Inclosed to a carten of my this menting's certified letter to George Rush and  $q_{ano}$  thisse ever the ensured plan to declay all those files subject to investigation ever the part 18 mention.

of the questions investigately before us I believe this is the next important and not only because they plan to destay that I've filed for.

I think this is relevent to C.A.75-1448 at least and after that Julge Rebinson said in court two weeks ago practically contemptatus of him.

By suggestion in that we neck injunctive writer from him, immitately, because of the relevance in that surrent action. We have this case before him new and if he is so disposed he can give us an immediate hearing.

All that was immediated in the past 16 months includes all that is at issue in 1405 plus, of course, more. Where will be we be if they decisely my recede relevant in 1400.

Would so also just went to file an imjection with the elect on a new cons?

This securing's Jest indicates they are doing this over expressed Congressional chiestics, About's subsecutives's.

I think it is important enough to let the immediate go in 1996 and emplain it to form with capture of what I have unition and you file and the added explainthems contained in my letters to legal and Mosson. I think there is a kind of relevance in 1996, where there is now a close recert of clear withholding and a limits notice punding.

This is one on which I believe others the here interest might be willing to be of some help.

I think that if you agree to file immediately I'd talk to larry Mlaworth as soon thereafter as possible.

 $^{4}$ y requests cover everything on the JFK associantion of any and every source and nature and the case on me.

Accesse of the interchanges between the agencies - like the GLA told so it had agent Secret Secrete for an along to give so that it get from Secret Secrete and after Secret Secrete desping it had saything on so - we can include all the apparential, admittency. (The day has also day destroyed some. I have it in writing. I think you have copies.) Afterward I think I can get some intercest from Mak because he has a case that will be induced by our deing it.

I'm actyunded that nobuly also has done this. It was known earlier. Matheman mentioned in an IV Sunday. Acide from our our interests, this is one on which it would be better to be figure for many recover one of which is I doubt that suyone also has an good gol as clear an IVEA/24 record.

Bootily.
