

FBI-King Section 41, Serial 3557, LA report 5/17/68 178 pp released.

Begins with series of Stein 302s

X Concern for privacy is a variable. Jeri, who is an identified person with a kid or kids, is identified as a "street hustler" on 48.

X³³
X⁵⁵ What is odd is that the FBI, with all that skill and staff and money, regularly reports it was behind Lomax and Stein, who had agreed to help Lomax. There is no privacy concern for Meoldy ~~O'Brien~~ O'Brien, listed as having a male roommate.

X⁵⁸
X⁶³ No privacy for Patricia Schubert Anderson whose name was not on the Swinger's list on her initiative, it would seem. (She gave the P.O. the 2/17 Galt letter.)

X p. 128ff "psychological treatment". Dr. Mark Freeman. Most of his clients are referred by one who sells books on self-hypnosis. *not whole story - Cushman & Frank*

The FBI seems anxious to say nothing about the one Ray told others he was going to N.O. to see ^{see}, one in the Industrial Canal area, near Chef Menteur Highway and Jackson Barracks. It appears here again on p.32.
