3918-9 FBI knew Ray could beat both MoPen and King raps. Bureau warned all shut up about this.

In this range of serials there are a number relating to Judge Casey's ruling in St. Louis and related matters in which there is extensive masking, attributed to 5 and 7. The 5 seems improbable and it is more likely embarrassment is the real reason. Inc 3932

X 3928 is an Atlanta serial withheld and referred to USPO (post office?)

Several sections deal with statements^{ent} attributed to Edgar Eugene Bradley, made into separate file. Not relevant here if anywhere.

This section is still another proof that the FBI was getting nowhere.
