3	DENNIS L. BREO,
4	the witness hereinbefore named, being first duly cautioned
5	and sworn to testify the truth, the whole truth and
6	nothing but the truth, testified on his oath as follows:
7	
8	DIRECT EXAMINATION
9	BY MR. KIZZIA:
10	Q Would you state your name for the record.
11	A Dennis L. Breo.
12	MR. BABCOCK: Before we get started, on
13	agreements, all objections reserved accept as to form or
14	nonresponsiveness of the answer. If a signed copy is not
15	available at the time of a hearing or trial, we may use an
16	unsigned copy and he'll have 30 days is that what the
17	rules are 30 days to sign before a notary. Do you
18	agree to sign before a notary?
19	MR. KIZZIA: That's fine.
20	MR. WATLER: Okay. Is that all right with
21	everybody else?
22	MR. BABCOCK: We've got a response to your
23	notice. It just carries forth the same responses on
24	documents that we had on the document request. I think
25	maybe we got the notice calls for something slightly

1	broader. We're going to produce part three of the series,
2	which I don't think it was called for in the earlier
3	document request. But other than that, the objections and
4	responses are essentially the same. Okay?
5	BY MR. KIZZIA:
6	Q What does the "L" stand for?
7	A Lee.
8	Q L-E-E?
9	A Yes.
10	Q Mr. Breo, are you the same Dennis Breo who is a
11	defendant in the suit styled, Charles Crenshaw, M.D and
12	Gary Shaw, Plaintiffs, versus Lawernce Southerland, et
13	al., that was recently filed in the State District Court
14	in Johnson County but is now pending in the United States
15	District Court for the Northern District of Texas?
16	A Yes.
17	Q Do you understand that you are here under oath
18	to tell the truth just as if you were at the courthouse in
19	front of the judge and jury?
20	A Yes.
21	Q In answering my questions, will you tell the
22	whole truth to the best of your ability?
23	A Yes.
24	Q Are you currently on any medication or anything
25	that might impair your ability to do that?
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

()

1	A No.
2	Q Do you have any physical or other condition
3	that might impair your ability to do that?
4	A No.
5	Q If I ask you a question that you don't
6	understand, will you let me know so that I can either
7	repeat it or restate it so that I can assume that when you
8	answer a question you do understand it?
9	A I'll try.
10	Q If at any time during the deposition you want
11	to take a break for any reason, confer with counsel or
12	otherwise, will you let me know?
13	A Yes.
14	Q Now, Mr. Breo, you know that I represent the
15	plaintiffs in this case and you are a defendant, so our
16	positions with regard to this case are adverse. Do you
17	understand that?
18	A I understand.
19	Q Okay. Even though our positions in the case
20	are adverse, I don't want to be or appear to be unfair to
21	you in anyway or insult you in anyway. So if you feel
22	that any of my questions are unfair or insulting or if you
23	take offense to any of it, would you let me know?
24	A I'll try.
25	Q Did you review anything to prepare for your
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 deposition today? Do you mean this morning? 2 A All right. We'll start with this morning. Did 3 0 you review anything this morning to prepare you for this 4 today? 5 6 Α I have prepared myself for the deposition. All right. What did you review to prepare for 7 0 8 the deposition? MR. BABCOCK: Don't tell him any documents 9 that I might have shown you. 10 What exactly do you mean? 11 THE WITNESS: 12 BY MR. KIZZIA: I want to know what you mean. You said you 13 0 prepared for the deposition, how did you go about doing 14 15 that? 16 I just reviewed, you know, my articles and I A 17 was here yesterday with counsel and I reviewed the paperwork so far and that's essentially it. 18 19 0 When you said you reviewed your articles, what 20 specific articles are you talking about? 21 The three-part series on the assassination of A 22 President Kennedy. 23 Q That was published in <u>JAMA</u>? A Yes. 24 All right. You said that you reviewed your 25 Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 articles, you consulted with counsel, and what was the third thing you said you did? 2 I don't recall that I said a third thing. 3 A 4 Was there anything else that you did to review Q or was there anything else that you did to prepare for 5 your deposition other than review the three-part series of 6 7 articles that you wrote for <u>JAMA</u> and consult with counsel? 8 A That's essentially it. 9 Q Okay. Where do you currently reside? 10 A I live in Chicago. 11 Where do you currently work? Q 12 I currently work at The American Medical A 13 Association. 14 Q In Chicago? 15 A In Chicago. 16 The Chicago office? 0 17 It's the Chicago headquarters office. A 18 The deposition today is taking place in Dallas. Q 19 When did you come down for your deposition? 20 I flew in on Monday, September 13th. A 21 Today is September 15th? 0 22 I believe it is. A 23 Did you bring anything with you from Chicago Q for this deposition? 24 I brought the articles and some related 25 A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

material. 1 2 Q What related material? I believe most of it's been provided to you 3 A 4 already. It's mostly stuff I previously forwarded to 5 counsel with the intention of forwarding to you. Can you be a little more descriptive as to what 6 Q 7 related material you are talking about. 8 A If you could give me an idea of what you have in mind. 9 10 Q Well, I'd like to know what you meant when you said you brought with you related materials. 11 12 A The related materials essentially are materials 13 that I understand you already have; that's been requested 14 and produced under your request. 15 0 The materials related to what? 16 Materials related to this lawsuit. 17 0 Are you talking about materials that you 18 reviewed before writing your articles? 19 A Talking about the materials that have been 20 previously requested or have been submitted as part of 21 this process. Were these materials that you put together to 22 0 send to counsel, or did somebody else do it? 23 These are the materials that I put together to 24 A 25 send to counsel to forward to opposing counsel.

14

Okay. And you just brought with you extra 1 Q 2 copies? 3 A Exactly. 4 Q How long did it take you to put those materials 5 together? 6 A I can't recall. I mean, it's -- you know, over 7 a period of time. Over what period of time? 8 0 Since I became aware of this lawsuit and that 9 A 10 there would be a deposition. 11 Were these materials that you had in your Q possession, or did you have to acquire them from other 12 13 persons? These were materials that I had in my 14 A 15 possession. And they were related to your articles that you 16 0 wrote for the Journal of Medical Association? 17 A They were. 18 Were these materials that you had in your 19 0 possession before you wrote the articles or materials that 20 you acquired after you wrote the articles? 21 They were materials I had in my possession 22 A before the articles were written, with the exception of 23 some press clips that were written in reaction to the 24 25 articles.

15

Can you be any more descriptive of what the 1 Q 2 materials consisted of other than the press clips that you 3 just referred to? 4 A I don't recall. They were just general 5 reaction to the stories. 6 0 Well, I'm talking about -- my question has to 7 do with the materials other than the press clips that were 8 a reaction to the stories. 9 A I believe I've answered that. 10 Can you tell me anything -- any part of the 0 11 materials other than the press clippings that were a 12 reaction to the stories? Can you describe them at all? You -- I believe you could describe them as 13 A 14 well as I could. I believe you have them. 15 Well, I'd like to know if you can describe them 0 16 since they were the materials that you said you had since before you wrote the articles, and the materials that you 17 18 felt were related to the articles. 19 A I think the materials are self-explanatory; 20 they're in your position and, you know. 21 Q Well, let me see if I can rephrase the 22 question. Can you describe them or are you just unwilling 23 to describe them? 24 A I can't describe them much better than what I I'm not giving them a great deal of thought since 25 said. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	they were forwarded to my counsel to be forwarded to you.
2	MR. WATLER: If you have a document that
3	you want to ask him about, show him and he'll respond to
4	it.
5	BY MR.KIZZIA:
6	Q Okay. We'll get to that in just a minute. Mr.
7	Breo, in preparing for your deposition today, did you meet
8	with anyone other than your counsel?
9	A No.
10	Q Did you discuss your deposition with anyone
11	other than your counsel?
12	A With with my wife.
13	Q Anyone else?
14	A No.
15	Q What is your date of birth?
16	A October 26th, 1942.
17	Q You said that you currently work and reside in
18	Chicago; is that correct?
<sup>.</sup> 19	A Yes, that's correct.
20	Q How long you have resided in Chicago?
21	A Lived in Chicago for the last 27 years.
22	Q And have you worked in Chicago that whole time?
23	A Yes.
24	Q You said that you currently work for the
25	American Medical Association; is that right?
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

. 、

1 A That's correct. How long have you worked for the AMA? 2 0 I've worked at AMA for nearly the last 27 3 A 4 years. 5 0 What do you do at the AMA? I am a journalist. 6 Α 7 Have you always worked as a journalist for the Q 8 AMA? 9 A Yes. 10 Could you describe what you do as a journalist 0 11 for the AMA. 12 A You mean now, currently? 13 Yes, please. Q 14 As opposed to --A 15 We'll start out with currently. Q 16 I am the national correspondent of the Journal Α 17 of the American Medical Association. 18 What does that mean, national correspondent? 0 19 Well, the job charter, as it were, is A 20 essentially to produce news articles, interviews, 21 personality profiles, and features, medical events on 22 personalities for publication in general. 23 That's the position you currently hold? 0 24 That is. A 25 How long you have held that position? Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	A Since about four years.
2	Q What did you do for <u>JAMA</u> before that?
3	A Before that, I held a similar title very
4	similar responsibilities for another AMA publication
5	called <u>American Medical News</u> .
6	Q What's the difference between the <u>Journal of</u>
7	the American Medical Association and American Medical News
8	?
9	A I would say <u>JAMA</u> is a higher calling but the
10	same salary. The essential difference is <u>JAMA</u> is a
11	peer-review scientific publication which also has human
12	interest articles. <u>American Medical News</u> is more of a
13	social economic newspaper format publication. Both are
14	weekly. The work I've done has been essentially similar
15	with both publications.
16	Q And what work is that?
17	A What I've just described.
18	Q Writing articles?
19	A Conceiving ideas for articles, reporting,
20	writing, photographing articles.
21	Q What's the difference between reporting and
22	writing?
23	A Well, the one precedes the other, essentially.
24	I mean they're all part of a process to produce. The
25	ultimate goal is to produce an article for publication.
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Could you describe that whole process. 1 Q I believe I just have. I mean it's --2 A essentially you develop an idea for a news story. 3 You report it; you write it; you photograph it as you report 4 it; and then assist in the layout, design, production, 5 6 editing, et cetera. I still would like, if 7 Forgive me, Mr. Breo. 0 8 you would to explain a little better for me the distinction between reporting and writing a story. 9 Reporting, I sit down with you, talk to you, do 10 A 11 background research on you, talk to other people about you, sit down and think about what I have. I sift through 12 it, make determinations about the news value. And then I 13 sit down and write it. 14 15 So reporting would consist of interviewing and 0 16 research prior to writing? 17 A Among other things. Are there any other things other than what you 18 Q 19 just mentioned? 20 Z It's a broad spectrum. It would depend with the story. 21 22 Did you identify the parts of the process in 0 the order that they are done, generally speaking? When I 23 24 asked you to describe the process you said there's conceiving the idea, there's reporting, there's writing, 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 there's photographing as needed, layout, editing. Is that the order in which it is done? 2 3 A It's not a rigid sequence. I mean, there's There's essentially, you know -- in a 4 overlap. 5 retrospective way, that's essentially what happens. All right. You said that you've been national 6 0 7 correspondent for JAMA for four years, and prior to that 8 you held a similar position with American Medical News. How long did you hold that position with American Medical 9 10 News? 11 For 23 years. A Was there some overlap there where you worked 12 Q for both publications, American Medical News and JAMA? 13 14 There was not, no. A So that means that you worked for the AMA for 15 Q 16 either the American Medical News or JAMA for 27 years? 6	Q Who was the plaintiff in the case?
7	MR. BABCOCK: You can answer that. I'll

1 A I believe when resolved it was in Illinois, but 2 I really can't recall. There may have been split 3 jurisdictions. 4 Q Did you give an oral deposition in that case? 5 A I did. 6 Q Can you tell me approximately when you gave your deposition? 7 I believe it was -- although I'm not certain --8 A 9 I believe it was in 1984. 10 Where were you when you gave your deposition? Q 11 I was in Chicago. A Other than the deposition that you gave in 12 0 approximately 1984 in connection with that litigation and 13 the deposition that you're giving today, have you ever 14 given a deposition? 15 16 A No. (Deposition Exhibit Nos. 1 and 2 marked.) 17 BY MR. 2	THE WITNESS: I can't recall the exact
3	it was a very shotgun-type lawsuit when initially filed.
4	BY MR. KIZZIA:
5	Q Can't be any more precise than that?
6	A By that, I mean the defendants ranged from the
7	AMA Board of Trustees down through the editors of American
8	Medical News, and it involved a news article in American
9	Medical News.
10	Q That lawsuit arose from a news article that you
11	wrote for the <u>American Medical</u> <u>News</u> ?
12	A It did.
13	Q What was the subject of the news article?
14	A I believe the whole case has been settled under
15	a confidential arrangement.
16	MR. BABCOCK: Well, do you think that
17	there's an order sealing the pleadings in that case?
18	THE WITNESS: You know, all I really know
19	is when it was finally settled, it was this is it and

21	MR. BABCOCK: If there's some apprehension

4	BY. MR. KIZZIA:
5	Q Well, let me ask you this, Mr. Breo: Did the

8	A It did not.
9	Q Mr. Breo, let me show you what I've had marked
10	for identification purposes as Deposition Exhibit No. 1
11	and Deposition Exhibit No. 2, which both reflect on their
12	face that they are the original notice of your oral
13	deposition today, and the other being an amended notice.
14	Have you seen those documents before?
15	A I have seen this first one, the notice to take
16	oral deposition. I don't believe I've seen the one on the
17	videotape deposition.
18	Q All right. When you said that earlier, that
19	you had compiled some documents to provide to counsel to
20	produce to opposing counsel when you learned of your
21	deposition, was that a compilation that you did in
22	connection with this deposition notice marked as Exhibit

deposition notice listed some documents that you were 1 requested to produce at your deposition? 2 A 3 Yes. 4 Q Okay. If we could, Mr. Breo, I'll refer you 5 back to Exhibit No. 1, and I'd like to discuss with you the list of items that you were requested to produce here 6 7 at your deposition. MR. BABCOCK: Brad, to speed this along a 8 9 little bit maybe, here's the formal response to that we have prepared with respect to this notice. Here are some 10 11 documents in addition to the documents previously produced that were called for in the notice but not in the original 12 13 request for documents that was sent to the defendants. (Deposition Exhibit No. 3 marked.) 14 BY MR. KIZZIA: 15 16 Mr. Breo, let me show you what I have marked 0 17 for identification purposes as Deposition Exhibit No. 3, 18 which shows on its face that it is a copy of a letter dated September 3rd, 1993 from one of the attorneys 19 representing you, and a group of documents that are 20 21 attached to it. 22 Uh-huh. A We'll discuss those specific documents in a 23 0 But for the time being, I'd like to ask you, does 24 moment. 25 Exhibit 3 contain the records and documents that are being DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 produced responsive to the request for records and 2 documents that are part of Exhibit 1? 3 Do you mean does this pile of papers in front A 4 of me represent what I submitted to counsel to forward to 5 you? 6 Q All right. We'll start with that. 7 A It appears to. Okay. Are those documents that contain Exhibit 8 Q No. 3 being produced responsive to the deposition notice 9 10 that's marked as Exhibit No. 1? Is that your 11 understanding? 12 A You know, I'm confused on various exhibits. I mean this paper on my left is Exhibit A, the 17 requests. 13 So by Exhibit 3, you mean what? 14 Well, let me step back. You've already said --15 0 16 A Oh, Exhibit 1, videotape. Okay, I got you now. Exhibit No. 1 is a copy of the notice to take 17 0 oral deposition, regarding your deposition today. 18 You 19 said you read that and you saw the Exhibit A that includes 20 the list of documents requested to be produced. And I believe you said that in response to that you compiled 21 22 some documents and sent them to your counsel to be 23 produced; is that right? 24 A That's correct. Is it your understanding that Exhibit 3 25 0

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	represents the production of those documents?
2	A It appears to without, you know, making a
3	point-by-point check.
4	Q Okay.
5	MR. BABCOCK: Let me just say that these
6	documents that were produced were produced pursuant to a
7	request for production that you sent, which was almost
8	identical to what is contained here in Exhibit 1. So the
9	documents were produced initially prior to this deposition
10	pursuant to the document production request, and today
11	we've produced the additional document which maybe I think
12	you marked.
13	(Deposition Exhibit No. 4 marked.)
14	BY MR. KIZZIA:
15	Q Okay. The additional documents that you
16	produced today that you've just handed me I've had marked
17	for identification purposes as Deposition Exhibit No. 4.
18	Other than the documents that are part of Exhibit No. 3
19	and the document that's marked as Exhibit No. 4, are there
20	any other documents that you're in a position to produce
21	today responsive to the deposition notice that's marked as
22	Exhibit No. 1?
23	A No.
24	Q Now, Mr. Breo, if we could, I'd like to take
25	this opportunity to go over some of these records and
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	documents and see if you can identify them for me. Now,
2	there are a number of documents that are part of Exhibit
3	No. 3. So that we understand that we're talking about the
4	same thing, I'm going to, as we go through, additionally
5	mark some of the specific documents as Exhibits A through
6	Z or however many it takes. You just saw me take the
7	ruber band off the documents so that we can go through
8	them one at a time.
9	The first page, of course, is the copy of the
10	September 3rd, 1993 letter from counsel; is that right?
11	A That's correct.
12	(Deposition Exhibit No. 3-A marked.)
13	BY MR. KIZZIA:
14	Q Okay. The first document attached to the
15	letter I've had marked as Exhibit 3-A for identification
16	purposes. Can you tell us what deposition Exhibit 3-A is?
17	A This was one of two articles carried in the May
18	27, 1992 issue of <u>JAMA</u> . That was the first article
19	labeled well, the headline was, <u>JFK's</u> death, part one.
20	Well, anyway, that's what it is. It's part one of two
21	parts published in <u>JAMA</u> , May 27, 1992.
22	Q Did you write the article that's marked as
23	Exhibit 3-A?
24	A I did.
25	Q The next document included in Exhibit 3 I'll

have marked for identification purposes as Exhibit 3-B. 1 (Deposition Exhibit No. 3-B marked.) 2 BY MR. KIZZIA: 3 Can you tell me what that is? Q 4 That's part two of the two articles that A 5 appeared on May 27, 1992. 6 In JAMA? Q 7 A In JAMA. 8 Did you write the article that's marked as 0 9 Exhibit 3-B also? 10 I did. A 11 The next document I'll have marked for Q 12 identification purposes as Deposition 3-C. 13 (Deposition Exhibit No. 3-C marked.) 14 BY MR. KIZZIA: 15 Can you tell me what that document is? 16 0 That is the third and final part of the 17 A three-part series on the Kennedy assassination that 18 appeared October 7, 1992 in JAMA. 19 Now, you've described the three articles that Q 20 are marked as Exhibits 3-A, 3-B, and 3-C as a series of 21 articles; is that right? 22 Well, they're three articles on the same topic A 23 so it's -- to me that's a series. 24 Were these articles always intended to be a 25 0 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

series from the outset? 1 A They were not. 2 How were they not originally conceived as a 0 3 series? 4 The availability of Dr. Finck was in question A 5 and was not known until after publication of the first two 6 parts. So until he agreed to an interview, there was no 7 knowledge of a part three. 8 Well, when the original articles were conceived 9 0 was an interview with Dr. Finck planned, or did the idea 10 of interviewing Dr. Finck come up after the first two 11 articles were published that are marked as Exhibits 3-A 12 13 and 3-B? The interview with Dr. Finck was planned and 14 A pursued as part of the original two parts but was not 15 accomplished. It was subsequently accomplished. 16 Did you write the article that's marked as 17 0 Exhibit 3-C? 18 I did. 19 A Now, I noticed that the articles that are 20 0 marked as Exhibits 3-A and 3-C have your name at the top. 21 Is that right? 22 That's correct. A 23 But the article that's marked as Exhibit 3-B 0 24 does not have your name at the top. Is there a reason for 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

that? 1 There is. A 2 What reasons? 0 3 The two ran in sequence in conjunction as part A 4 of the same package, and the editors thought once -- my 5 name -- was enough. So the two ran in sequential 6 consecutive pages, and there was no need to repeat the 7 logo, At Large With Dennis L. Breo. 8 Did anyone else participate in the actual Q 9 writing of the articles that are marked as Exhibit 3-A, 10 3-B and 3-C? 11 A No. 12 They were written solely by you? Q 13 A They were. 14 (Deposition Exhibit No. 3-D marked.) 15 BY MR. KIZZIA: 16 The next document among the documents that are Q 17 part of Exhibit 3 I have marked for identification 18 purposes as Exhibit 3-D. Can you tell me what Exhibit 3-D 19 is? 20 3-D is an editorial by Dr. Lundberg, the editor A 21 of JAMA, which appeared in the October 7, 1992 issue of 22 JAMA, the same issue in which the interview with Dr. Finck 23 appeared. 24 The title of Dr. Lundberg's editorial on 0 25 DIANA HENJUM REPORTING SERVICE, P.C. 1	October 7, 1992 was, <u>Closing The Case In</u> <u>JAMA On The</u> <u>John</u>

3	A It was.
4	Q Was the case closed, as far as <u>JAMA</u> was
5	concerned, with the publication of that editorial on
6	October 7, 1992?
7	A I did not write that editorial.
8	Q Well, did you think that the case was closed,
9	as far as JAMA was concerned, at that time?
10	A I had no thoughts on it at all.
11	Q You have no thoughts, or you had no thoughts at
12	the time?
13	A You would have to talk to Dr. Lundberg, who
14	wrote the editorial and wrote the headline, as to what he
15	meant and whether or not
16	MR. BABCOCK: The question was, you have
17	no thoughts or you had no thoughts. He just wanted
18	clarification of your prior answer.
19	THE WITNESS: I have thoughts on that
20	editorial.
21	BY MR. KIZZIA:
22	Q At the time it was published, October 7th, 1992
23	in JAMA, did you have thoughts on whether or not the case

1	Q Well, what were your thoughts then?
2	A It was beyond my control since I am not the
3	editor of <u>JAMA</u> .
4	Q What was beyond your control?
5	A Whether or not the case is closed in <u>JAMA</u> .
6	Q Did you have an opinion as to whether or not
7	the case should be closed as far as <u>JAMA</u> was concerned at
8	the time?
9	A I had no opinion.
10	Q Did you want to do additional articles in <u>JAMA</u>

13	Q on the JFK assassination?
14	MR. BABCOCK: Wait until he finishes his

16	since he tried to interrupt.
17	(Requested material was read.)
18	THE WITNESS: I did not.
19	BY MR. KIZZIA:
20	Q Well, what did you mean when you said it was
21	beyond your control?
22	A I meant the case was closed in terms of my
23	reporting on it. In terms of what might be published in
24	JAMA pursuant to the publication of that editorial, I had
25	no way of knowing or influencing what might or might not
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

happen. 1 You didn't try to influence that? 0 2 That's not part of my job description. A 3 No. Did you try MR. BABCOCK: No. No. 4 to influence it or did you not, whether it was your job 5 description or not? 6 THE WITNESS: I tried influence when asked 7 if it was appropriate. If I were asked an opinion, I 8 would, you know, express my opinion. 9 Were you asked? Q 10 If you could narrow your question on that --A 11 you know, almost a year has passed since that editorial 12 has appeared, and I'm not sure exactly what -- you know, 13 what you have in mind. 14 Well, I was following up on your response where Q 15 you said that if you were asked you would have expressed 16 an opinion. So my question was, were you asked? 17 At the time of this editorial on October 7, A 18 1992, I was not asked. I had no role in this editorial on 19 your discussion. 20 You said that your particular role was closed 0 21 though, at that time; is that right? 22 At that point in time, having completed the A 23 Piere Finck interview, in my mind I thought that my 24 reporting on that topic was completed. 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Is that a conclusion you reached on your own or Q 1 did somebody from <u>JAMA</u> tell you that? 2 That was my opinion, reached on my own. A 3 Did your involvement with <u>JAMA's</u> coverage of Q 4 the JFK assassination change after October 7th, 1992, when 5 you felt like your involvement was closed or finished? 6 Did it change? A 7 Yes, sir. Q 8 A It did not. 9 Have you done anything further for JAMA with Q 10 regard to coverage of the JFK assassination since you 11 wrote the article that's marked as Exhibit 3-C that 12 appeared in <u>JAMA</u> on October 7th, 1992? 13 Have I done anything further in terms of A 14 writing stories as a opposed to the lawsuit? 15 I'm talking about reporting, writing, No. No. 0 16 editing stories, or articles for <u>JAMA</u>. 17 I have not. A 18 I just noticed that the last page of Exhibit Q 19 3-C is a copy of a letter dated January 26th, 1968 to 20 Ramsey Clark from Dr. Boswell. Do you see that? 21 A I do. 22 Was that intended to be part of the article Q 23 that you wrote pertaining to your interview with Dr. Finck 24 that's marked as Exhibit 3-C? 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	A I don't believe it was.
2	Q Okay. Just so there's no confusion about that,
3	I want everybody to see I'm going to take off this last
4	page from Exhibit 3-C. So it's not intended to be part of
5	Exhibit 3-C; is that right?
6	A That's correct.
7	Q We'll have it marked as Exhibit 3-E.
8	(Deposition Exhibit No. 3-E marked.)
9	BY MR. KIZZIA:
10	Q Let me show you what I've marked for
11	identification purposes as Exhibit 3-E. Can you identify
12	that document.
13	A This appears to be a letter written to the
14	Honorable Ramsey Clark, the Attorney General of the United
15	States, January 26th, 1968, by Dr. J. Thornton Boswell.
16	One of the three
17	MR. BABCOCK: No. No. He just wants you
18	to identify it. You don't have to
19	THE WITNESS: It's a letter to Ramsey
20	Clark from Dr. Boswell.
21	BY MR. KIZZIA:
22	Q Dated January 26th, 1968?

Where did you see the letter prior to today? Q 1 I believe it was given to me by Dr. Boswell. 2 A When did Dr. Boswell give you the letter that's Q 3 marked as Exhibit 3-E? 4 At the time I interviewed him. A 5 Going back to Exhibit 3-D, did it turn out that 6 Q the case was closed, as far as <u>JAMA</u> was concerned, after 7 October 7th, 1992? 8 MR. BABCOCK: Object to the form of the 9 question. It calls for speculation. 10 MR. MCGRAW: I also object on the grounds 11 that the case closed is vague and ambiguous. 12 MR. BABCOCK: You can go ahead and answer, 13 if you can. 14 THE WITNESS: Could you repeat the 15 question. 16 BY MR. KIZZIA: 17 Well, going back to the editorial that's marked Q 18 as Exhibit No. 3-D, it's stated -- a title to that 19 editorial -- that the case in <u>JAMA</u> on the JFK autopsy was 20 closed. My question to you is, did that turn out to be 21 the case? 22 I have -- I did not write that editorial. A 23 MR. KIZZIA: Objection. Nonresponsive. 24 BY MR. Did JAMA do any further editorials or articles Q 1 on the JFK case after October 7th, 1992? 2 Did they do any what? A 3 Did they publish any additional articles or Q 4 editorials pertaining to the JFK assassination? 5 I believe they did. A 6 Do you know why JAMA published further articles Q 7 or editorials pertaining to the JFK assassination after 8 Dr. Lundberg's editorial on October 7th, 1992 indicated 9 that the case was closed, as far as <u>JAMA</u> was concerned? 10 I do not. A 11 Did you ever discuss that with Dr. Lundberg? Q 12 MR. BABCOCK: Would that be the editorial? 13 MR.KIZZIA: Yeah, the additional 14 editorials and articles published by JAMA after Dr. 15 Lundberg's editorial that's marked as Exhibit 3-D. 16 THE WITNESS: Did I ever discuss it with 17 Dr. Lundberg? 18 BY MR. KIZZIA: 19 Q Yes. 20 A I did. 21 When did that discussion take place? 22 0 It took place prior to the publication of the A 23 additional articles, which I believe was in the spring of 24 this year. 25

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

So you expressed the opinion to Dr. Lundberg Q 1 that you felt that eyewitness testimony was more important 2 than articles that may deal with opinions of people, even 3 if they were medical experts that were not eyewitnesses? 4 MR. BABCOCK: Object to the form. That's 5 not what he testified to. You may answer the question. 6 THE WITNESS: Would you repeat the 7 question. 8 MR. KIZZIA: Would you read that last 9 question. 10 (Requested material read.) 11 THE WITNESS: I did not express that 12 opinion. 13 BY MR. KIZZIA: 14 Well, I understood you to say -- of course the Q 15 record will speak for itself, but I understood you to say 16 that you felt like you had obtained -- you had written 17 about interviews that you had done with eyewitnesses. I 18 believe you described them as primary eyewitnesses. 19 MR. BABCOCK: Object to the form of that 20 question. 21 BY MR. KIZZIA: 22 Is that correct? 0 23 I did the three articles based on the doctors I A 24 However, they might be described -- now, we interviewed. 25 DIANA HENJUM REPORTING SERVICE, P.C. could go through it specifically, if that's what you're 1 after. 2 The articles, you mean? Q 3 Yeah, the three articles I wrote. A 4 Well, we'll certainly do that, but right now 0 5 I'd like to --6 MR. BABCOCK: Object to the sidebar. 7 BY MR. KIZZIA: 8 Right now I'd like to know is -- why did you Q 9 feel that your interviews with those particular persons 10 were more important than articles that may cover other 11 persons' views and opinions? 12 Just give me a second here. MR. BABCOCK: 13 Object to the form of the question. He did not testify to 14 that previously. Go ahead. 15 THE WITNESS: I do not believe that. I in 16 no way believe that my article was based on primary 17 eyewitness testimony or are any more or less important 18 than anything else that may be written about the Kennedy 19 assassination. 20 I thought and attempted to say that my articles 21 based on the primary physicians involved in the emergency 22 care and the autopsy of President Kennedy, as part of the 23 package of articles and commentaries that we published in 24 1992, were indeed the extent of the necessary coverage in 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

JAMA. My articles plus the additional stuff in 1992, 1 enough. 2 What was the additional stuff that you are 0 3 referring to other than your three articles? 4 I would have to -- I believe your aware of it. A 5 It's the articles accompanying and the articles published 6 in JAMA in 1992 about the JFK assassination. I don't have 7 the inventory. 8 What's your recollection of what <u>JAMA</u> published 0 9 regarding two articles concerning the JFK assassination in 10 1992 other than your three articles that are marked as 11 Exhibits 3-A, 3-B, and 3-C? 12 The only part that I directly had control over A 13 were the three articles I wrote. In addition there were 14 editorials, I believe two. There were letters to the 15 editor, I believe eight, and there may have been 16 additional commentaries, papers from other people. 17 Anything else that you can think of at this 0 18 time? 19 I believe that was essentially the extent of A 20 our 1992 coverage. 21 And you felt like that coverage was sufficient; 0 22 is that correct? 23 I felt that the 1992 coverage was, in my A 24 opinion, sufficient. 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

You didn't feel like JAMA should publish 0 1 anything else regarding the JFK assassination; is that 2 right? 3 I did not have a strong opinion on this, and I A 4 am not the editor of JAMA. I thought that the 1992 5 coverage, in my opinion, was sufficient, but I listened to 6 and did not strongly object to and do not now have strong 7 objections to the additional coverage that was publish in 8 1993. 9 But you did feel strongly enough about it to 0 10 express that opinion to Dr. Lundberg; is that right? 11 Dr. Lundberg -- JAMA is a peer-review A 12 publication, and opinions and advice are solicited far and 13 wide, so it is normal routine -- normal protocol to 14 solicit my opinion. 15 And my opinion was that perhaps we had done enough 16 in 1992, but I certainly did not have any strong 17 objections to the additional publication in 1993. 18 (Deposition Exhibit No. 3-F marked.) 19 BY MR. KIZZIA: 20 Let me show you what I have marked for Q 21 identification purposes as Exhibit 3-F, which is the next 22 document contained among the documents that are part of 23 Exhibit 3. Can you identify that. 24 These appear to be the letters to the editor A 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

3	BY MR. KIZZIA:
4	Q Okay. The next document that's part of Exhibit
5	No. 3 marked for identification purposes as Exhibit 3-G.
6	Can you identify that document.
7	A This was a letter published in March of
8	March 24, slash, 31, 1993. This is a letter from Dr.
9	Cyril H. Wecht.
10	MR. BABCOCK: I'm sorry. What exhibit
11	number did you give that?
12	MR. KIZZIA: 3-G.
13	MR. WATLER: Do you have a 3-F marked yet?
14	MR. BABCOCK: Yeah. I noticed he's been
15	skipping some.
16	BY MR. KIZZIA:
17	Q I think you just talked a minute ago about
18	Exhibit 3-F, but could you identify it again, for the
19	purposes of the record.
20	A 3-F was a package of, I believe, eight letters
21	published in the October 7th, 1992 issue of JAMA.
22	MR. BABCOCK: Just to satisfy my
23	curiosity. We've got 3-A, 3-B, 3-C, 3-D, 3-E, 3-F, so
24	we're on track.
25	THE WITNESS: Are we done with this?
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	BY MR. KIZZIA:
2	Q Let's keep them in order. Then Exhibit No. 3-G
3	are some additional letters that were published in <u>JAMA</u> in
4	March, 1993?
5	A Yes.
6	Q Were these letters that you didn't think should
7	be published?
8	A That letter was published in March 24/31, 1993,
9	and I think that was part of the additional package that I
10	did not think had to be published. I would like to amend
11	my earlier response to that. The basic dialogue was with
12	Dr. Lundberg, I expressed the opinion that I thought we
13	had indeed closed the case in 1992 and that should be it.
14	But I was persuaded upon discussion with Dr.
15	Lundberg that since indeed the controversy was continuing,
16	as evident in the letter from Dr. Wecht, I was unpersuaded
17	by Dr. Lundberg's belief that these additional papers and
18	commentaries might indeed achieve closure, and that was
19	the conclusion of our discussion.
20	Q When you say that you felt that the case was
21	closed in 1992, what do you mean by that?
22	A I did not say that I felt the case was closed
23	in 1992. That was the title of Dr. Lundberg's editorial.
24	Q Did you feel that the case was closed in 1992?
25	MR. WATLER: Objection. Asked and

answered. 1 MR. BABCOCK: Same objection. 2 THE WITNESS: Do you want me to respond to 3 that? 4 MR. BABCOCK: Yeah. Yeah. I'll tell you 5 not to answer if I don't want you to respond. 6 I just have to make my objections for the record. 7 THE WITNESS: The case may never be 8 I thought, in terms of <u>JAMA</u>'s coverage of this closed. 9 public controversy, that it was closed at the end of 1992. 10 BY MR. KIZZIA: 11 Why did you feel that way? 0 12 Because the editor had written an editorial A 13 with the title Closing The Case, and I took him -- I took 14 the title at its face value. 15 Okay. You say that you felt that the case was Q 16 closed as far as JAMA was concerned in 1992. Did you feel 17 that the case should be closed, as far as JAMA was 18 concerned, in 1992? 19 MR. WATLER: Obejction. Asked and 20 answered. 21 MR. BABCOCK: Same objection. 22 I did not. THE WITNESS: 23 BY MR. KIZZIA: 24 Did you say that you told Dr. Lundberg that you 0 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

didn't think it was advisable to publish anything more? 1 Dr. Lundberg asked my opinion as part of a wide 2 A method of opinions he solicited as part of the JAMA 3 routine. My opinion was that perhaps we had published 4 enough. However, I was persuaded after listening to his 5 reasons for, in effect, going beyond his own decision to 6 close the case. 7 I was persuaded that since the controversy was 8 continuing and there was additional interests that perhaps 9 the additional papers, commentaries he proposed published 10 might have value. And I accepted his decision. 11 I'm trying to understand why you felt in 1992 0 12 that JAMA had published enough. What was your reason for 13 thinking that? 14 MR. WATLER: Objection to the form of the 15 question. He testified that that's what he thought in 16 1992. 17 MR. KIZZIA: Can he answer the question 18 19 now? THE WITNESS: I did not think the case 20 should be closed in 1992 or was closed or it -- my only 21 thought on the matter was we had an editorial editor 22 saying the case was closed. The only thoughts I have were 23 in that context. 24 But I thought you said just a few answers ago 25 0 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

that you thought in 1992 that JAMA had published enough on 1 the JFK. Did you feel that way? 2 As evidenced by the editorial closing the case. A 3 JAMA has -- there are many topics that come before JAMA, 4 many of which do not have to do with the Kennedy 5 assassination. 6 Was there any other reason other than you've 0 7 just expressed for feeling that JAMA had published enough 8 on the JFK assassination in 1992? 9 Those are my reasons, that we had published A 10 enough because we had published enough. 11 MR. BABCOCK: He wants to know anything 12 else. 13 BY MR. KIZZIA: 14 Any other reasons? Q 15 No. A 16 (Depositin Exhibit No. 3-H marked.) 17 BY MR. He appears to be a A 5 physician who wrote a special communication to JAMA. 6 Which was published in JAMA on March -- or --0 7 March 24, slash, 31. A 8 1993? 0 9 Right. A 10 Have you ever spoken to Dr. Artwohl? 0 11 I have not. A 12 Did Dr. Artwohl have any input in the three Q 13 articles that you wrote regarding the JFK assassination 14 that was published in <u>JAMA</u> in 1992? 15 A No. 16 Prior to writing those three articles, had you Q 17 read anything written by Dr. Artwohl --18 A No. 19 -- about the JFK case? 0 20 A No. 21 MR. BABCOCK: Wait a minute. Let him 22 finish. You're going too fast. It's hard on the court 23 reporter. We don't want to be hard on her. 24 (Deposition Exhibit No. 3-I marked.) 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

BY MR. KIZZIA: 1 The next document among the documents that are Q 2 part of Exhibit No. 3 I've had marked for identification 3 purposes as Exhibit 3-I. Can you identify Exhibit 3-I. 4 3-I is an article written by Dr. John K. A 5 Lattimer and published March 24, slash, 31, 1993 in JAMA. 6 Who is Dr. Lattimer? Q 7 I know him only by his description as published A 8 here in JAMA. 9 Have you ever spoken with Dr. Lattimer? Q 10 I have not. A 11 Did Dr. Lattimer have any input in the three 0 12 articles that you wrote for <u>JAMA</u> in 1992? 13 What do you mean by input? A 14 Well, would you, by your own definition of the Q 15 word "input," consider him as having any input in writing 16 the articles? 17 In the indirect way that he -- Dr. Lattimer is A 18 published in the field of Kennedy assassination, and I did 19 consult some of his prior publications, which is -- I 20 believe were furnished to you. It may be in that stack at 21 some point. But in the sense that I was aware of his 22 earlier publications on the assassination, I did not talk 23 to Dr. Lattimer and I had no direct involvement as you are 24

referring to.

Are you saying that in or as part of the Q 1 research that you did from writing the three articles for 2 JAMA you read some of Dr. Lattimer's published writings on 3 the case? 4 That's correct. A 5 Did you review anything written by Dr. Lattimer 0 6 that was not published? 7 I did not. A 8 (Deposition Exhibit No. 3-J marked.) 9 BY MR. KIZZIA: 10 The next document among the documents that are 0 11 produced in Exhibit 3 I've had marked for identification 12 purposes as Exhibit 3-J. Could you tell me what that is. 13 This is an editorial, I believe, written by Dr. A 14 Charles S. Petty published in the March 24, slash, 31, 15 1993 JAMA. 16 Has JAMA published anything regarding the JFK Q 17 assassination since the March 24, slash, 31st, 1993 18 edition? 19 Not to my knowledge. A 20 Did you have any input or involvement with the 0 21 editorial that's marked as Exhibit 3-D? 22 Not directly. I may have; I can't recall. I A 23 may have read a copy as given to me as a courtesy. I 24 expressed no opinion. 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Did you have any written or oral comments about Q 1 the editorial before it was published? 2 I did not. A 3 So you didn't have any input, then, in the 0 4 editorial that's marked as Exhibit 3-D; is that right? 5 The editorials are the prerogative of the A 6 Any input I would have would be if he solicited 7 editor. my opinion. 8 Did he solicit your input or opinion? 0 9 Not -- I believe I was given a copy to read. A 10 And you had no comments after you read it; is 0 11 that right? 12 I had no comments. A 13 So you had no input in the editorial? 14 Q I had no input. A 15 Did you have any input in the discussion as to 16 0 which letters to the editor were to be published in JAMA? 17 I did not. A 18 Did you have any input in the article that's 19 Q marked as Exhibit 3-H that was written by Dr. Artwohl? 20 I did not. A 21 Did you have any input in the article that's Q 22 marked as Exhibit 3-I that was written by Dr. Lattimer? 23 I did not except in its sense I've already A 24 explained, that I expressed the general opinion that 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

perhaps we did not need this additional package. And I was subsequently persuaded with the other reasons on why we did.

Q So you had that input into whether or not Dr. Artwhol and Dr. Lattimer's articles should be published?

A I had the input that I learned we were preparing to publish these articles and I raised the question that we needed to publish additional articles. I listened to the editor's reasons and I was persuaded that, okay, we would publish the additional articles. I had no direct input into the articles, per se.

Q You weren't involved in the writing or editing of those article?

A I was not -- well, I believe I wrote an editor's note in regard to -- I don't think that was in 1992, so I did not.

17QAll right. Let's go back to Exhibit 3-F. Are18there any editor's notes on Exhibit 3-F that you wrote?

19A3-F is the eight letters, right, in 1992? Yes,20there is. I wrote in -- I believe I wrote a reply. A21reply, yes, I did write a reply right here.

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

And that's part of Exhibit 3-F? 0 1 That's 3-F which was a package of eight letters A 2 published October 7, 1992. 3 Page 4 of Exhibit 3-F; is that right? 0 4 Well, you know, the numbering is marked -- it's A 5 page 4 of this exhibit as you've assembled it. It's page 6 1684 of JAMA. 7 What was your reply to? 0 8 It's before you. A 9 Well, I see where you have written a reply. 0 10 You have identified that, and the title is, In Reply. My 11 question to you is, what were you replying to? 12 I was replying to the points raised by the A 13 eight letters, which is the normal JAMA --14 MR. BABCOCK: All he wants to know is what 15 you were replying to. 16 THE WITNESS: The eight letters. 17 MR. BABCOCK: He didn't know what the 18 normal JAMA is. 19 BY MR. KIZZIA: 20 You were replying to the eight letters to the Q 21 editor of <u>JAMA</u> that are part of the Exhibit 3-F? 22 Right. A 23 And that's -- those are letters from Arthur J. 0 24 Wilson, M.D.; Gary Aguilar, M.D.; Patricia James, M.D.; 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	V.Q. Telford, M.D.; Clyde Howard, III; Anthony White,
2	M.D.; David Mantik, M.D.; Wayne Smith, M.D.; is that
3	right?
4	A And Mark Micozzi, M.D.
5	Q Mr. Micozzi is
6	A Oh, wait a minute. He didn't reply, I'm sorry.
7	Q So you weren't replying to what Mr. Micozzi
8	said?
9	A No. Right.
10	Q Do you know who Dr. Wilson is?
11	A I do not.
12	Q Do you know Dr. Aguilar?
13	A I do not.
14	Q Do you know Dr. James?
15	A I do not.
16	Q Do you know Mr. Telford or Dr. Telford?
17	A I do not.
18 .	Q Do you know Dr. White?
19	A No.
20	Q Do you know Dr. Mantik?
21	A No.
22	Q Do you know Dr. Smith?
23	A No.
24	Q Do you know anything about those persons that
25	sent the letters to the editor?
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	A Nothing.
2	Q Do you know Dr. Micozzi?
3	A Only by the fact that he published that reply
4	in <u>JAMA</u> and I believe an earlier editorial in a May 27
5	JAMA. I know nothing of him personally.
6	Q Then your knowledge of Dr. Micozzi is basically
7	the same as your knowledge of the other doctors who wrote
8	letters to the editor?
9	A Dr. Micozzi did not write a letter to the
10	editor. He wrote an editorial published in the May 27,
11	1992 issue of <u>JAMA</u> . Then he apparently wrote a reply to a
12	letter addressed to one of the points he made in his
13	editorial.
14	Q But your knowledge of Dr. Micozzi, as I
15	understand your description of it, is limited to your
16	knowledge of what <u>JAMA</u> published that he wrote?
17	A Right.
18	Q Which is the same knowledge you have of the
19	other doctors that wrote letters to the editors of <u>JAMA</u> .
20	Your knowledge is limited to what <u>JAMA</u> published?
21	A That's correct.
22	Q Is the reply that's part of Exhibit 3-F the
23	only reply that you wrote that was published in <u>JAMA</u> with
24	regard to the JFK assassination?
25	A That's correct.

A 11 What branch of the service? 0 12 A It was the Illinois Army National Guard. 13 So that was while you were working for The Q 14 Freeport Journal Standard? 15 A It was. 16 While you were initially employed with the AMA? Q 17 Right. A 18 What did you do for the National Guard? Q 19 A I was just a routine national guardsman. I did 20 what they told me. 21 I imagine that's true with most of them, but 0 22 did you have any specific job assignment? 23 Well, in that particular period, there were A numerous urban riots and we were mobilized through the 24 1968 convention riots in Chicago, Martin Luther King riots 25 DIANA HENJUM REPORTING SERVICE, P.C. 2	anniversaries there were rumors of riots and we were
3	mobilized again.
4	Other than that, there was fairly intensive
5	I mean other than, you know, the active duty part which
6	was six months. The weekend drills were fairly intensive
7	because there was various rumors that the guard would be
8	activated for Vietnam, so essentially a preparation in
9	case of a call-up for Vietnam or mobilization for the
10	riots.
11	Q You weren't activated for participation in the
12	Vietnam conflict, were you?
13	A I was not.
14	Q Did you say there was six months of active
15	duty?
16	A There was.
17	Q When was that?
18	A 1965.
19	Q After that, it was weekend duty for the most
20	part?
21	A Weekend duty.
22	Q Was that every weekend or just certain ones?
23	A It seemed like it. I think it got up to three

7	Q You said that sometime between publication of
8	the articles that appeared in <u>JAMA</u> in 1992 and publication
9	of the articles in <u>JAMA</u> in 1993 regarding the JFK

15	A That was the essence of the discussion.
16	Q What was it that Dr. Lundberg told you that
17	persuaded you that additional articles would be
18	appropriate?
19	A Well, he is the editor; it's his prerogative.
20	So he did not require my approval or consent. And the
21	it was persuasive that the controversy in question and

articles, there still was an ongoing controversy even 1 2 within the medical profession with regard to the JFK 3 assassination, is that true? 4 A I did not achieve closure with my articles. 5 Q So you do agree that there was a ongoing 6 controversy, even within the medical profession? 7 I'm not sure how you would define ongoing Δ 8 controversy, but there were letters to the editor and 9 there were additional communications, apparently made to 10 Dr. Lundberg and others. And it was his decision to 11 respond to the ongoing controversy, if you will. To contribute to the dialogue -- to use the 12 0 13 word you mentioned or used a minute ago -- was there any 14 thought given to publishing articles that presented the 15 opposing view or an opposing view, with regard to the 16 medical aspects of the JFK assassination? 17 MR. BABCOCK: Let me just say at this 18 point before you respond to that question, there is a 19 concern -- and I'm not sure if this witness has any 20 knowledge about this, so I'll probably let him answer. 21 But just so we're on the record about this, JAMA would 22 assert a privilege regarding unpublished material which is 23 not germane to this case which obviously deals with 24 articles that weren't published. 25 And to the extent that there was discovery

1 directly to JAMA regarding their editorial decisions not to publish something or what they might publish in the 2 future, that type of thing. They're going to assert a 3 privilege on that. I don't think this witness is involved 4 with these sorts of things and I certainly will let you 5 explore that with him but . . . 6 BY MR. KIZZIA: 7 Well, let me --8 Q MR. WATLER: Let me also, for the record, 9 raise an objection. I believe the inquiry's bound to the 10 scope of discovery in this case. I understand you're 11 saying -- as I understand it, the first three articles in 12 JAMA offered by Mr. Breo, if I'm understanding your 13 14 question, you're inquiring about decision making and thought processes that occurred after the publication of 15 those articles. So I can't see how it would be relevant 16 17 to the claims that you've made. BY MR. KIZZIA: 18 Mr. Breo, were you involved at all in the 19 0 decisions that were made by JAMA as to what articles or 20 letters to the editor were to be published in JAMA 21 pertaining to the JFK assassination? 22 I was not. 23 A Do you know what criteria is used or followed, 24 0 if any, by JAMA in making decisions as to what letters to 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

the editor or articles are to be publish and what are not 1 2 to be published? 3 Only in the most general sense about letters to A the editor are decided, any journalistic publication, you 4 5 know, there's an editor that makes those decisions. Can you -- do you have any more specific 6 Q knowledge about the decision-making process at JAMA? 7 The decision-making process at <u>JAMA</u> with regard 8 A to the letters to the editor is handled totally outside my 9 10 purview of influence and knowledge. 11 Okay. What about articles that are submitted 0 12 for publication? That's different people, but again, I had 13 A nothing to do with it. 14 So you do not know what criteria are utilized 15 0 or followed, if any, by JAMA in deciding what articles are 16 to be published and what letters to the editor are to be 17 published and what are not? 18 You know, I'm vaguely aware of certain 19 A You know, I can elaborate if you'd like to give 20 criteria. 21 me specific questions about criteria. What criteria did 22 you have in mind? 23 Well, what criteria are you aware of? Q MR. MCGRAW: I want to object on the lack 24 25 of foundation to the question. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 MR. BABCOCK: Sounds like a good 2 objection. I'll make the same. 3 BY MR. KIZZIA: 4 0 Can you answer the question? 5 A You know, the only criteria I'm available --6 I'm aware of is they try to confine it to 500 words. 7 What about articles that are submitted for 0 publication. Are you aware of any criteria that are used 8 to follow in deciding which articles are to be published 9 10 and which aren't? 11 MR. MCGRAW: Same objection. 12 MR. BABCOCK: Same objection. Go ahead and answer if you'd like. 13 14 THE WITNESS: Well, there's probably a 15 whole science involved as to how you handle medical and 16 scientific journals. It's not my expertise or interest. BY MR. KIZZIA: 17 Well, my question to you, Mr. Breo, is whether 18 Q or not you are aware of any of the criteria, if any, that 19 JAMA follows in making decisions as to what articles are 20 to be published and what articles are not to be published. 21 Only in the most general, superficial sense. 22 A Can you describe the criteria in the general, 23 0 superficial sense that you are aware of? 24 I cannot. 25 A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Q Do you have any reason to believe that the 1 normal process followed by JAMA in determining what 2 letters to the editor are to be published and what 3 articles are to be published and what letters and articles 4 are not to be published, were not followed in the case of 5 the JFK assassination? 6 Could you repeat that, please. 7 A Yes. Do you have any reason to believe that 8 0 the normal process, whatever that process may be, that 9 JAMA follows in deciding whether or not to publish certain 10 letters to the editor and not to publish certain letters 11 to the editor and deciding whether to publish certain 12 articles that are submitted and deciding not to publish 13 certain articles that are submitted, were not followed in 14 the case of the JFK assassination? 15 16 A No. MR. BABCOCK: Object to the form of the 17 18 question. 19 BY. MR. KIZZIA: After you wrote your three articles pertaining 20 0 to the JFK case which JAMA published in 1992, JAMA receive 21 a number of letters that were critical of the articles; is 22 that correct? 23 24 A T --Object to the form of the MR. 14	an editor who does his job and he handles all the letters
15	on all the articles for <u>JAMA</u> .
16	Q Who is that that does that? Who has that

18	A It's Dr. Drummond Rennie.
19	Q What is Dr. Rennie's position?
20	A He is the deputy editor west of <u>JAMA</u> .
21	Q Is one of his responsibilities to handle all
22	letters to the editor of <u>JAMA</u> ?

considerable expense in an area that I just cannot see is 1 within the scope of discovery. Now, whether or not 2 letters to the editor after the fact were published or not 3 published has anything to do with your cause of action 4 that you have asserted in your lawsuit. You know, it may 5 6 be very interesting, and I'm enjoying it very much; but I don't think it's advancing the lawsuit one iota. 7 8 BY MR. KIZZIA: Have you written any other articles that were 9 0 10 published in JAMA? You mean other then the Kennedy assassination? 11 A Other than these three articles in question? 12 0 About the Kennedy assassination? 13 A About anything. 14 Q I have written other articles, yes. 15 A That were published in JAMA? 16 0 Yes. 17 A What is the normal process that <u>JAMA</u> follows 18 Q with regard to letters to the editor that are directed 19 specifically or in specific response to articles that you 20 may have written? 21 MR. BABCOCK: Hold on. Let me object. 22 23 I'm going to let him answer that, Brad, but following up 24 on what Paul said, frankly, I must agree that I don't see the relevance of it. But it's your deposition; you ask 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

whatever questions you want. The point I want to make though is, you sent a letter to me yesterday where it said you weren't sure that we were going to get finished today.

And just let me say for the record that any nonprivileged type questions you can ask him, but we reserve our right to object to this deposition continuing beyond today and certainly hauling him back down -- back down to Texas. I don't expect you to agree with me I'm just making a speech for the record.

BY MR. WATLER: I would join that because, I mean, I think at least for the last half-hour or so you have been in an area that -- since we came back from our break earlier, my recollection, we've been in an area that I can't understand by any stretch of the pleadings is discoverable.

I understand that his deposition is delayed so that it is not completed today by such inquiries. I think I would join in what Mr. Babcock said. You probably don't remember the question so . . .

Q Well, let me ask it another way. Mr. Breo, what I'm interested in finding out is, normally when a letter is written to JAMA in response to an article you have written, is that letter forwarded on to you for your review?

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 A What -- how are you defining review? What do 2 you mean by review? 3 0 Well, is that letter forwarded on to you, 4 normally, if it's specifically in response to an article 5 that you've written? 6 A I believe if a letter is to be published, it 7 would be forwarded on to me for my reading and possible 8 response. 9 0 What about letters to the editor in response to 10 articles that you've written that Mr. Rennie decides not 11 to publish? I believe he would attempt to forward such 12 A 13 letters on to me for my possible reply to the letter 14 writer, if I so chose. 15 All right. Going back to Exhibit 3-F, which 0 16 contains copies of eight letters that were written to the 17 editor of JAMA. 18 A Uh-huh. 19 Q You said that you saw those letters; is that 20 right? 21 I saw them. They were shown to me as part of A 22 the opportunity for me to make a response, and I so did. 23 Q Were you shown any other letters that were 24 written to JAMA in response to your three articles? 25 I believe I was subsequently shown some letters A DIANA HENJUM REPORTING SERVICE, P.C. that were not published, that were shown to me for the 1 opportunity to meet the reply personally to with the 2 letter writer, if I so chose. 3 Did you personally reply to any letter writer 4 Q who wrote a letter to JAMA in response to your three 5 6 articles? 7 A I did not. How many letters were forwarded on to you by 8 Q 9 Mr. Rennie for your consideration of a personal response which you didn't -- you chose not to respond to? 10 I don't recall. There weren't that many. 11 A Can you give me just a ballpark figure? 12 0 13 Four, five, six. A 14 0 Do you know whether or not JAMA received other 15 letters in response to your three articles that were not 16 forwarded on to you? 17 I do not. A 18 0 Going back to the document that is part of 19 Exhibit 3. The next document appears to be a two-page memo or letter dated January 29th, 1992; is that right? 20 Let me see. Well, here you see some of his issues, 12 A I believe he may have given me a list of two or 13 concerns. 14 three questions that he thought might be appropriate. (Deposition Exhibit No. 3-0 marked.) 15 BY MR. KIZZIA: 16 All right. Let me show you what I've had 17 Q marked for identification purposes as Exhibit 3-0, which 18 19 is the next document among the documents that are marked Exhibit 3. Can you identify 3-0? 20 I can. 21 A What is it? 22 0 It's a handwritten letter, 4-2-92 from Dr. 23 A Richard Glass. 24 To who? 25 Q

1	A To myself.
2	Q And did you receive that letter?
3	A I did.
4	Q On or about April 2nd, 1992?
5	A I did.
6	Q What does the letter say?
7	A Well, the letter is suggested questions for the
8	interview.
9	Q Can you read that?
10	A I can attempt it. Dennis, my suggestions raise
11	essential questions for the Humes, et al., interview.
12	What were the major positive and negative findings of the
13	JFK autopsy? In particular: Entrance and exit gunshot
14	wounds compatible with a single bullet or not, question
15	mark. Adrenal gland abnormalities, question mark.
16	Have any of the autopsy findings not been
17	revealed in any of the previously published reports? If
18	not, why not? Did he burn his notes? If so, why? What
19	light on the autopsy findings together with the
20	characteristics of Governor Connally's wounds, if they are
21	familiar with them. I can't make out that word in the
22	controversy regarding a single assassin versus shots being
23	fired from more than one location?
24	Q Signed Richard?
25	A Signed Richard.

1 0 Was Dr. Glass in the same JAMA office as you? 2 He is. A 3 Where was he at the time? Q 4 A He was. 5 In Chicago? Q 6 A In Chicago. 7 So would the documents marked Exhibit No. 3-0 0 8 been sent to you intraoffice mail or was it sent to you by 9 outside mail or what? 10 It may very well been handed to me. Dr. Glass A is my other at work. I work closely with Dr. Glass. 11 12 0 Going back to Exhibit 3-M, the letter from Dr. 13 Lundberg to Dr. Finck dated March 27th, 1992 shows that a 14 copy was sent to Dr. Glass in addition to you. 15 Right. A 16 Do you see that? And there's a little check 0 17 mark by Dr. Glass's name. Do you see that? 18 No. A 19 Q Does that suggest that this document came from 20 Dr. Glass's file as opposed to your file? It could mean almost anything. It could mean 21 A 22 almost anything. Well, it does suggest that the letter that's 23 0 marked as Exhibit 3-M is a copy of the copy that was sent 24 25 to Dr. Glass as opposed to the copy that was sent to you, DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

	1	doesn't it?
· · ·	2	A That's right Dr. Glass and I work closely, meet
	3	regularly, and he may very well handed me a copy of what
	4	was given to him as opposed to copying both of us.
	5	Q Did you keep a file on the JFK assassination?
	6	A Did I keep a file? What do you mean by file?
	7	Q Well, what would you mean by file?
	8	A I'm interested in what you mean since it's
	9	it's your deposition.
	10	Q Well, when you write an article, do you
	11	generally prepare a file pertaining to that article?
5	12	A It depends on the event, the story I'm doing.
	13	Q So some stories you prepare files and some
	14	stories you don't?
	15	A It would depend on the news event. If your
	16	covering on medical emergency, you know, a medical
	17	response to a national disaster, you jump on a plane and
	18	go.
	19	You know, you might read the morning newspapers
	20	on the way. For a different kind of story, you might do
	21	background research before you start. So there's a
	22	spectrum of preparation.
	23	Q Well, in this particular case, with regard to
	24	the three articles that you wrote regarding the JFK
	25	assassination that was published in <u>JAMA</u> in 1992, did you
		DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 prepare and keep a file pertaining to those articles? 2 As I discussed, Dr. Lundberg and I prepared A 3 some advance questions. I incorporated Dr. Glass's 4 suggestions, which we've just been over, in that file. I 5 did a library search and came up with some articles on the Kennedy assassination which I read and --6 Put copies in your file? 7 0 -- put copies in my file. And, you know, if I 8 A 9 read an article in the daily press that was pertinent, I 10 might clip that and put it in the file. 11 Did you put a name or an identifying label on 0 that file? 12 Do you mean prior to the interviews or 13 A subsequent to the publication? What time period are you 14 15 talking about? 16 Did you have different files, one for before 0 the interviews and one for after? 17 18 No. You've got one grouping of material that A 19 my file may be nothing more complicated than sticking in an envelope as opposed to lying loose on your desk. 20 21 Q Well, how did you keep the grouping of materials that you've just described pertaining to these 22 articles on the JFK case? 23 I -- prior to the interviews it would just be a 24 A 25 pile of papers in my office.

91

At some point did you put these materials in a 1 Q 2 file folder or a group of folders? 3 I think subsequent to publication I took a A 4 large AMA envelope and put them in the envelope and wrote JFK on it and that was my file. 5 6 Q And what did you do with that file? 7 A I put it in the drawer in my office. 8 Q Did you keep a separate file from any file that may have been kept by Dr. Glass regarding those articles? 9 10 MR. BABCOCK: Objection to the form of 11 question. 12 THE WITNESS: I have no knowledge if Dr. 13 Glass kept a file or had a file. 14 BY MR. KIZZIA: 15 But Dr. -- but the file that you're talking 0 16 about is one that you kept -- prepared and kept 17 personally? 18 A Right. 19 And do you still have that file? 0 20 I believe that we're going through it as we A 21 talk. You do still have the file with the original 22 Q 23 documents in it; is that right? 24 A Of which these are copies, yes. 25 Was anything that you placed in that file from Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 the time you received the assignment to do these articles 2 and during the course of your research and interviews and 3 writing the articles, that you've destroyed? That I destroyed. By destroyed do you. 4 A 5 want . . . Well, the normal usage of the word, shredded. 6 Q 7 Okay? A I have never shredded --8 Anything? 9 Q A I have never shredded anything in my life. 10 What about thrown away? 11 0 There were various parts of the file in regard 12 A to the assassination stories that as appropriate were in 13 normal routine discarded. 14 What types of things were discarded? 15 0 Press clippings. Things I might have read 16 A 17 about the assassination or comments, things that -- once the -- once we had published the articles that essentially 18 was, you know, the end for the need in my files. 19 But you did keep the file? 20 Q I kept those parts of the file that I thought 21 A 22 needed to be kept. Well, what parts of the file did you think 23 0 needed to be kept? 24 Well, some of them we're going through right 25 A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

now.

Q Well, how did you decide what parts of the file would be kept and what parts of the file would be thrown away?

A You know, there's no great effort involved in this. And every article I've written for AMA, which there may be three hundred by now, whatever I have in front of me when I begin to write would get stuck into a file. After I've written, and in due course fairly shortly, would be tossed aside as new stories and new files take its place.

Q But as I understand your testimony, you kept a file on these -- on the stories that you did regarding the JFK assassination, but some of the contents you discarded and some of the contents you kept. So my question to you is, how did you decide what portions of the JFK file to keep and what portion of the file did you throw away?

A You know, there was no great triage process I went through. It may have been the size of the envelope I had to put things in. You know, parts of it were different stages in doing a story. You have the stuff before you get ready to do the interview and you have the stuff you take to the interview.

24 You have the stuff after the interview when you sit 25 down to write, and it's, you know -- there was no

particular rhyme or reason to what I kept or what I 1 discarded. 2 Was there anyone involved in the decision 0 3 making process as to what to discard from your file and 4 what not to discard from your file, other than yourself? 5 A No. 6 (Deposition Exhibit No. 3-P marked.) 7 BY MR. KIZZIA: 8 All right. Let me show you the next document 9 0 that is part of the Exhibit 3. I've had it marked for 10 identification purposes as Exhibit 3-P. Can you identify 11 that document. 12 This is a memo from myself to Dr. Lundberg on 13 A May 8th, 1992. 14 Did Dr. Lundberg work out of the Chicago AMA 15 0 office also? 16 17 A He did. He does. And Exhibit 3-P shows that you sent a copy of 0 18 it to your editor Dr. Glass? 19 A I did. 20 Down at the bottom there's a little scribble in 21 0 there. Do you see that? 22 That's the little journalistic notation for A 23 finished. 24 He just asked you if you see MR. BABCOCK: 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

it. 1 2 THE WITNESS: I do see it. BY MR. KIZZIA: 3 Did you write that on there? 4 Q 5 A I did. Who is Lee Frank? 6 0 Do you see something unusual in that? 7 A MR. BABCOCK: Oh, don't worry about that. 8 9 THE WITNESS: Lee Frank is the JAMA copy 10 editor, I believe who edited the Kennedy package. BY MR. KIZZIA: 11 Is Lee Frank a man or a woman? 12 0 13 Lee Frank is a man. A How is Mr. Frank's job different from Dr. 14 Q 15 Glass's job? Night and day. Dr. Lundberg is a physician and 16 A is the editor of JAMA. Mr. Frank is one of maybe 10, 12 17 JAMA copy editors and he edits along with the other 10 or 18 12 all of the content of <u>JAMA</u>. So you have the editor and 19 you have a copy editor. That's the difference. One is an 20 M.D. and one is not. 21 And what is Dr. Glass's role? 22 Q 23 Dr. Glass is the deputy editor of JAMA and my A direct supervisor. 24 How was Dr. Glass's role pertaining to the 25 0 DIANA HENJUM REPORTING SERVICE, P.C. three articles in the JFK case that you wrote different 1 from the role of Dr. -- of Mr. Frank? 2 Well, I mean Dr. Glass is, in effect, the 3 A surgeon for Dr. Lundberg. He is the alternate editor and 4 the editor with whom I work most closely with. Lee Frank, 5 as I mentioned, is one of many copy editors at JAMA who 6 edit the entire contents of each week's issue. He just 7 happened to be the copy editor assigned to the Kennedy 8 stories. 9 The next document among the documents that are 10 0 part of Exhibit 3 I'm marking as Exhibit 3-Q. 11 (Deposition Exhibit No. 3-Q marked.) 12 BY MR. KIZZIA: 13 Can you identify Exhibit 3-Q for us? 14 Q 3-Q appears to be a routing memo from Dr. 15 A Lundberg to myself on March, either 24 or 29 there's no 16 year given. 17 It also has some handwriting on it, doesn't it? 18 0 19 A It does. Whose handwriting is that? 20 Q Dr. Lundberg 21 A Can you read Dr. Lundberg's writing? 22 Q I will try. If we can make this Humes thing 23 A happen, I might be able to deliver Earl Rose for you, 24 slash, us also. He autopsied both Jack Ruby and Lee H. 25 DIANA HENJUM REPORTING SERVICE, P.C. KIZZIA: 5 6 Q Was that note directed to you? 7 A It was. And did Dr. Lundberg deliver Earl Rose for you? 8 0 That -- a combination of my efforts and Dr. 9 A 10 Lundberg's efforts persuaded Dr. Rose to an interview with 11 JAMA. What were your efforts? 12 0 My efforts were to pick up the telephone and 13 A call Dr. Rose and tell him I'd like to interview him. 14 And 15 he agreed. 16 Was that sometime after March 29th, 1992? 0 17 A It was. 18 How many times did you talk to Dr. Rose about Q 19 setting up an interview? 20 A I talked to him once. 21 When did you interview Dr. Rose? Q 22 A I believe it was late April, '92. 23 Q Where did that interview take place? 24 A In Iowa City. 25 Iowa City, Iowa? 0

Iowa City, Iowa. A 1 Did anyone else attend that interview? 2 Q I believe his wife may have sat in on part of A 3 it. 4 Dr. Rose's wife? Q 5 Dr. Rose's wife. A 6 Is that where Dr. Rose lives now? 7 0 That's where he lives. A 8 What were Dr. Lundberg's efforts? 9 0 I believe Dr. Lundberg's efforts were to find A 10 that note you just read suggesting the interview with Dr. 11 Rose. 12 I thought -- I understood you to say that as a 13 Q result of the combined efforts with you and Dr. Lundberg 14 you were able to --15 That was the day after the combination A 16 suggesting that I should do the interview. 17 (Deposition Exhibit No. 3-R marked.) 18 BY MR. Was a news release about the three articles Q 1 2 that you wrote concerning the JFK assassination sent out 3 by JAMA prior to the publication of the articles? 4 A I'm not sure if it was sent out or handed out. 5 Q But it was disseminated prior to the 6 publication of your articles? Prior to the publication date of the articles. 7 A All right. Exhibit 3-T states that it is a 8 Q news release by the American Medical Association embargo 9 for release 10:00 a.m. eastern daylight time, Tuesday, May 10 11 19th, 1992; is that right? That's correct. 12 A What does it mean by embargo for release? 13 0 That means that the contents cannot be 14 A published or broadcast prior to that time. 15 Prior to May 19th, 1992? 16 0 At 10:00 a.m. eastern daylight time. 17 A What was planned to take place on 10:00 a.m. on 18 0 Tuesday, May 19th, 1992? 19 A press conference regarding the publication of 20 A the articles. 21 Of your articles on the JFK case? 22 0 My articles. 23 A Were you involved in the preparation of the 24 Q news release that is marked as Exhibit 3-T? 25

A Minimally. 1 Describe your involvement. 2 Q Well, indirectly, my involvement was I had 3 A written the articles which are the basis for the press 4 release. The only other involvement I had was to read the 5 draft of the press release as written by the AMA unit that 6 handles press releases and to make any comments or 7 8 suggestions that I had. Who wrote the news release that's marked as 9 0 Exhibit 3-T? 10 I'm not sure. 11 A You said that it was written by a particular 12 Q unit or people in a particular unit at JAMA? 13 Yeah. 14 A What unit is that? 15 0 No, not at JAMA. At AMA. 16 A What unit is that? 17 Q It either would have been the unit of the AMA A 18 science news department, the AMA department of public 19 information. 20 Do you know which unit prepared the news 21 Q release that's marked as Exhibit 3-T? 22 I don't know who wrote the release which would 23 A be the essence of the preparation. And I'm not sure --24 they may have collaborated. 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

You don't know? 1 Q I don't know. It was -- I would assume it was 2 A one of these two names. Which one it was, I don't know. 3 They may have done it together. 4 Okay. You are pointing to the second line of 5 Q news release that says for further information contact 6 Jeff Molter or Paul Tarini. 7 Right. 8 A And then a phone number? 9 Q 10 A Right. The phone number is 312-464-4430? 11 Q That's right. 12 A What is that phone number? 13 Q That is the phone number -- I believe that's 14 A Mr. Molter's phone number. He is the director of the 15 department of science news. 16 And who is Paul Tarini? 17 0 Paul Tarini is a public information officer, 18 A who -- I'm not sure -- works for and with Jeff Molter, who 19 works for public information, which often works closely to 20 science news. There all -- the unit works with the 21 outside press and the outside world, at AMA activities. 22 When was this news release that's marked as 23 0 24 Exhibit 3-T prepared? KIZZIA: 7 The same day, day before, two days before? 8 0 Probably the day before, two days. 9 A You said that you were provided with an 10 Q advanced copy for your review and comments? 11 Right. 12 A 13 Did you review it? Q I did review it. 14 A Before it was released? 15 Q I did. 16 A And did you have any comments about the draft 17 Q copy that you received? 18 19 A Minor. A few. 20 Q What comments did you have? I can't recall. 21 A Was the news release or the wording of the news 22 Q release changed in any way as a result of whatever 23 24 comments you had? I believe it was changed minimally. 25 A

But you can't say how it was changed? 1 Q I really can't recall. I mean, I read it only 2 A with an eye to -- you know, if everything was spelled 3 right, does it have the date right, stuff like that, you 4 know, the essence of the article is right, if they got my 5 name spelled right. That was it. 6 You didn't have any comments or suggestions 7 0 about the substance of the news release? 8 Well, I had the comment that, you know, this A 9 appears to summarize the contents of the articles. 10 11 Q Okay. You know, had I thought it was egregiously in 12 A error, I would have said something. 13 With regard to the minimal changes that you 14 0 suggested, did those changes have anything to do with the 15 substance of the news release as opposed to just spelling 16 of words or that sort of thing? 17 They did not. They were on the lines, of the 18 A two of you were interviewed by Dennis L. Breo, JAMA --19 they may have had a JAMA writer, and I said, change that 20 to JAMA national correspondent. Minor changes. 21 Anything else that you can remember? 22 Q 23 A No. What was the purpose of the news release? 24 Q The purpose of the news release was to -- news 25 A DIANA HENJUM REPORTING SERVICE, P.C. A 9 Which four weeks? 10 0 It varies from year to year. It has to do with A 11 what months have five weeks. It's not my domain. It's 12 worked out at the start of the year. 13 So is it your testimony that a news release is 14 0 sent out by the AMA regarding <u>JAMA</u> editions every week? 15 It's done by the science news department every 16 A week, right. 17 And to whom are those news releases sent? 18 0 Preselected members of the media and mostly 19 A those who are interested in receiving the news release. 20 Most of them are, of course, science writers and major 21 prints of broadcast outlets. 22 Do those news releases -- news releases 23 0 normally touch upon all of the subjects covered in the 24 particular JAMA addition? 25 DIANA HENJUM REPORTING SERVICE, P.C. They touch upon the highlights of a given 1 A No. issue. 2 This particular news release marked Exhibit 3-T 3 Q it, appears that it only refers to your articles. 4 That may have been a -- it may appear that way 5 A but this news release may have been in addition to the 6 regular news release on scientific content of <u>JAMA</u>. It 7 may have been an add-on. That's my recollection. There 8 was also a -- the regular news release for the scientific 9 content of that particular issue. 10 So you're saying that the news release that is 11 0 marked as Exhibit 3-T, then, it was a special news 12 13 release? For the purposes of the press conference. 14 A So your answer is yes? 15 Q What was the question again? 16 A The news release that is marked as Exhibit 3-T 17 0 was a special news release? It wasn't the typical weekly 18 news release that was sent out by the AMA? 19 It was both. It was a typical news release A 20 that would go out weekly with the highlights of the given 21 issue of <u>JAMA</u>. In this case it was prepared separately to 22 be handed out at a press conference on May 19th. 23 Did JAMA hold weekly press conferences? 0 24 This entire area is outside of my domain. A I was not involved. 1 I take it, then, you were just told that a 2 0 press conference was going to be held? 3 A Yes. 4 Who told you that? 5 Q Dr. Lundberg. 6 A Were you also told that you were to participate 7 0 in that press conference? 8 I was -- it was suggested that it would be 9 A appropriate if I -- what do you mean by participate? 10 Well, what were you told as to what your 11 0 participation would be? 12 I was told that there would be a press 13 A conference and it would be appropriate if I attended. 14 And who told you that? 15 0 Dr. Lundberg. A 16 Did you attend the press conference? 17 0 I did. 18 A Was this press conference given by The American 19 Q Medical Association? 20 It was. A 21 Who were the speakers at the press conference? 22 0 As I recall, the speakers would have been Mr. 23 A Robin Matell, who is the vice president for public 24 affairs, public relations, communications -- whatever the 25 DIANA HENJUM REPORTING SERVICE, P.C. title is -- who opened the press conference, and Dr. 1 Lundberg and I both made remarks. 2 0 Did anybody else speak on behalf of the AMA at 3 the press conference other than Mr. Matel and Dr. Lundberg 4 and yourself? 5 Those were the main speakers. There was a Q A 6 and A period during which other AMA public relations 7 people might have spoken by way of saying, and your turn, 8 okay, you know, that type of thing. But there were no 9 substantive remarks other than Dr. Lundberg and myself. 10 How do you spell Mr. Matel's name? 11 Q It's M as in mother, A, T as in Tom, I believe A 12 13 one L. Is that the best you can do? MR. BABCOCK: 14 THE WITNESS: That's the best I can do. 15 MR. WATLER: Can I see that last exhibit 16 if you're through with it, Brad. 17 BY MR. KIZZIA: 18 All right. Going back to the next documents 19 0 that are part of Exhibit 3. It looks to me like the next 20 five pages go together. I'll hand them to you and see if 21 you agree. 22 They do. They appear to be out of order. A 23 If they appear to be out of order why don't you 0 24 put them in order. 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

I can't tell because I can't tell the page 1 A numbers, they're screwed. I'm having trouble putting 2 these without spending a fair amount of time because I 3 can't read the page numbers at the top of the page. 4 I mean, the five do go together. Lines, paragraphs, four 5 paragraphs at the bottom of the page. 6 7 I don't have any trouble getting it exactly -well, these two go together. That's the last, so I would 8 imagine that -- it would appear that's the best I can do. 9 I'll staple those five pages together since 10 0 they go together and have them marked for identification 11 12 purposes as Exhibit 3-U and hand that to you. 13 (Deposition Exhibit No. 3-U marked.) 14 BY MR. KIZZIA: 15 Can you identify Exhibit 3-U for us. 0 16 A This appears to be a copy of the text of the 17 remarks, or the prepared remarks of Dr. Lundberg for the 18 May 19th press conference. 19 Did Dr. Lundberg deliver the remarks, the text 0 20 which is marked as Exhibit 3-U? 21 I -- you know, I did not tape his remarks. You A know, I presume he had prepared them for the purposes 22 of -- he did say something at the press conference. Now, 23 I don't know whether that's line -- word for word what he 24 25 said, I don't know.

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Q But you were there and you did hear Dr. 2 Lundberg? 3 A I was there and I heard his remarks. I did not commit them to memory. 4 5 Did you have any input in the preparation of Q the remarks that Dr. Lundberg gave at the press conference 6 7 on May 19th, 1992? A I did not other than write the articles. 8 9 Do you know who prepared the remarks that Dr. Q 10 Lundberg gave at the press conference? I think you should direct that question to Dr. 11 A 12 Lundberg. 13 And I will, but do you know? 0 I do not. 14 A The next document I'll mark for identification 15 0 purpose as Exhibit 3-V. 16 17 (Deposition Exhibit No. 3-V marked.) WATLER: I'm interested in the last 4 5 couple ones of that you've marked. And just for the time being, send them down the table if you don't mind. 6 7 MR. KIZZIA: I don't mind passing them down, but I am not through with them. We're going through 8 9 and identifying them right now. 10 THE WITNESS: This appears to be a draft of a press release for the media written by the AMA PR 11 12 Department. BY MR. KIZZIA: 13 14 Did you see this document before it was 0 released? 15 16 I did not. A 17 The title of the document that's marked as Q Exhibit 3-V is, Script For Monday JFK Autopsy Press 18 19 Conference Calls To Major Media. I did not see that. 20 A Right. MR. MCGRAW: I would like to lodge an 21 22 objection on the grounds that there has been no testimony other than of counsel that it was actually released. 23 Basically, the question assumes facts not in evidence. 24 Same objection. 25 MR. BY MR. KIZZIA: 1 0 Was the document that's marked as Exhibit 3-V 2 released to the media? 3 I have no knowledge of what that is exactly. I 4 A mean it appears to be some type of a reminder to the 5 various public information officers who apparently --6 MR. BABCOCK: Don't talk about apparently. 7 THE WITNESS: I don't know what it is. I 8 have not seen that of course. It's the first time I've 9 seen that. I had no involvement with how the PR people 10 did their business and conducted their press conferences. 11 It was part of the press conference business. 12 BY MR. KIZZIA: 13 All right. Going on to the next document 14 0 that's part of Exhibit 3, it looks like the next three 15 pages go together. I'll hand them to you and see if you 16 agree. 17 This, again, is just like the previous thing. A 18 This is part of the PR Department getting together the 19 press conference. 20 Do you think that the next three pages go 21 0 together, or do you think that exhibit --22 I think that is a separate media advisory and A 23 the media and this is just kind of a, you know, nuts and 24 bolts, figure out what they're going to do. In fact I think the 11 testimony is to the contrary. 12 MR. BABCOCK: Same objection. 13 THE WITNESS: I have not seen it before. 14 This is part of the business of producing a press 15 conference, and, you know, what it is, is what it says, 16 apparently. This apparently is either a draft or the 17 version of a media advisory. 18 BY MR. KIZZIA: 19 So you were not involved in the preparation of 20 0 21 that? 22 A I was not. Okay. Now, the next two pages that are part of 23 Q the Exhibit 3 appear to go together. 24 This is just -- as it says, is this is just the 25 A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

laundry list of what the PR people are going to attempt to 1 do from May 11 to 15 to produce this press conference. 2 Does it appear to you that these two pages go Q 3 together? 4 5 A It does, yes. I'll have those two pages stapled together, Q 6 then, and marked as Exhibit 3-X. 7 (Deposition Exhibit No. 3-X marked.) 8 BY MR. KIZZIA: 9 Can you identify Exhibit 3-X? 10 0 MR. KIZZIA: 16 This is what? 17 0 I just said, this is the laundry list from May 18 A 11 to 15 of the steps the PR people went through to 19 20 produce a press conference. And you were not involved in the preparation of 21 Q that? 22 Of the steps or the release? 23 A Of the release. 24 Q 25 No, I was not in on the news release. A

118

Q And what steps are you referring to? 1 Well, some of the steps like meet with Lundberg A 2 and Breo, you know I was involved in that. You know, but 3 4 I had nothing to do with planning, producing the press conference, deciding who did what, you know. 5 Exhibit 3-X indicates that there was a meeting Q 6 planned between you and Dr. Lundberg regarding sample 7 questions that might be asked at the press conference; is 8 9 that right? That meeting was never held. I mean that was 10 A 11 there --MR. BABCOCK: He just asked you if that's 12 what it indicates. 13 That indicates their 14 THE WITNESS: intention to do that. 15 BY MR. KIZZIA: 16 And that never took place? 17 Q A To my recollection that never did. 18 There's also an indication of a briefing 19 0 schedule on May 18th, involving you and Dr. Breo and Tom, 20 Jeff, Paul, and Mark --21 Right. 22 A Do you see that? 23 0 Right. 24 A Did that take place? 25 0

Q 11 Tom is -- Tom Toftey who is the director of A communications, I believe had a broken leg at this 12 13 particular moment. 14 MR. BABCOCK: He just want to know who Tom 15 is. He does not need know about his medical problems. 16 BY MR. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Q Why was the press conference held in New York 2 City as opposed to Chicago? I don't have a clue. That's a decision of the 3 A 4 PR people who get paid to make these decisions. It could 5 have been in Dallas. 6 So you and Dr. Lundberg flew from Chicago to 0 7 New York City for the press conference? 8 We did. A 9 Did you go to New Yozk City in advance to the Q 10 press conference? In advance, the day before. 11 A 12 So this briefing that was held that's referred 0 13 to on Exhibit 3-X, on May 18th, occurred in New York City? 14 A It did. 15 (Deposition Exhibit No. 3-Y marked.) BY MR. KIZZIA: 16 17 The next document among the documents that are Q part of Exhibit 3 I've had marked for identification 18 19 purposes as Exhibit 3-Y. Can you identify that. This appears to be a memo to Dr. James Todd, 20 A 21 who is the AMA Executive Vice President and Chief 22 Executive Officer, from Mr. James Stacey, who is the PR 23 Director of the Washington office of AMA, in regard to a 24 draft of a letter to Senator Edward Kennedy, dated May 15, 25 1992.

1 Do you know anything about that? 0 I vaguely was informed that there was some 2 A sensitivity that the Kennedy family should be informed in 3 advance of the press conference. And I believe this memo 4 was to accomplish that. 5 Who was L. Stillwell? 6 0 7 A L. Stillwell is Lee Stillwell, who is the 8 director of the AMA Washington office and who is the boss 9 of Mr. Stacey. 10 0 All right. Let me show you the next few things 11 from Exhibit -- sorry. Are we through with this one? 12 Now, let me show you next exhibits of Exhibit 3. Do they 13 look like they go together? 14 A They do. 15 Q Staple them together. Placing them for 16 identification purposes as Exhibit 3-Z. 17 (Deposition Exhibit No. 3-Z marked.) 18 BY MR. The witness' testimony has been 4 that these documents -- and I quote, appear to be. 5 Ι 6 don't think the foundation has been laid for this witness 7 to testify any further regarding these documents because it hasn't been established that he knows what these things 8 are or that he's seen them before. 9 10 On that basis, I'm going to object to any 11 further questions on this on lack of foundation and lodge 12 objections to prior documents for the same reason. 13 MR. BABCOCK: It's a proper objection. I 14 join in that objection. BY MR. KIZZIA: 15 16 0 Mr. Breo, Exhibit 3-Z refers to a number of TV and radio stations around the country. Was it your 17 18 understanding that these radio and TV stations were going 19 to cover the press conference as it happened, or were they 20 to report about the press conference later in their news 21 broadcast, or do you know? 22 MR. BABCOCK: Object to the form of the 23 question. 24 THE WITNESS: I had no understanding. I 25 mean, my role was to write the articles, and that's it. DIANA HENJUM REPORTING SERVICE, P.C. 1 A I don't. 2 MR. WATLER: May I just interject? Why 3 are we going into this level of detail? Is there any 4 dispute that there was a press conference held in New York 5 City called by AMA that was attended by members of the national media? Why do we have to go into this 6 7 excruciating inquiry about the details of putting on this 8 press conference? 9 MR.KIZZIA: Well, Paul, I thought you said 10 you were enjoying it earlier. 11 MR. WATLER: Well, I don't think my client 12 is going to paying for me sitting here being entertained 13 by this very fascinating study about how this press 14 conference is called in New York City by the AMA. 15 MR.KIZZIA: We're going through and 16 identifying the documents that have been produced by some 17 of the defendants. 18 MR. WATLER: First you issued a very 19 broad -- you're entitled to a request for production of documents. Now, you're using that as a springboard to go 20 21 into excruciating detail about matters that are not in 22 dispute and that are at best intentionally related to 23 anything that is in controversy in this lawsuit. I think 24 we're wasting a ton of time and money of everyone here in 25 this room.

126

Now, I will add that I want you to have as 1 2 full of a discovery as you can possibly have. We've been sitting here for three and a half hours approximately this 3 morning, and we haven't heard hardly anything that relates 4 to the lawsuit. I wanted us to try to discover anything 5 that does relate to the lawsuit, but I don't see that 6 7 we're getting to that point. MR.KIZZIA: Well, we're just going through 8 and getting the witness to identify documents, and we'll 9 10 proceed until we get done. MR. WATLER: At some point, it becomes 11 12 harassing in the discovery reviews. I don't know if we're 13 at that point yet, but I'm just telling you that I have 14 those concerns. This may be a restatement of 15 MR. MCGRAW: what Paul was saying. But basically, what we've done for 16 17 three hours is gone through and asked this witness whether 18 he can authenticate documents as to what they purport to 19 be. It seems to me that would be appropriately the subject of some sort of attempted stipulation so that the 20 21 testimony could be elicited regarding the contents of the 22 documents concerning testimony that might be utilized at 23 trial. But if your going to be here all day, I agree 23 with Chip. I don't think it's fair to the witness. 24 MR.KIZZIA: I'm not asking the witness to 25 sit through lunch. BABCOCK: Well, I think it's only fair to the witness to let him take a break. 12 13 MR.KIZZIA: Well, I certainly agree with 14 to that. 15 MR. BABCOCK: But I will make it short, 45 16 minutes. A Right. 6 7 Now, there is some handwriting on the first Q 8 page. Do you recognize whose handwriting that is? 9 A I do not. 10 Q On the second page of the remarks, it is stated 11 that you and Dr. Lundberg conducted interviews with 12 Dr. Humes and Dr. Boswell. And it also says that you 13 interviewed Dr. Rose, Dr. Jenkins, Dr. Carrico, 14 Dr. Baxter, and Dr. Perry. Do you see that? Yes. 15 A 16 Is that correct? 0 17 A That is correct. 18 Q Did you interview any other doctors, other than those listed on the second page? 19 20 A I did. I interviewed Dr. --21 MR. BABCOCK: No, no. Did you interview anyone else, 0 18 other than the doctors shown on the second page of Exhibit 3-DD and Dr. McClelland? 19 That's it. 20 A 21 Who made the decision that you would interview 0 those particular doctors, as opposed to other doctors and 22 23 other potential witnesses of -- with information 24 pertaining to the JFK assassination? 25 I, essentially, made the decision based on my A DIANA HENJUM REPORTING SERVICE, P.C. 1 reading of the Warren Commission Summary Volume, which identified these doctors as the primary physicians during 2 3 the President's emergency care. 4 And I would say my decision was modified only 5 slightly in that the interview of Dr. McClelland was 6 conducted at the advice of the other Dallas doctors who 7 suggested that since Mr. McClelland had a contrary point 8 of view in regard to the direction of the bullets, that I 9 would be -- I should avail myself an opportunity to 10 interview Dr. McClelland. And I so did. 11 0 What doctor or doctors recommended to you that 12 you interview Dr. McClelland? 13 A All of the others, Dr. Jenkins, Dr. Carrico, 14 Dr. Baxter. Well, those three. Not Dr. Perry. 15 Q On the third page of Exhibit 3-DD, there's some 16 additional handwriting. Do you see that? 17 A Uh-huh. 18 Q You need to answer out verbally. 19 A I do see it. 20 Q Do you know whose handwriting that is? 21 A I do not. 22 Q On the fourth and last page -- or I guess 23 that's the fifth page -- off Exhibit 3-DD at the top, 24 there's a statement: The recent Crenshaw book is a sad 25 fabrication based upon unsubstantiated allegations. I do not recall hearing that statement. 17 A Do you have any reason to believe that he --18 Q that Dr. Lundberg made that statement or did not make that 19 20 statement at the press conference? A 20 Had you read -- strike that. What was the name Q 21 of the book that was referred to? Which book? 22 A 23 Dr. Crenshaw's book. 0 24 Are you asking me do I recall the title? A 25 Yes. 0

1 A I believe the title was -- is JFK: Conspiracy of Silence. 2 3 Q Prior to the press conference had you read the 4 book? 5 A I had. 6 Q Had Dr. Lundberg read the book? 7 A I don't know. 8 Did you and Dr. Lundberg ever discuss the book Q 9 prior to the press conference of May 19th, 1992? 10 A I don't believe we did. 11 MR. 1 Okay. Exhibit 3-MM appears to be a copy of a Q document previously identified. It's dated March 29th, a 2 3 handwritten note from Dr. Lundberg to you. 4 MR. BABCOCK: Object to the form. I think 5 the testimony was March 24th or March 29th. The 6 handwriting was not clear. 7 THE WITNESS: We've been over this before. BY MR. A 19 Let me show you Exhibit 3-00. It's a copy of a Q letter dated February 25th, 1992 to Dr. Finck from 20 Dr. Lundberg with a copy to you. 21 22 This is the third time for this one. Right. 10	A That's right.
11	Q And then Exhibit 3-QQ is another copy of the

14	A Uh-huh.
15	Q You need to answer out verbally.
16	A I what was your question?
17	Q Is this another copy of Dr. Lundberg's letter?
18	A It is. It is another copy.
19	Q Exhibit 3-RR is another copy of that
20	January 26th, 1968 letter from Dr. Boswell to Ramsey
21	Clark?
22	A It is.
23	Q Okay. Exhibit 3-SS, can you identify it?
24	A This is a letter to myself from Dr. Earl Rose.
25	MR. BABCOCK: Not to yourself. Oh, yeah,

Did you have the understanding as to what he 1 Q meant by that based upon your interview with them? 2 I certainly did. I understood that to mean 3 A that there was no conspiracy involved in the assassination 4 of President John F. Kennedy. It was explainable by the 5 normal mix of distrust, inexperience, ineptitude, 6 coincidence, and so on that characterizes most human 7 That's what I took that to mean. 8 events. 9 Q He says in his letter that you had an interview 10 with him on April 29th. 11 A That's what he says. 12 0 Is that right? 13 A I can't verify it one way or the other. If 14 it's Earl Rose, I know it wasn't April and it was late 15 April. 16 Of what year? 0 17 A Of 1992. 18 Q Well, his letter is dated April 24th, 1992. Well, then, maybe it's a typo. 19 A 20 Which is a typo, the date of the letter or the Q 21 date --22 The date of the letter because clearly he wrote A 23 the letter after the interview, and there was only one interview on one day. So that is another coincidental 24 25 An inept error, which would be attributed to his error. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

either typo or mistake. And the answer is in the very 1 reason he wrote. 2 The letter says that he's thanking you for a Q 3 copy of your book. Did you provide him with a copy of a 4 book? 5 I did. 6 A 7 What book is that? 0 The book is called Extraordinary Care. 8 A 9 Q Is that a book you wrote? That is a book I wrote. 10 A What's the book about? 11 0 The book is an anthology of 10 years of my 12 A reporting for the AMA with prominent physicians who were 13 14 involved in prominent medical pieces and/or famous 15 physicians. Is the book about the JFK assassination at all? 16 0 It has nothing to do with the JFK 17 A 18 assassination. When did you write the book? 19 0 I wrote the book in 1986. 20 A 21 Is it still in print? Q 22 A I'm pleased to say it is. 23 Q Who's the publisher? 24 The paperback edition was Ivy Books, which is a A 25 Random House imprint.

24	Q It's an article written by Lawrence Altman,

· . . . . .

1 A Right. Do you remember this article? 2 0 3 I do. A 4 Did you read it? Q 5 A I did. 6 Q Did you read it on or shortly after May 26th, 7 1992? 8 A Yes. 9 Down at the bottom right-hand corner it shows Q that -- there's a name of a company placed upon it. 10 It 11 says Burrelle's NewsExpress. A Uh-huh. 12 13 Q You need to answer out verbally. 14 Do I see it? Yes. A 15 Are you familiar with that company? Q 16 Vaguely. A What kind of services do they provide? 17 0 News clipping service. 18 A 19 Q Is this a copy of an article that you 20 personally made or that somebody else made and sent to 21 you? 22 It was made by the same people who provided the A 23 clip sheet of the earlier articles. And what does -- what is Burrelle's role in 24 Q collecting those articles? 25

154

1 A I think Burrelle's is a vendor who scans various newspapers looking for, in this case, medical 2 articles that might be of interest to AMA. And they do it 3 for the AMA PR Department. It selects the ones they find 4 5 value on and they put them in a daily clip sheet. Do you see in the first paragraph of the 6 0 7 article marked as Exhibit 3-III where Dr. Altman said that 8 in recent weeks the conspiracy theories about the 9 assassination of John Kennedy have been fueled by an 10 unusual news source, an eyewitness account by a surgeon on the trauma team that tried to save the President's life in 11 1963 and who had not testified before the Warren 12 13 Commission. Do you see that? 14 I see that paragraph. A 15 And that was a reference to Dr. Charles Q 16 Crenshaw? 17 A That particular paragraph does not identify 18 Dr. Crenshaw. 19 Well, the next sentence does, doesn't it? Q 20 It does. A 21 0 So that reference to an eyewitness account by a 22 surgeon on the trauma team that tried to save the 23 President's life in 1963 and who had not testified before 24 the Warren Commission was a reference to Dr. Crenshaw? 25 MR. BABCOCK: I object to the form of the

1 question. That calls for speculation. BY MR. KIZZIA: 2 Was that your understanding when you read the 3 0 article? 4 Would you repeat the question. 5 A Was it your understanding when you read the 6 Q 7 article that's marked as Exhibit 3-III that the reference 8 to an eyewitness account by a surgeon on the trauma team 9 that tried to save the President's life in 1963, and who 10 had not testified before the Warren Commission, was a 11 reference to Dr. Crenshaw? 12 A It was my understanding that the writer of the 13 article, Larry Altman, made that connection. 14 Made that reference in his article? 0 15 Made that reference in his article. A 16 0 Do you know Dr. Altman? 17 I do. A 18 How do you know Dr. Altman? 0 I once did a profile of Dr. Altman. 19 A 20 Q You wrote something about him? 21 I wrote a profile of Dr. Altman, yes. A 22 For who? 0 23 For the American Medical News. A 24 Q Was it published? 25 Yes, sir. A

1	Q I'm sorry?
2	A I write for publication. Yes, it was
3	published.
4	Q When was it published?
5	A I can't recall specifically. I think it was
6	late 1979, I believe.
7	Q What led to you doing an article about
8	Dr. Altman?
9	A Dr. Altman is an unusual physician. He's a
10	journalist, and he writes for the <u>New York Times</u> .
11	Q Is that what your article was about?
12	A It was actually on two people. The other was
13	Dr. Susan Okie who is also an M.D. who is a medical
14	reporter for the Washington Post.
15	So the article is a combination profile of
16	Drs. Altman and Okie, who are both M.D.s and who have
17	chosen to use their M.D. to pursue careers in journalism
18	in the <u>New York Times</u> and the <u>Washington</u> <u>Post</u> . That was
19	the essence of the profile.
20	Then it got into why they chose this career,
21	and what they make of it, and what they try to accomplish,
22	and some of their most important stories, and how they go
23	about doing their stories, etcetera, etcetera.
24	Q Did you talk to Dr. Altman before he wrote the
25	article that's marked as Exhibit 3-III?

1 MR. BABCOCK: Object to the form of the 2 question. Calls for speculation. 3 THE WITNESS: The question, again, is 4 what? 5 BY MR. KIZZIA: 6 All right. Let me rephrase it. The article Q 7 that's marked as 3-III appears to have been published in 8 the New York Times on May 26th, 1992. 9 A Uh-huh. 10 0 You need to answer out verbally. 11 A It does. It has the date May 26th. 12 Q All right. Did you speak with Dr. Altman about 13 this article before May 26th, 1992? 14 I never spoke with Dr. Altman for the purposes A 15 of this article. 16 Q Were you surprised to read the article when you 17 read it? 18 A Surprised? 19 Q Yes. 20 Α Not particularly. 21 Q Do you see down at the bottom of the first column of the article where Dr. Altman has stated that it 22 turns out that the Journal's research was less than 23 24 thorough? 25 A I see that sentence.

And did you see that when you read it on or 1 Q about May 26th, 1992? 2 I did. 3 A Do you see also where Dr. Altman said that the 4 Q Journal did not try to interview Dr. Crenshaw? 5 I do see that sentence. 6 A And did you see it back around May 26th, 1992? 7 0 I saw it whenever I read it. 8 A And that's a true statement, isn't it? 9 Q What's a true statement? 10 A Neither you or any other representative of JAMA 11 Q tried to interview Dr. Crenshaw before publication of your 12 articles? 13 We did not interview Dr. Crenshaw. 14 A So that statement in Dr. Altman's article is a 15 0 16 correct statement? MR. BABCOCK: Well, what you're pointing 17 at says: The merit aside, it turns out the Journal's 18 19 research was less than thorough. THE WITNESS: And we did -- I do not agree 20 that that is a correct statement. In fact, I emphatically 21 22 disagree with that statement. 23 BY MR. KIZZIA: Okay. The next statement is, it did not try to 24 Q interview Dr. Crenshaw. 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

A Which does not necessarily go with the first 1 statement, but we -- I did not attempt to interview 2 Dr. Crenshaw. 3 So the second statement of that paragraph by 4 Q Dr. Altman, then, is, in fact, true? 5 That second statement is correct. 6 A Dr. Altman goes on to say that notwithstanding 7 0 some statements contained in your article, at least two of 8 the Dallas doctors told the Warren Commission that 9 10 Dr. Crenshaw was a member of the team that treated President Kennedy at Parkland Hospital November 22nd, 11 12 1963. That's what Dr. Altman says. 13 Α And did you read that on May 26th, 1992? 14 Q Whenever I read this article, I read that. 15 A Did you contact Dr. Altman after you read his 16 Q article on or about May 26th, 1992? 17 I did not. 18 A Did you do any further investigation to see 19 0 whether or not Dr. Altman was correct in his statements? 20 MR. BABCOCK: Object to the form of the 21 22 question. That assumes he did anyway. BY MR. KIZZIA: 23 Did you do any investigation to determine 24 0 whether or not Dr. Altman's statements, in his article 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

that you read on or about May 26th, 1992, were correct? 1 2 A Yes. 3 MR. BABCOCK: Are you talking about all of 4 his statements? I'm talking about the 5 MR. KIZZIA: No. 6 statements about the fact that some of the Dallas doctors 7 that you interviewed had testified to the Warren 8 Commission that Dr. Crenshaw was present and part of the 9 team that treated Dr. -- President Kennedy on 10 November 22nd, 1963. 11 MR. BABCOCK: It's not what the article says. Object to form. Go ahead. 12 13 THE WITNESS: I did not do any research in regard to whether two doctors had told the Warren 14 15 Commission that he was a member of the team. BY MR. KIZZIA: 16 Did you care one way or another what those 17 0 doctors told the Warren Commission under oath in their 18 19 testimonies about Dr. Crenshaw's presence? 20 MR. BABCOCK: Object to the form of the It assumes that they told anything under oath. 21 question. 22 BY MR. KIZZIA: 23 Can you answer my question? 1 MR. KIZZIA: Objection, nonresponsive. BY MR. KIZZIA: 2 3 Q Did you care what the doctors told the Warren Commission under oath about Dr. Crenshaw's presence? 4 5 MR. BABCOCK: Object to the form of the 6 question. 7 THE WITNESS: And the question is what? 8 MR. KIZZIA: Can you repeat the question. 9 (Requested material read.) 10 MR. BABCOCK: And you got my objection to 11 the form of the question, that it assumes facts not in 12 evidence that any particular doctors told the Warren 13 Commission anything about Dr. Crenshaw. 14 THE WITNESS: I cared about what the 15 doctors I interviewed for the JAMA report made of their 16 eyewitness testimony in 1963 and in 1992 when I 17 interviewed him. 18 And to the degree their testimony before the 19 Warren Commission report was involved in that, of course, 20 I cared about it. 21 BY MR. 1 question. THE WITNESS: Absolutely. Every effort 2 was made to produce the most accurate possible article. 3 BY MR. KIZZIA: 4 Was that important? 5 Q It was of paramount importance. 6 A Is it important to you -- or do you feel like 7 Q it's important that a journalist make every effort 8 possible to make sure that his article is accurate? 9 It is a cardinal value that the journalist get 10 A it right to the best of his ability and so inform the 11 12 reader. But after having read Dr. Altman's article, do 13 0 I understand your testimony correctly that you didn't do 14 15 anything? MR. MCGRAW: I'm going to object to that 16 question, first of all, on the ground that it's vague and 17 ambiguous. And also it assumes facts not in evidence, and 18 that is that there were mistakes in Mr. Breo's article. 19 MR. BABCOCK: Same objection. 20 I'm here to discuss my THE WITNESS: 21 article and not Larry Altman's article. And in regard to 22 my articles, all three of them, every effort was made, as 23 I make with every article, to make it as accurate as 24 25 possible.

MR. KIZZIA: Objection, nonresponsive. 1 BY MR. KIZZIA: 2 My question, Mr. Breo, is, isn't it true that 0 3 after you read Mr. Altman's article on or about May 26th, 4 1992, you did not do anything to address some of the 5 points he made in his article about possible errors or 6 omissions in your articles, at least with regard to the 7 statements made therein about Dr. Crenshaw? 8 MR. BABCOCK: Object to the form of the 9 question to the extent that is it mischaracterizes the 10 Altman article. You can go ahead and answer it. 11 THE WITNESS: That is not correct at all. 12 It's absolutely the reverse. I mean, I have made every 13 effort to be correct and was correct in my article. 14 Larry Altman, whose opinion you have now thrown 15 at me three separate times, apparently did not make any 16 effort himself to go back to these doctors, as I did, to 17 see what they now say in 1992. 18 BY MR. KIZZIA: 19 Are you saying that after you read Mr. Altman's 20 0 article on or about May 26th, 1992, you went and talked to 21 the doctors again? 22 There was no reason to talk to them again. I 23 A 24 got --Just tell them whether you MR. BABCOCK: 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

did or not. 1 THE WITNESS: I did not. I did not. 2 MR. BABCOCK: That's all you have to tell 3 4 him. BY MR. KIZZIA: 5 Did you do anything after reading Dr. Altman's 6 0 article on or about May 26th, 1992 to address some of what 7 he alleged to be errors or omissions in your articles? 8 On the contrary. There --9 A MR. BABCOCK: Object to the form of the 10 question. Did you do anything or not? 11 THE WITNESS: There was no need to do 12 13 anything. MR. BABCOCK: So you didn't? 14 THE WITNESS: Right. 15 MR. BABCOCK: Okay. 16 BY MR. KIZZIA: 17 Did you interview or talk with Dr. Phillip 18 0 Williams? 19 I did not. A 20 Do you know who Dr. Phillip Williams is? 21 0 I do not know Dr. Phillip Williams. 22 A Well, in Mr. Altman's article that's marked as 23 0 Exhibit 3-III he refers to Dr. Phillip Williams, doesn't 24 25 he?

1 A I can't answer for Larry Altman. I mean, this is an article written by Dr. Larry Altman. I did not 2 3 write the article. I did not discuss the article with 4 Larry Altman. I have no idea if he -- if what he -- and 5 nor do you, if what he's saying is correct or incorrect. MR. BABCOCK: Well, he's getting to 6 7 Is Williams mentioned in this article? something. THE WITNESS: In whose article? 8 MR. BABCOCK: This Altman article. We can 9 10 stipulate that --THE WITNESS: The document speaks for 11 itself. 12 MR. BABCOCK: Is Williams in there? 13 14 THE WITNESS: Williams is mentioned in that article. 15 MR. KIZZIA: Well, I'm going to object to 16 your answer as being nonresponsive. 17 BY MR. KIZZIA: 18 19 Let me ask the question a different way. When Q you read Mr. Altman's article on or about May 26th, 1992, 20 did you see where he referred to Dr. Phillip Williams? 21 22 I did. Do you see that? 20 A Uh-huh. 21 0 You need to answer out verbally. 22 A Yes. Let me show you what I've had marked for 23 Q identification purposes Exhibit 3-KKK. Can you identify 24 25 that document. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

This appears to be a description by a 1 A Dr. Pepper Jenkins of his recollections of the emergency 2 care of President Kennedy, 1963. 3 How did you come into possession of that Q 4 5 document? 6 Α It was given to me by Dr. Jenkins. When was it given to you by Dr. Jenkins? 7 Q At the time I interviewed him in April of 1992. 8 A Where did you interview Dr. Jenkins? 9 Q I interviewed Dr. Jenkins at his office in 10 A 11 Dallas. Was anybody else present during your interview 12 0 with Dr. Jenkins? 13 14 A Yes. 15 Who else was present? Q Dr. Baxter and Dr. Carrico. 16 A Was that the only interview that you did of 17 Q Dr. Jenkins? 18 A It was. 19 Was that the only interview you did with 20 Q Dr. Baxter? 21 22 A It was. Was it that the only interview you did with 23 Q Dr. Carrico? 24 25 It was. A

So the interview that you did with those 1 Q doctors were done at one time, with them all present? 2 3 A It was. Was anyone else present? 4 Q 5 No. A 6 Do you know whose handwriting appears on the Q 7 first page of Exhibit 3-KKK? I don't know. I believe it's Dr. Jenkins, but 8 A I don't know that. 9 10 Was that handwriting on the document when he 0 11 gave it to you? 12 A I believe this was a copy it was on. It was on 13 some copy. Let me show you what I've had marked for 14 Q 15 identification purposes Exhibit 3-LLL. 16 A Right. 17 Can you identify that document. 0 I believe this is Dr. Jenkins' free-hand 18 A 19 drawing of the gurney in which President Kennedy was 20 positioned and with the doctors positioned around him 21 during his emergency care. 22 Whose handwriting appears on Exhibit 3-LLL? 0 I believe that's Dr. Jenkins. 23 A 24 Did Dr. Jenkins give you this document? 1	Q When did he give it to you?
2	A At the time of the interview.
3	Q Did he make the handwritten notes on Exhibit

5	A I can't recall.
6	Q When he gave you the document that's marked as
7	Exhibit 3-L, did it already contain the handwriting, or
8	was that placed on there later?
9	A Didn't you just ask me that?
10	Q I hope not.
11	A I mean, I can't recall. Dr. Jenkins gave me
12	this illustration at the conclusion or during the
13	interview in his office. Now, whether the names were on
14	it or whether he put them on it at the time, I really
15	can't recall.
16	Q Did you ask for a copy of that document?
17	A I, in the course I did not ask for a copy of
18	that document. It was volunteered by Dr. Jenkins. But I
19	did ask him if he could describe the positioning of the
20	doctors around the President's body during emergency care,
21	and this is how among the ways he chose to answer it.
22	Q Could you read Dr. Jenkins' handwriting at the
23	time that he gave that to you?
24	A I could make a stab at it.
25	Q Can you read it now?

At the head of the table, MTJ stands for M.T. A 1 Jenkins. And we have Kemp Clark, and we have -- at the 2 IV, we have Baxter. At another IV, we have Peters. We 3 have Dick Dulaney down near one leg. We have Mac Perry on 4 the left side and Ron Jones and Jim Carrico. And then we 5 have a Jackie Hunt, who is a nurse. 6 Are there any other names on Exhibit 3-LLL? 7 0 That's the best I can do. 8 A Who is Jackie Hunt? 9 0 I believe she was either a technician or a 10 A 11 nurse. She did not --Did you interview Ms. Hunt? 12 0 I did not. 13 A 14 Why not? Q I -- the interview, I interviewed the key 15 A physician, leaders of what according to some accounts was 16 a 30 to 40 team. I saw no reason to interview 40 members. 17 I interviewed the generally acknowledged four key 18 physicians. 19 And who are those four? 20 0 The four --A 21 The key physicians, in your words. 22 0 The ones who appeared in the article. 23 A Jenkins, Carrico and Baxter, who you 24 Q interviewed all at one time? 25

Yeah, plus Perry. 1 A 2 Now, Dr. Jenkins put Jackie Hunt's name on Ö 3 Exhibit 3-LLL; is that right? He certainly did. He also has a Craftsman tool 4 A 5 chest on there. But, you know -- I mean, he did indeed 6 put her name. 7 Q Did you try to interview her? I've answered that question. I did not. 8 A 9 Why do you say that the four doctors that you 0 10 did interview were, in your words, key members of the 11 trauma team? From my reading of everything I've read about 12 A the emergency care of President Kennedy, including the 13 14 Warren Commission Summary Volume, the original report, the 15 Texas State Medical Journal in 1966 or so; from my 16 knowledge of knowing Dr. Pepper Jenkins, who was a 17 prominent AMA delegate. And from virtually everything 18 I've read about the emergency care of the President, those 19 were the four key doctors. Did you say that you knew Dr. Jenkins before 20 Q 21 you met with him? 22 A I knew Dr. Jenkins briefly. Did you know Dr. Baxter before you met with 23 0 him? 24 25 A I did not. 1 Did you know Dr. Carrico? Q 2 I did not. A Did you know Dr. Perry? 3 Q I did not. 4 A What is the name that Dr. Jenkins placed on 5 0 Exhibit 3-LLL right above the name Jackie Hunt? 6 7 I can't make it out. A Q You don't know who he's referring to there? 8 If I had to make a guess --9 A MR. MCGRAW: I'll object to the witness 10 11 speculating. THE WITNESS: It looks like A.H. Giesecke. 12 13 BY MR. KIZZIA: Are you familiar with Dr. Giesecke? 14 Q I'm really not. I mean, kind of a vaguely. 15 A 16 But you know, I don't have any specific recollection. 17 Q I take it, then, that you didn't try to interview Dr. Giesecke? 18 I did not. 19 A 20 Do you see where Dr. Jenkins identified Ron 0 Jones? 21 Right. 22 A Who is Dr. Jones? 23 0 Dr. Jones is one of the surgical residents, I 24 A believe, who was involved in the emergency care of the 25 DIANA HENJUM REPORTING SERVICE, P.C. 1	President.
2	Q I take it that you did not try to contact
3	Dr. Jones to interview?
4	A No, I did try to interview Dr. Jones and he was
5	out of the country. He was not available.
6	Q Why did you try to interview Dr. Jones?
7	A Because Dr. Jones was the fifth, had there been
8	five, of the five key doctors. And I did attempt I set
9	out to interview all five, and Dr. Jones was out of the
10	country and was not available at the time I had to do the
11	interviews.
12	Q Well, Dr. Finck was out of the country, too.
13	A Well, I did Dr. Finck was in a different
14	ballpark, which I'd be glad to explain to you.
15	Q Sure.
16	A There were only three autopsy pathologists and
17	Finck was the third. After we interviewed and published
18	the first two, there was considerable press speculation
19	that we were hiding something since we had not talked to
20	the third. So we went to the great lengths of going to
21	Geneva, Switzerland to have Dr. Finck repeat what the
22	other two said.
23	Now, in regard to Dr. Jones, he was one of
24	maybe 30, 35, 40 and it was not quite a comparable

four key and the four key, more so than Jones, who was a 1 surgical resident, so that's where we stopped. 2 3 Well, there were more than three people present 0 4 at the autopsy in Bethesda, Maryland. 5 Three -- there were three and only three A 6 autopsy pathologists who signed their name to the autopsy. 7 0 But there were others present, right? 8 A There were many others present. There were 9 three who had a responsibility to conduct and report the 10 autopsy, and those were the three we interviewed. 11 Did you ever get in touch with Dr. Jones and 0 12 talk to him? 13 Oddly enough, I saw Dr. Jones after the A 14 articles were published when -- in New York where he was making a TV appearance as part of the reaction to our 15 16 Kennedy stories. Dr. Jones asked me if I would autograph the JAMA reprint of our articles, which I gladly did for 17 I expressed my regrets that I had been unable to 18 him. 19 interview him when he was out of the country. 20 Did you interview him at that time? 0 21 A I did not. The articles had all been 22 published. 23 0 When you said articles had been published, are 24 you talking about the May 1992 articles? 25 Yeah, the May 27, 1992. A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	Q Had Dr. Finck's article been published yet?
2	A It had not.
3	Q Had you gone out to interview him yet?
4	A No.
5	Q So at some point in time after the publication
6	of the May 1992 articles, you made the decision to go
7	interview Dr. Finck but not to interview Dr. Jones?
8	A That what what? That really is a rather
9	crazy question. I mean, we had made the decision to
10	pursue Dr. Finck back early in the year. As I said, he
11	was not available because he travels extensively,
12	international consulting business.
13	When Dr. Finck agreed to an interview, we
14	followed up with our previous intention to interview him,
15	and we did interview. Dr. Jones was a it would have
16	been nice if we had talked to Dr. Jones in addition to the
17	other four, but it was not essential or, frankly, that
18	important. And the stories had already been published.
19	After publication, yes, there was no point in going back
20	to Dr. Jones to repeat that article.
21	Q But you did go and interview Dr. Finck after
22	the articles had been published?
23	A Well, I think I've explained that twice now why
24	we did that.
25	Q Because of criticism that <u>JAMA</u> received?

).

No, because of numbers. He was one of three, 1 A 2 and not the criticism as much as lingering conspiracy 3 questions that perhaps Finck disagreed with the other two. And that's -- so we did follow-up on our previously 4 5 decided decision to pursue Dr. Finck, who finally agreed to an interview, and we had all three. 6 7 Q How many people, is it your understanding, were 8 present at the autopsy of President Kennedy on the evening 9 of November 22nd, 1963 at Bethesda Naval Hospital in 10 Maryland? 11 A I don't know the exact number. Many came --12 passed through, came and went. I don't know. 25, 30. 13 0 Okay. So you set about to interview the three 14 persons you felt of that 25 or 30 people at the autopsy 15 that were most important? 16 A There were only three pathologists who did the 17 autopsy, and we interviewed a hundred percent of them; 18 one, two, three. Well, how many pathologists were there on the 19 0 20 Parkland trauma team? 21 A There were none, to my knowledge, on the trauma 22 team. 23 Well, so the fact that they weren't Q 24 pathologists did keep you from going and interviewing them 25 if they were involved?

178

1 Well, you're talking two separate efforts. A You're talking about trying to save a life, in which case 2 3 you don't need a pathologist, and then you're talking 4 about an autopsy which is done by a pathologist. 5 The pathologists are the absolute and only key to the autopsy, and there were three. We interviewed 6 7 three. The emergency care, I interviewed the four key leaders, 8 9 captains, if you will, of the team. So, to my mind, we had covered the essential ground. 10 All right. Dr. Jenkins has also written on 11 0 Exhibit 3-LLL the name of Dick Dulaney. Do you see that? 12 Yeah. 13 A 14 Who is Dr. Dulaney? 0 I really don't know. It's my vague 15 A recollection he was a technician and maybe cut down a vein 16 on the leg. I really don't know. 17 When you say technician, are you describing 18 Q 19 something other than a medical doctor? 20 Yeah, a non M.D. I think what you have here A 21 are just the positioning of the bodies. These were Dr. Jenkins' recollections of who was directly against the 22 body around the gurney. And as you can see the key 23 positions were at the head of the body working on the 24 attempt to resuscitate. 25

0 I take it that you did not try to interview 1 Dr. Dulaney? 2 3 A I did not. MR. BABCOCK: Assuming he was a doctor. 4 5 THE WITNESS: Well, I believe he was not a 6 doctor. 7 BY MR. KIZZIA: Do you still believe that? 8 0 9 A I don't know. What is your basis for thinking that 10 0 11 Dr. Dulaney is not a doctor? I just don't recollect him as an M.D. He may 12 A 13 be. 14 Would that have made a difference to you as to Q 15 whether or not you decided to interview him? 16 It would not. As I said, I interviewed the A 17 captains of the team, the four key doctors. There was no 18 need to interview the other 10 doctors. 19 Q Dr. Jenkins also has written on Exhibit 3-LLL 20 the name of Peters. Do you see that? 21 A Yes. 22 0 Who is that? I believe that's another doctor. I can't 23 A recall his first name. 24 25 Do you know who Dr. Paul Peters is? Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

I don't know him personally. I have not 1 A 2 interviewed him. I do not know him professionally. 3 Did you try to interview him? Q 4 A I did not. 5 Q I also see the name Kemp Clark. 6 A Yes. 7 0 Dr. Jenkins wrote Kemp Clark's name on the Exhibit 3-LLL? 8 9 A Right. 10 Q Who is Kemp Clark? 11 Dr. Clark is a neurologist who pronounced the A 12 President dead. 13 0 So Dr. Clark is the one that pronounced 14 President Kennedy dead? 15 A He is. 16 0 You didn't feel like he was one of the key 17 players? 18 A I did. 19 Q Did you try to interview him? 20 I did. A 21 Q So here's another -- a sixth key player? Well, I would --22 A 23 Q Who you consider to be a key player? I did not consider him as key as the other 24 A 25 four, but I did request an interview with him in the

1 cafeteria of the hospital and he declined. He has a 2 longstanding record of not doing interviews. 3 Q Did you make that proposal to him in person? 4 A I did. I did in person. 5 Q Had he ever met you before you approached him 6 in person there? 7 A He had. Did he, as far as you know, even know you were 8 Q 9 there talking to the other doctors? 10 A He was -- I was introduced to him by 11 Dr. Jenkins. He knew why I was there. He declined to 12 participate. 13 Q Did he know in advance that you were trying to 14 interview him? 15 MR. BABCOCK: Object to the form of the 16 question, calls for speculation. 17 THE WITNESS: I don't know. BY MR. KIZZIA: 18 19 Do you have any reason to believe that 0 20 Dr. Clark knew in advance of your meeting with him 21 face-to-face in Dallas that you were seeking his 22 interview? 23 A Your question is what? 24 Q Do you have any reason to believe that 25 Dr. Clark knew in advance of your meeting with him

1 face-to-face there in Dallas that you were trying to obtain an interview from him? 2 3 A I have no reason to believe he knew or did not 4 know. Well, had you spoken with Dr. Jenkins in 5 Q advance of meeting him? 6 7 A Yes, by which --8 MR. BABCOCK: Wait a minute. Had you 9 spoken to Dr. Jenkins in advance by which -- and what's his question? You don't know. Let him finish. 10 BY MR. KIZZIA: 11 12 Q Had you spoken to Dr. Jenkins in advance of your interview with him and Dr. Baxter and Dr. Carrico? 13 14 A Yes. 15 0 Had you spoken to Dr. Baxter in advance of the interview? 16 17 A No. 18 0 Had you spoken to Dr. Carrico? 19 A No. 20 Q So did Dr. Jenkins arrange their presence for 21 you? . 22 A He did. 23 Q And so they were all expecting you? 24 MR. BABCOCK: Objection to form. 25 BY MR. KIZZIA:

1 As far as you know, they were expecting you? 0 2 A I assume. 3 Well, you hoped that they were expecting you? Q 4 A Well, yeah. That's what I came for. 5 0 Why didn't you make advance arrangements to talk to Dr. Clark? 6 7 For all I know, Dr. Jenkins may have tried to A make advance arrangements. Dr. Clark declined to be 8 9 interviewed. 10 Q Well, he declined to you face-to-face when you 11 asked him? 12 A He may have declined previous to that 13 encounter. 14 0 Did you ask Dr. Jenkins to set up an interview 15 with Dr. Clark? 16 A I asked Dr. Jenkins to set up an interview with as many of the key physician players as he could. 17 18 Q Did you identify those who you felt were key 19 players? 20 I believe I identified Carrico and Jenkins and A 21 Jones and possibly Dr. Clark. And I also left it to Dr. 22 Jenkins' discretion if there were any others, you know, 23 that he thought important. 24 0 Why did you contact Dr. Jenkins and ask him to 25 set up interviews for you as opposed to you contacting the DIANA HENJUM REPORTING SERVICE, P.C. Α 6 Q What about Dr. Jones, what was his --7 A I believe he's a surgeon. 8 Q Was he a surgeon at the time? I believe he was a surgical resident. 9 A Who did you say performed the IVs? 10 Q 11 A I said some descriptions are made on this 12 drawing. I really -- I was not there to recreate the 13 clinical description of the attempt to resuscitate 14 President Kennedy, so I mean cannot answer chapter and 15 verse who did what to whom. 16 What were you there for? 0 17 A I was there to get the -- the entire -- I'm 18 glad you asked that question. The purpose of these 19 articles was to document the integrity of the autopsy. 20 And the autopsy report, 10 pages, Part 1 of 14, was the 21 key story. 22 THE WITNESS: Was I being overly responsive, Counsel? 23 24 MR. BABCOCK: No. That's probably all 25 right. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1THE WITNESS: The second part was to talk2to the Dallas physicians who attempted to resuscitate the3President, in which case there would have been no need for4an autopsy, to see if there was anything they saw in their5eyewitness observations that would either contradict or6support the autopsy. And this was clearly to support the7story, four pages out of fourteen.

And the findings, most importantly, first and foremost, as emphasized in the article, was that no one in that Trauma Room One during the 30 minutes they had to try to save a life made any forensic examinations or measurements that in any way, shape or form could begin to substitute for the autopsy.

14Therefore, the perforce included that they15would go along with the findings of the autopsy, which is16conducted for that very reason, to determine the cause of17death. That's what they said in 1963; that's what they18said in 1992. That was the value of the interviews.19That's what I set out to do, that's what we did.

20 Q Did I understand you to say that the purpose of 21 the interviews was to document the integrity of the 22 autopsy? 23 A The purpose of the whole package.

24 Q So you had a goal before you interviewed any of 25 the doctors to buttress or bolster the autopsy?

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Absolutely not. We had no preconceived notions A 2 of any type. We went to key primary eyewitness physicians 3 then and now to get their recollections and objective 4 evidence on the autopsy and the emergency care of the 5 President. And when the dust finally settled, after doing 6 the investigation and the reporting, it turned out that we 7 had, in our opinion, documented at the end of the spectrum 8 the integrity of the autopsy. 9 Did I understand you to say that you went to 0 10 Dallas to talk to the doctors that you talked to find out 11 what they saw? 12 MR. BABCOCK: Object to the form of the 13 question. You can't possibly understand what he 14 understands you to say. 15 BY MR. KIZZIA: 16 0 Okay. purpose to find out who all was involved in the treatment 1 2 of -- emergency treatment to President Kennedy and who did 3 what. Did I misunderstand you? 4 I said it was not our purpose to do a clinical A 5 chapter and verse on exactly, you know, who cut down what 6 vein in what leg of the President. The purpose was what 7 the key physicians attempted to do to save the life of the 8 President and in so doing if they -- if their observations, examinations, and measurements agreed with 9 10 the determination of the cause of the death as determined 11 at the autopsy. 12 0 You said you were not trying to find out who did what, cut down on what vein? 13 14 No, I was not trying to recreate what every one A 15 of the 40 people in that room did. 16 Do you know which doctors did cut down on 0 17 President Kennedy? 18 A I don't know the -- you know, I don't know 19 who -- I don't know who exactly, what 40 people were in 20 the room and exactly, you know, which number of those did 21 hands-on care; you know, who did exactly what. 22 Because you don't know that -- and I take it Q you didn't try to find out that; is that right? 23 24 I tried to find out the important thing that A 25 the -- the important steps in the unsuccessful effort to DIANA HENJUM REPORTING SERVICE, P.C. 1 resuscitate the President. 2 What were the important steps in your view? 0 3 Well, the important steps were the endotracheal A tube, the tracheostomy, the pronouncing of the President 4 dead. It all happened within 30 minutes. 5 So you didn't think that the cutdown and the 6 Q 7 IVs were part of that? 8 A Well, sure, they were part of the routine of any emergency of any patient in acute distress. 9 10 Were they important parts of that effort? Q 11 A They were essential parts. They were standard 12 parts. 13 Okay. Q 14 A They were not essential parts of the interview for the --15 16 Why? 0 17 A -- for the purposes of determining the cause of 18 death. 19 Q Was that the purpose of the interviews, to 20 determine the cause of death? 21 MR. MCGRAW: I'm going to object. This 22 question has been asked and answered three or four 23 different times. And apparently Counsel doesn't like the 24 answers he's getting, so he's asking the questions over 25 and over and over. Asked and answered.

1	MR. BABCOCK: Same objection.
2	BY MR. KIZZIA:
3	Q Can you answer the question?
4	A Well, I would agree. I think I have answered
5	the question on multiple, multiple occasions. We set out
6	to interview the primary hands-on medical physician
7	medical eyewitnesses in, first, the emergency care of the
8	President and then the autopsy.
9	We set out with no preconceived ideas. We set
10	out to get their views, 1963, 1992, as to what happened
11	and what their role in it was. And I had interviewed the
12	autopsy physician first to determine that the cause of
13	death was two bullets from the rear. And when I talked to
14	the four key members of the Dallas medical team, I asked
15	them basically two things; what did you do, you, the team
16	do, the team you were in charge of.
17	I believe Baxter was in charge of the emergency
18	room. So in a sense all of those 30, 40 people, A.T.
19	Giesecke and Jackie Hunt and Dick Dulaney and everybody
20	else who were under Baxter's care. And I asked Baxter, as
21	the captain of that team, what did you the generic team do
22	to try to save the President's life in those 30 minutes
23	you had. And during that time, did you, any of you, make
24	any forensic examinations, measurements, photographs,

meaningful informed determination as to the cause of 1 2 death. 3 They said, point one, no, we're in no position to do. We were trying to save a life, so none of us could 4 have seen anything that really is of any great 5 consequence. Point two, to the degree we did, we agree 6 7 with the autopsy, period. 8 0 When was your interview with Dr. Perry? 9 The interview with Dr. Perry was subsequent to A the interview with the other Dallas doctors, maybe a week. 10 11 Q Where did that take place? 12 They took place over the telephone. I was in Α 13 Chicago; Dr. Perry was in Fort Worth. 14 0 Did you initiate the telephone call? I believe he returned my call, but I initiated 15 A the call to him. 16 17 Q Do you think that the telephone interview with Dr. Perry was pretty sufficient? You didn't need a 18 face-to-face interview with him? 19 20 A I, in general, believe a face-to-face interview is preferable, but I think in this case the telephone 21 interview with Dr. Perry was more than sufficient. 22 23 0 But why do you feel that way? 24 Well, because at that point I had done A 25 considerable amounts of the research and interviewing and DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 I needed his opinion in addition to that of the others, and I was able to obtain it through a telephone interview. 2 3 So you were just basically trying to get his Q confirmation of what you told him the other doctors told 4 5 you? 6 Absolutely not. I was trying to get his views A 7 as the key -- probably the key member of the team, the man who performed the key procedure, the tracheostomy, to get 8 9 his opinion on what he did to try to save the life and what his opinion of the autopsy was. 10 11 Did you send anything to Dr. Perry for him to Q 12 look at? 13 A I did not. 14 Did you send anything to Dr. Jenkins or Baxter Q 15 or Carrico for them to look at or review before you met 16 with them? 17 I believe I showed to them at the time I A interviewed them the -- I believe I shared with them the 18 19 gist of what the autopsy pathologist had told myself and Dr. Lundberg in the earlier interviews. 20 21 Did you do that orally or in writing? Q 22 I told them during -- you know, as part of the A 23 interview. 24 Q Orally? 25 A Orally, yeah.

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Did you attempt to review any documents or Q photographs with Drs. Jenkins, Baxter or Carrico at the 2 time that you had your meeting with them? 3 4 A No. 5 0 I take it that the same is true of your telephone interview with Dr. Perry; is that right? 6 7 A That's correct. 8 Why do you think a face-to-face interview is Q preferred to a telephone interview? 9 10 Well, it's been my preferred method, you know, A for a lot of reasons. You know, you care enough to come 11 that far, as we have come to Dallas, Texas for this 12 deposition. You pick up nuance and background. You see 13 the person in his own environment. You know, generally, 14 you have much more time. You know, a lot of reasons. 15 16 Any other reasons, other than what you've just Q 17 named? 18 Well, there probably are. But most of the A interviews I have done over the years have been 19 20 face-to-face. And is that because of the reasons that you 21 0 22 just stated? 23 Those reasons and, you know, it's just -- it's A a more effective way of doing an interview, in my opinion. 24 25 Why is it more effective? Q

1	MR. BABCOCK: Objection. You've already

4	Q Do you have any reason to believe that a

6	over-the-telephone interview, other than what you've
7	stated?
8	A You know, I've talked to Chip Babcock and Rick
9	Nelson on the phone. I've not talked to them in person.
10	It's more effective to talk to people in person. It's
11	kind of common sense. It's common knowledge.
12	Q I would agree with you, but I want to know why
13	you feel that way.
14	MR. BABCOCK: He's already said. Do you
15	have any other reasons, other than what you've said?
16	THE WITNESS: None particularly.
17	Journalistically, if you're face-to-face, you can take

19	get the locale. You know, if you're in Dallas, you can
20	look out and see the Schoolbook Depository. I'm sure this

8	Q Have you committed Exhibit 3-MMM to memory?

1 A Yes. 2 Is that consistent with what you were told by 0 3 Drs. Humes and Boswell? 4 That was not -- if you would read the rest of A that sentence, it is the essence of the story. 2	Q Why were you interested in obtaining and
3	reviewing Dr. Finck's testimony at the Clay Shaw trial in
4	New Orleans?
5	A Well, because at the time this was the only
6	public statement by an autopsy pathologist about the
7	autopsy, you know. Dr. Finck was subpoenaed as part of
8	the Garrison prosecution and he testified in open court,
9	which was the only nongovernmental testimony by a

11	Q Was Dr. Finck's sworn testimony in court in
12	New Orleans at the Clay Shaw trial, consistent in all
13	respects with the information provided to you by Dr. Humes
14	and Boswell regarding the autopsy?
15	A It was absolutely consistent with the essential

And Finck, he told me later, when I 19 20 interviewed him face-to-face, did his best to answer that, 21 but it came out somewhat murky. And, in any event, was of no consequence in regard to the main finding that there 22 were two bullets in the rear with which he concurred, to 23 which he testified. 24 25 Other than the general's being present and 0

BABCOCK: Objection, asked and 7 answered. 8 BY MR. KIZZIA: 9 Well, what did you mean when you referred to 0 the totality of the record? What all did that include? 10 11 It meant wading through all of these early A 12 reports from the AMA library. It meant going to see the 13 movie JFK by Oliver Stone. It meant reading Dr. 14 Crenshaws' book. It meant reading other conspiracy books. 15 It meant reading reviews of conspiracy books. It meant 16 taking all the theories into consideration and then going 17 to the doctors that we reported and transforming it all into a piece of journalism. 18 But the totality of the record in your view --19 0 20 Well, the totality of the record that I've A 21 got --MR. BABCOCK: Wait a minute, wait a 22 minute. Hold on, hold on. Now ask a question. 23 BY MR. KIZZIA: 24 25 Is there something you want to say? 0 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 I'm saying the totality of the record, as I A investigated it. I don't presume to say that I looked at 2 every scrap of paper that might be involved. 3 But the totality of the record, in your view, 0 4 did not include the sworn testimony of the doctors to the 5 6 Warren Commission? 7 A Well, of course, it did. Well, you --0 8 We interviewed many of them. 9 It was the A 10 totality of the medical records, by the way. It was a limited objective of our articles and, of course, it 11 included the sworn testimony of the Warren Commission of 12 13 which I read the 900 pages of the summary volume. Well, the summary volume was just that, right, 14 0 a summary? It wasn't the actual testimony itself; isn't 15 16 that true? 17 A summary volume is just what it means. A It's a summary. When this case is all over, there will be a 18 19 summary and that will be the determination. Well, there were additional volumes of the 20 0 21 testimony of the doctors to the Warren Commission, were 22 there not? 23 A There were 26 volumes and maybe millions of words in the 26 volumes of the Warren Commission. 24 Well, the 26 volumes weren't all doctors' 25 0 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

testimony, were they? 1 That's my understanding. 2 A Did you review the transcripts of the testimony 3 Q of the doctors to the Warren Commission? 4 5 What do you mean by the transcripts? A Well, the question and answers that are set 6 0 7 forth in the volumes of the hearings before the Warren 8 Commission that show what questions were asked of the 9 doctors and shows what their sworn responses were. 10 I read the summary volume of the Warren A 11 Commission report including the chapter on the medical 12 narrative. So you read a summary of their testimony or sum 13 0 of their testimony; is that right? 14 I read the summary of the Warren Commission 15 A 16 Report. 17 Which was, in part, a summary of some of the 0 18 doctors' testimony? 19 It was a summary apparently of what the Warren A 20 Commission determined to be the key testimony that led to their conclusions. 21 So is the Warren Commission Report, in that 22 0 regard, with regard to its summarization of the medical 23 testimony a primary source, a secondary source, in your 24 25 view?

MR. BABCOCK: Object to the form of the 1 These are terms that you've come up with. 2 question. 3 THE WITNESS: You're talking kumquats and 4 apples. I mean, I'm using primary eyewitness in terms of going face-to-face to interview someone who was there, not 5 6 in reading the stuff. 7 BY MR. KIZZIA: 8 0 Well, I just wanted to determine what you meant 9 by the totality of the record. And I want our record here 10 today to be clear that the totality of the record, as you described it, did not include the transcripts of the sworn 11 12 testimony of the doctors to the Warren Commission. Isn't 13 that true? 14 A No, no. I meant the totality of the combined 15 expertise of these nine or ten physicians I interviewed. You know, their entire histalt (sic) over the 30 years of 16 17 everything they knew and heard, since seen, read, 18 absorbed, whatever. 19 When I interviewed these nine or ten key people 20 who indisputably were there, given everything they've 21 read, heard, seen, discussed about this case, that they would give me the totality of their impressions and their 22 final bottom line of what happened here, and that was two 23 24 bullets from the rear. That is the totality of the 25 medical evidence of our reports at JAMA. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

MR. KIZZIA: I object to the answer as 1 being nonresponsive. 2 BY MR. KIZZIA: 3 Q Sooner or later, I believe, Mr. Breo, I'm going 4 5 to get an answer to the question. If I can understand the question, I'll try to 6 A 7 give you an answer. What is your question? You said that you read the Summary Warren 8 Q Report; is that right? 9 10 A That's correct. 11 It's one volume, right? Q 12 A That's the summary volume. And then there's 26 volumes of the so-called 13 0 14 evidence, including testimony of witnesses under oath to the Warren Commission. You understand that, don't you? 15 16 MR. BY MR. KIZZIA: 13 Did you read any of the doctors' testimony 14 Q presented to the House Select Committee on Assassinations? 15 I did. 16 A Which doctors' testimony did you read? 17 Q Probably most significantly, I read Dr. Michael 18 A Bauden, who was chair of the forensic -- of the nine 19 pathologists forensic panel that advised the House Select 20 Committee on Assassinations, which like the earlier 1968 21 22 panel supported the autopsy report. 23 So you say that you read Dr. Bauden's Q 24 testimony? 25 I read parts of it. I read his book. Dr. A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Bauden has written a book called -- the title escapes me. The Kennedy autopsy is his lead chapter. 2 3 Q But you didn't interview Dr. Bauden, did you? 4 A Actually, I have interviewed Dr. Bauden. 5 Did you --Q 6 But not on the Kennedy assassination. A 7 You didn't interview him for the articles that Q you wrote that were published in the JAMA on the Kennedy 8 assassination? 9 10 A I did not. 11 0 Did you review the testimony provided to the 12 House Select Committee on Assassinations by any of the 13 doctors that you interviewed for your articles? 14 A Did I do what? 15 Q Did you review any of the testimony presented 16 to the House Select Committee on Assassinations by any of 17 the doctors that you interviewed for your articles that 18 were published in JAMA? 19 MR. 1 me. 2 (Requested material read.) 3 THE WITNESS: I believe I read snippets of 4 the testimony. 5 BY MR. Some were shown to me by Dr. Rose 10 during that interview. 11 But you did not go to the primary original 0 12 source to review the testimony yourself? 13 A I did not read the entire House Select 14 Committee on Assassination testimony, no. 15 Did you read any of it? Q 16 I read the conclusion of the forensic panel, A 17 which supported the autopsy. 18 Are you saying -- so your answer is no, you did Q 19 not read the testimony of the medical people to the House 20 Select Committee on Assassination? 21 A I said I read snippets of it. 22 But you got that from Dr. Finck, what he told Q 23 you they testified to; is that right? I did not read the House Select Committee on 24 A 25 Assassination report. What I did was go to the doctors DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 people's memories fade with regard to details? 2 MR. BABCOCK: Object to the form of the 3 question. That's pure speculation. BY MR. KIZZIA: 4 Can you answer the question? 5 0 Α I think memory is different. It varies with 6 7 different people. 0 You said that you were interested in what 8 9 Dr. Bauden had to say; is that right? In his book. 10 A Oh, I thought you said that you went and read 11 0 his testimony before the House Select Committee on 12 13 Assassination. I was aware of -- I said most of what -- most 14 A of his testimony, my understanding of most of his 15 testimony. Actually, his chair of the forensic panel, I 16 obtained from his book, just by reading his book. 17 Oh, a secondary source, not a primary source. 18 Q MR. BABCOCK: Objection to the form of the 19 20 question. BY MR. KIZZIA: 21 22 Well, would you describe somebody's book which 0 may reflect something that they testified to the House 23 Select Committee on Assassination to be a secondary source 24 25 as opposed to the actual testimony itself? DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 MR. BABCOCK: I object to the form of the 2 question. BY MR. KIZZIA: 3 Can you answer the question? 4 0 5 We could have a mini dissertation on being a A 6 secondary and so on. I mean, Bauden was a important 7 source in the sense that he chaired the nine pathologist forensic panel that advised the House Select Committee on 8 9 Assassination. So in that sense, he was a important 10 source. He was a secondary source in the sense that he 11 was not present at the autopsy in 1963. So there you have 12 it. He reviewed the evidence 15 years after the fact. MR. BABCOCK: Okay. 13 That's fine. There's 14 no question pending. 15 BY MR. KIZZIA: 16 Is it your testimony that the House Select 0 17 Committee on Assassinations was supportive of the autopsy 18 that Dr. Humes and Dr. Boswell and Dr. Finck were involved 19 in? As to the conclusions, absolutely. As to the 20 A 21 cause of death, absolutely. 22 0 Were they consistent in all respects? 23 A They were not. As a matter of fact, the House Select Committee 24 Q 25 on Assassinations was very critical of the autopsy, wasn't DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 it? I believe Dr. Bauden called it the exemplar of 2 A the bungled autopsy. And in the next paragraph, he said 3 that they got the most important thing right, two bullets 4 5 from the rear. Do you agree with Dr. Bauden, that the autopsy 6 0 7 was bungled? 8 MR. BABCOCK: Now, what does that 9 have to do with anything in this lawsuit? I mean, that 10 really doesn't have anything to do, and I don't think it's 11 fair to make this man comment in that fashion. 12 BY MR. KIZZIA: 13 Well, you didn't say that in your article, 0 14 anything about Dr. Bauden, did you? 15 A Well, sure. Dr. Bauden -- in fact, bungled 16 autopsy is mentioned. And Humes says -- in fact, I think 17 the quote is, Humes says, Imagine that, as dumb as we are, 18 we got it right. 19 Well, the House Select Committee on Q 20 Assassinations report included a list of criticisms of the 21 autopsy, didn't it? 22 It can be said that the forensic panel of the A 23 House Select Committee found deficiencies in the autopsy 24 but supported the conclusion, which is all the JAMA articles were concerned with. 25

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 0 The House Select Committee on Assassinations 2 concluded that the fatal wound to President Kennedy's head 3 was in a different location than that concluded at the 4 autopsy, didn't they? 5 A So what? They concluded --6 MR. BABCOCK: Now, wait a minute. 7 THE WITNESS: -- two bullets from the 8 rear. 9 MR. BABCOCK: I must say that this seems 10 to be running awfully far afield of the issues in the 11 libel case. And as I said before, it's your deposition, 12 but -- but if we don't get done today, we're going to have 13 a strong objection of continuing any further. 14 BY MR. KIZZIA: 15 Can you answer the question? Isn't it true 0 16 that the House Select Committee on Assassinations 17 concluded that the location of the fatal head wound was 18 different from the location that was contained in the 19 autopsy report? 20 A That was their opinion, that it was, I believe, 21 higher than the original autopsy diagram. Now, who is 22 correct, I'm not sure. But in any event, it does not --23 the important thing is that the bullet came from the rear. 24 MR. BABCOCK: Just answer his questions. 25 THE WITNESS: They disagreed with the DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

entrance wound, the exact location of the entrance wound 1 but not the direction. 2 BY MR. KIZZIA: 3 Did you think it was important as to the 4 Q location of the wound in the head, the determination of 5 6 that? 7 I thought it was not important in terms of A determining the cause of death, which was the point of our 8 9 investigation. The point of whose investigation? 10 0 The JAMA investigation. 11 A 12 0 That was the point? Well, that was the -- one of the conclusions we 13 A found was that the President was killed by a shot fired 14 from above and behind. Now, whether that bullet hit 15 slightly above the external occipital protuberance or well 16 17 above is really not that germane. 18 MR. KIZZIA: I object to your answer as 19 being nonresponsive. 20 BY MR. KIZZIA: Did you go to any of the primary sources sited 21 0 22 by Dr. Nichols in his article that's marked as 23 Exhibit 3-SSS? 24 A Primary sources for who? You mean for his 25 article? 1 Q Yes. Well, that's a primary source of his article. 2 A 3 MR. BABCOCK: Just answer the question. 4 Did you look at any of these things, any of the 5 references? THE WITNESS: Any of these references? 6 7 Well, I had seen Finck's testimony in '69 or a newspaper rendition of the same. And I believe Lattimer's statement 8 9 is right here. So I've seen those two. 10 I've seen the Ramsey Clark panel, which we've been over. And I've seen the conclusions of the 11 President's Commission. So that's four of the eight or 12 nine. 13 14 BY MR. Are you saying that all of the documents that 1 Q 2 have the label on there to indicate that they came from the Division of Library and Information Management of the 3 4 American Medical Association came to you all at one time? Well, you know, Mr. Kizzia, I think you may 15 A fail to understand what it is we set out to do here 16 journalistically. I did not set out to read everything in 17 the literatures and write a regurgitation of what was in 18 19 the literature. I set out to interview the physicians who did 20 the emergency care and did the autopsy and to record their 21 contemporaneous 1992 evaluations of what happened and what 22 23 did not happen and so report it, and in this public controversy that there was and is a role to hear from 24 these people. 2	Q I don't see how that explains why you didn't
3	make highlighting or notes in the articles that you said
4	you skimmed. Can you explain that further?
5	A There was nothing to highlight for the
6	purpose the purpose was not to read this and then go
7	back go and waste these people's time with saying some
8	psychiatrist speculated in 1964 that the nation had an
9	edible complex and President Kennedy was assassinated.
10	That wasn't the point of what we were doing.
11	This whole exercise could have been skipped and the value

13	diminished, at all.
14	Q When you said that you sought to obtain
15	contemporaneous statements, you're talking about
16	contemporaneous to your the times of your interviews;
17	not contemporaneous to the event or the assassination?
18	A Well, both. These people are alive and well in
19	1992. They've certainly retained some memory of 1963.
20	They're not unaware of everything that's happened and the
21	multitude of conspiracy theories. So the point was to get

7	Drs. Jenkins, Baxter, and Carrico mentioned that there was
8	such an article in the <u>Texas State</u> <u>Journal</u> . So either I
9	called the <u>Texas</u> <u>State</u> <u>Journal</u> or I called the Texas
10	Medical Association or Dr. Jenkins had a copy and Xeroxed
11	it.
12	Q Then you did not have a copy of the article
13	marked as Exhibit 3-0000 at the time that you met with
14	Drs. Boswell and Humes; is that right?
15	A I did not.
16	Q And you did not have it in advance of your
17	meeting with Drs. Jenkins, Baxter, and Carrico; is that
18	right?
19	A I did not.
20	Q Now, on Exhibit 3-0000 well, first let me
21	step back. Did you at some point in time read the article
22	that's marked as Exhibit 3-0000?
23	A I read it, but apparently I failed to highlight
24	it.
25	Q Did you read it before you wrote your articles?
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	A I did.
2	Q I noticed that on what's labeled as Page 65
3	of Exhibit 3-0000, there's a handwritten word there. Do
4	you see that?
5	A Oh, I do recall that and that's interesting.
6	Would you like me to discourse on this?
7	Q Well, first, I'd like you to tell me if you
8	recognize the handwriting.
9	A Ido.
10	Q Whose handwriting is that?
11	A Dr. Pepper Jenkins.
12	Q How do you know that?
13	A Because I recall the point of the two words.
14	The handwriting is the word cerebrum, and he's underscored
15	right next to it the word cerebellum.
16	Q When did he do that?
17	A He did that at the time of our interview.
18	Q In 1992?
19	A 1992, April of 1992.
20	Q He did that in your presence?
21	A In my presence in his office.
22	Q Okay. So the article that's marked as
23	Exhibit 3-0000 indicates that Dallas doctors made that
24	observation that the right cerebellum had protruded from
25	the head wound; is that right?

1 A They made an incorrect observation in '64 and he was correcting in 1992, which is one of those examples 2 3 of ineptitude and honest mistakes that Earl Rose alluded 4 to. 5 And what Dr. Jenkins was saying -- and it was 6 in my article -- was, you know, I made a mistake in '64. 7 For some reason I thought it was the cerebellum and so 8 wrote cerebellum, which has appeared in many conspiracy 9 theories since. But it really was the cerebrum. And then 10 he went on to explain why, which is in the article. 11 When did Dr. Jenkins tell you that he came to Q 12 the realization that he had made an error in describing 13 the part of the brain that protruded from the head wound 14 as the cerebellum as opposed to cerebrum? 15 When did he tell me that? A 16 0 No. Now, you already said he told you that in 17 April of '92; is that right? 18 A Right. 19 When did he tell you that he supposedly came to 0 20 this realization? 21 I can't recall. You know, sometime subsequent A 22 to the publication of this article. 23 Q And when was that article published? 24 January of '64. assassination? 1 2 A Apparently. 3 Did you go back and read Dr. Jenkins' 0 statements to the very journal that you worked for in 4 5 1978? 6 A Statements to JAMA? What statements are you 7 referring to? Well, who did you work for in 1978? 8 Q 9 American Medical News. A 10 Did you know that Dr. Jenkins made statements Q 11 to the American Medical News in 1978 while you worked there? 12 13 I'm not aware of that. A 14 I take it that you didn't do the interview. 0 Is 15 that correct? 16 I did not interview Dr. Jenkins in 1978. A 17 Do you know who did? Q 18 Actually, vaguely. THE WITNESS: I'm pretty sure it's Brenda 1 2 Stone. BY MR. KIZZIA: 3 4 0 What makes you say that you think it was Brenda Stone who interviewed Dr. Jenkins in 1978? 5 Because I have an excellent memory and for some 6 A 7 reason, I just seem to remember that. 8 Q So you do remember that Dr. Jenkins was 9 interviewed by the American Medical News, for whom you 10 worked, in 1978? 11 A I recall that Brenda Stone did the story at Parkland Hospital. I don't recall Dr. Jenkins. 12 I recall 13 some kind of an anniversary story or something vaguely. 14 0 But you were not involved in that at all? 15 A I was not involved. 16 You hadn't taken an interest in the -- a 0 17 particular interest in the case at that point? 18 MR. BABCOCK: Object to the form of the 19 question, the case. 20 THE WITNESS: I did not have a particular interest in this case. 21 22 BY MR. KIZZIA: 23 Have you read the article that appeared in the Q 24 American Medical News in 1978 that included an interview 25 with Dr. Jenkins? DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

I don't believe I have. I did not read it as 1 A part of this series, did not read it as part of the 2 interviews I did in 1992. 3 Do you think that the American Medical News was 4 0 authoritative? 5 6 A It would depend on how Brenda Stone was in 7 doing that particular story. It is all -- I mean, 8 journalism is not revealed truth. You know, it is a piece 9 of journalism, so it would depend on how accurate a job Brenda Stone did -- or the reporter did, who was Brenda 10 11 Stone. 12 What was Brenda Stone's job with the American 0 13 Medical News in 1978? 14 She was a reporter. A 15 Was she a good reporter? Q 16 I am in no position to really evaluate that. A Ι 17 was not her editor. 18 Did you work with her? 0 19 I worked -- I was a reporter along with her. A 20 And you had no opinion as to whether or not she 0 21 was a qualified reporter? 22 MR. BABCOCK: That question has been asked 23 and answered. Go ahead. 24 BY MR. 1 I'm in no position to evaluate her reportorial A 2 work. 3 0 Well, do you have an opinion? MR. BABCOCK: Which was his prior answer. 4 5 THE WITNESS: I have no particular 6 opinion. 7 BY MR. KIZZIA: 8 Does she still work for the American Medical Q 9 News? 10 She does not. A 11 When did she leave? 0 12 A She left shortly after that article was 13 published. 14 Q So you knew that the journal that you worked 15 for, the American Medical News, had done an interview of 16 Dr. Jenkins, but you didn't go back and read it as part of 17 your preparation for your interview with Dr. Jenkins? 18 MR. BABCOCK: Object to the form of the question. That is a complete mischaracterization of what 19 20 that man just said. He said he's just now recalled in 21 light of your questions about it. He didn't say he knew 22 it back then. 23 THE WITNESS: Well, I was not aware of it 24 at all in 1992 when I did my own JFK stories. 25 BY MR. KIZZIA:

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

When did you become aware of the fact that 1 0 Brenda Stone had interviewed Dr. Jenkins in 1978? 2 About six minutes ago or whenever you brought 3 A up the idea of AM News in '78 and something just 4 triggered, you know, that there had been some type of an 5 6 anniversary story. 7 Q Well, were you just learning of it for the 8 first time when I asked you the question, or were you 9 remembering it? Well, I was remembering that there was such an 10 A article in AM News back when I was at AM News, but it was 11 nothing that I had thought about probably from 1978 to 12 13 right now. 14 0 Do you know what Dr. Jenkins told Brenda Stone 15 with regard to the head wound in 1978? I do --16 A MR. BABCOCK: Hold on. Object to the form 17 of the question. He did not testify earlier that he even 18 remembered Jenkins being a part of the story. Why don't 19 20 you just show him the story. MR. KIZZIA: I will. I just want to know 21 22 if he remembers. I don't recall that Jenkins 23 THE WITNESS: was part of the story. whatever, that it was some kind of an anniversary story. 1 (Deposition Exhibit No. 6 marked.) 2 BY MR. KIZZIA: 3 So you don't know what Dr. Jenkins said in 4 Q 1978? 5 6 I don't even know that Jenkins said anything. A Okay. Let me show what you I've had marked for 7 0 identification purposes Exhibit No. 6. 8 9 A Okay. 10 Q Can you identify that? This is the -- appears to be AM News. 11 A You're looking at the first page there and you 12 Q already know it's AM News. How do you know that? 13 14 A Well, I recognize the headline type, the 15 format. I mean, I worked for the paper for 23 years. You showed me the Chicago Tribune, you showed me a New York 16 Times, a USA Today, and I would look at the format, the 17 18 logo, and I would know what I'm looking at. MR. BABCOCK: His answer was, it appears 19 20 to be AM News. MR. MCGRAW: And I would point out the 21 record does reflect that for the last 15 minutes, he's 22 been telling him it was a story of AM News. 23 THE WITNESS: It's AM News, yeah. Well, 24 what is it that you're directing my attention to? 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 BY MR. KIZZIA: 2 You do recognize Exhibit 6, then, as a copy of Q 3 an article that appeared in American Medical News? A I just said as much. 4 Do you know when it appeared? 5 0 I do not without seeing the exact date. 6 A 7 September 24, '78 -- November 24. So it was an anniversary story, 15th anniversary. 8 On Page 2 of the article, do you see where 9 0 10 Dr. Jenkins was interviewed? I do. 11 A Do you see where Dr. Jenkins said with regard 12 0 to the head wound that part of his head was blown away and 13 14 part of his cerebral -- cerebellum was hanging out? 15 It says, it really didn't show that he had part A 16 of his head blown away and part of his cerebellum was 17 hanging out. But it does mention cerebellum there? 18 Q 19 A That's what it says. 20 And that would be consistent with what 0 Dr. Jenkins apparently said in 1964? 21 22 A It would. And inconsistent with what he told you in 1992? 23 0 That's right. 24 A But you -- is it your testimony that in 1992, 25 Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

you were not aware of the fact that Dr. Jenkins was still 1 saying in 1978 that the head wound involved cerebellum? 2 MR. BABCOCK: Objection to the form of the 3 question. Because there is a newspaper article with a 4 quotation that is -- a five-page article that you've taken 5 out of context, it doesn't mean he said anything. 6 So I object to the form of the question. 7 If you can possibly answer that question, go ahead. 8 I have forgotten the 9 THE WITNESS: 10 question. The question was what? BY MR. KIZZIA: 11 Is it your testimony that in 1992, when you 12 0 talked to Dr. Jenkins and when you wrote your articles, 13 14 you were not aware or at least did not recall that 15 Dr. Jenkins may have told the American Medical News, for whom you had previously worked in 1978, that the head 16 wound involved the cerebellum? 17 MR. BABCOCK: Same objection. 18 19 THE WITNESS: In point of fact, it's my testimony that I was not aware of this cerebrum/cerebellum 20 little side issue, sideshow whatsoever until Dr. Jenkins 21 22 himself brought it up in April of 1992 to me face-to-face. And he brought it up in the context -- and we were talking 23 about conspiracy theories and how things can be -- you 24 know, mountains can be made out of mole hills. 25

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

And he said, let me give you one little 1 example. Due to a mistake I made I once thought 2 cerebellum and blah, blah, blah, but it really was 3 cerebrum, boom, boom, boom. That's the first time I 4 really paid any attention to it. And that's what he said 5 in 1992. 6 BY MR. KIZZIA: 7 In your conversation with Dr. Jenkins in 8 0 Okay. 9 1992, I just want it to be clear. Was he telling you he 10 was misquoted, or was he telling you that previously he 11 had been wrong? MR. BABCOCK: Objection to the form of the 12 There's been no testimony about him being 13 question. 14 quoted at all. BY MR. KIZZIA: 15 16 Well, I want to know what your understanding of Q what Dr. Jenkins' explanation for this so-called 17 misunderstand was. 18 19 MR. BABCOCK: Objection to the form of the 20 question. 21 THE WITNESS: I really don't know. It's 22 my recollection that he had originally made an honest 23 mistake and he subsequently saw that he was in error. And whether he was accurately quoted in regard to his mistake 24 25 or subsequently misquoted, I really don't recall. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

BY MR. KIZZIA: 1 Did he tell you at one point -- at what point 0 2 in time he changed his mind on whether or not the head 3 wound involved the cerebellum or the cerebrum to you? 4 He did not. A 5 Did he tell you what caused him to change his 6 0 mind? 7 Do you have copy of my article here, in which A 8 case it might be in that article. 9 Do you recall at this time why he said he 10 0 changed his mind? 11 I don't recall without reference to the A 12 13 article. I take it from your testimony you did not 14 0 discuss the fact that some of the Dallas doctors had 15 reported involvement of the cerebellum in the head wound 16 with Drs. Humes and Boswell, since you were not aware of 17 that issue at the time that you interviewed them? 18 The what? A 19 MR. BABCOCK: Object to the form of the 20 21 question. MR. It's nonsense. It means nothing. That's why you have 1 2 There would have no need for an autopsy if autopsies. 3 McClelland or anybody else could have seen cerebellum, front, rear. That would have been the end of it, would it 4 5 not? That's why we do autopsies. 6 MR. KIZZIA: Objection, nonresponsive. MR. BABCOCK: That was pretty responsive. 7 BY MR. KIZZIA: 8 9 Q Did Dr. McClelland's description of the fatal head wound to you, as given to you, include the 10 11 cerebellum? 12 A I do not recall Dr. McClelland saying 13 cerebellum. What I recall Dr. McClelland saying was that 14 he, quote, had a feeling. He just had a gut feeling that 15 that shot came from the front. And I said, well, how so. And he said, well, that's just the way it looked to me. 16 17 And I said, well, did you make any examinations 18 to bolster or support that. And he said, no, I did not. 19 I said, well, why do you believe that. He said, well, he believes it because he believes it. And that's what I 20 21 reported. You know, I reported it. You know, I listened 22 to the man, we reported what he said. I think in terms of 23 value of the evidence, it means nothing. What Dr. McClelland said? 24 0 25 A What Dr. McClelland said in terms of

determination of the cause of death is essentially 1 2 irrelevant. He's a surgeon; he's not a pathologist. 3 0 Then would you agree that that applies to any of the doctors at Parkland Hospital? 4 As I have now said at least 10 times on the 5 A record, those 30 minutes in Trauma Room One in Dallas were 6 7 relatively unimportant to the determination of cause of 8 death. None of these people were there to make 9 forensic -- they're trying to save a life. They're not 10 trying to make forensic determinations. So basically if 11 you're comparing Dallas to Bethesda, yeah, Dallas meant 12 nothing. The autopsy meant everything. 13 MR. KIZZIA: Objection, nonresponsive. 14 BY MR. KIZZIA: 15 0 My question to you is, in your opinion, did 16 what Dallas doctors have to say with regard to the nature 17 of the wounds and the potential direction of bullets --18 A Well, you're talking to --19 MR. BABCOCK: Wait, wait. Let him finish. 20 BY MR. KIZZIA: 21 All right. We'll take it one at a time. 0 22 You have to divide the question. In regard to A 23 the nature of the wounds and trying to save the life, they meant everything, sure. If they could have his life, 24 25 The wounds, if they could have patched his absolutely. 1 head back to together, that would have been very valuable. But in terms of the cause of death, which is 2 Point B, they were in no position and they did not 3 attempt, nor could they, to make any forensic 4 5 determinations. 6 0 And do you feel that way with regard to all of 7 the doctors at Parkland? 8 MR. BABCOCK: What way? 9 THE WITNESS: That they could not make a 10 forensic determination? Absolutely. 11 BY MR. KIZZIA: 12 Do you feel that what the Dallas doctor -- any 0 13 of the Dallas doctors had to say with regard to the 14 location of the wounds is relevant in determining the 15 cause of President Kennedy's death? 16 Essentially irrelevant. Any doctor in America A 17 you could have put in that room. There's nothing they 18 could have seen with their naked eye that would mean much in terms of the forensic determination of death; 19 20 otherwise, you would not need an autopsy. 21 Do you think that anything that any of the 0 22 Dallas doctors had to say, with regard to the location of the wounds, is relevant to the determination of where the 23 24 shots came from? 25 Compared to the autopsy pathologist, no. They A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 didn't even turn the body over. They didn't even know the bullet hit him in the back. They were trying to save a 2 life. 3 4 MR. KIZZIA: Objection, nonresponsive. 5 MR. BABCOCK: That's not nonresponsive. 6 THE WITNESS: I'd said no. The Dallas 7 doctors had little, if anything, to do with the determination of cause of death, cummulatively, 8 9 individually. And it was -- it was a function of the 10 circumstances. 11 No physician in those 30 minutes could have 12 made any forensic determination of death. It just didn't 13 lend itself to that because of the bullet wounds and --14 MR. BABCOCK: Okay. That's enough. Now, 15 he's got another question forming, forming itself in his 16 cerebellum. 17 BY MR. KIZZIA: 18 Do you think that that's --0 THE WITNESS: That's libelous. 19 You think 20 with your cerebellum. 21 MR. KIZZIA: What can I say. It's 22 privileged. 23 BY MR. published, but is it my understanding that there are some 1 articles that have been submitted but not published that 2 3 have not been produced? 4 MR. BABCOCK: This witness would not have 5 any in his possession, but <u>JAMA</u> has objected to producing 6 unpublished articles. 7 BY MR. KIZZIA: 8 0 Okay. Mr. Breo, are you aware of any articles 9 that have been submitted for publication by JAMA since 10 January 1st, 1992 which refer or pertain to either the 11 plaintiffs or the book, JFK: Conspiracy of Silence? 12 Other than the ones we've discussed, you mean? A 13 0 Other than the ones that have been produced. 14 I'm not aware of any. A 15 Are you aware of any such articles that were Q 16 submitted for publication by JAMA but were not published? 17 A No, I'm not. No. 18 Q All right. Item Number 3 requests copies of 19 letters to the editors submitted for publication by JAMA 20 since January 1st, 1992 which refer or pertain to either 21 plaintiff or to the book, JFK: Conspiracy of Silence. 22 Now, you have produced the copies of such 23 letters that were published in <u>JAMA;</u> is that right? 24 A Uh-huh. 25 You need to answer out verbally. Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	A Yes.
2	Q But Item Number 4 requests letters that were
3	submitted for publication which may not have been
4	published by JAMA. Are you aware of any such letters?
5	MR. BABCOCK: If you're aware of such
6	letters, tell him. Tell him you're aware or not aware.
7	THE WITNESS: I'm aware that I think we
8	discussed earlier that some letters that were not
9	published were submitted to me for possible responding to
10	the letter writer, which I did not do.
11	So, I mean, there are such letters that were
12	submitted for publication that were not published.
13	BY MR. KIZZIA:
14	Q Who did you say is responsible for those
15	letters and making the determination as to whether or not
16	to publish them?
17	A Dr. Drummond Rennie.
18	Q What about articles that have been submitted
19	that have not been published? Who would be responsible
20	for that?
21	A Well, the entire enterprise, but essentially
22	Dr. Lundberg is editor-in-chief. The entire process of
23	peer review, manuscript review, and all the different <u>JAMA</u>
24	staff members make those decisions. Peer reviewers.
25	Q Well, let's talk a little bit about that
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 process. Say JAMA receives an article for publication. 2 What happens to it? 3 A You've got the wrong person. I have nothing to do with that part of the operation. 4 5 So you don't know? Q 6 A I have a vague idea of what happens, but I mean I'm not involved in it. I don't participate in it, you 7 8 know. 9 Q Well, based upon what you know, can you give a 10 real general description of what happens. MR. BABCOCK: Well, are you talking about 11 12 an outside article or an article generated by a reporter 13 such as Mr. Breo? 14 I'm referring to an outside MR. KIZZIA: 15 article, someone who submits an article --16 THE WITNESS: Scientific article. 17 MR. KIZZIA: -- who is not an employee of 18 JAMA. 19 MR. BABCOCK: And how that has anything to 20 do with the libel case when you're suing two publishers, I don't know. 21 22 MR. WATLER: I'll join that. 23 THE WITNESS: I can certainly elaborate. 24 You've read Kitzi our researcher, you've done research, 25 you've got an article for JAMA you'd like to get DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

published, so you submit your article on the efficacy of 1 highlighted articles versus unhighlighted articles to 2 3 determine the value of journalism or whatever. 4 So you submit that article in to JAMA and it would be assigned to a <u>JAMA</u> editor. And then that editor 5 would farm it out for peer review to people who are also 6 7 interested in this particular area who are peers, so to 8 speak. 9 BY MR. KIZZIA: 10 0 Is the peer review done by JAMA employees or 11 representatives or outside professionals? 12 Outside peers, professionals. People who are A 13 in equivalent positions in, you know, the research 14 community or the professional community or whatnot. 15 Who makes the determination as to who does the 0 16 peer review? 17 It's done as a matter of course. It's done on A 18 all outside scientific submissions, of which I think 19 something like 10 percent are accepted and 90 rejected. I 20 mean, your article would go out and then in due time, it 21 would come back with a peer reviewer's comments which would suggest amend, delete, improve, whatever. 22 23 0 My question is, who determines who are the peer 24 reviewers for a particular article? I believe that's a combination of the editor to 25 A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

whom it's assigned and then maybe input he or she might seek from other people on staff or outside staff or whatever.

The idea would be to get true peers who have something to offer. They would submit their comments. At some point, it would be brought up for a decision at a manuscript meeting. They would say we have this article by Kitzi, we have five reviewers, they split three to two on the value, what do we want to do. A decision would be made to publish or not publish. And that's essentially what happens.

13 A You know, you're talking to the wrong person.
14 I can't emphasize that strongly enough. In fact, I really
15 don't know. More than one.

How many peer reviewers are generally utilized?

Q Okay. Mr. Breo, at any time, if I ask you a
question that you don't know, you feel free to say you
don't know.

MR. BABCOCK: And --

THE WITNESS: In this whole area, I'm
really not the one to address.

22 MR. BABCOCK: Let me tell you that you are 23 surfing on these waters and, apparently, you're way off 24 base on a couple of things. So be careful about what you 25 speculate on.

1 THE WITNESS: It's not my area. I don't know. 2 3 MR. BABCOCK: Well, don't -- if you know 4 something precisely, tell him. Don't tell him about 5 things you just generally know. 6 THE WITNESS: Okay. 7 MR. BABCOCK: Because the problem is, see, 8 that to the extent this is relevant to anything, you say 9 something and then Lundberg says, you know, he's all wrong 10 about that. Then they get a big --11 THE WITNESS: I'm illiterate about the 12 peer review process. 13 MR. BABCOCK: I'm told he's grossly 14 illiterate. 15 BY MR. KIZZIA: 16 Did you say that there is a manuscript 0 committee that gets together after the peer reviews are 17 18 done, or how did you describe that? 19 A Well, there are regular manuscript meetings. 20 Q Manuscript meetings. Who attends the 21 manuscript meetings? 22 A Whoever has -- I mean, I usually do not. In 23 fact, I rarely attend them, so I really can't . . . 24 Q You don't know? 25 I don't know. A

1 Is there a different process for articles Q 2 submitted by JAMA employees like yourself? Well, it's, you know, night and day. People 3 A 4 like myself are --5 MR. BABCOCK: The answer is yes. 6 THE WITNESS: Yes. 7 BY MR. KIZZIA: 8 Q How is the process different? 9 A Well, the journalists, the staff journalists on 10 JAMA, just write articles that are reviewed by their 11 editors and that's -- there is no outside review. 12 No peer review? Q 13 A No. 14 When you wrote your articles on the JFK Q 15 assassination that were published in <u>JAMA</u> in 1992, did you type them yourself, did you dictate them, did you hand 16 17 write them? What did you do? No, I wrote them myself on a little computer, a 18 A 19 word processor. It's called A-TEXT. Do you have any drafts of the articles? 20 0 21 A No. 22 Q What happened to the drafts? 23 MR. WATLER: Object to the form of the 24 question. 25 MR. BABCOCK: Same objection. Are there any other versions of the articles, other than those published 10 11 versions? 12 A Essentially, no. 13 Were there ever? 0 14 A No. 15 Q Does JAMA do its own printing? 16 A Its own printing? You mean do they -- does AMA 17 have a printing press on premise? 18 0 Right. 19 A No. 20 What form -- what form were your articles in Q 21 before they went to the printer? 22 A Well, they were in the form of an electronic 23 queue by computer which would be printed out on a laser 24 printer multiple times. And from there, it goes into the 25 copy production apparatus, which I cannot begin to DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Just answer --4 5 THE WITNESS: Well, the only extent I know 6 is it's in an electronic queue which I can print out on a 7 laser printer. And that's the extent of my hands-on 8 involvement with it. 9 BY MR. KIZZIA: 10 Who edited the articles that you wrote? 0 11 A The articles were reviewed by Drs. Q I'm not sure who all had access to it. 18 A Is that standard procedure, that someone on the 19 Q AMA legal staff reviews articles written by AMA employees 20 for publication in <u>JAMA</u> before they're published? 21 22 A On stories involving a public controversy of 23 this type, it's standard procedure. 24 Can you give me some other examples of where Q 25 that was done?

1 MR. BABCOCK: No, he can't. I won't let 2 him. I won't let him talk about other legal cases unless 3 he's got another matter. 4 MR. KIZZIA: Oh, no, no. I'm talking 5 about just subjects that JAMA wrote about where legal 6 staff reviewed the articles before they were published. 7 MR. BABCOCK: And it's privileged --8 MR. KIZZIA: What privilege? 9 MR. 1 A Absolutely. 2 Were any of those articles, articles that you 0 3 wrote? 4 Many. A 5 Q Would you say that more often than not articles 6 that you write are submitted to AMA legal for review before publication? 7 8 A Absolutely not. The vast majority, there's no 9 need to go through legal . . . 10 Q What was it about these particular articles 11 that warranted legal review prior to publication? 12 MR. BABCOCK: The question has been asked 13 and answered. 14 MR. WATLER: It calls for speculation. BY MR. 1 Q Were you directed to submit the articles to AMA 2 legal for review before publication? 3 There's no need for that. Were these handwritten comments? 12 0 13 A They would have been handwritten comments on 14 the story itself. 15 How many printouts did you obtain back from Dr. Q 16 Glass that had his suggested -- or his comments or 17 suggestions? 18 One printout of the story. And this was different from the one that you 1 Q 2 got from Dr. Glass with his revisions? 3 A Two separate things, yes. 4 0 What happened to the version of the article 5 that you got back from Dr. Lundberg with his comments and 6 suggestions? 7 A It was discarded once I integrated the comments into the story. 8 9 Did Dr. Glass suggest any revisions to the 0 10 article as you originally drafted it? 11 A None that I recall. 1	A Yeah, right.
2	Q I understand that Dr. Lundberg has made some

5	A I believe he made a few.
6	Q Did you accompany him on any of those

8	A What do you mean by accompany?
9	Q Did you go with him?
10	A Do you mean was I on camera?
11	Q Well, let's take it one at a time. Were you
12	physically present on or off camera at any of the

14	JFK assassination?
15	<b>A</b> The day of the press conference, the evening of

17	staff on a to a on a TV to the studios, to a TV
18	studio for an appearance or two. I think I even did one

21	Q Did you appear on camera?
22	A I did not.
23	Q Why did you go?
24	A Well, I went because I was in town and for my

I think there was 4 A 5 McNeil-Lehrer, and I think there was Cable NBC. I think 6 that was the night of the press conference. And I think 7 the following morning was Good Morning America and CBS, 8 whatever they call their morning talk show. That was the 9 extent of it. 10 0 This was all in New York City? 11 A Yes. 12 Q You have seen the videotapes of those 13 presentations? 14 A I've seen some. I've seen McNeil-Lehrer, and I 15 think I saw Good Morning America, CBS. I think I've seen 16 most of them. 17 Who has possession of those videotapes? Q 18 I don't know who has them now. I know that the A 19 time I saw them the AMA television/radio had the 20 videotapes. 21 All right. Look at Item Number 16 on 0 22 Exhibit A. That's part of Deposition Exhibit No. 1. 23 A Uh-huh. 24 It requests copies of documents, notes, 0 25 memorandas, statements, tape recorders or transcripts that DIANA HENJUM REPORTING SERVICE, P.C. were generated or relied upon by Mr. Breo in connection 1 2 with the articles that he wrote and which were published 3 in JAMA on May 27th, 1992. Have you produced as part of Exhibit 3, and 4 5 with addition of Exhibit 5, all of the records and 6 documents that would be responsive to that request? 7 A I have. 8 Are there any other documents, notes, 0 9 memoranda, statements, tape recordings or transcripts that 10 were generated or relied upon by you in connection with 11 the third article that you wrote about your interview with 12 Dr. Finck sometime thereafter? 13 MR. KIZZIA: 17 0 What types of other -- what types of records or documents would you or do you have that pertains to that 18 third interview or article? 19 20 It would be similar -- it would be some of the A 21 same materials I had before I interviewed Humes and Boswell I also took with me to Switzerland to interview 22 23 Finck. And I believe in addition, I had some Freedom of 24 Information material in regard to Finck's testimony before 25 the House Select Committee in '78 and a memo he wrote in DIANA HENJUM REPORTING SERVICE, P.C. '64 or '65 to his commanding officer of the Armed Forces 1 2 Institute of Pathology. 3 There was a batch of maybe 50 pages of Freedom of Information material in regard to Finck's previous 4 5 privileged comments on the assassination. And that was 6 essentially it, other than correspondence with Finck and 7 so on. 8 Where did you obtain that additional 0 9 documentation that you referred to that you took with you 10 to your interview with Dr. Finck? I believe it was from the Armed Forces 11 A 12 Institute of Pathology. Did you obtain them from anybody in particular 13 0 14 up there? 15 I can't recall. It's in -- you'll get it. A 16 It's in the file that I --17 MR. BABCOCK: He may get it. 18 THE WITNESS: You may get it. 19 BY MR. It was someone DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

who worked in the record section of the Armed Forces 1 2 Institute of Pathology. Okay. You said that you had a copy of a memo 3 0 4 that Dr. Finck sent to his commanding officer? 5 A Yes. 6 Q What was his commanding officer's name? 7 I think it was Blumberg, General Blumberg. A 8 MR. BABCOCK: Just a question. Is the 9 October 7, 1992 article regarding Dr. Finck part of the --10 are you claiming that's defamatory, your clients? 11 I mean, is that in the lawsuit, is what I'm getting at? You didn't ask for documents about it before. 12 13 I'm just wondering if it's in the lawsuit now. 14 MR. KIZZIA: I don't know that we're 15 necessarily claiming that that particular article standing 16 alone is defamatory, but I believe Mr. Breo said he 17 considered them to be a series of articles. Is that 18 right? 19 THE WITNESS: Well, I mean, there were 20 three articles published in 1992. 21 MR. BABCOCK: Sounds published to me, 22 80 --23 (Deposition Exhibit No. 7 marked.) 24 BY MR. That appears to be it. 21 So you're saying that you have a copy of the 0 22 actual memorandum itself? 23 A I do. 24 Q And did you read that memorandum before 25 publishing -- or before writing the third article? 2	Q Did you question Dr. Finck about the Blumberg

7	A Yes.
8	Q What was it that you asked him about, the

Dr. Lundberg A may have called it to my attention. 8 9 Q Are you just guessing? 10 A Yeah, I am just kind of guessing. Somehow it was suggested to me to contact the Armed Forces Institute 11 12 of Pathology to see if they might have any records of Dr. 13 Finck. 14 MR. Yes, that was my 20 assumption. 21 And the counter-assumption is, I did not have 22 to go back and wade through the 26 volumes to find a 23 discrepancy here and there and to find a conspiracy. 24 MR. 1 case recorded? 2 A Yes. 3 0 Which ones were recorded? The interviews with Drs. Humes and Boswell, Dr. 4 A Baxter, Carrico and Jenkins, and Dr. Rose and 5 Dr. Finck and Dr. McClelland. 6 That's all of them, isn't it, except for 7 0 8 Dr. Perry? 9 A With the exception of Dr. Perry. 10 0 You did not record your interview with Dr. 11 Perry over the telephone? 12 A I took handwritten notes as we talked. 13 Did you ask if it could be recorded? Did you Q 14 ask him for permission to record it? 15 A I did not ask for permission to record it. 16 MR. BABCOCK: Dr. Perry? 17 THE WITNESS: Dr. Perry, correct. 18 BY MR. KIZZIA: 19 All right. Who recorded your interviews with 0 20 Drs. Boswell and Humes? 21 A I did. 22 0 Was that interview done with both of them 23 present at one time? 24 A It was. 25 You did not do separate interviews with Q

1	Dr. Boswell and Dr. Humes?
2	A No.
3	Q How was it recorded, what kind of recording
4	device?
5	A It was done with a Sony tape recorder.
6	Q And why did you record those interviews?
7	A Well, to save myself the trouble of taking
8	extensive notes at the time, and basically that was it.
9	Q Does that apply to all the interviews that you
10	did for these articles, that's the reason that you did it?
11	A Yes.
12	Q So you did not take notes with regard to the
13	interviews?
14	A I took some notes in addition to taping.
15	Q But you discarded those notes?
16	A I have.
17	Q What about the tape recordings, what happened
18	to them?
19	A The tape recordings have been discarded.
20	Q Were any copies made?
21	A No.
22	Q Were the interviews transcribed?
23	A I personally transcribed the tapes. I
24	transcribed the tapes.
25	Q How did you transcribe them? Handwriting?
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Typing? 1 2 A Handwriting. 3 Q You hand wrote them out? I hand wrote them out. 4 A 5 0 In their entirety? 6 A In the entirety of the tape, yeah. 7 Were the interviews recorded in their 0 8 entireties or just portions of the interviews recorded? 9 A Well, the interviews -- you know, at the time 10 we did the interview, it was recorded. 11 Well, what I'm asking you is, did you start the Q 12 recorder at the beginning of the interview and stop the 13 recorder at the completion of the interview? 14 Well, I turned it off, you know, when we took A 15 breaks or lunch. But, you know, the parts of the 16 interview were recorded. 17 And that's true in all of the interviews that 0 you did for these articles? 18 19 That's true of all of them with the exception A of Dr. Perry. 20 Why were the tape recordings discarded? 21 Q 22 A Well, it's just my normal procedure. They had 23 served their purpose. What purpose was that? 24 Q 25 Well, the purpose was to accomplish the A

299

production of the story. And, you know, once I had 1 2 conducted the interviews and tape recorded them and 3 transcribed them myself and written the article and the article was set for publication and was published, that 4 5 was the end of the line. 6 And you're saying that no copies of the tape Q 7 recordings were made? 8 A None. Did you ever provide any of the tape recordings 9 Q 10 to anyone else to listen to? None. No one. 11 A 12 0 So no one else heard the tape recordings other 13 than yourself? 14 A Not a soul. 15 0 What happened to your handwritten transcripts 16 of the interviews? 17 A They were discarded with the tapes. 18 0 Were the tapes and the transcriptions of the 19 tapes discarded prior to publication of the articles? 20 A Yeah. Almost simultaneous with publication. 21 0 Did you record the interview with Dr. Finck also? 22 23 A Yes. Did any of the people that you -- or any of the 24 Q 25 doctors that you interviewed request copies of the DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

recordings or copies of the transcripts of the interviews? 1 2 A No. 3 So you didn't provide them with copies? 0 4 Α No. 5 Q You said earlier that you read the book, JFK: Conspiracy of Silence; is that correct? 6 7 A That's correct. 8 How many times did you read it? 0 9 A Once. 10 When did you read it? Q 11 Prior to doing the interviews in Dallas the A with Dallas doctors, subsequent to the Humes and Boswell. 12 13 Q So at the time that you interviewed Drs. Humes and Boswell, you had not read the book, JFK: Conspiracy 14 15 of Silence? 16 A I had not. Did you go buy a copy of the book? 17 0 18 A I believe I did. 19 Where did you buy it? 0 20 A I believe I bought it at a Krochs & Brentanos 21 in Chicago. 22 What made you decide to go out and buy the 0 23 book? 24 A Well, as described in my article, the lead 25 article, Dr. Crenshaw's book, public book about a public

controversy, in effect, interjected itself into our discussions.

Because on the second day of my interviews with Humes and Boswell, Dr. Crenshaw was on a morning TV show, Good Morning America -- one of the morning TV shows -- and Dr. Boswell happened to have the TV set on in his room, and he came to our second day of interviews and said to Dr. Humes, Joe, it's a good thing you didn't have your TV set on this morning because your blood pressure would have gotten up if you would have heard what this doctor had to say about, you know, the direction of the bullets.

12 And, you know, so we had a little bit of talk 13 about Dr. Crenshaw and that's how, in effect, he 14 interjected himself into this public controversy. And 15 Humes just said, you know, my God, where does this stuff 16 come from and proceeded to give his summation of what had 17 happened.

18 And then subsequent -- that was the end of that 19 episode, but obviously they interviewed the Dallas 20 doctors. Since what Dr. Crenshaw was saying was 21 diametrically opposed to what Drs. Jenkins and the others 22 were saying, I decided I would read the book. 23 MR. BABCOCK: I don't remember the 24 question, but I'm sure you answered more than he asked. 25 What's your -- it's a little after 5:00. What's your

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	estimate on time here?
2	MR. KIZZIA: It's hard to say, Chip. I
3	would say that we probably have another couple of hours
4	worth at least.
5	MR. BABCOCK: So you're saying you can't
6	finish before 7:00 at the earliest?
7	MR. KIZZIA: I'd say that's doubtful, but
8	if you want to try it, I'll try it.
9	MR. BABCOCK: Well, I don't these
10	people have plane connections, and I've got some plans
11	myself. But if you could assure me that we're going to
12	get finished by 7:00, then obviously it's worth it to do
13	it, but it doesn't sound like that to me.
14	MR. KIZZIA: First of all, I can't make
15	that assurance. But second of all, I'd like to know if
16	you have ever gotten any lawyer to keep that assurance.
17	MR. BABCOCK: Excuse me.
18	MR. KIZZIA: Have you ever gotten any
19	lawyer to make that assurance?
20	MR. BABCOCK: All the time. I give it all
21	the time. Well, for purposes of their plane situation,
22	let's go until 6:00.
23	It will go better if you just answer his
24	questions.
25	MR. WATLER: Did you say go to 6:00?
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1	MR. BABCOCK: Yes.
2	BY MR. KIZZIA:
3	Q And you say that this occurred on the second
4	day of your meeting with Drs. Boswell and Humes in
5	Florida?
6	A That's my recollection.
7	Q Was it Dr. Boswell who brought it to your
8	attention?
9	A Yes.
10	Q Did you know who Dr. Crenshaw was?
11	A I basically, I had never heard of
12	Dr. Crenshaw before that, no.
13	Q So certainly you had never heard of his book,
14	then?
15	A You know, I think I may have vaguely seen in
16	the <u>New York Times</u> book review that there was a book,
17	JFK: Conspiracy of Silence. Now, whether I would have
18	equated that with the name Crenshaw, I'm not sure.
19	Q But you didn't pay any attention to it
20	before
21	A No.
22	Q before the second day of your meeting with
23	Dr. Boswell and Dr. Humes?
24	A I did not.
25	Q Before you went to meet with Dr. Boswell and
	DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Dr. Humes, had you planned to come to Dallas to meet with 1 2 Dr. Jenkins? A I had hoped to. It was dependent upon, you 3 know, the participation of the Dallas doctors. 4 Had you already called Dr. Jenkins to discuss a 5 0 meeting? 6 I don't believe I had. I believe I called him 7 A after I returned to -- to Chicago. Actually, I called 8 Dr. Rose first. I interviewed Dr. Rose, then I went to 9 Dallas and interviewed the Dallas doctors. 10 Did you call Dr. Rose before you had your 11 Q 12 meeting with Dr. Boswell and Dr. Humes? No. We did the Humes and Boswell interviews A 13 14 first. When was it first determined that you would do 15 0 a second article pertaining to interviews with some of the 16 Dallas doctors? 17 When they agreed to make themselves available 18 A for the interviews. 19 And that was after you talked to Dr. Jenkins? 20 0 Right -- well, no. First come Humes and 21 A Boswell, then I return to Chicago. And first Dr. Rose 22 says, I'll talk to you; I talked to Rose. Subsequent to 23 that Dr. Jenkins says, come on down, we'll talk to you. 24 But you didn't contact either Dr. Rose or 25 Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Dr. Jenkins until after you got back from your meeting with Dr. Humes and Dr. Boswell? 2 3 A That's correct. 4 Q And it was after you returned from your trip 5 with Dr. Lundberg to meet with Drs. Boswell and Humes that 6 it was determined that you would contact Dr. Rose and 7 Dr. Jenkins? 8 A It was not determined that I would contact 9 them. I had always intended to contact them. It was 10 after that, that they agreed to the interviews. 11 Well, when did you first make the decision that 0 12 you were going to contact Dr. Jenkins for an interview? 13 The intent from the start was to do as a A 14 complete and thorough a story as we could. That included 15 both the autopsy and the Dallas doctors. However, we had 16 no assurances until late -- I think according to those 17 letters -- until May of '92 that Boswell and Humes would 18 even talk to us. 19 So this is all dependent upon the cooperation 20 of the doctors. Boswell and Humes finally agreed to 21 interviews, I believe, in late March of '92 and the 22 interviews took place in early April. And Rose agreed in 23 April, and I did him and Jenkins. And the Dallas doctors 24 agreed in April, and I did them. 25 And so, I mean, the intent from the start was DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

to interview all of them, as many as we could if they 1 2 would agree. And that's -- the sequence was Boswell, 3 Humes, Rose, Dallas. 4 But you didn't even try to set up interviews 0 5 with any of the Dallas doctors until after your meeting 6 with Dr. Humes and Boswell? Well, one thing at a time. I mean, you know, 7 A we had our hands full. 8 9 MR. BABCOCK: The question is, did you 10 try? 11 THE WITNESS: No. 12 BY MR. KIZZIA: 13 But is it your testimony that you had planned Q 14 to do so even before you met with Dr. Humes and Boswell? Yes, contention. I got any autopsy interviews. 15 A 16 I probably would not have done Dallas interviews without 17 the autopsy interviews, because I would not have been 18 interested in what Dallas doctors thought they saw if I 19 had not had the autopsy results also. 20 Did you get JFK: Conspiracy of Silence read 0 21 before you contacted Dr. Jenkins to meet with him? 22 A I believe I did. 23 Q Do you still have a copy -- your copy of JFK: Conspiracy of Silence? 24 25 I do not. A

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 What happened to it? 0 I -- one of two things happened to it. Either 2 A I gave it to Dr. Glass, who expressed an interest in 3 reading it, and he read it and discarded it or he read it, 4 returned it to me and I discarded it. 5 6 But it's discarded? 0 7 A It's discarded. 8 Q How do you know if Dr. Glass discarded it? Did 9 he tell you that? 10 Oh, it was my copy, so I -- knowing A 11 Richard Glass, I'm almost certain he would have returned 12 to me. He's very diligent about that type of thing. 13 But you don't remember specifically? Q 14 90 percent he gave it to me, I discarded it. A I can't imagine he would not return something I gave to him. 15 16 Q But you don't know for sure? 17 A 90 percent for sure. 18 Q Have you asked him? 19 A I have not. 20 Q Did you do any highlighting or make any notes in your copy of <u>JFK:</u> <u>Conspiracy of Silence</u>? 21 22 Α Of what? 23 MR. BABCOCK: The book, the book. Did you 24 highlight the book? 25 BY MR. KIZZIA: DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Did you make any highlights or notes in your Q 2 copy of JFK: Conspiracy of Silence? 3 A I did not. 4 (Deposition Exhibit No. 8 marked.) 5 BY MR. KIZZIA: 6 0 Let me show you what I have marked for 7 identification purposes as Exhibit No. 8. 8 A Okay. 9 Q Do you recognize Exhibit 8? 10 A I have not seen this before. I mean, I have 11 not seen the cover letter. I have not seen this before, 12 the fax transmission. The rest of it is -- we've been 13 over it before. 14 Q Do you want to take time -- a moment to look at 15 that? 16 When counsel returns it. A 17 MR. BABCOCK: You didn't get this from us, 18 did you, Brad? 19 MR. KIZZIA: No. Everything I got from 20 you is Exhibit 3. 21 THE WITNESS: Well, they got everything 22 except the fax. 23 MR. BABCOCK: Yes. 24 THE WITNESS: Well, I have not seen this, 25 this fax transmission cover sheet before.

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

BY MR. KIZZIA: 1 2 Q You're referring to the first page of Exhibit 3 8? 4 A Right. 5 Q Well, let's look at the first page of Exhibit It is a -- well, let me ask you this: Have you ever 6 8. seen a fax cover sheet for American Medical Association? 7 8 A Well, that -- a JAMA fax sheet, but I mean every unit has their own. You know, their own letterhead 9 10 or whatnot. 11 Exhibit 8 has the American Medical Association 0 12 letterhead at the stop, right? 13 A Right. 14 Q And you recognize that? 15 Right. A 16 Has the date May 19th, 1992? Q 17 Right. A 18 Q And it says, to John Castillo? 19 A Right. 20 0 Good morning, and then a telephone number? 21 Uh-huh. A 22 Q You need to answer out verbally. 23 A Yes. Do you know who John Castillo is? 24 Q 25 I do not. A

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Q And then it says, from Mark Stuart, Paul Terini and Jeffery Molter at the American Medical Association New 2 York office? 3 A 4 Uh-huh. 5 And then it has a telephone number? Q 6 Right. A 7 Who is Mark Stuart again? 0 Mark Stuart is the director of the AMA 8 A 9 Washington -- New York PR office. 10 Q And Paul Tarini? 11 A And Jeffery Molter, we've covered before, are 12 the science news and public information people in Chicago who wrote -- handled the press release and the press 13 14 conference. 15 0 Do you know why this fax transmission was sent 16 by Mr. Stuart, Tarini, and Molter at the American Medical 17 Association to John Castillo on May 19th, 1992? 18 MR. BABCOCK: Object to the form of the 19 question. It assumes that it was sent. 20 MR. WATLER: Calls for speculation. 21 THE WITNESS: No, I don't know. 22 BY MR. KIZZIA: 23 Q Then the next four pages appear to be copies of 24 the same news release that we talked about earlier. 25 Right. A DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

And then the rest of it appear to be copies --1 Q 2 or reprints, rather -- from JAMA of your May 1992 3 articles; is that right? 4 A Xerox copies, it appears to be. 5 Q Okay. When you had earlier testified about 6 reprints -- excuse me -- is this the type of --7 A No. -- thing you're referring to? 8 0 A reprint would be stapled and bound, you know, 9 A 10 and be run off in quantity. This is apparently just a 11 Xerox -- or maybe it's a Xerox of the reprint. But the actual reprint would be stapled. You 12 13 have -- I think you have one somewhere in those documents. 14 By reprint, I mean the self-contained stapled reprint. 15 As far as this page that says reprints from 0 16 JAMA, does that appear to be a copy of --Right. Yeah, this is a Xerox of the reprint 17 A because of the copyright lines. So they probably just 18 Xeroxed a reprint, put it on a fax machine since the 19 stapled copy couldn't be faxed. Are you following? 20 21 They couldn't put the fax -- stapled copy into a fax machine, so they probably just Xeroxed it and fed in 22 the individual sheets. 23 Do you know who the AMA faxed copies or copies 24 Q of reprints of your articles to? 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

A Who they sent copies to? Anyone who requested 1 them. 2 Did they send some to people -- organizations 3 Q or members of the media who didn't necessarily 4 specifically request them? 5 I don't know. You'd have to ask them. A 6 7 Have you ever written an article for JAMA that 0 was not published? 8 9 A An article for <u>JAMA</u>? Not that I can recall. 10 Are different criteria applied to the 0 11 determination of whether an article submitted by a JAMA reporter is worthy of publication than the criteria 12 13 applied to articles submitted to JAMA for publication from 14 outside sources? 15 Didn't we cover this? Ά 16 We talked about the process. Now I'm asking Q 17 about the criteria for determining whether or not the 18 article is worthy of publication. 19 MR. BABCOCK: If that's within the sphere 20 of knowledge. Yeah, it seems to me that 21 THE WITNESS: criteria and process are in the same. But the 22 distinction, as I tried to say, is that staff journalists 23 24 for JAMA write for their editor. And I suppose if you had 25 a violent objection, there would be a discussion. The DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

scientific thing is a completely different ball game, 1 2 which goes through a process and is massaged and peer 3 reviewed. I have nothing to do with it. 4 Q What do you mean "the scientific thing"? 5 Scientific papers, as I discussed. You know, A if Brad Kizzia submitted a scientific research paper to 6 7 JAMA, the route it would travel is one I would have 8 nothing to do with but is completely different from the 9 type of journalistic article that the Kennedy series 10 represents. 11 0 So the articles that you wrote regarding the JFK assassination were not scientific articles; is that 12 13 right? 14 MR. BABCOCK: Object to the question. 15 THE WITNESS: I didn't say that at all. 16 BY MR. KIZZIA: 17 Well, I'm not saying you said it. Isn't that Q 18 true, though? 19 A What do you mean by scientific? MR. BABCOCK: Well, you know, that's a 20 21 vaque term. It speaks for itself is what it does. 22 THE WITNESS: It was not a current concept 23 in cholesterol, peer review, scientific manuscript if 24 that's what you mean. 25 BY MR. KIZZIA: DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 0 I want to know what you mean. I asked No. you -- you referred to the scientific thing. And I asked 2 3 you what you meant by that and you talked about a 4 different process and criteria applied to scientific 5 articles that weren't applied to yours. 6 A JAMA is -- you know, JAMA is essentially a 7 general medical journal that publishes peer reviewed research and scientific articles in which researchers, you 8 9 know, forward their research and it is peer reviewed. 10 The Kennedy articles were a work of journalism 11 which is handled through an editor and is not peer 12 reviewed in the same, you know, sense that a scientific 13 article is. 14 0 So there is a difference, from your point of 15 view and from <u>JAMA's</u> point of view, between a journalistic 16 article and a scientific article? 17 MR. BABCOCK: Object to the form of the 18 question. 19 BY MR. KIZZIA: 20 0 Is that correct? 21 Same objection. MR. BABCOCK: 22 THE WITNESS: Yeah, you know, I'm not 23 quite sure what you mean by scientific article. We'd have 24 to get -- we'd have to have a dissertation on 25 nomenclature. I tried to explain what a peer reviewed DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 article is. But I mean scientific article, what does that mean? 2 3 Q Do you know what a journalistic article is? 4 A The Kennedy thing is a work of journalism. 5 It's not a work of science? 0 6 A It's not bench research. Yeah, I did not use 7 test tubes and Delta values. 8 0 You're not a scientist, are you, sir? 9 A I am not a scientist. 10 0 And no one else participated in the writing of 11 those articles except you, right? 12 A Well, in the writing --13 MR. BABCOCK: He's already testified to 14 that. 15 I wrote the articles. THE WITNESS: 16 BY MR. KIZZIA: 17 So would you describe the three articles that 0 18 you wrote pertaining to the JFK assassination that were 19 published in JAMA in 1992 as scientific articles? 20 MR. BABCOCK: Object to the form of the question. It could not have any possible bearing on this 21 22 case. THE WITNESS: I can't characterize it 23 24 within that context one way or the other. 25 MR. BABCOCK: Unless there's a privilege DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

for scientific articles. I don't know about that. 1 If 2 there is, we're going to find out about it. 3 BY MR. KIZZIA: 0 Where were you on November 22nd, 1963? 4 5 A I was standing in front of an Associated Press 6 teletype machine during a journalism class at Northwestern 7 University in my senior year of Northwestern University. But whatever time it was, 12:30, when the transmission 8 came in that the President had been -- reports are the 9 10 President has been shot in Dallas. 11 So you were in school at the time? 0 I was in school. 12 A 13 Well, obviously, you weren't at Parkland Q 14 Hospital or at Bethesda Hospital at any time on November 22nd, 1963? 15 16 I was not on the scene at 1963. A 17 Either in Dallas or in Bethesda, Maryland; is Q 18 that right? 19 A Either one. How about Dr. Lundberg, do you know where he 20 Q 21 was on November 22nd, 1963? I have no idea. 22 A You've never discussed that with him? 23 0 No. 24 A Have ever been to --25 0

MR. BABCOCK: Chicago? 1 BY MR. KIZZIA: 2 Have you ever been to Trauma Room One at the 3 0 Parkland Hospital Emergency Room? 4 I believe Dr. Jenkins --A 5 6 MR. BABCOCK: No, no. Have you ever been there? 7 THE WITNESS: Yeah, I'm saying I believe 8 Dr. Jenkins escorted me, showed it to me when I did the 9 10 interviews in '92. BY MR. KIZZIA: 11 He showed you where President Kennedy's body 12 0 was brought and where the emergency efforts to revive him 13 took place? 14 15 A Yeah. I mean, what's left of it. It was 16 transformed by 1992. What does it look like now, or how is it 17 Q 18 different? 19 A You know, the medical center at UT Southwest 20 Dallas has grown tremendously and Parkland Hospital has 21 grown tremendously. And he drove me to where the 22 emergency exit was, and I believe he showed me where the original Trauma Room One was. But, you know, it was a 23 24 very cursory type of a tour. 25 You didn't go into the Trauma Room One? Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 A I can't recall if we went in or just sat there at his -- I can't recall if we got out of the car and went 2 3 in or not. 4 0 Oh, this was a tour in a vehicle? 5 This was a tour in a vehicle before we went to A 6 Dr. Jenkins' office for the interview. 7 So you did not actually personally walk into 0 8 Trauma Room Number One? 9 A I can't recall if I did or not. 10 0 You have ever been to the morgue at Bethesda 11 Naval Hospital? 12 A I have not. 13 Q Do you know whether or not Dr. Lundberg ever 14 has? 15 A I do not. 16 0 Do you know whether or not Dr. Lundberg has 17 ever been to the Parkland Hospital Emergency Room? 18 A I do not. 19 Did you personally request that reprints or Q 20 copies of the articles be sent to anyone? 21 I did not. A 22 Q Do you know whether or not reprints or copies of your articles were sent to anyone in particular? 23 24 A I know of none other than, I believe, courtesy 25 copies are sent to Drs. Humes and Boswell and possibly to DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

the Dallas doctors, Drs. Jenkins and so on. 1 2 Were courtesy copies provided to those doctors 0 3 before they were published? 4 A Thereabouts, you know. Simultaneous, shortly -- short -- it would not have been before the 5 press conference but about that time. Shortly afterwards. 6 7 After the press conference? Q After the press conference. 8 A 9 Q The purpose of sending the doctors courtesy 10 copies was not to get their input? 11 A The purpose was courtesy. 12 Q The articles were going to be published as is regardless of what they may have had to say? 13 14 A That's correct. The articles already were 15 published. 16 0 What do you mean they were already published? 17 A Well, they were all published and they were --18 you know, <u>JAMA</u> was out. Have you had any input at all in decisions as 19 0 to who to send copies of the articles to or reprints of 20 21 the articles to? 22 A No. Who was it that conceived of the idea to do the 23 Q articles pertaining to the JFK assassination in JAMA? 24 25 Well, as I said, when I came to work, took the A DIANA HENJUM REPORTING SERVICE, P.C. 10	Q And that was back in 1989, you said?
11	A Right.
12	Q What did you do at that time to work on that

14	A Well, I believe we've covered this. But, you
15	know, Dr. Lundberg had told me to try and get in touch
16	with Drs. Humes or Bos I think he said Bosworth. It
17	took a while to figure out it was Boswell.

called? 1 2 A Probably. Yeah, '89. Sometime in late '89. 3 Had you ever written anything on the JFK Q assassination before these three articles? 4 5 MR. BABCOCK: Asked and answered. THE WITNESS: 6 Nothing. BY MR. KIZZIA: 7 8 Had you ever expressed any particular interest Q 9 in the topic to Dr. Lundberg before he suggested this 10 project? Well, I agreed with him, sure. That's a --11 A MR. BABCOCK: Now, before he talked about 12 13 it, did you ever say anything to him? 14 THE WITNESS: I did not. 15 BY MR. KIZZIA: Did your moving from the <u>American Medical News</u> 16 Q 17 to JAMA have anything to do with these articles? 18 A Absolutely not. You know, as I said earlier 19 with regards to the book Dr. Rose referred to, you know, I 20 had done 10 years worth of interviews with doctors in the 21 public spotlight in similar cases. 22 MR. BABCOCK: The answer is absolutely 23 not. 24 THE WITNESS: That's agreeable. 25 BY MR. KIZZIA:

When did -- strike that. Who suggested the 1 0 idea of interviewing the Dallas doctors? 2 Well, Dr. Lundberg and I both agreed that we 3 A would -- and Dr. Glass, in our discussions early in 1992, 4 5 we --6 MR. BABCOCK: No. The question is who. 7 Not when, who. Who suggested we do it? 8 THE WITNESS: 9 MR. BABCOCK: Yes. 10 THE WITNESS: I suggested we do it, we 11 talk to as many people as we could and do both parts of 12 the story if we could. 13 MR. BABCOCK: Okay. So it was you? 14 THE WITNESS: It was me. 15 BY MR. KIZZIA: 16 You had suggested that you talk to as many 0 17 people as you could? 18 A I suggested that we try to do both the Bethesda 19 part of the story and the Dallas part of the story. 20 Q When did you make that suggestion? 21 I made that suggestion early in 1992 and --A 22 MR. BABCOCK: Okay. That's when it was. 23 THE WITNESS: Okay. 24 BY MR. KIZZIA: What prompted you to make that suggestion? 25 Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Well, because the interview with Drs. Boswell 1 A and Humes appeared to imminent according to what Dr. 2 Lundberg was telling me based on his communications with 3 Dr. Humes. 4 Well then, why did you wait until after you had 5 Q talked to Dr. Humes and Dr. Boswell before you tried to 6 7 contact any of the doctors in Dallas? 8 MR. BABCOCK: Object to the form of the 9 question. 10 You've asked that three THE WITNESS: times. For the logical sequence. Secondly, wouldn't have 11 12 done Dallas without the autopsy. 13 MR. BABCOCK: He's already said that. 14 BY MR. KIZZIA: 15 How much in advance of your interviews with Dr. 0 16 Boswell and Dr. Humes did you know that they were going to 17 take place? 18 A Not -- you mean for sure? For certain? Not 19 less than a month. 20 0 Not less than a month? 21 Less than a month was the lead time we had and A 22 the time they promoted. 23 During that month lead time, why didn't you --Q 24 A I said less than a month. It was not a month. 25 It may have been a week. There was not a lot of time. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 0 Well, which was it? Was it closer to a week or 2 closer to a month? 3 My recollection is it was closer to a week to A 4 10 days. You've seen the letter suggesting -- one of them 5 was --6 MR. BABCOCK: There's no question. 7 There's no question on the table. 8 BY MR. KIZZIA: 9 0 Why, during whatever amount of lead time there 10 was there, did you not contact any of the doctors in 11 Dallas to try to set up interviews with them to follow your interviews with Drs. Boswell and Humes? 12 13 MR. BABCOCK: Objection. It's been asked 14 and answered. 15 THE WITNESS: Three times now. 16 BY MR. KIZZIA: And the answer is what? 17 0 The answer is they clearly had to await the 18 A 19 confirmation that the interviews of Drs. Boswell and Humes 20 had to take place, and once that confirmation came then 21 there was nothing left to do other than get ready to go 22 interview Boswell and Humes. Now it's time to turn our 23 attentions to the Dallas doctors. 24 Had you done any reading or research regarding Q 25 the JFK assassination before you received the assignment DIANA HENJUM REPORTING SERVICE, P.C. 2	A You mean before 1992?
3	Q Yes, sir.
4	A Nothing extensive. I think I may have I
5	read the Warren Commission Summary Value, and I think I
6	saw the movie JFK.
7	Q Anything else?
8	A That was about it.
9	Q You said earlier that part of the totality of
10	the records were conspiracy books. Is that how you
11	described it?
12	A I attempted to say the totality of the medical
13	evidence involved various conspiracy books that turned the
14	medical evidence or attempted to turn the medical
15	evidence upside down, and that had be taken into
16	consideration and weighed against and questioned against
17	the doctors that I interviewed. And at the far end of
18	that came the final appraisal in writing the articles.
19	Q What such books did you read?
20	A Not you know, I did not even read as many
21	books as much as following press accounts of reviews of
22	books or press accounts of
23	MR. BABCOCK: He just wants to know what
24	books you read, if you can recall that.
25	THE WITNESS: Very few.

MR. BABCOCK: What you recall any? 1 THE WITNESS: I -- actually, I can't 2 recall any prior to 1992. 3 MR. BABCOCK: Asked and answered. He 4 can't recall prior to '92. 5 MR. KIZZIA: Okay. 6 BY MR. KIZZIA: 7 Well, let me ask you this. Can you say for 8 Q sure that prior to 1992 you had read any books pertaining 9 to the JFK assassination? 10 I can't say for sure. I mean, it was not a 11 A burning interest of mine. 12 After January 1st, 1992, did you read any books 13 Q pertaining to the JFK assassination? 14 After January 1st? 15 A Yes, sir. 16 0 I read Dr. Crenshaw's book. I believe I read 17 A Jim Myers' book, Cross Fire or whatever he wrote -- cross 18 19 Fire. You know, I saw Oliver Stone's movie. MR. BABCOCK: Books. We are talking about 20 21 books. THE WITNESS: It was definitely not a 22 That's about it. 23 book. 24 BY MR. KIZZIA: Are you sure that you read Jim Myers' book, 25 Q DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Cross Fire? 1 2 A I read Cross Fire, whoever wrote it. I read 3 Jim Myers'. Whoever wrote it, I read it. 4 0 You're certain you read Cross Fire? 5 A After January 1, 1992. 6 Was it before you met with Drs. Boswell and Q 7 Humes? 8 It was not. A Q 9 It was after? 10 It was after. A 11 Was it before you met with Dr. Jenkins? Q 12 It was not before. A 13 It was after that? Q 14 A After. 15 Was it before you met with Dr. Finck? Q 16 A It was not. 17 It was after that? Q 18 A After. 19 Q So you read the book, Cross Fire, after you had 20 written the three articles? 21 Yeah. A 22 How recently was it when you read Cross Fire? Q 23 I believe it was actually Memorial Day weekend A 24 in 1993. 25 What prompted you to read that particular book? 0 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 A I think I was seeking amusement because my wife 2 and I were spending the weekend in New Orleans and she was reading a series of books, and we were in a bookstore. 3 I 4 picked up on a whim. I didn't spend a lot of time reading 5 it. 6 0 Did you read the whole book? 7 A I can't say I read the whole book. I think I 8 may have jumped to the end of the chapters and read his theories. 9 10 Jumped to the conclusion? 0 11 A Jumped to his theories. I don't think there 12 were any conclusions. 13 Other than JFK: Conspiracy of Silence, did you 0 14 read any books pertaining to the JFK assassination prior 15 to writing the articles that were published in JAMA? 16 I did not. Let me amend that. I think I did A 17 read Jim Garrison's <u>On The Trail of The Assassin</u> at some 18 point. I really can't recall when, but I also read that 19 book. 20 Did you read it before you wrote the JAMA Q articles on the JFK assassination? 21 22 I really can't recall. I'm not even sure I A 23 read it. I think I turned to the index to see if he had 24 referenced it to Finck and certain doctors, skimmed 25 it.

1	Q Did you buy that book?
2	A I did buy that book.
3	Q Do you still have it?
4	A I do not still have it.
5	Q What happened to it?
6	A It was tossed.
7	Q By you?
8	A By me.
9	Q After the articles were published?
10	A Whenever I read it, it was tossed.
11	Q What about <u>Cross</u> <u>Fire</u> ? Do you still have your
12	copy of that?
13	A That was tossed in New Orleans.
14	MR. BABCOCK: He has testified about that

articles, did you do any further research or investigation 1 to try to evaluate any of the criticisms or charges that 2 had been made? 3 A Which? 4 5 MR. WATLER: I object to that as vague and 6 ambiguous. 7 MR. BABCOCK: Me, too. Same objection. 8 BY MR. KIZZIA: 9 0 Can you answer the question? I'm not sure which letters you're referring to. 10 A The letters that were published or the letters that 11 12 weren't published? At what point in time? 13 Okay. Let's start with the letters that were Q 14 published. With regard to the letters to the editor that 15 were published --16 A I wrote a response --17 MR. BABCOCK: Wait a minute. Let him finish his question. 18 BY MR. KIZZIA: 19 You wrote a response? 20 Q You've seen it. 21 A Right. Did you do any additional investigation 22 Q 23 or research? I read the letters, digested them, thought 24 A about what they had to say and wrote a response. 25

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Is that all? Q 1 That was enough. 2 A You felt like that was enough? 3 Q I felt that was enough. 4 A What about the unpublished articles, did you do 5 0 any further investigation and research after having 6 reviewed those articles? 7 A I did not. Might I say that some of these 8 letters did not invite further research. 9 10 Do you know -- strike that. I take it that at 0 11 the time you interviewed Drs. Boswell and Humes they had 12 not read JFK: Conspiracy of Silence. Is that correct? That's my understanding. 13 A When you talked with Dr. Jenkins and Dr. Baxter 14 Q 15 and Dr. Carrico, had any of them read JFK: Conspiracy of 16 Silence? 17 A I do not know. 18 Did you ask them? Q 19 A I don't believe I did ask them if they had read 20 the book. 21 Q Did any of those three doctors, Dr. Jenkins, 22 Dr. Baxter, Dr. Carrico, say anything to you to indicate 23 one way or another whether or not they had read the book 24 before you met with them? 25 They indicated that they were aware of the A DIANA HENJUM REPORTING SERVICE, P.C. massive publicity Dr. Crenshaw was generating by 1 appearances on national TV such as the one that happened 2 when we were interviewing Boswell and Humes. And the 3 local papers here in Dallas and Fort Worth had reported 4 Dr. Crenshaw's allegations and media appearances, so it 5 was in the air, so to speak. They were aware of that. 6 Now, whether they took the trouble in buying and reading 7 this book, I do not know. 8 MR. KIZZIA: Objection, nonresponsive. 9 10 BY MR. KIZZIA: Mr. Breo, my question is, during your meeting 11 0 with Dr. Jenkins, Dr. Carrico and Dr. Baxter, did any of 12 those three doctors say anything to you to indicate one 13 way or another whether or not any of them had read JFK: 14 Conspiracy of Silence prior to your meeting with them? 15 Dr. Carrico did pick up a copy of the book and 16 A thumbed through it and came to page -- which I quoted in 17 my article -- page 15, as I recall, in which Dr. Crenshaw 18 said that, Everyone dreams of being caught up in some 19 important international event. That was my good fortune 20 21 when I walked into the halls of history. Dr. Carrico made the observation that I don't 22 have those kind of dreams, and perhaps that's what 23 motivates Dr. Crenshaw. That was the only recollection 24 that I have of the book. 25

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

MR. KIZZIA: I'm still going to have to 1 object to your answer as being nonresponsive. 2 3 BY MR. KIZZIA: 4 0 But since you have brought up this incident, 5 let me ask you this. Did Dr. Carrico have in his possession a copy of JFK: Conspiracy of Silence at the 6 time of your meeting? 7 I can't recall if someone at UT Southwest 8 A 9 Dallas had a copy of the book or if I brought a copy of the book with me and tossed it after the interviews. 10 I 11 really can't recall. I know that Dr. Carrico did pick up 12 the book and thumb through it and say, Here is your 13 answer. You don't know if that was his book or your 14 0 15 book or somebody else's? I can't recall. 16 A Other than that particular incident that you 17 Q just related, did Dr. Jenkins, Dr. Carrico, or Dr. Baxter 18 say or do anything that suggested to you one way or 19 another whether or not any of them had read JFK: 20 21 Conspiracy of Silence prior to your meeting? Nothing that would definitely influence that 22 A I don't know if they read it or not. They said 23 question. nothing that would indicate that they either read it or 24 had not read it. 25

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 0 Did they do anything that suggested to you one 2 or another whether or not any of them had read the book? 3 A Well, what they did was say what I reported, 4 which is, they thought Dr. Crenshaw was mistaken, but they 5 based that largely on what they read in the press and on TV that he had said. Now, whether they did the additional 6 thing of reading the book, I really don't know. 7 What was the statement that you attributed to 8 0 9 Dr. Crenshaw on Page 15 of this book? 10 It's Dr. Carrico -- it's mentioned in my A I think it's -- I'm not even sure it's Page 15. 11 article. I think it's Page 15. I think Dr. Crenshaw says something 12 13 to the effect that many of us dream of being caught up in history's grand sweep, blah, blah, blah. Did you find it? 14 15 That may even start the book off, in fact. All right. What about Dr. Rose? 16 0 17 Yes, Dr. Rose. A 18 Do you know whether or not he read JFK: Q Conspiracy of Silence before you met with him? 19 I believe he did not. Dr. Crenshaw was not any 20 A 21 part of my discussion with Dr. Rose. comment, way, shape or form.

2 Q What about Dr. Perry? Do you know whether or not he read JFK: Conspiracy of Silence before you talked 3 to him over the telephone? 4 5 A Again, I do not know if he read the book. I do know that he was aware of the general allegations as 6 7 reported by the media, and he made the comments which I reported in my article. 8 Did you ask him if he had read the book? 9 0 I can't recall if I asked him if he read the 10 A 11 book or he was aware of the allegations in the book, you know, which are two separate things. 12 13 Do you know whether or not -- strike that. Did 0 14 Dr. Perry say anything during your telephone conversation with him that would indicate one way or another whether or 15 not he had read JFK: Conspiracy of Silence? 16 17 He said what I reported, which would indicate A he was aware of the contents of the book. I do not know 18 if he read the book or got that from the news media 19 accounts. 20 All right. With regard to your interview of 21 0 Dr. McClelland, do you know whether or not prior to your 22 interview he had read JFK: Conspiracy of Silence? 23 I do not know. But if I had to guess which of 24 A the Dallas doctors had read it, I would guess Dr. 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

McClelland would be --1 MR. BABCOCK: Don't be guessing. 2 THE WITNESS: 3 Okay. BY MR. KIZZIA: 4 5 Why would you guess that Dr. McClelland had Q read the book? 6 Well, based on his comments to me. 7 A What comments were those? 8 Q Well, that he believed -- he had a feeling that 9 A 10 the bullets came from the front, which it was Dr. 11 Crenshaw's feeling. MR. BABCOCK: Quit guessing. 12 13 BY MR. KIZZIA: Did you ask Dr. McClelland whether or not he 14 Q 15 had read the book? 16 A I did not. 17 0 Did Dr. --Actually -- well --18 A 19 Q Did you want to say anything else? 20 A Actually, Dr. McClelland was reading another 21 book by Harrison Livingston, a book about this thick, you 22 know, which is another conspiracy book. He showed a photograph to me of the head wound and said, here it is. 23 I said, here's what? What does that mean to you? But it 24 25 was not JFK: Conspiracy of Silence.

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

1 Q Are you referring to Harrison Livington's book? 2 High Treason or whatever it was. Two or one or A 3 three or whatever. 4 Do you know which one it was? Q 5 He's written so many sequels. I really don't. A Do you know who Harrison Livingston is? 6 Q 7 He was at our press conference. A Did you meet him? 8 Q 9 I could not escape his performance. A 10 Was that your first meeting with Q Mr. Livingston? 11 And last. 12 A 13 Well, I want you to elaborate on that further, Q 14 but for the time being let me ask you this. Had you seen 15 the photographs that Dr. McClelland showed you before he 16 showed them to you? I had not. 17 A Prior to your meeting with Dr. McClelland, had 18 Q 19 you seen the photographs that have been represented to be 20 the photographs taken at the autopsy of President Kennedy? 21 A I had not seen those photographs. 22 0 Since your meeting with Dr. McClelland, have 23 you seen any photographs that have been represented to be 24 photographs taken at the autopsy of President Kennedy? 25 A I have not.

DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Q Trying to review those photographs was not part 1 of your research? 2 3 It was not part of my research and -- you know, A 4 it was specifically a concern of Dr. Humes and Boswell 5 that there was no rational reason to review those 6 photographs. They didn't feel like there was either? 7 0 8 A They did not feel, the Warren Commission did not, and, you know, they did not want the photographs to 9 10 get out into the National Inquirer, which is how they felt 11 in 1963 and how they feel in 1993. 12 0 Did Dr. McClelland say anything that would 13 indicate one way or another whether or not he had read JFK 14 : Conspiracy of Silence before you had talked with him? 15 A He did not. 16 Did Dr. McClelland specifically refer to or 0 17 show you any book, other than Harrison Livingston's book? 18 A He did not. 19 0 Have you talked to any of the doctors that you 20 interviewed for your article since those interviews? 21 A A few. 22 Who have you talked to and when? 0 23 A Memorial Day 1992, my wife and I were 24 vacationing in New Orleans and I literally bumped into Dr. 25 Jenkins on Bourbon Street, you know, with his aunt, as I DIANA HENJUM REPORTING SERVICE, P.C. I have not spoken to Dr. Finck since the 9 I have not spoken with Dr. McClelland or 10 interview. 11 Dr. Rose. You know, some of them sent letters. Dr. Rose sent that letter you saw. 12 MR. A Did the conversations that you had with 20 0 Dr. Humes and Dr. Boswell occur over the telephone? 21 On the telephone, yes. 22 A Were they separate conversations at that time? 23 Q Separate conversations. They were in different 24 A 25 places. DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

Did they take place prior to the publication of Q 1 the letters to the editor, that is marked as Exhibit, in 2 your reply? 3 They didn't. A 4 Have you talked to them since then? 5 0 I have not. A 6 When you met with the doctors from Dallas, did 7 0 you have a list of questions, like the list of questions 8 that you had when you met with the autopsy doctors? 9 10 A I did not. I think you've already said that you did not 11 0 review the photographs that are purported to be 12 photographs taken at the autopsy of President Kennedy, but 13 have you looked at x-rays that have been represented to be 14 x-rays taken at the autopsy of President Kennedy? 15 I have not seen x-rays. 16 A At the time that you wrote your articles for 17 0 JAMA, were you aware of statements that have been made by 18 certain witnesses and claims that have been made by 19 certain researchers that the photographs represented to be 20 photographs taken at President Kennedy's autopsy were not 21 valid photographs, that they had been altered or 22 23 fabricated in some way? MR. BABCOCK: Do you want to know? 1 2 THE WITNESS: No, I don't particularly. I don't want to know. 3 4 BY MR. KIZZIA: 5 Q If you did want to know, how would you go about 6 finding out? Who would you ask? I'm not sure. 7 A Well, who was running the press conference? 8 Q 9 I think the AMA Public Relations Office ran the A 10 press conference. MR. KIZZIA: It's 6:00 o'clock, Chip. 11 What do you want to do? 12 13 MR. BABCOCK: Leave. 14 MR. KIZZIA: Do you want to suspend the deposition at this point? 15 16 MR. BABCOCK: Unless you can assure me 17 that you'll get done in the next few minutes, yeah. MR. KIZZIA: I can't get done in the next 18 19 few minutes. MR. BABCOCK: How about the next 60 20 21 minutes? MR. KIZZIA: Probably not. Possibly in 22 the next couple of hours. 23 MR. BABCOCK: The next 120 minutes? 24 I don't think we'll care to wait for -- I don't think it's 25 DIANA HENJUM REPORTING SERVICE, P.C. DALLAS, TX 780-5552

2	MR. KIZZIA: I'm not suggesting that he do
