Membership-

Your request to enter the German active front (that is, the DAF), which you asked me to arrange, I have sent to the A.O. (Auslands-Organizasion; the central Nazi Party headquarters in Berlin in charge of foreign sections) of the DAF. For the time being I have sent you a stamp receipt in which appear the cancellations of your first dues for the month of April 1940. I beg you to please take special care of this stamp receipt in which will appear all the dues cancellations until your identification card will arrive; because of DAF regulations you will accept no other cancellations than those with dues payment stamps.

Within the organization of the O.G. Santiago (Orts-Gruppe, or Santiago local group) you have been assigned to Block 13. Concerning all matters of the DAF you will refer to your Block Chief, Ak. Alfred Gruetzmacher, Telephone 81988.

I hope to find you an active member of our movement and to see you often at our meetings.

Heil Hitler!

Pictures don't lie. In spite of Dr. Prieto Trucco's official declarations to the public that his "Frente Nacional Chileno" is a "civic, non-political organization" with no affiliation to the Nazis, notice his proximity to the outspoken leader of Chile's Nazis, Gonzales von Marees, ~~at~~ while at a rally of the latter's group in Santiago.

Apparently Mr. Knudsen Larrain of F. N. Ch. was correct when he told CLICK's reporter that "when the critical hour strikes, we (that is, the varied Fascist groups) will march shoulder to shoulder."

AT MEETING OF "EL FRENTE NACIONAL CHILENO" IN SANTIAGO

Heading from left to right, according to numbers, are 1. General Cabrera, 2. Dr. Julio Schwarzenberg (his cousin was recent President of the "Sportverein" of Santiago), 3. Admiral Renato von Schroeder, rtd. 4. Pedro Pizarro, wealthy merchant 5. Herman Prieto, wealthy plantation owner 6. Luis Soto, chief accountant of the Braden Copper Co. 7. Jose Luis Claro, general manager of the Punitaqui Mining Co. (gold)., these form a section of the directorate of "El Frente Nacional Chileno," whose headquarters, at Carmen St. 17, in Santiago, occupy a complete building.

More adept and subtle than the other fascist organizations this body declares itself to be merely a "non-political, civic organization" devoted to ridding ~~the~~ the government of undesirable elements, and thereby offers a safe harbor for the Fritz Thyssens of Chile.

For actually it is preparing in full military style for a putch "to free Chile from Yankee domination and the reds," to use the words of *its head,* Dr. Prieto Trucco, ~~the head of the FN~~. While ostensibly of no relation to the Nazis, Dr. Prieto Trucco and his two aides, Augusto Knudsen Larrain, architect, and Miguel Luis ~~A~~<sup>Antegui</sup>, lawyer, told CLICK's reporter of their hope to establish a corporate state in Chile "by reason or by force" as their motto reads. Among their immediate goals is the abolition of universal suffrage. They also expressed great admiration for the ideals and the war of Hitler.

 asked whether their non-affiliation to the fascist groups led by Gonzalez von Marez and Iniquardo Araya was significant of difference in objectives, Señor Knudsen Larrain replied that "when the critical hour strikes you shall find us marching shoulder to shoulder."

Interestingly enough among their members are such well known friends of "democracy and the United States" as Dr. Cruz C6ke, Senator, and secretary of the Conservative Party.

\*\* Dr. Prieto Trucco was connected with General Priosto Herrera in the revolt against the government two years ago. Both were exiled for three months and two years respectively. Dr. Trucco was also connected with Dr. Julio Schwarzenberg in organizing the fully armed "Milicia Republicana" of several years ago.

*\* in the Braden Copper and Punitaqui Mining Co. - American owned.*

(11) A German army of at least 8,000 men under the command of Reich officers; a vast Nazi organization that extends its tentacles in the farthest reaches of civil and political life, and a powerful 5th column, are ready to strike in "blitz" fashion any time Hitler thinks the time ripe to make Chile the first brown colony in the Western Hemisphere.

(11) Probably nowhere else in the world have the Nazis worked so openly and audaciously as they are in this sunny land that stretches and meanders its narrow body for 2,500 miles along South America's Pacific Coast. Taking advantage of the hospitality and liberties of the democracy-loving Chilean people, the Nazis have sown hate and dissension, spread their stock propaganda, filtered their poison into the country's armed forces, organized their own storm troop details, and are now ready to apply their coup de grâce - the putch.

For their mass base of operations they have the vast Germanized south of Chile, commonly known as South America's Switzerland. Here, in the rich forrest and sheep breeding regions where German settlers have made their home for nearly 100 years, the Nazis, by threat, or persuasion, have made these ex-patriots and their Chilean born children owe alligence and fealty to none but the Führer.

(11) The "Deutsche Schulen" where children of German parents usually receive their primary and secondary education have been converted in the last ten years into simon-pure Nazi institutions. Through the the "Lehrerbund" (the German Nazi teachers association) in which nearly all are ex-German officers, these boys and girls undergo the same indoctrinization as do their cousins in Berlin.

Every aspect of the German's life and energy in Chile, is

⑩ directed and harnessed in preparation for "Der Tag." Women find themselves in the "Frauengemeinschaft" whose motto concerns itself with what the Führer orders; the "Jugendbund" takes in the youth and trains them in military fashion; and the "Bund" corrals all ~~xxxxxxx~~ including those not in any specific organization.

⑩ Although the Germans and those of German descent total but 55,000 in Chile's five million population, their influence and control is formidable.

⑩ The Chilean army, which happens to be one of the best trained in South America, has always been schooled in the German tradition and ex-Reich officers have always been predominant among the instructors. As a result, uniforms, a good many social ideas and aspirations have also been cut to the pattern of the Reich.

⑪ While Jorge Gonzales von Marees, German born leader of the 30,000 Chilean brown-shirts, might have exaggerated when he recently declared in the Chamber of Deputies and then repeated to CLICK's reporter that 95% of the Chilean armed forces are pro-Nazi, the fact remains that a sizeable section of the above-private category is undoubtedly looking with adulation to Hitler's uplifted arm in salute. Even in the Navy, British from uniform to mustache, 30% of the officers' staff are of German descent with people like Fritz Bohnert, son of German Consul Bohnert, generally known as the "führer" of the city of Temuco, in a commissioned post.

⑫ Geographically the Germans occupy some of the choicest as well as the most strategic parts of Chile. Beginning with Puerto Montt, an 8 hour train trip from Santiago, all the way down to the Straits of Magellan, Chile's coastline splinters into thousands of islands ~~are~~ *that* ~~are~~ dominated almost exclusively by extensive German haciendas on the mainland. No more than half of these islands have been charted. All of these offer excellent refuge for submarines, supplies and munition

depots which can remain unpercieved even in the face of a large scale investigation which to this date the government has not yet undertaken.

Headquarters and center from where all activity originates is to be found at the German Embassy in Santiago. Here Walter Böttger (Boettger), officially the commercial attache with offices at 80 New York St., directs the NSDAP (the German Nazi Party) and all its subsidiary organizations towards the day when the flag of the hooked cross will darken the door of every Chilean.

(2)

Abundant as the proof may be that the Nazi activity in South America is rigidly controlled by German authorities, CLICK does a super-scoop when it publishes document "Y" which demonstrates black on white that every admission into the DAF must first be O.K.'d by general headquarters in Berlin.

most (2)

IMPORTANT

As head of the NSDAP and DAF whose membership is almost entirely comprised of Germans born or nationalized in Chile, Herr Böttger <sup>compells</sup> ~~and~~ his followers <sup>to</sup> subvert Chilean laws and authority by <sup>having them</sup> ~~swearing~~ alligience to a foreign government. That this is so is made patent by Wilhelm Ernst Bohle, Berlin chief of the A.O. (Auslands-Organizasion, that is, Organization of Germans Abroad) who in a speech at the "5th Congress of Germans Abroad" in 1937 at Stuttgart, declared, "We, National Socialists abroad, reject the concept of a Universal German who adapts himself to the situation (his new environs) abroad... for we know only the concept of the Totaliterian German, the German who is always a German in all parts..."

(2c)

The NSDAP is made up of the most important and select Germans in Chile. They are managers of huge German trusts and banks, professors, and German generals formerly employed as instructors in the Chilean army. Among these, men like Werner Siering, manager of the "Bayer Cafe-Aspirin" etc; Ernst F. Govers of the powerful electric combine "Siemms-Schuckert"; Erich Baum of "Röchling Steel"; Generals Otto Zippelius\* and Hans von Kiesling, figure prominently.

(142)

The NSDAP meets secretly and the members largely remain unknown to the affiliates of the auxiliary bodies. In their capacity of general

\* Photostat proof of Gen. Zippelius's membership in D.A.F. appears in document 6

staff, with their prodigious economic power they not only ~~are able~~ ~~to~~ keep their own people toeing the line but also ~~xxx~~ bear sufficient pressure upon Chileans to swing along.

(42) The place where the "soldiers" gets its training, directives and political guidance is the DAF (Die Deutsche Arbeitsfront, which means 1118 German Labor Front), with headquarters at/Moneda St. during the day and at the Transocean News office, 1054 Moneda St, during the night.

(2) This body, according to pg. 20, of their "Westküsten Beobachter" No. 374 of December 5, 1940, "is a section of the German Nazi Party (NSDAP), from which it also takes on its structure' organization, an organization that divides itself into "blocks" and cells. The head of the Party (that is, Hitler---S.C.) is simultaneously the head of the DAF and it is he who names the rest of the leaders of the DAF..."

Just how many thousands of DAF troops there<sup>are</sup> in all of Chile is unknown. In Santiago, the capital, there are at least 700 all of whom operate in "blocks" and cells. These function during the day in factory or industrial "cells" under the local chief, and at night they gather in residential "blocks."

(8) Each "block" (as map with numbered swastikas of Santiago indicates has one or two members residing near a given strategic point, such as central intersecting roads, electric power stations, etc. in the neighborhood. Should the orders come to begin ~~activity~~ the putch, each group will know exactly what its point of attack is to be and how to commence activity. Under the guise of excursions these "blocks" also devote themselves to the study of terrain around the cities.

(11) At Santiago, where the "Cordillera" of the Andes rings the city from all sides, with only four roads leading out of the city, the Nazis have picked members, such as Genral Hans von Kiesling, Tammerman and the German colony of Peñaflor, own estates which command these roads. Moreover, with Chilean laws permitting those residing outside

of the city to own arms, the Nazis lost little time in converting all of their estates into veritable arsenals.

Among the most important functionaries of the DAF are the following: Bodo W. Weise, commissioned "Landesgruppenleiter" (territorial chief); employed at the South-American AEG (German Electric Trust); and he resides at Ave. B. O'Higgins 297, 3rd floor.

Joachim Sanders, also works at AEG; Erich Zursiedl, treasurer and liason officer, section lieutenant to the Santiago chief;

Walter Siebel (function unknown); Carl Thiele, National Corresponding Secretary employed by the Banco Alemán Transatlántico (German Transatlantic Bank); Teodor Kerber, also employed at this Bank; and Heinz Boesel, in charge of assignments.

The organizations which the Nazis control but which appear independent, are : "Der Deutsche-Chilenische Bund" with a membership of 2,000 "pure-aryans" and a youth division of 1,000. It publishes two weekly magazines and a daily newspaper devoted entirely to Hitler propaganda; The "AAA -Asociacion de Amigos de Alemania" (Ass'n of Friends of Germany) to which prominent Chileans belong and whose leaders are Generals Francisco Javier Diaz and Rene Ahumada; the "Sportverein" where German youths engage in the sport of throwing clubs, a parallel arm movement to that of hand granade practice, according to military observers; and several such others.

However, the long hand of Nazi conspiracy assumes even more alarming proportions when considered in the light of the deep entrenchments that it had made in some of the most important circles in Chile. For the Nazis are Quislings and Fritz Thyssens ~~is not~~ not shy at all in Chile.

~~Officially, the German Government has not recognized the Chilean Government, and the German Consulate in Santiago is not an official German Consulate.~~

2. There is "La Vanguardia Popular Socialista" whose leader, Jorge Genzales von Marees, claims to have a membership of 30,000 brown-shirts replete with guns and all. It is openly anti-Government, bases its program on ~~ix~~ totalitarianism and is priming its legions to make an assault for power.

2iv "El Movimiento Nacional Fascista" headed by the lawyer Izquierdo Araya and General Ariosto Herrera, is also uniformed and equally outspoken in its program to overthrow the government and establish a Nazi state. (General Ariosto Herrera, tried a coup d'état in 1939. He was arrested, discharged from the army and then exiled. He returned recently to Santiago and is back in seditious activity.)

2. More subtle and far more dangerous (although unquestionably tied up with the latter two) is "El Frente Nacional Chileno." Officially it describes itself a "civic organization in the service of Chile." At its meetings the speakers merely resort to government criticism. The air of respectability however is always maintained, as retired Admirals, Generals, ex-prime Ministers and even "friends of the United States and democracy" (enjoying popularity in the States), crowd the smartly trimmed/platform. *Dr. Cruz Coke recently returned from States, regarded as "friend of democracy", is also member.*

2. It so happens, however, that "El Frente Nacional Chileno" is a military combination of 50,000 affiliates of whom 80% are armed and are training for the zero hour, the "putch." Its young leader, Dr. Prieto Trucco, admitted to CLICK's representative that they were preparing "to liberate Chile from the oppression of Roosevelt and the communists." (more copy on this ~~mat~~ on caption accompanying pictures of meetings of this organization).

Chile's immediate future is not a very bright one. With the death of the "Frente Popular" government recently, many anti-democratic

elements have wormed their way into some of the highest posts. While no tangible proof exists of their sympathies with the Nazis, occasional streaks of supporting evidence do manage to filter through. A case in point was the recent ban by Ramon Vargas, Intendente of Santiago (what amounts to our District Attorney) of the James Roosevelt production "The Martyr" treating of Pastor Niemueler's experiences under the swastica.

Ramon Vargas, brother of the avowed fascist -General Carlos Vargas, did allow, however, the showing of all Nazi films, such as "Victory in the West."

In the South the situation is even worse. A good many posts of Governor and Mayor are in the hands of Nazis or those closely related to prominent Nazis. Smuggling of arms from the Argentine border, therefore, oftentimes is done with the blessing of the officials who are supposed to enforce the contraband law.

Although the recent arrest of the four Nazis in Puerto Montt can pave the way to a country wide investigation much doubt exists as to whether that will be done. A more likely possibility is the freeing of the accused considering the rumors that say that the judges are more than partial to the cause of the accused.

"Libreria 'Cosmos'" is a second hand book shop at 133 San Diego Street, Santiago (photo above). It is exactly what the picture shows, an obscure hole in the wall. Its stationary, however, carries two cable addresses. CLICK reporter's curiosity aroused, spurred him to research and discover that the owner, until recently, was Alfred Kirschke, who appears as member 3,733,739 of the DAF (the Nazi Party), as original DAF receipt, attached, indicates.

6 Was the little store the reception center of Nazi instructions from Berlin? Perhaps. It may possibly still be it, although under different owner. In any event it is now up to the Santiago police to find out.

These are facsimile reproductions of two permanent record cards that were swiped from the central registry office of the DAF. The large card records the facts of one Hans Auerbach who was born on the 31st of December, 1907 in Berlin and who arrived in Chile in 1933. He now lives at 905 San Camilo Avenue in Santiago with his daughter Ingrid and his wife Herta Kramer, also born in Berlin. His profession is that of engineer in which capacity he is employed at the G.M.B.H. Oscar, factory of electric light bulbs, located at Mackenna Ave. in Santiago.

Note in upper, right-hand column that he belongs to Block 11, that his identification card number is 1411560 and that ~~his~~ he has been a member of the Nazi Party in Germany since May 1, 1933.

\* This P.O. Box is that of the Central Headquarters of the Nazi  
Party (NSDAP) and was first used by Willy Köhn, founder of headquarters.

\*\* A.O. = Ausland-Organisation

NOTE: This, undoubtedly, is the most important document of the whole  
lot. It reveals the direct tie-up between Berlin and the Nazi  
activities in Chile. To date, nothing, equaling the potency and  
significance of this piece of evidence has been either discovered  
or disclosed in the press by the forces fighting the Nazis in Chile.

Izquierdo Araya, Führer of "El Movimiento Nacional Fascista" (number 1 on picture) ~~also~~ disclaims connection with German Embassy or the Nazis. In this picture, however, we see Renato Valdes, editor of "Suplemento" the Spanish edition of "Diario Aleman"<sup>\*</sup> of Santiago, participating in a secret session of the organization.

Renato Valdes (number 2) is the short man between the two uniformed fascists.

*\* "Diario Aleman" is the Santiago daily newspaper in German, published by Nazis.*

Communication of the DAF\* Employment Bureau

The DAF announces to those currently interested that the following jobs are now to be had. Those desiring more information should communicate with the territorial Group of the DAF at 80 New York Street through the respective regional offices.

<u>Firm offering job</u>	<u>City</u>	<u>Type of Work Offered</u>	<u>Salary</u>
--------------------------	-------------	-----------------------------	---------------

The list follows. (note however that a number of firms do not indicate either their names or locations. These undoubtedly belong to Chilean-Germans whose identity must remain a secret in the event that the Government begins to crack down on the Nazis.)

This list gives but an approximate idea of the employment opportunities registered at the DAF. Moreover there are a number of jobs for mechanics, technical workers, skilled workmen, and especially for agricultural laborers and construction workers at places whose names cannot be divulged on this list. In addition, larger groups of people, such as needy families, can find shelter in the South where they can do light work. More details will be given by the Central Office of the territorial Group of the DAF.

The Chief of the Territorial Group

\* DAF is "Die Deutsche Arbeiterfront", the German Labor front

Commentary by S.S.- This shows to what extent the Nazis control the economic aspects of the Germans in Chile. They run their own employment agencies and dictate terms as they wish. Non-conformance with any of the Nazi commands may find the German boycotted, unemployed and thoroughly isolated even among Chileans over whom the Nazis too wield a powerful economic club.

(B)

The Nazis in Chile have an army of at least 8,000 well trained and well armed men under the command of Reich officers, such as General Hans von Kiesling and Otto von Zippelius.

(1/2)

These Nazi legions, until recently, would train and ~~take~~ attend their functions in full dress regalia with the swastika emblazened on the arm-band, as seen in photos above and below.

The Nazi soldiery is recruited in the various organizations which the Germans control, such as "Die Deutsche Arbeitsfront," the "Jugendbund" and "Deutscher Reichkriegerbund."

The German Embassy in Chile takes an official role in the activities of the Nazis. Here we see (left to right), Wilhelm Reichman of the Consulate; Wilhelm Baron von Schoen, Ambassador; Huebner, ex-chief of the local party; Frau Schulze de Peters of Valdivia; Frau Zippelius, wife of the German General who was expelled from the Chilean Police Academy where he was instructor, after his alliance with the Nazis became public information two years ago; Frau Reichman and Frau Friedrichs, wife of a Nazi luminary in Chile.

3B

(M)-(N)

Taking advantage of the liberties and the mild laws of Chile, the Nazis have concentrated most of their propaganda and organizational machine in this country. Here it was that Edmund von Therman, Ambassador to Argentina; Ministers Willie Noebel and Ernst Wendler of Peru and Bolivia, respectively; and Ambassador to Chile, Wilhelm Baron von Schoen, met last ~~April~~ <sup>March</sup> to discuss their new plans for the continent.

Last month, the fruit of their conference turned sour when their projected push in Bolivia, directed from the Embassy in Santiago, (in the raided material were letters and instructions from Walter Böttger, commercial attache of Embassy in Santiago) was nipped in the bud by Bolivian authorities. Minister Wendler was ordered to depart.

Above are pictures of Wendler's arrival in Chile from Bolivia. Large cordons of police were necessary to guard the possibility of a non-too cheery greeting from Chileans. The photo to the left is that of Wendler (the one without hand to face) in Valparaiso from where he embarked on Japanese liner for Japan.

Dr. Leissewitz who speaks English with an Oxford accent and the son of a Scotch mother, specializes in attending Inter-American Conferences for the purpose of disrupting hemisphere defense plans. Dr. Leissewitz is well remembered from both the Havana and Panama Conferences.

## AUFRUF zur Teilnahme am Berufswettkampf Chile, Mai 1939

Zum ersten Mal wird in diesem Jahr dazu uebergegangen, den Berufswettkampf auch in den Gruppen der Deutschen Arbeitsfront im Ausland zur Durchfuehrung zu bringen. Bekanntlich hat bis zum Jahre 1937 der Reichsberufswettkampf in Deutschland lediglich fuer die Jugend stattgefunden; im vergangenen Jahr ist er zum ersten Mal fuer alle schaffenden Deutschen im Reich durchgefuehrt worden, und er soll nun auf alle Gruppen im Ausland ausgedehnt werden, damit er dort — wie im Reich — eine bleibende Einrichtung wird.

Gewiss kann die Frage aufgeworfen werden, welchen Zweck denn der Berufswettkampf im Ausland ueberhaupt erfuellen soll. Die Kameraden im Ausland laufen bei ihrer taeglichen Arbeit Gefahr, viele ihrer Berufskennntnisse zu vergessen, weil sie diese vielfach nur zum Teil — und manche Kameraden ueberhaupt nicht — in ihren Stellungen und Arbeitsplaetzen auswerten koennen. Der Berufswettkampf fuer alle Auslandsdeutschen soll daher ein Anruf fuer die Sammlung aller Kraefte sein, die in einem edlen Wettstreit gemessen werden sollen. Der Berufswettkampf soll die schaffenden Deutschen, Betriebsfuehrer und Gefolgschaft, vereinen, damit sie gemeinsam ein Bekenntnis zur Leistung ablegen. Keiner soll Angst vor dem „Durchfallen“ haben, sondern die Gelegenheit nicht vorbeigehen lassen, um festzustellen, wie es mit seinen beruflichen Kenntnissen steht. Auf Grund der gewonnenen Erkenntnisse weiss dann jeder Teilnehmer, wo er zur Besserung seiner Kenntnisse und damit zur Steigerung seiner Leistung ansetzen muss. Der Berufswettkampf im Ausland dient also dem gleichen Zweck wie in Deutschland: **Wacherhalten der Kraefte.**

Das hoechste Gut, das wir heute besitzen, ist die deutsche Arbeitskraefte, der schoepferische und fleissige Mensch. Dieses Gut uns zu erhalten und es zu foerdern, ist die Aufgabe des Berufswettkampfes aller schaffenden Deutschen. Der Berufswettkampf wird die lebendigen Arbeitskraefte auch der Deutschen im Ausland wecken und entfalten.

Die Deutschen in Chile, die immer und bei jeder Gelegenheit zeigten, dass sie unter den Auslandsgruppen im ersten Glied marschieren, werden auch bei dieser Gelegenheit ein Vorbild sein. Es ist daher zu erwarten, dass sich sehr viele Arbeitskameraden melden werden, um mit ehrlichem Geist an diesem Wettkampf teilzunehmen. Zum guten Gelingen müssen sich alle schaffenden Deutsche fuer diesen Wettkampf einsetzen. Nicht nur diejenigen, die sich als aktive Teilnehmer melden, sondern alle Deutschen muessen diesen Leistungswettkampf durch Propaganda und Mitarbeit unterstuetzen. Nur dann kann sein Ergebnis sich voll im Interesse der deutschen Wirtschaft und des deutschen Handels auswirken.

Die Meldungen zur Teilnahme sind abzugeben an die zustaendigen Stellen der Deutschen Arbeitsfront, d. h. an die Gebiets-, Block oder Berufswalter. Auch alle etwaige Anfragen sind an dieselben Stellen zu richten, **Ablauf der Meldefrist: 31. Januar 1939.** Zur Abgabe der Meldung kann anhaengender Abriß benutzt werden.

### **BEDINGUNGEN DES WETTKAMPFES.**

Der Wettkampf selbst wird voraussichtlich in der ersten Maihaelfte zur Austragung gelangen. Teilnahmeberechtigt sind alle Reichsdeutsche jeden Alters, gleichgueltig, ob sie der Deutschen Arbeitsfront angehoren, oder nicht. Die Teilnahme ist fuer alle Arbeitskameraden kostenlos.

Nach Alter und beruflicher Stellung werden die Teilnehmer in Leistungsklassen eingeteilt, innerhalb deren die jeweiligen Sieger festgestellt werden. Als Sieger gehen hervor:

1. Gebietsieger (Sieger aus den einzelnen Staedten und Bezirken).
  2. Gruppensieger (Sieger innerhalb Chiles).
  3. Gausieger (Sieger innerhalb des Gaues Ausland der Deutschen Arbeitsfront).
- Unser Streben muss darnach gehen, einige Gausiege nach Chile zu bekommen.

**CALL TO PARTICIPATE IN THE GERM. PROFESSIONAL COMPETITION, MAY 1939**

For the first time a professional meet will take place among groups belonging to the foreign section of the DAF. It is well known that until 1937 this professional contest took place only among the youth section of the Reich; last year this contest took place with the participation of all active Germans, and now this ought to extend to all groups abroad, a function that which should remain a permanent feature, just as in the Reich.

Naturally the question can be posed as to what purpose this contest can serve abroad, and the answer is this: The comrades abroad, in their daily work are apt to be employed at only one aspect of their profession, others have no occasion to be employed at their calling altogether. Essentially, therefore, this Professional Competition for all Germans abroad, constitutes a call to unify and coordinate all of their energies that ~~are to find~~ <sup>and</sup> find expression in this noble joust. This Professional Competition should gather all active Germans, those heading enterprises and those in their following (in the flock as it were, SO), for which together ought to make every attempt to master their knowledge. None should be afraid of being reprimand, on the contrary one should not allow this occasion to go by without testing <sup>his</sup> capacity and preparation. On the basis of the grades that the participants will receive, each will know where ~~in~~ his weakness lies and therefore <sup>apply</sup> more diligence in that direction. Above all this Professional Contest abroad, has the same objective as in Germany: to maintain our energies on the alert.

The highest merit that we possess is ~~that~~ the German working energy, the creative and hard-working German. The purpose of this Professional Contest for all active Germans consists in preserving and helping to develop this quality. The Professional Contests also will awaken and stimulate the active forces of labor abroad.

(Cont. below)

The Germans in Chile who had demonstrated on every occasion that they ~~unanimously~~ lead all other German groups abroad, will once again come through. It is to be hoped that many fellow comrades will register to participate in this Professional Competition. Not only those who will actively participate, but all Germans must support this competition through cooperation and propaganda. Only in this manner will you be able to promote the interests of German economy and commerce.

This information should be distributed through the respective offices of the DAF, etc...

\* Although almost all of the above translation is word for word some sections of necessity must be of somewhat free interpretation.

NOTE: While this long affair may not sound sensational it is very important by reason of what it imparts. Throughout, there is the spirit of preparation of "keeping our energies on the alert" and finally <sup>frankly</sup> frankly that it is all in the interests of Germany.

From what has happened in Europe, it is obvious that the Germans don't brush up on their professions (engineering etc.) simply for the sake of keeping the Vaterland, thousands of miles away, proud of its children abroad. The reason is obvious. It is to keep everybody on the alert for action.

Note to editor: Although Boettger has been frequently accused of belonging to the DAF in Chile, never has anything been published that such is the fact. These are the first <sup>pieces of</sup> evidence to be disclosed anywhere of Boettger's affiliation to the Nazi activities in Chile.
