

Jim- Dugan is not only a dirty bastard he is deliberate about it.
We must make some effort to bring this dirtiness to an end or we'll be forever
watching our wheels spin.

This letter binds you to nothing but puts you in a position to make a stronger
Kaugha argument, I think, Thursday. It also eliminates the chance of Dugan's pulling
any more of that "Look here, Lomar," stuff not in the transcript. I do have the
records, I will have them with me, and we do have to move the judge off of dead
center and the concept of not questioning his or DJ's intentions.

I have also put aside to take some pages of the Church hearings, including Hoover's
response to the White House on critics who had written books by 11/66. Can anyone
take this not to include me? Or, we have a little package dealing with intent to
go with what I think by now is a good record on fact. EN 6/6/76
