HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

Reference is made to letter to the Attorney General from G. Robert Blakey, Chief Counsel and Director, HSCA, dated March 7, 1978, which, in connection with the HSCA's investigation into the assassination of Martin Luther King, Jr., requested certain material from the files of the FBI. Reference is also made to FBI memorandum dated April 14, 1978, which provided partial response to HSCA letter of March 7, 1978, and advised that a response to Item 3 of this letter would be forthcoming.

Enclosed are an original and one copy of a memorandum with an attachment which completes response to referenced HSCA letter. It is requested that you furnish a copy of the enclosed memorandum and its attachment to the HSCA.

NOTE: The HSCA has been previously provided with files concerning organizations named in this request of March 7, 1978. Since informant symbol numbers are excised in this material, the HSCA cannot assess our informant coverage of these groups. Since we do not desire to turn over informant files to the HSCA, it was decided that an informant survey of these organizations would be conducted to determine what information, if any, regarding our coverage of these groups could be provided the HSCA.

20 JUL 10 1978

Informant survey was compiled through review of substantive files of the organizations involved, informant control files containing FD-378s (Racial Program Bi-weekly Progress Report) and FD-405s which listed extremist organizations, and the identity and number of informants providing coverage. In addition, it was necessary to review about 150 informant files to determine if informants were members or officers of a particular group.

The survey was carefully prepared to avoid compromise of any informants. For example, if membership of a particular organization was extremely low and its officers few, information pertaining to the number of informants who were members or officers was withheld. Therefore, it is believed that information in this survey can be furnished to the HSCA without compromising any individual informants.
