

Dear David,

1/30/91

Sorry the copying could not be completed in time for UPS pickup Monday. The machine could not handle the thinner paper automatically and it had to be done by hand. It is the first item on the enclosed bill. The other two items are unrelated. The total is \$60.16.

Also enclosed is ~~a~~ a Justice letter to Lesar that may be of interest. He sent it to me.

I've finished the rough draft of what I've come to think of as a ^{pro}logue. About 20 more pages. It alone could easily be expanded into a book.

I've had a message left for a young woman at the college who is looking for more work. She comes highly recommended by my history professor friend. She has parttime work in that office. He knows she needs more work and she just quit~~s~~ her second job over sexual harassment. He says she can type.

If she is interested I'll find out how much time she thinks she can take without interfering with her school work.

There is no fixed rate scale around here for this kind of work.

With her or with another I think it would be better in many ways if you mailed checks to her. I'd probably have to pay state tax here and you'll have better and easier-to-handle records.

I think she lives on Maryland's eastern shore so when the ~~school~~ school year ends I'll be looking for another assistant. Few of the Hood students are locals but maybe she'll know one or maybe the office that assists students does.

Best to you all,

David
