

Invaders MFO #157-1067, Sub 1A, O-26

7 of 1st 8 withheld under (D), 1-5 also (C)

10 is from Lt. Arkin, police reports seems to be from MPD file ASD 944. Apparently a transcript of police interview with Cree McKenzie. But it was not at Hq, but at a place of business.

Beginning with 15 the next 11 are withheld, 1st 7 both (C)(D), last 4 1(D) rest (C). This means that except for the report of the conference with McKenzie this entire section is withheld except for the propaganda distributed by the young blacks

Not one of the withheld records was held to have any part reasonably segregable. All cover pages are withheld in their entirety/ Photographs of people whose names are in the reports already provided withheld under both C and D. In some cases the names are given on the worksheets. One at least is an informer, Marrell McCullough. His picture has been published. (He is 15.)

Pictures of known people can qualify for D, even if C can?

Worksheets dated 7/77 but not delivered until 9/77 and then two weeks after promised.

Section 1A-2 consists of numbered 27-51 plus unnumbered but all are withheld except 13pp of 6 documents. Again what remains is Invaders leaflets only. Again what is withheld is cover memo, under D and photos. Even those photos labelled as of unknowns is claimed to be within D.

SubSec 1A-3, Nos. 52-78, 93 pp of 11 documents released.

The first 9 withheld under both C and D except for the Cover sheet, which is S only. They are so used to claiming exemptions that they claim D for 60, which is Invaders propaganda and is not withheld. Not a word obliterated, either. (True in first subsec., too.) All the rest are photographs, including a group of striking hospital workers.

61, described as "Sticker 'Damn the Army Join the Invaders (quote not closed)" is D! D is also claimed for 63,64,65, more literature and again not withheld. These are dated on the worksheets but there is no date on them, signifying further withholding. Whatever has the date. However, the individual items also are not all numbered.

The next 5 withheld, cover memo D only, rest C and D. All 4 are pictures of known people whose names are not withheld and have not been to now. 70, pamphlets, to be 8 pp, only 7. Unless they count the slipsheet FD340 which identifies source, etc.

72 is "mimeo Throwaway," literature. D is claimed for even the slip sheet but all three pages are here, the FD340 and the 2 mimeographed pp.

Next a cover memo is withheld under D.

73 is 16 pp "'Proposal' ME Leadership Conf." It says it is withheld under D, ^{but} all 16 pp. are here. They are all here. So also are all 20 pp of 74 for which 7D is claimed for all 20. It is described as "INVADER NOTEBOOK." It in fact is a spiral steno's notebook almost entirely names and phone numbers. These two items are pretty clearly domestic intelligence and have no connection with criminal activity or investigations.

2 photos withheld under C and D and then although 7D is claimed for the 2 pages of leaflet that is 77, it is here. Ditto for 78, D claimed for the pamphlet but it is here.

Sub Sec 1A-4, 20 pp. of 6 docs released. A cover memo and pictures are withheld as above and 7D is actually claimed for all six documents not withheld. Except for 87 it is all literature. 87 is "List of Long Distance ~~Charges~~ Charges for Invaders Office (527-5130.)" It is rather actual copies of the bills.

Probably the claim to exemption where the documents are provided is limited to the advance sheet by the agent from which there is masking so the foregoing comments relating to the claim to exemption of what is provided is invalid.

2
Invaders MFO 157-1067 Sec. 1 Serials 1-37 116 pp of 12 docs released

27 of these records, all numbered serials, were destroyed. This is explained by an un-numbered serial of 8/19/70 on a printed destruction form. The printed form says that the destroyed information was contained in a report, which is crossed out and replaced by LHM, with the date 5/6/68 added. Signed by H.S.Lowe. There is a destruction schedule but it seems strange that on August 19, 1970 there should be this need to review Invaders' records and destroy them. Get citation of precise LHM and read it to see if it suggests reasons for the need to destroy. These are for the period prior to and after the assassination. The first record remaining with a date is 1/15/68. Is 36 the referenced LHM of 5/6/68?

21 Informant, so referred to has name of 16 spaces including any blank spaces between names. 36 is long, 93 pp, indexed. Addressed separately from marked copy if worth it.

Section 2, Serials 38-150, but with destructions only 46 pp or 28 docs released. Destruction reference to 8/19/70 memo above, updated here to include actual numbers of destroyed docs., with cited report holding contents identified as of 8/13/68. Last date in this section is 6/7/68.

39 has source masked. 16 space.

40 SA Wm. H. Lawrence used pseudonym Jay Hervie and P.O.Box 1970, Mps 38101, here to receive literature, "The Southern Patriot."

41 Press-Scimitar reporter, name masked, cited as source, 18 units.

45, source masked, 16 spaces. This source furnished picture of clerk Rosetta Miller of U.S. Civil Rights Commission, described by male source as "rumormonger." Pix in 1A Section. Source in 54 also 16 spaces. 54 represents domestic intelligence clearly and spying probably. It reports on one SCLC conference in a bathroom at the Lorraine. 16 spaces for masked source in 78.

82 lists the names of 62 "young people who REV. HAROLD A. MIDDLEBROOK, 252 Walker Avenue, leader in the Community on the Move for Equality, has been calling to work on projects in which COME and BOP are interested." (BOP is Black Organizing Project.) Names, addresses and phones given. 83 and 84 includes further domestic intelligence from Arkin, including personal information, like a black preacher dating a white woman. in 85 Lawrence's masked source's name has 15 units.

91 is Redditt's 5/21/68 report to Inspector Graydon P. Tines. He was working with the high school officials who were receiving grievances from students. He then went out and with Lt. R.J. Turner picked up "a list of the girls that presented grievances." He lists them, with addresses. He also lists grievances, which are not unusual or extreme.

95 Lawrence's source seems to have 17 spaces to name.

113 heavy obliteration under D includes codename of MPD informant of 3 letters. McCullough was "Max," 3 letters. From context use of D for all that is withheld seems unjustified, especially where there is no effort to provide the "reasonably segregable."

118, 16 spaces on informant. Here the espionage and reporting extended to where the mother of a black student worked and to conversations between black militants and a new local disk jockey.

134, covering memo for report provided by Lt. E.H.Arkin, has recommendations masked, claimed applicable exemption is C. The report includes a transcript of a meeting with Invaders, as from taped bug.

142 source 16 spaces. Ditto 143

145 code name 3 letters masked for MPD informant. Claim for all obliterations C & D.

148D masks more than name of source, claiming C&D. Name Dixon, without first name, not masked after initial masking of source's name. There is reference to photos of 7 blacks being showed to source but no ref. to where they are filed. However, larger masking at bottom might include this. It appears that 157-1205 is Black Panther Memphis code. There appears to have been no Black Panthers there. This is Serial 4 in that code.

Section 3, Serials 151-195, 115 pp of 39 docs released. Unnumbered at front is Lowe's 8/1970

209

156,

explaining destruction and saying information is in report of 8/13/68. Last date in here is 7/12/68. 182-5 out of sequence, at end on worksheet. b2 claimed: 165, 168, 186C, 189, 190, 195, 200, 207, 208, 210, 212, 213, 215, 219, in each case along with 7C, 7D or both. Only other claims to 7C, 7D or both.

b2 156, source 8 spaces. 26 copies filed in Memphis, all titles masked except BOP, NAACP Here the claim to b2 is not possible, on the same basis as my complaints of the past to which there has been no written response, but Hartingh did admit they should not be using it. That there are such files is not "solely" a matter of internal FBI rules and practises. All in any way related to Cointelpro-type and Invaders operations and files are clearly within the request and the fact of such files' existence in itself makes it other than a matter "solely" of FBI concerns. The content bears this out. It is domestic intelligence.

b2 165, source appears to be 15 spaces. 15 Memphis files, all but 3 obliterated, total 16 copies, 2 in New 157. Claim 2 b2, 7C.

166 is copies of data from War on Poverty, OEO programs from Lt. E.H.Arkin, MPD.

167 provides what was claimed to be exempt in 113.

b2 b2 claimed on 10 of 12 file titles in copies made, 1=170, rest all 157, which is the request's main number. Aside from the question of whether the withholding under b2 is proper it would be a simple matter if one wanted to make the time to replace all that is withheld by title from what is in the various reports/

Indications of intent to withhold more that discloses improper domestic intelligence operations in marking for indexing of new stories? 169 is new story on War on Poverty, 178 names of college graduates, report on ceremonies. 179, 180

186-Bert Ferguson, manager WDIA, black-oriented station, FBI source ("always been a close friend of this office"), provided tapes of controversial shows, personnel records of employees, etc. Tapes files in 1B not provided or offered.

186C masked source 15 units. The alleged "subversion" here must be the reported plan of the Black Students Association to help dropouts qualify for higher education. Claim b2 must apply to two files titles of which are masked.

b2 b2 189, 190, 19 and 18 Memphis copies, respectively, all but 5 each withheld 189, 190, Cont ain personal and political info, like who plans to run for elective local office. Indexed. 190 includes names federal employees at social affair. 1 file noted is 66, which is "administrative matters." Employee "security"?

190G FBI met with PD informers.

b2 195, 10 of 13 Memphis file titles withheld. Special instructions to FBI's informer on aid to qualify students, 186C above.

204- 7 of 9 file titles withheld but not under b2-C & D. Ditto 206, C & D, 12 out of 14 masked.

b2 200- 7 of 9 titles withheld.

206- attachment withheld although provided in other instances, as 204 above, Redditt's, etc. C&D.

b2 207-Only 6 or 19 files not withheld, b2. Much. dom. intel. 208, 18 copies, titles 14 masked. Extensive obliteration recommendations of MFO agent to SAC on what to do. 209, 9 of 11 file titles withheld. 210 withholds 2 of 3. 212, 17 of 21 titles withheld. (More on Richard Ryan and Kathy Roop and personal information not withhold despite claim to C.) 213, 6 of 13 titles withheld, personal info present despite claim to C.

214, no claim to b2 but 12 of same 15 file titles withheld, from the numbers. Report of Arkin's informer attached, not as in 206. 215, 15 of 20 withheld.

217- 14 of 17 titles withheld, same numbers, no claim to b2. Here the hand-lettered report of Arkin's informant is attached.

b2 219- 20 of 25 titles withheld.

Section 4 next page.

4
Section 4, Serials 221-304, but only 48 pp of 22 documents released. Destruction memo also dated 8/19/70. Report on info dated 8/13/68. Last date here 8/6/68.

b2 claims: 224, 225, 261, 274, 276, 281, 288, 289, 290, 296, 304. Also b(7)(C), (D) or both.

224 has criminal info not referred to criminal file. Of 6, only 2 not withheld by title. 225-12 of 14 titles withheld.

232- police intel. report attached but withheld from 239, which has 12 of 14 file titles withheld, but not under b2, C&D.

245, has MPD intel report attached. 15 of 21 file titles withheld, not under b2. P. 4 missing.

247 has MPD report attached. So does 259.

B2 Claimed for 261, 174, 276, not for 278, 279, claimed 281, not 286, for 288, 289, 290, not 291, for 296, 304. Obliterations of file titles: 261 = 13 of 18; 274 = 6 of 10; 276 = 8 of 11; 278 = 21 of 26; 279 = 16 of 19; 281 = 12 of 14; 286 = 2 of 4; 289 = 11 of 14; 290 = 7 of 10; 291 = 23 of 29; 296 = 5 of 8; 304 = 8 of 11.

279 has MPD intel. report attached; it is withheld from 286.

Section 5, Serials 305-343, 73 pp. of 11 documents only released. Not recorded of 8/19-70 by Lowe on destruction, info included in report of 8/13/68. Claims to exemption on remaining: b2 on 306, 328, 329, 331, 339, 343, each with 7C, 331 D also. Others C, D or both.

b2 306, 13 of 20 file titles withheld, not that of ACLU, 157-166 and 62-ACLU. Informant, 16 spaces, furnished copies of photographs taken with permission of 5 Invaders in June (this is dated 8/6), including McCullough.

326 does not have MPD report attached. Claim 7C&D. 15 of 19 file titles withheld.

327 does not have MPD report attached. Claim 7C&D. 19 of 23 file titles withheld.

b2 328, 16 of 19 file titles withheld.

b2 329, 2 of 6 file titles withheld.

330 is 8/13/68 report on BOP, 44 pp. Of 12 Memphis files 7 withheld, six of these Invaders number, 157, 1=170. 11 copies to Bureau, 8 to other intelligence organizations, 1 to USA, Memphis. Exemptions 7 C & D claimed only.

b2 331- Of 13 Memphis copies 8 have file titles withheld. Appears to be covering airtel for 330 334 MPD report on Invaders, said attached, is withheld, 7 C & D. 18 of 21 file titles masked. Almost all 157 files.

b2 339- 4 of 7 file titles withheld, 3 of these 157s.

b2 343- 12 of 15 file titles withheld, most of them 157s

Section 6: Serials 344-374, 23 pp. of 9 docs. released. Lowe's 8/19/70 destruction memo says information in report of 11/15/68, Last date this Section 8/26/68. Only 7 documents remain, with exemption claimed on all, ^{except 354} b2 and 7C on 359, 364, 373, 374, also 7D on 374. 370, 371, 372, claim is b(7)(C)(D).

354 is Bureau congratulating Memphis on its job against BOP and Invaders and as of 8.23.68 telling them to do even more.

b2 359- Except for name of informant only obliteration is of 5 of the 6 file titles. Ditto 364, where 4 of 9 file titles are withheld. 370, withholding other than of filing seems to relate to police raid and what was seized under cover or a marijuana charge. 6 of 9 titles of files withheld.

371 cover report from obliterated MPD Lt. on Invaders, attached here. 19 of 24 file titles withheld. But report from MPD with 372 not attached. 13 of 17 file titles withheld, 12 157s, 1-170.

b2 373- 19 of 24 file titles withheld, 12 from 157 files, 1 Selective Service 25, others 170s.

Ref to Don Neely being AWOL explains masking under 25? P. 4. This paragraph says where Neely can be found any day. It also says that one KRISS or KRESS was an informer and "a free lance Negro photographer" suspected by Richard Neely "of giving ~~him pictures~~ the FBI his picture." Note above, withholding of published and other pictures. This information was from FBI's informant. given to Arkin.

b2 374- of 38 Memphis files titles on 29, or all but 9 withheld. 7 attachments noted on p. 1 but there are only 5, with not accounting of others. Worksheets show only 13 of 15 pp. provided.

432

Three of the four items noted as received from MPD are intelligence reports. Only masking of names in FBI report is of sources, one of whom provided many photographs (p. 3, see above on withholding of photos). The MPD intelligence unit covered the city council meeting at which one question was public housing. It provides the names of members of black organizations who attended city council meeting on housing. It even had Willie B. Richmond cover the meeting. His 3 pp report attached.

Section 7 Serials 373-471, 74 pp of 24 documents released. Unrecorded at first is Low's 8/19/70 memo on destructions, information said to be in LHM of 11/15/68. Exemptions claimed- b(2) and 7(C),(D) or both: 380,382,420,425,429,431,452,454,464, other b(7)(D),(D) or both. 380-5 pp report on BOP, except for file titles only names of sources masked. 27 files indicated, 20 withheld, almost all 157s. 382-17 of 20 file titles withheld.

b2
files

391 refers to an article by Kay Pittman Black. 7 of 12 file titles withheld, 157s and other political files. One not withheld is 157-4542, "Counterintelligence Black Power." 394, 10 of 16 file titles withheld, 1 selective service, others political. 414, 26 of 29 file titles withheld, 1 Selective Service, 1 "internal security," 1-134, "Security Informants," 1-170, all rest 157s. MPD memo on Invaders said to be attached to each of the 29 file copies of memo not here attached. Worksheets note 2 pp withheld under b(7)(C) and (D). But there can't be an Invader whose name is not made public in these files. Nor if there is any basis for withholding is there a statement that not one word of the missing pages is reasonably segregable.

415, same situation except for statistics and fact that this was sent to Atlanta FO. Of 21 file titles in Memphis 16 are withheld, same files as above included. The 25 file, Selective Service, here No.14636, may refer to Charles L. Cabbage "currently under federal indictment for refusal to report for Armed Forces Induction 5/10/68/" (9/10/68)

419 this time has copy of MPD report "INFORMATION RE PAUL MCCREIGHT." Two of 5 file titles withheld, all 5 157s. McCreight is black bailbondsman. Weapons found in his car according to Inspectional Bureau report. Charge against him "reckless driving." In both documents, aside from the file titles, there is but a single obliteration, that of the code name of this police informant. There is no withholding of any of the names of many blacks.

b2

420-Informant of 15 spaces, six seeming to be of last name, "furnished photos of a group of Invaders taken at City Hall," at City Council meeting three days earlier, on 8/20/68. See above on withholding of photographs. Nastiness about, a "lad" named Tate who is "monkey like," and "mean sullen lad, full of hate." No reason is true because "both his parents were killed during the spring 1968 race riots in Memphis." Walter "Bill" Bailey "feels sorry for him and lets him stay in old section of the hotel." Father said to have been shot in looting a liquor store, by police on 4/6, his mother few days later of natural causes. On p. 2 informer's name seems to have 7 spaces. Young Tate is included in Invaders file not because he is a member but because "he could logically be used by Invaders."

Recommendation at end obliterated. Two new 157 file titles and one 170 withheld, by title.

b2

425- Here informer seems to have 18 spaces for name, yet FBI claims to have had but one Invader informer. Marrell McCullough fits space. If so this means he also was reporting to Lawrence. Ask for this because McCullough's name is not secret and he was exposed.

?

b2

429- There were 35 copies made of this 8 pp report "Black United Front (BUF) meeting at Clayborn Temple Memphis 9/2/68." All but 7 or 28 titles withheld. One Selective Service, one Security Informants, rest 157 and 170. With all the names mentioned, including a list of those present, privacy is hardly invoked with sincerity or justification. There are different spaces taken up by last names of quoted sources.

430- 23 of 26 file titles withheld. One is Selective Service, 3 Internal Security, 2-170s, rest all 157s. Arkin's Invaders report is attached here.

b2

431- 17 spaces for informer's name, which seems to be the only obliteration in the text of this 4 pp report except for the "LEAD" at the end. 9 of 12 file titles withheld. Largely domestic intelligence. No real concern for privacy. Note one referred to as pimp, p.3.

b2

432 has MPD intelligence report on Invaders attached. Of the 29 files, the titles of 25 are withheld. The attached report again shows McCullough was suspected of being police. 433 does not have MPD Invader report attached. 439 does. 433 withholds 11 of 14 file titles, 439 withholds 24 of 27.

450 has MPD Invaders report attached. 17 of 19 file titles withheld. Name MPD Lt and recommendations also withheld.

451 has MPD Invaders report attached. Withholds titles of 20 of 23 files.

b2 452- Has MPD intelligence report on Invaders attached. Masks names of one of Police officials as well as informers and withholds recommendation. Of 32 file titles 28 withheld. Firebombings.

b2 454- On BOP, with MPD Invaders report attached. 22 of 27 file titles withheld.

463, 9 of 12 file titles withheld, all but 1 are 157s.

b2 464- Only informer of Lawrence withheld from 2 pp of text. Seems like 17 spaces for full name, 8 last name. Of 18 file titles, 14 withheld.

467, last provided in this Section, has no withholdings at all! Eureka! It is Director's response to Memphis' airtel and LHM of 9- 23-68 captioned "Womax Lee Stevenson; John Gary Williams; Ben Heard Berry; Racial Matters, Burfile 157-1428." Well, there is no such airtel or LHM provided and no indication of it among those listed as destroyed. However, this does prove that what was not provided from Memphis files can be replaced from Bureau's. A quick check of what remains of this Section shows no designation of any record to 1428, no listing of the 157-1428 number on any record. Memphis had said it would report future info under BOP caption, meaning end of 1428? as of 9/23/68?. 3rd graf refers to instructions from Bureau in this of 8/23. This Section begins with 8/19 and does not include this Bulet. Refers to Bureau informants in plural in 4th graf., which dispites claim to only one. Earlier indication, including in OPR, of more. Memphis ordered to develop more informants because those in use may be called on to testify. Told to set out which informers in which subgroup of BOP.

This does not appear to be Serial 354 of Section 6, which fits description except that it refers to Memphis' airtel and LHM of 8/13/68. This shows that such Bureau directives are included in the 157-1067 files and is not here.

Section 8, Serials 472-568 but only 80 pp of 28 documents released. 8/19/70 Lowe record of destruction says information in 11/15/68 report. Last date this Section 11/5, first 10/2. Exemptions claimed: b(2) on 477,484,486,498,502, 504,505,506,513(with no other claimed), 517,519,548. b(7)(C), (D) or both with others. (C) Only claimed 547,550,556. All others both C and D.

472 withholds name Lt. MPD Intelligence Unit and that of informant as well as code name. His report to Inspector Tines quoting informant is attached. 13 of 15 file titles withheld. All 15 are 157s, all in this request. Similarly with 173, where report is attached and 13 of 15 file titles are withheld, one 170, all others 157. Also 475, 13 of 17 file titles withheld, all 157 except 1=100,1=170. Also 476, where informer's name is withheld and code-name, 13 of 15 file titles, all 157, all within requests,

b2 477- has MPD report attached, informer and Detective reporting to Tines withheld. 25 of 27 file titles withheld, all 157s except 1-100,2-170.

b2 484- The other of the two 157-1067 files is masked as is the name of the informant, that of an MPD lieutenant and the last sentence, after an account of Rhonda L. Greer's city employment. There is no concern for her "privacy, despite claim to (c).

485, 3 of 5 157 file titles withheld, as is the name of a Commercial-Appeal editorial writer. In prior similar situations the name of the reporter who referred to Calvin Leroy Taylor was not withheld. There seems to be no need with this kind of information.

b2 486- Six spaces for last name or code of informer, 8 for all, in first line. Not likely. Seven again last graf. 4 of 6 file titles withheld.

495, names detective and his informant withheld from MPD report attached to Lawrence's memo, there name MPD lieutenant is withheld. One of the police is named Davis. His name was not removed from earlier records and there is no reason to believe any is unknown, so no reason for withholding. Will here to both C & D. 13 of 15 file titles withheld, 1=170, all other 157s.

b2 498-14 of 17 file titles withheld, 1=100,2=170, rest 157. 8 spaces in each of three maskings of informer. There is no other masking and there certainly is no other interest in any "privacy" with the listing of 9 names of those who attended a meeting at Clayborn Temple with detail on what they said.

b2 502- 15 of 18 file titles withheld as are references to informer as is code name of MPD informer ("Mac" fits space and is known), name of reporter and recommendation. Several

8-space mentions of FBI informer, 1 = 17 spaces. Press-Scimitar reporter whose name is removed also 17 spaces. The name of a possible narcotics source of whom informer provided a picture is not withheld. Note above on withholding of pictures. Others to whom crime is attributed have no privacy claims for withholdings about them. On p. 5 name Lt. J.C. Davis, MPD Intelligence Unit, not withheld.

b2 504-3 of 5 file titles withheld, with 1=170 even the number. Two references to 8-space FBI source, apparently informer.

b2 505- 16-space informer removed with titles of 13 of 16 files. Inference pressuring employe

b2 506- 13 pp 10/17/68 report "Arrests 8/26/68 of CHARLES L. CABBAGE AND CLIFFORD LOUIS TAYLER and 8/27/68 Arrest of Edwina J. HARRELL." 8 of 11 file titles withheld. 1 Selective Service, 1 Internal Security, 1-170, rest 157s. Indications of robberies, including of black church. Under "Pro-Communist Books" are Bernard Fall and Ffanz Fanon. "Page 5 Cabbage had Selective Service case (note withholding after 25-14636 on p. 1). Indications of selective indexing of contents of Cabbage's wallet, amde available by MPD, Same with Taylor.

507, MPD Invaders report said to be attached to all 13 copies filed is not attached. b(7)(C),(D). claimed exemptions. 9 file titles withheld, 1=100, rest 157. Name MPD lieutenant, informer and code name withheld. Hereis seems entire correct name is 5 spaces while code-name is 17.

b2 513- only claim for short 10/22/68 report on Rosetta "iller from which source of 16 spaces and 170-70-Sub title only are withheld.

b2 517- 8 of 10 file titles withheld, 2=170s, rest 157s. 8 spaces for soure twice, but first mention is 14 spaces, indicting different source and other informants.

518, 9 of 12 157 file titles withheld. One not withheld is of SCMWU, no number. Attached report is withheld under either (C) or (D), only claims. Name of MPD Intel. Unit lieutenant withheld. Report from informer of both 3 and 11 spaces.

b2 519- 6 of 9 file titles withheld and name informant of 16 spaces. No Selective Service filing on fact that Don Neely is missing. Could have been picked up on AWOL charge many times from warlier reports. Source of 8 spaces made picture available. ote above. Picture of Reuben Watts.

547, 3 of 4 147 file titles withheld. No other withholdings. Only exemption claimed is (C), yet the four names in the report are not withheld. One of these is included only because he, Oree McKenzie, is a cousin of one of other three.

b2 548- 4 of 8 file titles withheld, one 170-70 Sub, 1=100 same as withheld before, 4528, all rest 157s. 16-space course and clause following name of Helen Washington only other withholdings. It seems unlikely that with her listed at prison farm and other reportings about her this withholding is either for personal reasons or of b2 character. Eddie Tate is again described as "monkey-like."

550 is 10 pp on SCMWA at hospital, with all names/in report attached from MPD lieutenant whose name is withheld. The names of 2 lieutenants, Talley and Stone, not eliminated from attachments.

556 has 3 of 4 157 file titles withheld. One is "NEW."

Section 9, Serials 569-663, 97 pp. of 46 documents provided. Exemptions claimed: b(2) 577, 579, 586, 601, 603, 604, 605, 606, 614, 616, 624, with (C),(D). Only other claims to exemption (C) and (D). Lowe's memo on destruction 8/19/70 says information in 3 reports dated 11/15, 11/23 and 11/27. Dates this Section 11/13 through 9/12/69. Not, not in chron order. Last is 12/2/68 and some go back to 8/68.

b2 577- 10 of 12 file titles withheld. Only one not 157 is 100-4528. Other wirhholding is of supposed-to-be attached MPD repprt on Invaders, name of MPD lieutenant and his informer, by name and code name Each of three refs. to informer 9 spcaes.

578 is 11/15 LHM but not identified as that referred to in destructionn/sheet. Only with- holdings are one source and one Selective Service number. However, the usual page listing all sources is not supplied. Pnly claimed exemption (C), for source? If it holds info from informants? However, 579, which follows, is airtel referring to 579, forwarding 11 copies to Bureau. It cites only 2 sources, both withheld. 7 of 8 Memphis copies are 157s, one is 66-1687 - Sub-A- Dissemination. 4 of 157 titles withheld.

b2 586-17 of 19 file titles withheld. One is 100-4528, one is 170-1024, all others 157s. AWOL Don Neely back in Memphis but no 25 file indicated. Charles Ballard legman for Renfro Hays.

- b2 600 is an 11/23 LHM, as listed in destruction memo, but nothing to identify it as the one referred to. It is of 3~~1~~ pponly, with 2 pp appendix. 601 refers to one of this date, is of this date, and withholds 5 infoemers/sources. 11 Memphis copies of 601, file titles of, 7 withheld. Source 1 is "liaison source." So is 3. First 3 have some descriptions. 4,5 spaces indicate short names only.
- b2 603- only withholdings of 2 sources on p. 3. 604-only withholding of single source, p.2. 603 refers to Memphis airtel of 11/23 and airtel same date. 600,601? No duplicates indicated.
- b2 605- 19 of 21 file titles withheld. Only other withholdings are of FBI's informer and code and real name, presumeably, of MPD informer. The FBI here is interested in SCMWA again, this time over hospital strike. Note 157-1516 is AFSCME.
- b2 605 has masked source who may be on staff at LeMoyne College.
- b2 606-only withholding identifications two sources.
- b2 614- 19 of 21 Memphis files have titles withheld. Name FBI informer, 17 spaces, withled p. 1.MPD agent four spaces (number?) and code name 3 spaces p.2. Only withholdings.
- b2 616- 29 of 37 Memphis fileentitles withheld, mostly 157s. Has copies of 3 MPD Invaders reports attached. Only other withholdings few pertaining to agents, informer sense, and "recommendation."
- 617, only withholdings ~~two~~^{three} sources but only b(7)(D) claimed, not b2
- 623 is 22 numbered pp LHM of 11/27/68, which cpincides with date in Lowe's destruction memo.
- b2 Deletions on 2 pp. only, 9 and 10. 624 is airtel same date. Pp. 9-10 withholds name(s) MPD detective(s) and the name and a little more about one permitted to remain in LeMoyne college bldg. during takeover, hardly secret. 49 Memphis, 3 Bureau with 11 enclosures, 2 Chicago (100-40903) with 2 enclosures indicated, plus copies to intel. agencies. Titles of only 5 Memphis file titles not withheld. Ten listed sources withheld, one liaison, 170-45, one 100-4394-44 and three "who requested identity be protected."

Invaders MFO 157-1067 Section 10, Serials 634-720 93 pp of 29 documents released

Beginning here I will not be copying for Jim pages indicative of non-compliance and/or various kinds of games and diversions relating to deliberate stonewalling and improper withholdings. I'll try to remember to indicate these with a marginal "C".

b2 claims: 654,699 711 717,720, with C for all but not d for 711 and 720/ b7C & D for 666,674,677,678,705,714. D only for 653.

Lowe's destruction memo of 5/17/70, which seems to be written differently and is less clear than earlier ones, refers to reports of 12/4/68 & 3/3/69 as holding contents. 653 is a 14pp LHM, 654 same dated Airtel of 2 pp. This Section does not go to the end of 1968.

The clippings, including from the sports page, provide good examples of the nature and scope of the domestic intelligence operations having nothing to do with the Invaders or any similar groups.

C 653 withholds the names of police officials and nothing else. They claim b7D. 654 lists
b2 3 copies to Bureau with 11 enclosures, 1 to Chicago and 16 Memphis copies of which two are in the caption and 1 is of dissemination. Two others only are not withheld. Of the 8 missing attachments that are indicated as in Lowe's destruction it seems certain that these are in the HQ files and can be provided to correlate with the LHM because the next three serials are news stories bearing the same dates as those in the first three serials following this airtel and the next 8 in the list are indicated as destroyed, with the simple arithmetic of 3+8=11/ The worksheets do not indicate what was destroyed. In fact they do not include the serial records of destruction from which the worksheets were prepared.

C 666 withholds the name of a Memphis policeman and of four file titles. Here the police intelligence report is attached. b7C, D claimed

C 674 like above with 8 of 11 file titles withheld. Note that among all not withheld I have always included that or those captioned. In the attached report the name of the one making the report, possibly an informant of the police, is withheld/

C 677 similar, only 5 of 16 file titles not withheld. I have not been separating but all or almost all as in this case are 157 files. The attached report withholds the name of the police informer whose report was written by Arkin to lines on what appears to be the script typewriter on which Redditt's are written. It is a report on the meeting of the striking hospital workers and deals with union activity.

C 678 same, 6 of 21 files not with title withheld. One is captioned, one AFSCME, SCLC, The Liberator. Informer, name withheld, reports on Clayborn Temple meeting, with names, identifications of by and girl friends, emphasis on preachers, re hospital strike.

C 699 has 2 pp police report attached, withholds 5 of 9 file titles. Report includes such
b2 things as comments ~~about~~ by one who no longer "messes around with white girls."

C 705 withholds titles of 10 of 13 Memphis files, of two the numbers. Police report withheld although it says attached/

C 711 withholds 15 of 21 Memphis file titles. An informer of 8 spaces covered a Memphis
b2 state Student Government sponsored meeting of blacks. On p. 4 McC is noted as among those there. No withholding in report other than above.

C 714, 13 of 18 Memphis file titles withheld, all 157s. Police intelligence report attached.
Meeting at Clayborn Temple. Handwritten note added withhold detective's name. Ditto p. 4. Another PD report attached. To it there are many other attachments that seem to include graded student papers and a number of handwritten student papers on black questions.

C 717 withhold titles of 3 of 6 Memphis files, informer of 8 spaces; Press-Scimitar reporter,
b2 seemingly from spaces possibly Kay Pittman Black with a "Mrs."; 3-space name or code of informer.
b2 720, 3 of 4 titles masked, 8-space fink, on student activities only, possible strike.

Invaders, MFO 157-1067, Section 11, Serials 721-820, 63 pp. of 31 documents released.

Exemptions claimed: b2-723,732,762,765,816,820, each with b(7)(C),(D) or both. b(7)(C) and (D) claimed for each other withholding, both in each instance.

~~Low~~ Lowe's destruction report of 8/19/70 says info in report of 3/3/69/ First date this Section ~~8/19/~~ 12/17/68, last 1/10/69. The FBI sure waited a long time to report!

b2 C 723- 13 of 15 file titles withheld, all except captioned and SCLC. Name informer masked. This also is straight domestic intelligence, noting vulnerabilities, like "VERDELL BROOKS' father works at the Veterans Administration Hospital and his mother teaches school." Both are public employees against whom there can be retaliation and whose fear of it can lead them to seek to influence their son.

A resigned black Memphis policeman was trying to see a story to Jet on how badly blacks are treated in Memphis - through the informant?(p.2) The story would be about cops so Lt. Arkin was told. This man, William Thomas Edmonds, was checked out.

b2 C 732-14 of 18 Memphis file titles withheld, as is name detective, informers. PD memo said to be attached to each copy is not attached. The worksheets do not indicate it is withheld under any exemption.

736 gives the name of a black detective who reported that the Invaders were trying to start a unit at a Jackson, Miss. college. EA William M. Perrigan filed report, for the Memphis 170-20 file although caption BOP.

739- 22 of the 27 file titles withheld. It cover the MPD report from a detective whose name is withheld, covering his informer, name withheld. Informer name 8 units. This report relates to student activities and planned disruptions. This informer was shadowing another, McC, who later drove others to get stinkbombs. Typing of MPD report attached to 740 suggests same officers provided it. 13 of 17 file titles withheld.

743 only 4 of 21 file titles not withheld. Similar-looking report attached, from MPD. Same other kinds of withholding but a little more. Similarly with report attached to 744. All these are straight domestic spying, not law-enforcement efforts, with the FBI sucking up all the police obtained by their violations of the rights of the young blacks. on 744 all but 2 of the 19 file titles are withheld. Attached report close to illegible although typed. Remote generation xerox.

b2 762- 8 of 12 file titles withheld but not those of AFSCME and "The Liberator." Only other masking that of name of informer, again 8 spaces. No consistency in use of b2. Includes political stuff, like Willie Wine working against Hubert Humphrey. P. 2 seems to reflect that this informant is identical with that of the MPD from this accounting of William Thomas Edmonds' effort to place a story about the MPD and blacks in Ebony or Jet. This goes farthur: magazines say story off

b2 765- 8 of 10 file titles and 8-space name informer only withheld. Domestic intelligence only, this time relating to church matters not connected with Invaders in any way, a fight between a black church and the station favored by the FBI, WDIA, whose general manager was earlier described as a good FBI friend.

767 does not have the attached MPD report, masks name of detective and his onformer and ~~10~~ 10 of 15 Memphis file titles. This is true of 768, which does have the report attached, withholds 12 of 15 file titles, all but captioned, BUF and possible violence, which appears to be the excuse for everything. It also means the black churches are in the FBI's view the crux of this potential violence because there is not one record that does not refer to them, their ministers and those at them.

781 withholds the police report, the detective, his informer's name and codename and 14 of the 20 Memphis file titles. Only the captioned, BUF, possible violence, NAACP, Come and Racial Situation Memphis Division not withheld. 18 are 157s, 1 is 170, 1 100, internal security. How the FBI justifies investigation the racial situation, whatever it means by that, in addition to "Possible Racial Violence" is have not seen or heard or conceive within propriety.

784 has usual maskings, MPD report attached with added maskings in it and of 11 MFO file titles obliterates all but captioned and BUF, Black United Front, all 157s. BUF=Invaders. Arkin's informer= 9 spaces. The report is by Arkin, whose fink phoned. The report covers a public meeting. Arkin states copies are in listed files, all obliterated, two-column listing.

Naturally, FBI MFO indexed all the names.

799 is a duplicate by the same agent, Lawrence, of the identical report from the MPD, designated for 11 MFO files and with a sentence inserted in Lawrence's brief report: ".... is PD undercover agent code name...." Code name 12 spaces, rather 11 without " marks. This one of next day, 1/7/69, and instead of "SAC (157-1067)" at top adds "(P)" after it. First goes to 11 MFO files, second to 15, 11 withheld, in both cases all 157s. Virtually total duplication in ~~withheld~~ withheld file titles. Files known to be added in 799 "Racial Situation Memphis Division" and "Possible Racial Violence Major Urban Areas."

801's withholding is of even of name of college in opening sentence, two withheld lines, relating to which the FBI received information of what happened at Board Trustees meeting from "liaison sources." Withholding of name of 4 letters of one who spoke to the board, which would seem to eliminate any claim to C or D. With the intelligence that Lucius Burch was helping Coby Smith by paying his tuition and that Burch was dissatisfied with what Smith was reported to be doing, this is the concluding sentence: "(Masked of 5 letters) said he will send (masked of 7 letters) to see ~~Burch/t/BURCH~~ to further enlighten him on the dastardly acts of SNCC, SMITH, Invaders and SDS."

808, 812 do not have MPD reports said to be attached and withheld. Jolice, informer identifications. of 29 titles in 808 only 9 not withheld, 812 withholds 17 of 23.

812A, which withholds all but 4 of 14 file titles, has attached MPD report. This one says that the detective had received a phoned report from what appears to be McCullough and thus not properly withheld: "...furnished the writer a copy of a report received by Detective ***** from Undercover police officer *** for activities of for December 23, 1968." The five-unit names of several Memphis detectives have been released, those in intelligence, mean. The three spaces of the undercover police officer fit "Max", which is McC's code. Page 1 MPD report withheld. From the form of these reports even if the exemptions claimed are legitimate there is reasonably segregable material.

816, only 3 of 6 file titles withheld, plus name source.

819 withheld 20 of 24 Memphis file titles. It does not include MPD report said attached to all 24 file copies.

820 is 5 pp of information on blacks and black groups with 15 of 20 file titles withheld. It also is straight domestic intelligence, as the first subhead shows: "RE: OPERATION BOYCOTT- WDIA," The station whose white general manager is friendly with the FBI and is a contact or source. The boycott was by a minister, not black youth.

SECTION 12, Serials 821-916, 47 pp of 27 documents only released. Exemptions claimed: b(2) with b(7)(C) only on 849, 858, others all (C) & (D) except 845, (C) only.

Lowe's memo on destruction says info in report of 3/3/69, same as above. Latest date in what remains of this Section is 2/1/69

835 withholds all but 4 of the 31 file titles. It is a short Lawrence report covering a MPD report on which 4 columns at the top as blacked out. I take it the first and third columns are file identifications and the second and fourth their subjects. The name of the police informer fits McCullough in the spaces it takes up as does his code name of three spaces, as in "Max." There is no basis for withholding McCullough. Ask. However, p 2 of the MPD report refers to McC in a manner indicating he was not the source. On the other hand, if it came from one source only, given the few number of people with McC and his movements, given with their times, can indicate it was he. He is named in every paragraph.

836 withhold 15 of 21 file titles, not attached and with the informers name and code both again fitting McC.

839A is to Detroit FO on BOP 1/14/69 BOP meeting at which a black male unknown to MPD was accused of being a police informant and was searched. He is Elijah Parker who had a Detroit police identification. Maybe Parker is the police name. This man used Otis Parnell. Detroit to check it all out.

840 asks LA FO for info on Aaron and Melvin ~~McCarthy~~ McCarary (eight) whose car was observed near 271 Vance, where BOP met.

845, from Jackson, on arrest of Robert "Cornbread" Wilson has masking in sentence that begins with Wilson in custody "for twenty-six days and ^{that} during that period of time he received" followed by obliteration. b(7)(C) only claimed.

b2 849- 3 of 7 titles of files withheld from this report on what informer of 8 spaces told Lawrence on 1/13 re the Black Student Association, first subhead. Second is "DAVID ACEY DATING WHITE GIRLS." As usual, domestic spying into protect private acts and lives.

b2 858- is more on students from informer whose name has 8 spaces to Lawrence. Only his name and 11 of 15 file titles masked.

859 withholds 20 of 26 file titles. 100-3481 is TENN. COUNCIL ON HUMAN RELATIONS. The reason given for withholding the MPD report is (C)(D). "Recommendation" is withheld. The same is true of 860, where the MPD report is withheld along with informer and 17 of 23 file titles.

882 is one of a series of news clippings each given a different serial number. This one is of "INVADE.S MARCH," the caption. It shows 10 clearly, which gets back to the withholding of pictures of them by the FBI in these Sections.

903 withhold 18 of 24 file titles. They kept files on the National Council of Churches on the pretense of "Internal Security," File 100-4949, but the Memphis Welfare Rights Organization is ~~not~~ not a 100 file. It is 157-1639. The first page of the attached report has complete maskinb of what would appear to be a number of file designations.

909 withholds 17 of 21 file titles. What can be file designations eliminated from first page of MPD report.

911 withholds the MPD reports said to have been attached to each of 35 files of which the titles are removed from 30.

912 has 25 file copies of which 22 are withheld. This one has MPD report attached., with extensive maskings that could be of file designations.

SECTION 13, Serials 917-979, 144 pp of 30 documents released. Exemptions claimed:

b(2)- 922,923,930,937,943,944,965, 978E, with (C)(D) and both claimed on others.

Lowe's destruction memo says info in 3/3/69 report. 978D is one of this dat, 54 pp. Only b(7)(C) is claimed for it, but 978E, airtel same date that apparently cover it, is b2,7(D).

b2 922 withholds only 2 of 3 157 file titles, name of detective and police and FBI numbers of Joe Lee Burns. Here they slipped up and forgot to removeez one of the 5-letter police names I noted above, here DAVIS. One of the pictures withheld in earlier Sections is that of Eddie Morris, Jr., aka ~~Tat~~ Tate, for whom why ask privacy when they have been calling him "monket-faced" and disclosing that? This refers to that photo, taken by three-space one, masked. This indicates there are two (if not more) MPD "undercover agents" with a 3-letter representations, referring to two different ones.

b2 923 withholds 6 of 7 file titles and source. Although the last graf says the informant wonders why Don Neely is allowed to be AWOL so long when he can be picked up easily, there is no filing indicated for any Selective Service or similar file.

926 is a short report, 5 lines, by Lawrence with an MPD report. Lawrence indicated 42 copies for Memphis filing. 38 titles are withheld, with the name of the MPD source.

b2 930- 8 of 12 file titles withheld, with name of source. Other names withheld are not reflected as informers. On p. 4 there is another reference to one of the withheld pictures.

b2 937 withhold 14 of 20 file titles indicated and Lawrence's source.

b2 943 withholds 29 of 34 Memphis file titles. It is a 12 pp LHM on INVADERS by Lawrence, opening with reference to " a lengthy legal-size copy o f a statement made by Invader BEN HEARD BERRY, not attached. 941 is lengthy news account of Berry turning state's evidence against Invader co-defendants, with his picture, if his is one withheld. Heard's lawyer was Russell X. Thompson. The first 9 pp seem to be a paraphrase of his statement. Then the statement of Johnny Mae Berry, from Arkin, "being retained in her file." Not provided.

?? b2 944 withholds 17 of 20 file titles. Source of 8 spaces "furnished ~~the~~ to writer a stenographer's notebook which he had found (sic) at the National Council of Churches convention..." "Obviously" Invaders. The 8 pp of LHM repeats the names, addresses, phone numbers, etc., all indexed. Two names NOT marked for indexing on p 3 are Carl L. Armstrong and George Winfrey. However, "Mr. X" is indexed. I believe notebook in one of Subs.

949 withholds 26 of 32 file titles. Does ~~not~~ include the attached MPD report.

950 withholds titles of 30 of 37 files and copy of MPD file sais to be attached.

952 withholds 24 of 28 file titles but has MPD report.

b2

965- withholds 18 of 25 Memphis file titles, identification MPD source whose report is attached. Recommendation masked byt name of woman who spent night with man isn't masked.

977 withholds 10 of 15 Memphis file titles and name of source, Relates to almost decision to kill Detroitter found out to be police agent. Dat he was allowed to remain in Invaders! Perhaps the report was witten because Lawrence says "The writer indicates he was the one who detected this (i.e. Parnell as informer) because the person from Detroit kept talking about places which he had ~~fr~~ frequented in Detroit, that 'SPIDER' had been to Detroit himself and recognized the places as police hangouts."

b2

958 Dis long LHM of 3/3/69 said to hold info from destroyed records. 958E is covering airtel from which only 1 of 8 Memphis file titles is withheld. (3 to Bureau, no other Memphis distribution although there is a copy in a 66 sub, Dissemination. 8 sources withheld.

978F withholds 3 of Memphis file titles, no more.

14 next

Invaders MFO 157-1067 Section 14, Serials 980-1070, 71 pp of 14 documents only released.

Howell S. Lowe's destruction sheet of 8/19/70 says contents included in reports of 5/17, 5/19 and ~~6/6/69~~ 6/6/69.

Exemptions claimed: b(2) on 985,991,995,997, with (7)(C). Others all (C)&(D)

991 withholds 2 of 6 file titles.

b2 985 withholds 3 of 7 file titles.

b2 991 withholds 19 of 25 file titles but not National Council of Churches, 100-4949, Internal Security. Although this LHM is dated 3/5/69 it refers to the 1/24/69 info from source of 7 spaces that Bevel was in Memphis for conferences with Percy Foreman. But this is largely a report on the NCC meetings, although captioned Invaders. The informant supplied pictures, texts of speeches, etc.

b2 995 Withholds 9 of 15 file titles, 3/6/69 LHM with report made by informant 2/13/69. This one is totally without concern for the privacy of those on whom it reports, like women. 996 withholds identification and code name of MPD informer and 20 of 25 file titles, not b2, 7(C)&(D). The MPD report is not provided and the worksheets do not indicate it is withheld.

b2 997, withholds source and 17 of 24 file titles. The Council on Human Relations is an Internal Security matter, a 100 file.

C 999 withholds name of detective his informant and code name and 14 of 17 file titles but not that captioned, BOP, or BUF (Black United Front) or National Council of Churches. The attached 2/26/69 report of Det. M.A. Sample to Inspector Doh H. Smith is captioned BOP. The name Sample is one I've heard before. It raises questions of the need and legitimacy of all these kinds of withholdings and their real purposes.

1000 withholds 16 of 19 file titles, not captioned Invaders or BUF or NAACP, which is "Internal Security," 100-662. Attached MPD report missing. Worksheets indicate of 4 pp.

1002 withholds all but two of file titles where 30 copies made. Not captioned Invaders, not NCC. MPD report is attached. How silly the withholding of titles is is illustrated by the recommendation, "that 157-Dead cases be opened on...JAMES KEYS, SHERRON GOLDYN, aka Goldin, VANCE MOORE, and YVONNE ACEY." There are 4 157-Dead files with the titles withheld. If they are not of these four they are of others and their names are released.

1003 withholds 4 of 44 file titles, does not withhold MPD report.

1010 withholds 19 of 21 titles, does not withhold MPD report or that of reporting officer, Lt. O.B. Holcomb.

1028 withholds 18 of 20 titles, includes MPD report.

1040 withholds 17 of 25 file titles, not MPD report, which has detective's name withheld.

1050, nomasking, from Jackson to MFO on Jesse Epps.

Section 15, Serials 1071-1134, 88 pp. of 24 documents released

8/19/70 destruction memo says info in reports of 5/15, 5/19, 6/6/69

Exemptions claimed: b2 on 1074, 1086, 1101, 1105, 1114, with b(7)(C)&(D), 1130 without any other. All others b(7)D or (C)&(D).

The amount of time required for the notations I've been making is too great. In this section what is true of those preceding appears to be true. I assume it is for those following.

1073-Hoover asked J. Walter Yeagley of ISD about prosecuting Invaders for ideas, "promoting" "promotes the idea of that revolutionary action by black people in the United States is desirable." Note that this refers to the Memphis 3/3/69 memo and "The material furnished the Internal Security Division." We have received no records from ISD. 3/26/69. See 1075.

CC 1074 The MFO even kept a file on the commemoration of the King assassination of 4/4/69, 157-183E

b2 1075 Bureau directed Memphis to report more expeditiously and by reports rather than the LHM's, which it praised. This the day after asking prosecution for ideas. Bureau says it has need to disseminate such info as fast as can. Not good to depend on local police for info. Directions withheld under (D). Page 2 directs "every effort opportunity" to "effect counter-intelligence operations against the Invaders." But not without prior Bureau okay. This is copy. Original is 1079A

b2 1086 goes into Dick Gregory activities and the hospital strike with a long MPD report. File

titles not hidden include 100-4390- Liberal Club (Memphis State University). Gregory to speak to it. When John Smith got a job locally the cops reported it under administrative. But when there was more on Gregory in 1089, no 100-4390 file among 22 that got copies. "100-4861 - California Grape Boycott" was added. McCullough is listed as among those present at Gregory's speech. I presume the report is based on what he reported. There is a transcript of Gregory's speech. (He said the CIA and the FBI killed King because "The CIA is going to overthrow the government anyway." Kennedy and King were killed "to confuse the country.")

- b2 1101 has more on Gregory. This LHM, all FBI, includes reports on political activity in a Congressional campaign, that of O.W. Pickett.
- b2 1105 obliterations in MPD report relate to both this campaign and Gregory if it is structured logically. What is not obliterated in this one is that with regard to the event reported "Marrell McCullough was in charge of the program." A second MPD report lists Mc Cullough as among those present at what appears to be a different meeting. The identification is removed from the previous one by the obliterations. This one is 1105, of which 40 Memphis file copies.
- C 1106 continues with details on the Gregory appearance from Lt. Holcomb, MPD. His speech on this occasion was described as almost verbatim of that of the week before, transcribed in earlier report. More on Pickett's campaign in which McCullough handed out his literature.
- C 1111-obliteration again so extensive identification of meeting reported on by police is entirely removed, taking away sense of what follows and who is speaking. More on Gregory, Pickett's campaigning. Long quotes from Gregory's speech in support of Pickett. Long MPD report, p 9 single-spaced typed pages.

1113 has MPD report attached identifying Baby Jesus as James Orange. It seems clear that for a year McCullough was not exposed.

- b2 1114
- b2 1129 is a form not yet provided from Memphis files attached to an FBI report of what an informant at a Black Panther Party meeting reported.
- b2 1130 is the 4/16/69 LA FO memorandum to SAC Memphis, LA file 157-3392, RUC, Memphis file 157-1057, referring to Memphis Airtel of 1/17/69. It reports on searches for information on Aaron or Melvin McCarary, McClary and other formulations. The only obliterations is of a name in the 3rd graf, "* * * * a source familiar with black militant activity in the Los Angeles area..." If they claimed D or perhaps C it might be reasonable but it cannot be claimed that this name is solely an FBI internal matter.
- C

Invaders WFO 157-1067 Section 16, Serials 1135-1244, 46 pp of 31 documents released.

Exemptions claimed: b2: 1152 (7c); 1059 b2,7D; 1160, b2;1166, b2,7C;1174, b2, 7 C&D; 1198 b2, 7 C&D;1202, b 2 7C&D;1203,b2; 1203A,b2, 7 C&D. None just 7C, all others both C &D. The destruction memo says information in reports of 5/17/69, 5/19/69, 6/6/69. However, the continuing practise of destroying reports and of continuing LHM's appears to counter Bureau directive of 3/27/69 in preceding Section, Serial 1075. This set of copies has three apparently identical copies of the destruction memo made on more than one copier.

b2 C 1152, which reports on the drug-peddling activities of one Gibbs or Joggs, does not include a suitable criminal file for inclusion of the report. There are four obliterations only, two of source, one of what would appear to me the word "prostitute" before the name of a black woman, and two ~~whatzits~~ of the titles of the three listed files, 170-70-SUB and 157 - DEAD. The claim of 7 C & D could be made, for the woman and the source, resp., but neither is. The claim to b2 seems inappropriate and intended for some purpose not immediately apparent, unless it is a mean of circumventing the AG's 5/77 policy statement. By now the FBI knows I will not protest or appeal legit. privacy claims of those to confidentiality of informers. So they avoid what they know I will not appeal and use an inapplicable exemption the use of which I have already protested/appealed.

b2 C 1159 Tickler to assure the filing of "report" 9/3/69 in accord with Bureau directive of 3/27/69, Serial 1075. The report on Invader inactivity that follows makes the Bureau directive ludicrous and obviously of purpose other than indicated, activity.

C Reports filed on some Invader officers, to be provided on others. While there may have been such individual reports I recall none. There have been recommendations for the Security Index and the Agitator Index, but I have no recollection of any.

C Extensive obliteration on p. 2. Could this relate to the disruptive activities ordered and not to here reported? If so not either ~~by xxx~~ b2 or any law enforcement purpose.

C b2 1160 masks only sources under this exemption. Not appropriate.

b2 C 1166 Reports on efforts to find jobs for unemployed black youth. Masks source and ~~aka~~ right name of black whose alias is reported. Does not claim privacy for black unmarried pregnant woman, her name and that of father. In details about people and organizations to refers to "captioned Negro sorority of which KING'S widow Coretta KING is a member," the first page bears no such caption and there is no such title following any of the numbers of any of the 25 files indicated or which only 7 are bot withheld. The indispensable criminal or national security information is that it is holding its convention at the Vermont the weekend of 4/4/5/69. It then goes into the officers and their employment of that of husbands ("teaches at "elrose High School" after president "emphis chapter of this sorority and pub. relations director, teachers. Then there is a separate heading on Pickett's Congressional campaign. The FBI furnished this info to Arkin and Det.

C Jerry C. Davis, intel. bureau. Not ~~appropriate~~ law enforcement purposes and certainly not b2.

b2 C 1174-1174 1174 cover 7 pp MPD report, attached. 49 or 56 file titles only are not withheld. These include SCLC, the Interreligious Foundation on Community Organization (157 - no other number), the NDC, which I think is political, and the California Grape "boycott, 100-4861. p2 masks name of spaced of Davis, who has been named repeatedly and whose initials, JCD, appear on police report.

The attached police report covers information from an informant for the 4/18-21 period, 1969. It includes conversation between "Whithers" and Bine on McCullough as a policeman. Wine said they had known it for months (bottom report p. 2.)

b2 1198 is a long report based on an MPD report of an out-of-Memphis meeting. Withheld are names of detective and his source, ~~xxxxxx~~ 12 of 14 Memphis files. Copies sent to NY, Atlanta, WFO and Jackson, 2 each marked RM, racial matters. There are "Leads" set out for each of these field offices except Washington. I infer from this that the report was sent to the WFO because in political and similar matters it is a Hq auxiliary or by-pass.

b2 1202 This had been stamped as excluded or to be excluded from automatic downgrading. It would not appear to qualify for such exemption. In this and in 1202A they appear to be seeking to establish interconnections between black groups that would enable Hoover to proclaim the

coming of a black revolution, charge something of the sort in court, etc. 1203 has its first page stamped with the same exemption stamp, also lined through. 1203A is the covering Airtel. If there was any need to withhold it was to hide what the FBI was trying to do, what on the face seems to be dubious at best and is the kind of thing that needs airing. There is no national security involved in these records. 1232 is a long report of 5/29/69 of what was learned from a new informant in black circles. There is extensive withholding on the second page. I find myself wondering if what is withheld represents the lever the FBI might have used to develop this informant. ~~xxxx~~ The information is extensive and not in most cases related to any possible law purpose or proper FBI interest.

Section 17 Serials 1245-1365, 75 pp of 23 documents released.

Lowe's destruction memo of 8/19/70 states information destroyed included in ~~reports~~ LHM dated 6/6/69 and 7/28/69.

Exemptions claimed: b2 on 1249, 1267, with C; 1335 with C & D; 1348, alone. Others claimed are both D and C except for 1280, which is D only.

1245 is a copy of a carbon rather than of an original of Yeagley's 6/2/69 reply to Bureau's 3/26/69 inquiry about prosecuting Invaders under 18 USC 2383, 2384, 2385 "or any other federal law." Answer "We have this matter under consideration." Copy sent to Memphis.

b2 1248 is one of the LHMs said to hold content of destroyed reports. 1249 covering airtel.

1304* perhaps Lawrence's informer ~~named~~ Bell, a name not masked after masking of source. Bell worked in a black arts shop. Memo includes information under headings of Union, SCLC Poor People's Campaign, individuals.

Section 18 Serials 1356-1450, 47 pp of 15 documents.

Bowe's 8/19/70 destruction memo says information in report of 7/28/69. Exemptions claimed as in prior Sections.

1432 McCullough, now patrolman, has code name (Max) withheld along with one other line, probably a recommendation, on the claims of 7 C & D

Section 19 Serials 1451-1535, 55 pp of 21 docs released. Destruct. memo in 8/26 lhm and 9/10/69 report.

C 1490 refers to Inspector Sullivan's write-up contains Invaders information. Date this Director to SAC Memphis airtel 8/20/69. Tells Memphis to get on the stick and tell them more about Invaders - urgent - even if they know Invaders office is closed. Bureau wants more so ISD can prosecute, an LHM immediately (B. Johnson will write, hand note says). Provided in 1502A & B.

Section 20, Serials 1535-1597, 61 pp of 15 docs released, same exemption claims. Lowe's destruction memo says info in report of 9/10/69.

1548 is the report demanded in 1490, dated 9/10/69

C Section 21, Serials 1598-1686, 18 pp of 13 docs., same exemptions claimed. Destruct memo says info in 12/30/69 report. Note that with regard to Harting verbal claim re oversized and multiple Volumes in MFO MUR IN file this Section is of 18 pp. only, small. Next Section of 32 pp. Section 21 all but a single page of the first 47 Serials, 4 are news clips, not destroyed, all others, totally undescribed, except for a single page, destroyed. Of the next totally undescribed serials listed, only 3 pp not destroyed. These total 5 pp., of which a news article is of 2 pp. Of the remaining 28 Serials, 2 are news articles, not destroyed, leaving only 5 pp of records not destroyed this part. In the entire Section only 9 pages of FBI records remain undestroyed. Insofar as I can determine the destructions is of MFO files but not of those provided to MFO by Bureau, other FOs.

Section 22, Serials 1687-1784, 31 pp. of 8 documents released. This means that of 97 documents only 8 remain undestroyed. Same exemptions claimed.

1699 is fol owup of 12/30/69 after 1202A, etc. It gives sources no longer by hidden name but by T identifications. Unless they use the police in this they use more than one FBI informer, their claim.

Section 23, Serials 1795-1876, 48 pp of 21 docs released. Same exemptions claimed. Destruct. memo says information in 6/10/70 report.

1795A is 3/10/70 Yeagley to Director, no pros cution Invaders, no case. Nonetheless, 20 days later MFO's Burl F. Johnson comes up with a fill formal Invaders report for period to 3.24, In 1864, 5/27/70 MFO lists Invaders as "active" organization when all its reports say opposite. in 1870 ref. to Willie Bell- consider as possible informant with 1304?

Section 24 Serials 1877-1945, 194 pp of 56 documents. More documents escapes destruction, more claims to exemptions than in earlier serials but to same exemptions. Destruction record, on new printed form here used first time, says info in LHM of 11/9/70. Date 11/12/70. 1879- McC running his own informers? Also 1881. The reports, by the untis in the names reported on, provides a means of identifying informants if desired for future studies. 1882, LeAndrew Henderson Cheese, reported on St. Louis Panther Meeting, 1879-was he fink? 1984 may make FBI informer in Nation of Islam identifiable. Others follow, alike these. If Bell not informer he can identy one who was, from this Section, esp 1936 and others near it.

Section 25, Serials 1946-²⁰⁵⁶~~2095~~, 298pp of 95 docs. Destruct memo 11/12/70 by Burl Johnson. Same exemptions claimed. This also means no new ones, here and above.

1955 shows that police had access to all records of MEM, MFO 157-2136, and gave to FBI. P. 2 of attached MPD report indicates its informer prepared these statements. For the past several sections there have been repeated references to a police undercover officers not only informers.

1963 is a long LHM on Brenda Joyce Major, 7/ 20/70. I recall no prior mentions consistent with the long list of citations to prior records from 2/12/69 to 8/22/69, total of 11 plus what follows, attributed to confidential sources in last part 1969. Indication of other and withheld Invaders records? (MEM= Memphis mobilizers?)

1990ff reports from an official source other than MPD, source with inside informer(s). Seems like introductory or opening or first pages not provided.

2037 is 28 pp. from SISC hearing without any explanation of why present, covering letter of memo, etc.

SA Cyril F. Busch files series of forms stating no prospect, indications of racial violence. He appears to be on political squad. He also was questioning sources about Capitol Bombing. None knew anything.

2054 , 5/22/72 Invaders still listed as "Active."

2055, last, is ~~xxxxxxx~~ about Les Payne's February story, 1976. ~~Undoubtedly related to the developments in the 75-1996 court~~

2028, 18 pp ME report, probably referred to in destruct memo. This destruction 11/13(?)70, at most 4 days ~~after~~ before destructions. Seems odd and related to earlier destructions, which also seem odd and possible related to Ray case developments.

This appears to be the end of the Invaders Sections, if there is no way of knowing whether it is the end of the two spinter groups into which it separated. There is a four year void to the papers re Les Payne's story, 1/31/76. There is nothing in this file to indicate that the inquiry Kelley wrote Les he had made was either ordered or made. Maybe the MFO could read the Bureau's mind when it sent a facsimile but it does not order an investigation. I'll be going over those pages separately. The question here is of compliance - missing records or Kelley lied.

After going over all these records, merely skimming those toward the end, it is apparent to me that the only questions of privacy are reserved for the FBI, the police and their informers. Even though I said I did not want the sex stuff unless it related to an informer and then only if as part of informer's role, it abounds in these pages, without names being withheld. Women are called whore and dope-addicts, white and black alike, if mostly this is about blacks. Men are called dope pushers, illegitimacies are unhidden, etc.
