Dear Harold,

The enclosed page supplied by the FBI lists their Martin Luther King File. What portion of this file do you have? What portion was released due to your efforts? Could your researcher look into this?

How would you feel about a book containing these files edited together with some of your writings on the case? You are a major player in the post assassination events & your personal point about the unethical and the release of the files are very compelling and historically important.

Dave could edit the FBI Files and you and I could select materials from F. some of your unpublished writing on the case. What do you think?

Best,
R
