Civil Action No. 75-897

PRODUCTION OF DOCUMENTS FOR IN CAMERA INSPECTION

Pursuant to the order of this court of 22 December 1978 for the production of documents for in camera inspection.

(A) True copies of the documents listed in plaintiff's Schedules A and B of Plaintiff's Motion to Compel In Camera Inspection are filed herewith, along with a secure storage device for the court's convenience for the period necessary to complete the inspection. Schedule A lists documents withheld in their entirety by defendant pursuant to exemptions under the Freedom of Information Act (FOIA), and Schedule B lists documents from which segregable portions were deleted pursuant to exemptions under the FOIA prior to the release of the documents to the plaintiff.

(B) Each copy of a document is covered by a separate sheet on which the defendant's comment, as it appears on the Document Disposition Index, is reproduced; an amended comment also appears in instances in which a change in disposition of the document has resulted from coordination with another U.S. agency.

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that service of the foregoing defendant's production of documents for in camera inspection has been made upon plaintiff by mailing a copy thereof to plaintiff, pro se, 2101 L Street, N.W., Suite 203, Washington, D.C., 20037, on this 31st day of January, 1978.

MICHAEL J. RYAN
Assistant United States Attorney
U.S. Courthouse
Room 3421
Washington, D.C. 20001
(202) 426-7375

(C) The true copies of the individual documents, as found in defendant's records, show portions bracketed in red and in blue. Red brackets enclose portions withheld under FOIA exemptions including national security classification. Blue brackets enclose portions withheld under FOIA exemptions which do not include classification.

(D) The Schedule B documents have copies of the versions released to the plaintiff attached to each document for purposes of comparison.

(E) The determinations of the other government agencies concerning information or documents originated by those agencies, as received, are shown in the amended comments. All such determinations received to date have been conveyed telephonically; consequently, there are as yet no documents confirming such determinations. The documentary record of such determinations will be filed as received.

(F) Copies of the comment sheets and any revised versions of releasable documents will be delivered to plaintiff with this filing.

(G) During the process of coordination with the FBI on several documents, it became clear that certain determinations by the defendant require amendment. The identities of special agents of the FBI and other law enforcement officials have been deleted from released documents under FOIA exemption (b)(7)(F). To be consistent with current FBI practices, the justification for such deletions should be changed to show (b)(7)(C).

Disposition - This document contains information received from the Bureau of Narcotics and Dangerous Drugs (BNDD). The information is being referred to the Drug Enforcement Administration under Justice, which replaced BNDD, for direct response to requesters.

93-571

AMENDED COMMENT

This document was denied. The text of the document is concerned primarily with information received by a representative of the U.S. Bureau of Narcotics and Dangerous Drugs (BNDD) from a confidential informant in a foreign security service under an agreement of confidentiality. The Drug Enforcement Agency (DEA), the successor of BNDD, has requested that all of the information contained in the cable from BNDD be withheld to protect a confidential informant under the authority of exemption (b) (7) (D). The remaining portions of the cable which reflect CIA information, including information confirming the existence of an Agency station in a specific city abroad, Agency internal filing instructions, Agency components, cryptonyms and the identity of Agency staff employees are also withheld under the authority of exemptions (b) (1), (b) (2) and (b) (3).

120 - 585

26 November 1963

2

Disposition - This document was denied. The substance of the document is exclusively information received from the FBI which has been referred to the FBI and will be handled direct by the FBI.

120 - 585

AMENDED COMMENT

This document was denied. The document is principally concerned with repeating information received from the FBI which in turn received the information from a foreign liaison security service under an agreement of confidentiality. Because of the potential damage to liaison, as well as foreign diplomatic relations should this information be released, the FBI has requested that all of the information be withheld under the authority of exemption (b)(1). Other portions of the document which contain information primarily of interest to CIA are also withheld including comments on the substance of the FBI information which if released would lead to the disclosure of the information the FBI seeks to protect, information concerning the existence of an Agency station in a specific city abroad, Agency internal filing instructions, Agency components, Agency staff employees and Agency cryptonyms. The document is therefore withheld under the authority of exemptions (b)(1), (b)(2) and (b)(3).

27 November 1963

2

Disposition - This document was denied. The document discusses arrangements being made by the FBI in connection with support for a local ambassador. Since the information is concerned primarily with FBI activities and is contained in discussions in FBI documents, the FBI will respond concerning the release of the substance. This particular document has other information requiring continued protection including information confirming the existence of an Agency station in a specific city abroad, information identifying Agency staff employees and Agency components, operational cryptonyms and Agency internal filing instructions. The document was therefore denied under the authority of exemptions (b)(1), (b)(2) and (b)(3)

169 - 612 - A

AMENDED COMMENT

This document was released with portions deleted. The deleted portions contain information confirming the existence of an Agency station in a specific city abroad, Agency staff employees and components, cryptonyms and Agency filing instructions. The deletions were made under the authority of exemptions (b)(1), (b)(2) and (b)(3). The information concerning FBI materials is now released with the consent and approval of the FBI.

Disposition - This document was denied. The document discusses a possible temporary assignment of an additional FBI officer on a specific assignment. This matter basically is one for the FBI to deal with and it is in fact among the documents being reviewed by the FBI. This particular document also contains operational cryptonyms and pseudonyms, information identifying Agency components, as well as identifying an Agency station abroad and several Agency staff employees. The document also contains Agency internal filing instructions. In addition to the fact that the matter discussed is basically an FBI matter, this document would have to be denied also in terms of those entries concerned with purely Agency matters under the authority of exemptions (b)(1), (b)(2) and (b)(3).

AMENDED COMMENT

As noted in the original comment, this document was referred to the Department of State and Department of Army to deal with information originating with each of these agencies. The Department of Army has respectfully authorized release of information originating with the Department of Army. A newly sanitized version of the document is attached. The deletions made on behalf of the Agency remain as stated. Any change in the document with regards to Department of State information will be registered as received. No response has been received from the Department of State as of 30 January 1978.

SUBJECT : WILSON, Carlos John
(aka WILSON-HUDSON, John
WILSON, John Hudson)
DOB: 29 December 1916
POB: Liverpool, England

Reference: OUT 85657, 28 November 1963

1. A usually reliable source, whose information was evaluated as "possibly true", reported on 8 August 1961 the following information concerning one Carl John WILSON Hudson.

a. WILSON, a Spanish citizen of British descent residing in Chile, was in contact of one Bert SUCHAROV, a suspected Soviet agent, in Santiago, Chile.

b. It had been ascertained that WILSON had arrived in Chile on 28 January 1939 from Buenos Aires, bearing Spanish passport No. 7, issued in Buenos Aires on 4 January 1939 and visaed (tourist) by the Chilean Consul in that city on 25 January 1939. He held Chilean carnet L.824.535 (Santiago) and resided at Calle Arturo Medina 4207, Santiago.

c. Further background data revealed that WILSON was born in Liverpool, England, on 29 December 1916. In July 1936 he had left his studies at Oxford University in England to enlist as a volunteer in the Spanish Loyalist Forces, whereupon he acquired his Spanish citizenship.

d. Subsequent to his arrival in Chile, WILSON in his capacity as a journalist had opened a one-man crusade against the British Government, in violation of restrictions placed on such activities by foreigners in Chile. He had been, in addition, masquerading under various nonexistent titles as a result of which the Chilean Government on 16 May 1939, at the request of the British

Copy 8/11

Embassy, issued a decree (No. 2344) ordering his expulsion from Chile. Later, however, the decree was rescinded as a result of WILSON's pleas, his state of health and his promise to discontinue his misrepresentation and other illegal activities.

e. In spite of his promises, WILSON had continued these activities, numbering among others an anti-Fascist campaign which he had associated with a "Universal Peace Movement" to be brought about by the elimination of all leading world powers. WILSON also had frequently posed as a British RAF captain and had worn the corresponding uniform.

f. The strange mannerisms exhibited by WILSON were attributed to a mental illness, and following WILSON's second outburst, the British Ambassador presented another request for his expulsion. Again, however, following various explanations by WILSON to the British Embassy and on the renewal of his promise to refrain from further activities of a similar nature, the case was dropped.

2. On 7 October 1952, a usually reliable source, whose information was evaluated as "possibly true," submitted the following report concerning one Carlos John WILSON, who is identifiable with the Carl John WILSON Hudson in paragraph 1 above.

a. WILSON stated that he had arrived in Santiago in 1947 and had worked on a special mission for the British Government in Germany, Egypt, and Turkey at the close of World War II. He stated that he had fought with the Spanish Republican forces against Franco. He was violently anti-United States and constantly condemned United States policy. WILSON was of the opinion that England and France would eventually join with the USSR to form a pact aimed at the complete destruction of the United States. He claimed to be an authority on the Balkans, and was a strong supporter of Tito. Tito, WILSON stated, would eventually line up the entire Balkan area with England and France to assist Russia in crushing the United States.

b. WILSON was extremely interested in the

Yugoslav colony in Santiago. He attended a large celebration given by the Serbian Orthodox Society at the Club Ruso in Santiago. On this occasion he had become intoxicated and made bitter remarks against the U.S. While he was intoxicated he made confidential remarks indicating that he was a member of an intelligence service.

c. WILSON had an office on Calle Agustinas 1111, which bore the following designation: "CINCEE, Commercial Information." WILSON's business consisted of trade in copper, lead, and sulphur. He stated that he was involved in a secret "deal" in Antofagasta, Chile, in which he planned to ship 15,000 tons of sulphur to Holland.

d. WILSON was in contact with a man identified as Heriberto Springwaller EINICKE, also described as bitterly anti-U.S. EINICKE was believed to have studied in the U.S. between 1922 and 1930. He had later become a colonel in the Nicaraguan Army but had been expelled from the country. It was reported that he spent some time in Bolivia and was closely involved with WILSON in his so-called commercial dealings.

e. WILSON was described as being very intelligent, astute, and well informed on current events. He was extremely sociable, friendly, a very heavy drinker, and a free spender. His physical description was as follows:

Apparent age: 38 years old (born circa 1914)
 Build: Medium
 color of hair: Brown
 color of eyes: Blue-green
 face: long, large nose; small, slightly protruding ears; ruddy complexion; small mustache; wears glasses
 documentation: UN Press Pass No. 287, issued in Santiago. Pass from the International Police Section of the Chilean Investigation Service authorizing him to enter Los Cerrillos airport in Santiago at any time.

SOURCE COMMENT: Source was of the opinion that WILSON was very probably an intelligence agent, since there was no apparent reason for his great interest in the Yugoslav colony

in Santiago and since his large income was of questionable origin.

3. A usually reliable source reported 13 June 1959 that Carl John WILSON, British journalist, sent a cable to the British Parliament and to the British Trade Union Federation saying that he had confirmed that the U.S. Military Attaches in the Caribbean were giving military advice to dictators. He protested in the name of humanity, saying that patriots were fighting for their sacred rights to be free citizens and that American volunteers were helping the dictators with the approval of Washington. Source commented that WILSON was planning on accompanying Mario CALERO, Nicaraguan revolutionary who was readying an expedition against Nicaragua from Cuba.

4. Another report dated 26 June 1959 from a usually reliable source stated that Paul HUGHES, an American soldier of fortune, claimed to have at his disposal three aircraft, including one bomber, and planned to launch an attack on Puerto Cabezas, Nicaragua, during the weekend of 27-28 June 1959. Hughes said that Carl WILSON, a British journalist, and about 55 volunteers would join him in the attack. Source commented that HUGHES also vaguely spoke of possibly bombing Managua for the psychological effect. WILSON said that Castro had no knowledge of HUGHES' plans.

5. United Press International carried the story dated 1 July 1959 from Havana, Cuba, saying that Police had raided a private home in suburban Biltmore the day before and seized a large quantity of arms and arrested three Americans and a Briton. The Americans were identified as Paul HUGHES, an officer in Castro's rebel army; Eiren B. RICHARD, of Miami, Florida; and Joseph BARDOZ, of Los Angeles, California. The Briton was listed as Carl John WILSON.

6. The U.S. Army Attache in Havana, Cuba, reported 30 July 1959 that he had received the following note from Carl John WILSON:

"Salvador ALLENDE, (Communist-sponsored presidential candidate in 1958 and Socialist Party member) brought a letter of definite instructions to Raul Castro (from Chile.) This letter contains instructions from the Kremlin in Moscow and contains the signature of Pablo Neruda of Chile. It deals with definite instructions of anti-American agitation to commence next month in Chile, Peru, Bolivia, Cuba, Costa Rica, etc. Raul

Castro is now under instructions of Salvador ALLENDS of Chile."

Source, Carl John WILSON, was described as a British subject and free lance newspaperman, who was arrested with Paul HUGHES and who had been in jail ever since. WILSON reportedly wanted to talk to someone. U.S. Army Attache showed the note to the British Charge who agreed to send the Consul to talk to WILSON and advise U.S. Army Attache if WILSON had anything to add to the contents of the note. Nothing further was received.

7. Associated Press datelined 6 July 1959, Havana, carried story about WILSON who said he had begun a seven day hunger strike to protest his arrest and had to be fed intravenously at Cuba's National Police Hospital. Although police denied WILSON was on a hunger strike, a hospital intern said that he was suffering from physical exhaustion brought on by his refusal to eat. According to a 16 July 1959 Havana press report, WILSON's wife, a Chilean named Eliana Brownman, said WILSON had received a law degree from Oxford University and had fought in the International Brigade during the Spanish Civil War.

AMENDED COMMENT

This document was released with portions deleted. The deleted portions contain information confirming the existence of an Agency station in a specific city abroad, information identifying an Agency staff employee and FBI special agents, Agency internal filing instructions and information which if released would tend to confirm the existence of an Agency intelligence operation (in this instance one conducted jointly with a foreign liaison service). The deletions were made under the authority of exemptions (b)(1), (b)(2), (b)(3) and (b)(7)(F). The FBI special agent's name was deleted at the behest and request of the FBI.

23 February 1967

Disposition - This document was denied. The document is a brief memo conveying some information to an embassy abroad. That information was in turn disseminated via State Department channels to the State Department in Washington, DC and is available through those channels. This document will not be released since it would confirm the existence of an Agency station in a specific city abroad without adding anything to the record of substantive value. This particular document also contains information identifying an Agency staff employee and Agency internal filing instructions, as well as information identifying a number of Agency components. The document was therefore denied under the authority of exemptions (b)(1), (b)(2) and (b)(3).

1032 - 957

AMENDED COMMENT

This document was released with portions deleted. The earlier comment mistakenly identified information in the text of the document as originated with the State Department. That identification was in error. The document reflects the transmittal from the CIA to the FBI. Information deleted includes that identifying staff employees, a FBI special agent, Agency internal filing instructions and information confirming the existence of an Agency station in a specific city abroad. The deletions were made under the authority of exemptions (b)(1), (b)(2), (b)(3) and (b)(7)(F).
