January 6th, 1940

## A Political Congress

The first days of the new session disclosed a political plan, accurately timed. Roosevelt's message is significant because of its international tone, his attempt to place responsibility for spending on Congress, and his emphasis on national unity to preserve democracy. You may expect a repetition of the unity plea by administration speakers as a means of shutting off political attacks. Blum made the same plea when he inaugurated his "popular front" new deal in France. Lately, Governor Lehman appealed for State unity in New York.

Roosevelt's remarks on the war and the various and contradictory peace moves are forerunners of the election campaign. The administration is doing everything possible to prevent disclosures of communistic connections and cooperation, and to increase its control over industry. An indicator of danger to industry is the letter of the 3rd from Chas. A. Edison, Navy Secretary, to Speaker Bankhead, requesting that the President be granted war-time powers to cope with peace-time emergencies. Under the terms of the proposal, the President could order ships and materials as he willed, practically take over manufacturing facilities, fix prices, and cancel previous orders.

Garner's leadership of the Jeffersonians will be a political build-up throughout the present session, and there is no doubt that Garner, with the assistance of the Dies Committee, is one of the chief worries of the administration. Just how far Garner will go, with his close friend, Baruch, in the background, is speculative. If the passive resistance of Republican members continues it will mean a sell-out and potential disaster for the country. There is a chance that the Republicans will put up a congressional battle and tell the world the truth about the new deal; but prospects are not bright.

## Is This Republican Sabotage?

Scheduled for tonight over a Washington broadcasting station is an address by Dr. Chaim Weizmann, president of the Jewish Agency for Palestine and chairman of the board of the Hebrew University in Jerusalem. Weizmann arrived on the 1st, and was greeted by Rabbi Stephen S. Wise, chairman, and Governor Lehman and Mayor LaGuardia, honorary chairmen, of the National Reception Committee. Among other honorary chairmen are Dr. Cyrus Adler, Leon Gellman, Dr. Solomon Goldman, Dr. Israel Goldstein, Louis Lipsky, Judge Julian W. Mack, Judge Morris Rothenberg, Dr. Abba Hillel Silver and David Wertheim.

The Palestine movement is loaded with international political dynamite. According to Jewish and other leaders, Britain's Palestine mandate was an important factor in forcing the U. S. A. into the World War. England's breach of faith with the Arabs and her discrimination in Palestine has aroused the Moslem world and increased the peril to the Empire, and there are many other sinister political phases to the subject. . . Newspapers also announce that additional honorary chairman of the Weizmann Reception Committee are the outstanding Republicans: Col. Frank Knox, Chicago newspaper publisher, and Senator Arthur H. Vandenberg.

## Dies Committee Report

According to reliable sources, Representatives Voorhis, Dempsey and Thomas were prepared to enter a minority report which was written with the assistance of Tommy "the Cork" Corcoran and others. The majority of the committee did not like it, as it is said to have contained considerable political heat. Evidently that is why the committee report does not include the promised names of Hollywood communists and those in the employ of the administration. Insiders now say, as they did last year, that if Dies gets the money to carry on he will do a real job for Americanism. They also say that there will be several changes in the committee membership. The test will be whether one or two representatives are appointed who are known to be real Americans.

The report stresses the danger of undermining constitutional liberty. It also presents this definition: "By un-American activities we mean organizations or groups existing in the United States which are directed, controlled or subsidized by foreign governments or agencies and which seek to change the policies and form of government of the United States in accordance with the wishes of such foreign governments." Last year, the committee viciously smeared outstanding American patriots like General George Van Horn Moseley, George Deatherage and others. The report names these men, including the writer, as having taken part in an attempt to create a united Fascist movement. The implication is as unmistakable as it is false. The difference between most of these men and many other patriotic groups and individuals is that they have had the temerity and frankness to tell the truth regarding the Jewish control.

## Prepared for Future Smears

There are many indications that business men and others are getting over their fear of the administration and Jewish boycotts. Despite reactionary propaganda, it is a certainty that the Jewish control will be the most important political issue in a number of the States, if not throughout the entire country. Politicians who have used their official positions to smear patriotic Americans in order to procure Jewish support will find a repetition politically disastrous. With more than 800 organizations in the field, and with many thousands of eager distributors ready to go to work, it is now possible to send the truth into the homes of practically every congressional district.

## Strange Stimulation of Anti-Semitism

Jailing patriotic speakers and writers in Europe may have suppressed agitation against the Jewish control there; but it is having an opposite effect in this country. Prosecution of Robert Edward Edmondson gave his work an impetus, and convinced thousands of doubters of the truth of his releases. Recent boasting of the mayor of New York regarding the number of men jailed for speaking against Jews has emphasized the subject as a political factor. The total now is nearly three hundred for New York City, and in discussing the arrests a New Yorker recently told us:

"Most of the men arrested and jailed were giving a part of their spare time to the agitation. Now they are devoting their lives to a cause. When they went to jail they were merely strongly prejudiced; but they came out fanatical crusaders. Similar arrests in other cities indicate an organized drive which must have cost a fortune; but it is backfiring dangerously. The arrested men have convinced thousands of prisoners, and have educated most of the prison guards. Many framed cases have convinced other thousands of the pernicious danger of the control over the courts. The drive has taken the meetings out of public places and placed them in homes, where they have multiplied manifold, and where every listener is pledged to inform friends at every opportunity. I am convinced that a few more arrests will result very seriously in New York."

Proof that these persecutions and the "smearing" of patriots are backfiring is furnished by members of Congress who confidentially admit that they are hearing from many of their constituents on the subject. Anti-Jewish organizations and their memberships are growing as never before, and in all States. A number of observers here are convinced that another case or two like that of Edmondson's will blow the lid off and expose the subject of Jewish control for open discussion in Congress and elsewhere.

## Continued Reversal of Propaganda

A letter from a former government official in California states: "Club women here report that Jewish voices which, until recently, were very vociferous on every opportunity are now silent when Hitler and the war are mentioned. I have noticed the same phenomenon on the radio, which until a few weeks ago ceaselessly dripped with rabbinical venom for war on Hitler." The writer also mentions the fact that books like Schoonmaker's "Democracy and World Dominion" and Yeats-Brown's "European Jungle" are reviewed by controlled papers and sold by Jewish shops, and adds: "It is obvious that a mighty change of front has taken place abruptly, following upon a big national conference of Jewish leaders several weeks back."

About two weeks ago, a local paper was tipped that Father Coughlin, Dr. Gerald Winrod and Joe McWilliams were about to hold a secret meeting here. Since then, Jewish and other radical papers have published stories of secret "fascist" meetings. The purpose, of course, is to determine the possible approach of "the man on horseback". The rumors are the result of the jitters over the foreign outlook. Evidently, international Jewish interests realize that the war is a stalemate, with France, England and the Empire dangerously menaced internally.

Therefore, Jewry wants peace, at least temporarily. It looks as if the present great peace drive was for the purpose of dividing the Catholic ranks arrayed against Jewry, convincing Americans that communism is not Jewish, and that the Jews did not plan the present war. If an armistice results, you may anticipate that Germany will be offered, as an obligation of peace, membership in a European State Federation, secretly under Jewish control. If Germany refuses, we believe that every possible effort will be made to continue and get us into the war, and that the "incidents" have been planned.

## Another International Hoax

In this country the propaganda for a federation of European States is getting under way. An article, "Peace Now", by David Lawrence, prominent Jewish editor and correspondent, outlines the federation as one of ten points of a program for peace, and a peace group is distributing 30,000 copies. Soon you will see many similar articles to promote the federation as a substitute for the League of Nations. In England, the Labor Party, Lord Halifax, Chamberlain and other Jew-controlled politicians have endorsed the federation movement. Recently Sir Oswald Mosley, of the British Union, wrote his understanding of the proposition:

"The nations of the world are to have a Federal Union on the lines of the original Federation of the separate American States. Each nation is to surrender much of its sovereign right to a central international authority. In particular, nations are to surrender to this international authority the right to defend themselves; and Imperial Nations such as ourselves are to surrender to the international authority all our Colonial Empire. The international authority will have an international force at its disposal resting mainly on air power. If any nation is recalcitrant, or challenges in any way this international authority, it will be bombed into submission, which, after the surrender of its own forces to the international authority, it would be powerless to resist. In the extremes of this proposal we should all lose national citizenship; we should no longer be Britons, Frenchmen or Germans, we should be citizens of Federal Union."

". . . Now who will benefit from this policy? . . . I say without hesitation that the interest which would benefit from 'Federal Union' policy is the biggest racket which Jewish Finance has yet attempted to swing across Western civilization. They have done pretty well, these usurers, already; they hope to do better. They have tied Britain down to an international system a hundred years out of date. They have even entered British Empire to develop sweated labor of the Orient to undercut the standard of the West which gave them their power. With the propaganda of their money power they have persuaded the British to pursue their quarrels which had no earthly interest to the British people. . . Without force of our own and confronted by overwhelming 'international' force in their hands. . . what should we be?--- Slaves, branded before our Fathers and before history as the slaves of Jewish finance."

#### English Emergency Powers Modified

Because of a revolt of public opinion, due largely to the activities of the British Union, the English authorities have been compelled to modify the war "emergency" regulations. From "Action" of December 7th, we quote: "No longer can the courts deprive an editor from his livelihood; no longer can strikes be considered as sabotage; no longer can meetings be banned by any prejudiced local magistrate. . . the mere advocacy of 'Peace on earth, good will toward men' is no longer a crime, provided no use is made of any 'false statement, false document, or false report.'" Other strange, drastic regulations also have been changed.

#### Lothian Answers Questions

Broadcasting from Chicago on the 5th, Lord Lothian unwittingly answered all questions as to why he came to this country as British Ambassador. His statements suggested that an "understanding" already exists and he spoke as if this country were already a member of the "allies". His conclusion was: "Even at this moment our present safety rests upon the fact that we control the Atlantic and you control the Pacific. Neither we nor you nor the overseas republics and dominions would be so secure if either of us was left to act alone." . . Is Lord Lothian attempting to plant the impression in the American mind that we already are a party to the phony war?

#### How About Business?

New-deal helpers have published widely that the peak of business has passed and that business will decline for the next three or four months. A consensus of forecasters and analysts outside of Washington is more optimistic. Our conviction is that a very bad condition has been weakened by an apparent effort by organized business to appease the new deal by acknowledging faults and failures. Nothing can be accomplished until business men realize that the secret purpose of the new deal is to wreck American industry. Why ignore the fact that the industrialists who had done the most for their people, like Kohler of Wisconsin, were the first attacked by the new deal?

#### Our "Must" Reading List

Again you have the opportunity of reading a great and enlightening political document. Write the Honorable J. Thorkelson, House Office Building, Washington, for a copy of his speech of January 4th on "Abuse of the Bill of Rights."
