.....Typical of these official agents is ~~Gaetano Vecchiotti~~  
the Italian consul general in New York, Gaetano Vecchiotti, who, in addition  
to supervising the distribution of fascist propaganda, has addressed  
several mass meetings of uniformed Italian-American Black Shirts.  
The propaganda work of the embassies and consulates has been aided  
during the past year by the German Library of Information and for the  
past three years by the Italian Library of Information, both in New York.
