Monorable Ramsey Clark The Attorney Concrel Department of Justice Mahington, D. C.

Doar Mr. Glarks

While provious correspondence with you has been less than requiring and, when answered at all, has been answered non-responsively, the is this difference between my writing you and my writing J. Begar Recvert He never answers anything, responsively or otherwise, having refused to send no even a press release he himself issued falsely abtacking me.

Bosause you are the Atterney Concret and because the mitters of which I write are the responsibilities of the Democratic administration as about to leave office, I again address you about the improper within dent Lennedy. One of the things I would like you to beer in mind is your own executive order of October 31, 1966. In it, you directed that "the entire body of evidence considered by" the Unren Soundaries "be preserved intact". This means that everything considered by the Countains and the Intional Archives. ing that amounts to suppression of the evidence in the mur-

Among those things not in the Matienal Archives are records under your personal control. This includes such items of evidence considered by the Commission - in fact, basic to its consincions - as the spectrographic analysis of the bullet and various fragments of bullet(s) said to have been used in the assassination. When, after promigation of your order, I asked for this evidence at the National Archives, I was told it was not there. In my presence the Pederal Bureau of Investigation was phoned and told the Archives it was, eiting a file. I seen proved this file was not of and did not include the spectrographic analysis. The FBI has since failed to supply it. Mr. Moover just refused to answer my letter on it. This most basis evidence is not covered by any of the guidelines, cannot properly be considered to be covered by the subsequently enacted "Prooden of Information Act", I believe I am emtitled to it, and I ask you for it.

I ask you to recall that the PBI was the Commission's major investigative AND YOU WE POSSIL THAT THE PRI HAS THE COMMISSION'S MAJOR INVESTIGATIVE AND AND THE SUPPLIES OF ITS technical and certain analytical services. What it "considered" in this work it "densidered" for the Commission. Yet, in supplying that was identified as Commission Document 1465, it failed to supply certain of the essential evidence. On the page numbered it of this file, the concluding sentence reads, "The Identification Division this file, the concluding sentence reads, "The Identification Division that the two latent fingerprints developed are not identifical with the fingerprints of LEE MATVEY SCHALD". The Estimal Archives informs we then have no reasent of whose fingerprints these ware. informs no they have no record of whose fingerprints those were. Astounding as it is to a non-expert that a piece of paper preserved fingerprints for so long a period of time, it is no loss astounding to no that y the FBI allegedly was looking so diligently for any devald accomplise, and it did have evidence of such an accomplice, it did not give the Con mission the name or names of these whose fingerprints were found on the literature Oswald distributed in New Orleans. This information, which

should have been available to the Commission, should have been an important part of its deliberations, also should now be in the Matienal Archives. It seems to be immune to proper withholding. I ask you for a copy.

On a number of escasions, FBI agents, acting as the Commission's investigators and for it, showed numerous witnesses various photographs. Some of these are not in the Matienal Archives, and usually it is impossible to relate the pictures with the investigative reports, so it is not possible to know which pictures were shown which witnesses. I ask that you have this defect remedied, that a complete file of pictures, each identified with the proper investigative reports, be sent to the National Archives and there made available in the usual manner.

I also ask that this include each and every one of the photographs obtained by the FBI and not given the Commission, not put in the Commission's files, not reported to the Commission and in the full, unedited form similarly be added to the "intact" evidence in the National Archives. In this connection, I want to single out but three of the very large number of still and motion-picture photographs fitting this description and of which I desire copies. One is the first of two Polaroid pictures taken by Mrs. Mary Moorman, of Dallas, Takas. A second is the motion-picture taken by the minor son of J. Pat Doyle, of Portland, Oregon. Another motion picture is that taken by John Martin, of Minneapolis, Minnesota. The latter two are 8mm. movies. My own evidence convinces me each was edited. Weither was given the Warren Commission, whose files do not even reveal the existence of that taken by Mr. Martin. Both show, or in the form given to the FBI showed, Oswald's literature distribution in New Olleans leading to his arrest on August 9, 1963. This was the subject of an extensive FBI investigation. I ask that what is deposited in the National Archives include everything removed by the FBI before the film was returned to the owners, in the form of copies, if that does not exist in the originals, which were retained by the FBI.

I further ask that you cause to be deposited in the National Archives those pertinent reports of interviews with witnesses that were withheld from the Commission and/or are not in its files. I have the statements of witnesses so interviewed, where there is no report in the National Archives and where there is necrecord in the files of the Commission of the existence of the reports.

I am aware that the Attorney General, like any busy executive, can become the creature of those upon whom he depends for complete and dependable information. I believe I know what has not been communicated to you. Should you, while you are still Attorney General, want to rectify what I am confident history will record as a record with which you may not be content, I am willing to offer you any help I can. Should this information be made available by your successor or the coming administration, it will be a considerable reflection upon you personally, the administration of which you are part, and the Democratic Party.

There remains unanswered correspondence between us. I would appresiate responsive reply as soon as possible.

Sincerely,
