

Dear Jim, undated 1996 notes-inc. Criminal 7/7/76 followed by something new, bottom

Cleaning up a bit I found these not new, undated notes probably dating to the time we received those few papers from Criminal.

Canale to Shapiro 11/1/68 - this is the only letter of this sprt we have. But Mrs. Texeira lopes is hardly the only witness. (minitrial, list witnesses,etc.)

Transcript p. 13 - DJ has been dealing with these files back to 1970 and beginning again toward the end or in the last half of 1975 -- four times according to Crewdson.

If the second note is accurate it means that the OPR's whitewash is the fifth coat,

The Press-Scimitar story of the 30th I'll be lending you reports that the Shaeen gang, then him plus 2, were going to examine Bubba's files.

This means that when they finish they'll know about every lab report not given us from the various specimens of which I think we do have more or less of a list.

Isn't there a list of evidence?

Bubba had about 9 cartons but not a single lab report.

Today's mail early- with two Jerry tapes I'll start to listen to until my guests come.

Best,
