be declared. Last session, the debate over this resolution forced it into the news; but it was killed because it was about the last thing the administration wanted. Such an amendment would stop all war promotion, as far as this country is concerned. . . Last week, Ludlow introduced Concurrent Resolution No. 1, which calls for a peace conference, and which apparently was ignored by the controlled press which is subtly campaigning for war.

The Concurrent Resolution states that the competitive race of armaments is sapping the financial strength of nations, breeding international distrust and suspicion, and endangering the peace of the world. It proposes to suspend by joint action all naval construction until January 1st, 1941, and adds: "It is also the sense of the Congress of the U.S.A. that a peace conference should be held in the city of Washington on or about August 1, 1939, to which all of the leading powers should be invited to send delegates to discuss limitations of armaments and other questions associated with the promotive of international concord."

In introducing the resolution, Ludlow said: "The crying need of the world today is a recrudescence of the spirit of Christianity. . . We have tackled the psychosis of war on several fronts but not yet, I fear, on the right front to secure results. Let us now tackle it on the Christian front by striving for an agreement among nations to limit arms and to direct their courses into pathways of peace. May the good Lord make us realize the vastness of our opportunity." In conclusion, he added, "It is entirely proper that Congress, representing the people of this great peace-loving nation who are in deep sympathy with the common people of all other nations, should express themselves by adopting this resolution. The time is ripe for it. The world is crying for action to break the war psychology. Now is the time for America to rise to supreme heights in world service."
