By United Press

LOS ANGELES, June 27—Herbert Hoehne, 28-year-old German unable to speak English, today was held in \$25,000 bond on charges of having violated a Federal law that requires agents of foreign governments to declare themselves to the Secretary of State when they enter this country.

G-Men who arrested him at the airport when he arrived from San Francisco said the case was "in process of investigation" and refused to discuss it further. Thru an interpreter, he denied the charges.
