1/24/95

Dear Jeremy,

If using the disks presents any problem, I should have told you last evening that you are welcome to borrow the printout I have.

Please remember in reading it that I have not and that insertions may have been made other than where I intended.

I hope you can understand why although your board is ~~xxx~~ free to use what was not published in Case Open in any way it may want I do not want any other use made of it. It is not because I have any plans for trying to get it published as a book, which I think it could be with simple editing. Should be. I do not have making any effort in mind. I do not want it misused, as is common in the field, and with what can happen, I want it to be available for any future uses that might be possible. Hood College has all the rights to all my work. I do not expect to be around for any possible future uses.

Inherently my work is also a study of the failure of our basic institutions at that time of great stress and since then.

Had it not been for those failures, your board would not exist.

Unpublished that work is now much broader and I'm trying to add to it as best I can. I want it to exist uncorrupted in any way.

As you saw I pay a price for giving all working in the field unsupervised access to all I got under FOIA. But none had any occasion to work in the files from which that radio and TV Reports box is missing. I do not remember ever discussing it with any of those who worked in those basement files.

If you have any questions about any of the copies you took with you, please ask.

Good luck!

Harold Weisberg
