Dear Pat:

Enclosed is the material which, while not complete, may give you the leads that you want. The reason the investigation was not completed was that Rodney and I ran out of money after spending somewhat over \$900. I am very glad if the thing will be of value and will feel that the \$900 was well spent.

Now I am going to ask you a favor, namely: to give me the opportunity of playing for you some of the broadcasts that the American Union for Democracy has made and for the broadcasts of which we have assurances from over 120 stations throughout the country.

After you have heard them and I have also had a chance of outlining a particular plan which we have developed I am going to ask you to put me in touch with sources of financing to which I believe you have entre.

We can make a date to meet a little later on. In the meantime here is the stuff that you wanted.

As ever

Most Cordially,

(signed) Charles

P. S. I find that of some of the letters I have no copies. Rather than delay things by having them copies here, I am sending you the originals. Could you have copies of these made and return the originals to me. I have no other record but I know you will be careful of them.
